## IP CAMERA

CMOS Full HD Network 10x AF Zoom Camera  
**VCC-HD4000P**  
DAY NIGHT  
P.7 **10x**  
Optical Zoom

1/3" Color CCD E-Day/night Box-type H.264/JPEG Camera  
**VCC-N6695P**  
E-DAY NIGHT  
P.10

Weatherproof AF Zoom Network Camera  
**VCC-XZN600P**  
DAY NIGHT  
P.11 **30x**  
Optical Zoom

AF Zoom Network Camera  
**VCC-ZMN600P**  
DAY NIGHT  
P.11 **30x**  
Optical Zoom

Vandal-resistant PTZ Network Dome Camera  
**VDC-DPN9585P**  
DAY NIGHT  
**PAN-FOCUS**  
P.13 **2.6x**  
Pan-Focus Lens

Indoor mini PTZ Network Dome Camera  
**VCC-PN9575P**  
DAY NIGHT  
**PAN-FOCUS**  
P.13 **2.6x**  
Pan-Focus Lens

## SPECIALTY CAMERA

High-resolution 36x AF Speed Dome Camera  
**VCC-9800P E**  
DAY NIGHT  
P.21 **36x**  
Optical Zoom

High-resolution 36x AF Speed Dome Camera  
**VCC-9700P E**  
P.21 **36x**  
Optical Zoom

High-resolution 30x AF Speed Dome Camera  
**VCC-9600P E**  
DAY NIGHT  
P.22 **30x**  
Optical Zoom

High-resolution 30x AF Speed Dome Camera  
**VCC-9500P E**  
P.22 **30x**  
Optical Zoom

High-resolution Weatherproof AF Zoom Camera  
**VCC-XZ600P**  
DAY NIGHT  
P.25 **30x**  
Optical Zoom

High-resolution AF Zoom Camera  
**VCC-ZM600P**  
DAY NIGHT  
P.25 **30x**  
Optical Zoom

High-resolution AF Zoom Camera  
**VCC-ZM500P**  
P.26 **30x**  
Optical Zoom

## VANDAL-RESISTANT CAMERA

High-resolution Vandal-resistant IR Dome Camera with IR LED  
**VDC-D1785IRVP**  
DAY NIGHT  
P.27 **3.2x**  
Vari-focal Lens

High-resolution WDR Vandal-resistant Dome Camera  
**VDC-W1595VP**  
P.28 **23x**  
Vari-focal Lens

High-resolution Vandal-resistant Dome Camera  
**VDC-D1585VP**  
DAY NIGHT  
P.28 **23x**  
Vari-focal Lens

High-resolution Vandal-resistant Dome Camera  
**VDC-C1575VP**  
P.28 **23x**  
Vari-focal Lens

## PAN-FOCUS CAMERA

High-resolution Weatherproof Camera  
**VCC-XZ200P**  
DAY NIGHT  
P.30 **2.6x**  
Pan-Focus Lens

High-resolution Vandal-resistant PTZ Dome Camera  
**VDC-DP9585P**  
DAY NIGHT  
P.31 **2.6x**  
Pan-Focus Lens

High-resolution Indoor mini PTZ Dome Camera  
**VCC-P9575P**  
P.31 **2.6x**  
Pan-Focus Lens

High-resolution Vandal-resistant Dome Camera  
**VDC-DP7585P**  
DAY NIGHT  
P.33 **2.6x**  
Pan-Focus Lens

High-resolution Indoor mini Dome Camera  
**VCC-P7575PA**  
P.33 **2.6x**  
Pan-Focus Lens

JPEG Network Board for VCC-9800P E  
VCC-9700P E  
VCC-9600P E  
VCC-9500P E  
**VA-80LAN**  
P.15

