

References, Forms, Manuals, etc.

This booklet is simply a compilation of indexes and other lists of references and resource materials. It has been assembled to be used as a research tool by NALC Stewards. Although it contains over 6,000 entries, the list is certainly not all-inclusive. Some of the references are new, while some are older. Some references are not included that should be. Considerable time has been spent by many people trying to identify errors or inaccuracies. I have not personally certified every entry. As such, I'm sure that some references are listed that are obsolete, or inaccurate (hopefully only due to typographical error).

Obviously the more accurate this is, the more valuable it will be to our members. To that end, I ask your assistance. As we each use this booklet, we will undoubtedly find references that are missing, or need to be eliminated or corrected. I intend to maintain this list as a computer file available to any NALC Branch upon request. To make it the most accurate possible I need your help.

As you identify errors or omissions, please contact me with the page and reference so that I can correct the file. Not only do I ask for your comments, I would be grateful for your input. Thank you in advance for your assistance.
