Rexel Shredding Machines

The latest range of document shredders from Rexel offers an extensive choice of machines to cater for a wide variety of document security applications. From compact models for the individual user or home office to mass destruction machines that can cope with the shredding demands of an entire company, Rexel offers the perfect shredding solution.

All Rexel shredders have a 2 year guarantee.

Home & Small Office

The compact range of document shredders has been designed to meet the light shredding needs of the individual user, whether working from home or in an office. The range offers a host of safety features plus a choice of sheet capacities, security levels and waste capacities to provide a safe, secure and convenient solution to document security.

Departmental Shredders

The personal / departmental range of document shredders is suitable for the busy individual or for shared use. Offering high sheet capacities, a choice of security levels and large waste containers, these shredders are ideal for deskside locations. Auto start and auto stop functions combined with status indicators ensure the shredders are easy to use.

Main Office Shredders

These shredders provide high performance security for the general office, with low noise, safety protection and generous sheet capacities. The robust steel cabinets are fully mobile and conceal a solid waste container for extra convenience. These series include four security levels to cater for all security requirements. All models feature unique active safety systems, LCD status and diagnostic information systems.

Specialist Shredders

Designed for the bulk destruction of out of date files and papers. The choice of security levels includes DIN classification S5 for highly sensitive data.

The Autoplus series offers a convenient and time saving way to shred high volumes of A4 documents.

The S16 has an extra wide paper entry to accept all paper sizes.

What to buy for business award - 2004/5

Rexel has won ten awards, including four 'Best Buys' in the 'What to Buy for Business' shredder review (October 2004 edition). The comprehensive review compares machines from all the leading shredder manufacturers.

The Rexel V50, P270/4 and P270/6 CD strip cut machines together with the Rexel P215 cross-cut model, were all awarded the maximum 4 stars 'Best Buy' award. Significantly, the three Rexel strip cut shredders were the only machines to be given 'Best Buy' status.

A further five Rexel Machines were awarded 3 stars as 'Good Value' while the Rexel V120 shredder won 2 stars and was considered 'worth a look'.

Look out for the logos featured on the product pages.

PLEASE NOTE