JPEG Network Board (PoE) for VDC-DP7585P / VCC-P7575PA  
**VA-51LAN**  
P.15

JPEG Network Board for VDC-DP7585P / VCC-P7575PA  
**VA-50LAN**  
P.15

JPEG Network Board for VCC-XZ200P  
**VA-20LAN**  
P.15

SSP + Twisted Pair Board for VDC-DP7585P / VCC-P7575PA  
**VA-50ST** P.33

SSP + Twisted Pair Board for VCC-XZ200P  
**VA-20ST** P.30

Twisted Pair Board for VCC-9685VP  
**VA-10T**  
P.39

Heater Board for VCC-XZ200P / VDC-DPN9585P / DP9585P / DP7585P  
**VA-50H** P.34

SANYO Video Management Software (VMS)  
**VA-SW50 (Advanced)**  
**VA-SW60 (Enterprise)**

P.17

Network Recorder Software  
**VA-SW3050S/C**  
Network Software  
**VA-SW3050LITE**

P.18

Attachment (Indoor use) Adaptor Bracket  
for VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-80A**

P.24

Adaptor Bracket  
for VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-80AB**

P.24

Corner Mounting Adaptor  
for VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-80AC**

P.24

Pole Mounting Bracket  
for VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-80AP**

P.24

Pendant Mounting Bracket  
for VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-80BP**

P.24

Wall Mounting Bracket for  
VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-80BW**

P.24

Outdoor Housing for  
VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-80EX**

P.24

Surface Cover for  
VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-80F**

P.24

Clear Dome Cover (outdoor housing) for  
VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-CM8C**

P.24

Smoked Dome Cover (outdoor housing)  
for VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-CM8S**

P.24

Smoked Dome Cover (indoor housing)  
for VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-CZ80**

P.24

In-Ceiling Bracket (closed type) for  
VCC-9800P E / 9700P E  
9600P E / 9500P E  
**VA-80ME**

P.24

Attachment for VDC-DPN9585P /  
DP9585P / DP7585P  
**VA-50AL**

P.34

Attachment for VDC-W1595VP /  
VDC-D1585VP / VDC-C1575VP  
**VA-50AM**

P.34

Attachment for VCC-PN9575P / P9575P /  
P7575PA / 9685VP  
**VA-50AS**

P.34

Pendant Mounting Bracket  
(long) for VA-50AL / VA-50AM  
VA-50AS  
**VA-50BPL**

P.34

Pendant Mounting Bracket  
(short) for VA-50AL / VA-50AM  
VA-50AS  
**VA-50BPS**

P.34

Wall Mounting Bracket  
for VA-50AL / VA-50AM  
VA-50AS  
**VA-50BW**

P.34

In-Ceiling Bracket  
**VA-DK02**

P.34

Smoked Cover for VCC-PN9575P /  
P9575P / P7575PA / 9685VP  
**VCZ-50**

P.34

Half-Mirror Cover for VCC-PN9575P /  
P9575P / P7575PA / 9685VP  
**VCZ-51**

P.34

Camera Control Unit  
**VAC-70**

P.42

P:60

# IP Camera

SANYO presents remote network surveillance solutions. The SANYO Network Camera series offers superior picture quality and a high level of sensitivity for any situation.

## Full HD

### Full HD (Full High Definition)

Allows the user to view the surveillance picture in the same picture quality as that of a high definition digital TV of 1080 line scanning. The picture quality is good enough to be displayed on a large screen monitor.

## 4 M Pixels

### Megapixel

The ultra-fine picture made up of 4 million pixels makes it possible to capture the finest details of a subject under surveillance.

## H.264

### H.264 Video Compression

The H.264, which optimizes the network video streams at a low transfer rate, is ideal for monitoring real-time video images.

## JPEG

### JPEG Video Compression

The commonly used JPEG format is suitable for monitoring and recording without losing quality.

## PoE

### Power-over-Ethernet (PoE)

SANYO Network cameras support the IEEE 802.3af standard for Power-over-Ethernet (PoE) applications to allow power supplied over LAN cabling. In addition to making installation easier, this allows camera installation in places where it would otherwise be difficult to secure a power source.

## Protocols

### Network Protocols

The cameras support major communication protocols such as RTP\*, RTSP\*, TCP/IP, UDP, HTTP, HTTPS, SMTP, NTP, DHCP, FTP, and UPnP and, are therefore easy to connect to a network.

