

zip-pwd: A SSSR zip extractor

1. Open the Assessment Platform School Listing Report.xlsx in excel delete all columns except school name and school pin and save as a csv

2. Double click zip-pwd.jar file to start program
You will be prompted to select a folder

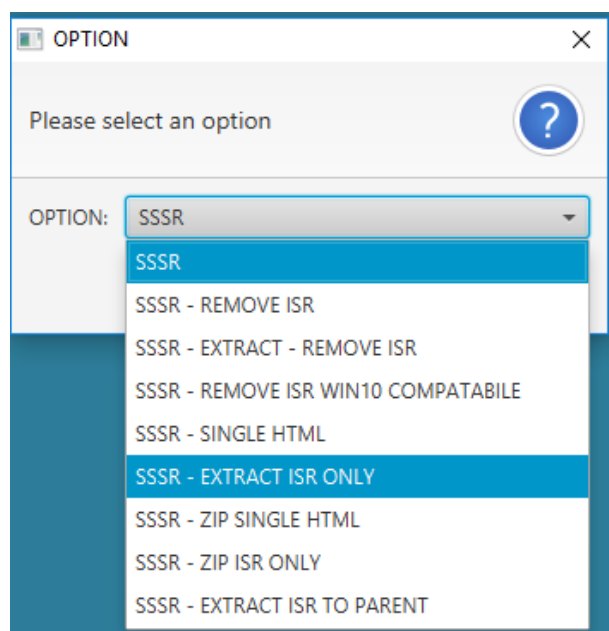

3. Select folder containing the SSSR zips

4. Select the Assessment Platform School Listing csv file you saved, this can be in any location, it doesn't have to be in the same folder as the SSSRs

5. You will be prompted with an option dialog, pick the command you want to run from the drop down

See next page for option description

6. Click OK to run

OPTION	Result
SSSR	Extracts SSSR zips
SSSR - EXTRACT - REMOVE ISR	Extracts and delete ISR
SSSR - EXTRACT ISR ONLY	Extract ISR only
SSSR - SINGLE HTML	Extract index.html and data.js to one file
SSSR - EXTRACT ISR TO PARENT	Extract all ISR to new parent directory "parent-report"
SSSR - REMOVE ISR	Removes the ISR from the SSSR and rezips with original password. (Does not work on Windows 10)
SSSR - REMOVE ISR WIN10 COMPATIBLE	Same as above for Win10
SSSR - ZIP SINGLE HTML	Rezips the SSSR zips with original password containing only one html file (see: SSSR - SINGLE HTML")
SSSR - ZIP ISR ONLY	Rezips the SSSR zips with original password to contain only the ISR
