Learning Communities

Middletown Campus

At SUNY Orange, a Learning Community is a select group of 20 first-time students who take three or more of the same courses together. This collaboration, combined with additional support both in and outside the classroom, makes learning communities work. Research shows that students who take part in learning communities earn higher grades, make friends faster, and graduate at higher rates than students who do not participate in learning communities.

Who can participate?

Students who place in Basic Writing Skills 2 and Reading and Study Skills 1 are eligible for this special opportunity.

How can I register?

Contact the Advising and Counseling Center at 341-4070 to schedule an appointment with an advisor to register

Learning Communities

Newburgh Campus

At SUNY Orange, a Learning Community is a select group of 20 first-time students who take three or more of the same courses together. This collaboration, combined with additional support both in and outside the classroom, makes learning communities work. Research shows that students who take part in learning communities earn higher grades, make friends faster, and graduate at higher rates than students who do not participate in learning communities.

Who can participate?

Students who place in Basic Writing Skills 2 and Reading and Study Skills 1 are eligible for this special opportunity.

How can I register?

Contact the Advising and Counseling Center at 341-4070 to schedule an appointment with an advisor to register

Virtual Campus

Fall 2015

These courses are offered online. Students can access Distance Learning courses from home, on-campus labs, or from any computer with Internet access. The hours are therefore individually arranged with some common course deadlines. To participate in a Distance Learning course, you must have graphical access to the World Wide Web. In the home, dialup or broadband access is usually provided by an Internet Service Provider (ISP) for a monthly fee. To participate in an online course, you must use your SUNY Orange student email address. Students who place into any developmental reading and/or writing courses must successfully complete all of their developmental reading and writing coursework before registering for distance learning courses. Student Computer Requirements for Distance Learning Courses/Recommendations for Web Enhanced Courses Your Internet Service Provider (ISP) will specify the computer requirements for its service. Supported browser configurations are Internet Explorer 6.0, Netscape 7.0, Firefox 1.0.x and Safari 1.x. In addition, students should have Microsoft Word* and Adobe Acrobat Reader (for viewing pdf files). *(Other word processing software can be used, but documents must be saved in the .rtf format). For more detailed instructions, go to the DL home page