\* VCC-HD4000P only

## DDNS

### DDNS (Dynamic DNS)

SANYO Network cameras can be accessed with a fixed host name (e.g. sanyovcczmn600p), which makes the network easy to remember, always available, and secure.

## Bi-directional audio communication

### Surveillance-Point Monitoring with Video and Audio Data

Bi-directional audio communication and remote camera control make it possible to monitor any place regardless of local conditions. Monitoring the ambient sound adds a new dimension to the surveillance.

## Alarm IN x 2 Alarm OUT x 1

### Alarm Terminals

These terminals offer the added functions of e-mail and/or image sending when some motion is detected in a preset range or an external alarm is received.

## SANYO'S network surveillance recording solution

### Hybrid Digital Video Recorder

The DSR-HB8000 is a hybrid model that is capable of connecting and controlling network cameras simultaneously.

#### IP cameras

Up to 8 network cameras

Via Ethernet

Up to 16 analog cameras

Via Video cable

### 16ch Hybrid DVR DSR-HB8000

See page 49 for details.

### Network Software

SANYO presents network surveillance system solutions with VMS and VA-SW3050S/C.

The software enables the user to record the video feed from a camera on a PC, or access a camera or DVR\* from a PC, to monitor a live image or control the device.

\* Only VA-SW60 is supported.

#### Technical Note

**SDK, CGI:** SANYO provides technical materials to help the user not only connect SANYO Network Cameras to a network, but also to incorporate them into the user's unique environment.

**For more information, contact the nearest SANYO Sales Company.**

# VCC-HD4000P

**10x**  
Optical Zoom

**DAY NIGHT**

**Megapixel**

<b>Full HD</b>	<b>4 M</b> Pixels	<b>H.264</b>	<b>JPEG</b>	<b>Multi-spot / Center-zone BLC</b>
<b>ATW / AWC / Manual</b>	<b>25 IPS</b> (1920 x 1080)	<b>24 V AC / 12 V to 15 V DC</b>	<b>PoE</b>	<b>HDMI</b>

### Dual Codec for H.264 and JPEG

Monitoring can be conducted simultaneously in H.264 and JPEG formats by minimizing network traffic.

- H.264 ActiveX Plug-in required (bundled).

### A new level of security with smooth, 25 IPS video in 1920x1080p (full HD) resolution

SANYO's expertise in video cameras has brought 25 IPS full HD video to the security world. This whole new level of finesse makes it possible to capture small objects that could have been overlooked in the past.

### 4 Megapixels resolution

With conventional cameras, picture quality must be sacrificed for a wide angle picture, as maximum resolution is limited to 720x480p (D1). With the higher resolution (2288x1712 pixels (4M)) of VCC-HD4000P, however, it is possible to capture a wide area without distortion or loss of quality – down to the very edge of the picture. The camera comes with a megapixel-compatible AF zoom lens that eliminates cumbersome focus adjustment and reduces time and cost of installation.

Current Megapixel camera

SANYO VCC-HD4000P

### Comes with a 10x optical zoom lens supporting 4 megapixels resolution

The camera has a built-in optical zoom lens that matches the resolution of a 4 megapixels CMOS. This offers the capability to zoom in on a subject without losing detail. In addition, the high resolution makes it possible to further enlarge the picture through the digital zoom function and still maintain excellent picture quality. The combination of optical and digital zooming offers maximum zooming of 160x.

### Advanced codec H.264 has high compression technology compared with JPEG.

Our H.264 codec can save about 1/10 size compared with JPEG\*.

\*Under the same setting.

Low bandwidth makes it possible to increase the size of the recording area or length of recording.

### Face Detection

All new face detection function

This detection function offers two different benefits.

The camera can recognize the faces of up to 32 people and applies two types of compensation function. If a size of a human's face is 120x120 pixels or more, the compensation function is optimized so that the face is displayed clearly.

#### Detects faces and applies optimum backlight compensation

Before detection

After detection

#### Detects faces and applies optimum focus compensation

Before detection

After detection

### Clipping Function

This feature makes it possible for the user to clip up to four different areas of a screen. Clipping is made in the VGA size and transmitted sequentially to an SD (Composite output) monitor. The user can monitor the entire screen and enlarged displays of four different locations at the same time. This feature makes the camera extremely versatile.

\*Images used may differ slightly from actually recorded scenes.

### Four Alarm Functions

The camera features alarm recording, external alarm recording, motion sensor recording, and emergency recording (pushbutton). Emergency recording is a new feature that enables manual recording by pushing a button.

### HDMI Connection

The HDMI signal transfers the high definition video directly to an HD monitor. Using the VCC-HD4000P and an HDMI cable enables non-compressed data transfer that is free of degradation.

\* The monitor / HDMI cable are sold separately.

### HD image recording on SD Memory Card or External 2.5" HDD

The camera comes with an SD memory card slot allows the user to record easily by using an optional SD memory card<sup>\*1</sup>. With the use of an HDD and an HDD case, which are sold separately, it is possible to make a prolonged local recording comparable to a DVR. Combining the local recording capability with network failure detection<sup>\*2</sup>, the surveillance video can be stored locally in case of an emergency.

<sup>\*1</sup> Requires use of optional SD memory card, HDD, or HDD case recommended by SANYO.

<sup>\*2</sup> Backup for Interruption of Network recording

Configure these settings to record video with the camera for backup purposes, if communication with the camera is interrupted due to a network failure or other cause when you record video with the optional software.

“VA-SW3050Server / Client” (or other recording software).

### Privacy Masking

When there is a house, or even an object as small as a window, within the camera frame, to protect other people's privacy it is possible to mask that area so that it will not appear on the monitor screen. Up to 5 rectangular masks of any desired size can be set per screen. Masking patterns are easily set with drag and drop.

### True Day/Night

24-hour surveillance is now possible with just a single camera that works as a color camera during the day and a high-sensitivity B/W camera during the night. The mode of operation is automatically switched by replacing the optical filter. The use of an optical filter in the color mode also allows video recording in true colors.

### Alteration Detection

VCC-HD4000P verifies by itself whether or not an electronic alteration was made to original image.

### Smearless

Conventional CCD units are known to generate vertical noises (smears) associated with bright spots. The new sensor diminishes these smears and offers a clear and bright picture.

Conventional cameras

VCC-HD4000P

### 3 types of Power Source

The VCC-HD4000P can operate on three different types of power supply — 12 V DC, 24 V AC and PoE.

### PC for Monitoring

By simply using Internet Explorer (ver. 6.0 or higher) on a personal computer, the user has access to full color video images from the camera. Saving JPEG images on a PC is also possible by using VA-SW3050S server software.

### Setup through a Web Browser

A standard web browser, such as Internet Explorer (ver. 6.0 or higher), can be used to view the video image from VCC-HD4000P and change settings. Security is provided by the use of SSL.

### Transmission using 2 types of codecs (H.264 and JPEG) is possible.

For video compression, H.264, optimized for transmission of moving images over a network with low bit transfer rates, is used to enable real-time high image quality monitoring. For still images JPEG is used to offer high image quality in a common format. Monitoring can be performed according to the user's application, so that no important scene is missed.

### Alarm Buffering Function

This function saves the video images recorded during an alarm recording internally, or to an SD memory card, before streaming them. This prevents the loss of data even if an image transmission delay occurs due to bandwidth limitations or network traffic conditions.

### HDC Downloader (bundled)

Video data recorded on an SD memory card or HDD can be downloaded to a PC.

- Select JPEG or H.264
- Search by date and time for video data to be downloaded.
- Connect SD memory card or HDD to PC directly to copy video data.

### DL Viewer (bundled)

This is used to play back downloaded video or recorded data on an SD memory card or HDD.

- JPEG or H.264 can be played back.
- Images can be saved and printed.

### SANYO Software Development Kits (SDK)

SANYO now offers two types of SDKs to help the user develop applications suitable for particular needs, or for more compatibility with network devices and software from different vendors.

\* For further information on the SDK, please contact the nearest SANYO representative.

### Other Features

- Power-over-Ethernet (PoE)
- Multi-cast
- Backup for interruption of network recording
- Internal log files: up to 100 access logs & up to 200 system information
- E-mail function
- SSL-compatible (JPEG only)

### Connection

- 1) HD Output (HDMI)
- 2) SD output (Composite)
- 3) LAN I/F (RJ-45)
- 4) USB I/F (External HDD)

### Bundled software

- H.264 Active-X Plug-in (attached): Allows user to view surveillance video in H.264 video format.
- HDC Downloader (attached): Downloads video recording data from the camera to a PC.
- DLViewer (attached): Replays downloaded video data.
- VA-SW3050Lite (attached): Allows user to view images from multiple cameras on a split screen.

### Option (sold separately)

#### Wide Conversion Lens VCP-L07W

Together with VCP-L07W, which is sold separately, this lens offers a wider angle view.

#### Hard Disk Case VA-HDC4000

This case for a 2.5" Hard Disk Drive has a protection circuit for important data. Recommended SD memory card and HDD is available. Please visit "sanyosecurity.com" for than date.

#### Camera Control Unit VAC-70

(sold separately) See page 42 for details.

#### VA-HD2120

120 GB 2.5" HDD

#### VA-SD004

4 GB SD Memory Card

#### Video Management Software (VMS)

VA-SW50 (Advanced) / VA-SW60 (Enterprise)

See page 17 for details.

#### Network Recorder VA-SW3050S / VA-SW3050C

See page 18 for details.

### VCC-HD4000P

(Unit: mm)

Model	VCC-HD4000P	
<b>Image sensor</b>	1/2.5" CMOS sensor	
<b>Effective picture elements</b>	2320(H) x 1728(V) approx. 4.Megapixels	
<b>Recording picture elements</b>	2288(H) x 1712(V) approx. 3.92 Megapixels	
<b>Lens</b>	Focal length f=6.3 to 63.0mm Optical 10x, F number F1.8 to 2.5, Digital zoom 16x	
<b>Image compression</b>	H.264 / JPEG	
<b>H.264</b>	<b>16:9 HD</b>	1920 x 1080p 25ips

<b>Synchronizing system</b>	Internal sync.	
<b>Minimum illumination</b>	2.0 lx (at F1.8, GAIN: HI, at color mode) / 0.1 lx (at F1.8, GAIN: HI, at B/W mode)	
<b>Video S/N ratio</b>	50dB AGC OFF	
<b>Day/Night</b>	Auto / Color / B/W	
<b>Focus</b>	AUTO / MANUAL / ONE-PUSH: Selectable focus area	
<b>White balance</b>	ATW / AWC / MWB / Outdoor / Indoor / Fluorescent Adjustable R and B signals in MWB mode	
<b>Backlight compensation</b>	Multi-spot potometry / Center-zone potometry / OFF mask settings possible / Face	
<b>Electronic shutter</b>	1/25, 1/50, 1/120, 1/250, 1/500, 1/1000, 1/2000, 1/4000, 1/10000 x1, x2, x4, x8, x16, x32	
<b>Iris control</b>	AUTO / MANUAL, Selectable electronic shutter in manual mode	
<b>Gain control</b>	Normal / Middle / High / Off, Adjustable gain control in Off mode	
<b>Gamma</b>	0.45 / 1, other settings available	
<b>Aperture compensation</b>	ON / OFF	
<b>Electronic sensitive boost</b>	AUTO / OFF, Max. 32x	
<b>Privacy masking</b>	ON / OFF, Max. 5 masks	
<b>Motion detector</b>	ON / OFF, Selectable area detection, Selectable sensitivity level, Motion alarm zoom function: Selectable magnified ratio and duration time, Human face detection *Available in preset positions	
<b>Menu language</b>	English / Spanish / German / French / Japanese	
<b>Camera Title</b>	16 characters	
<b>Image quality</b>	Selectable (5 levels)	
<b>Recording rate</b>	Selectable (Max. 25 IPS)	
<b>Recording mode</b>	Alarm recording Pre / Post setting (Selectable recording rate) / Suspicion recording (Selectable recording rate)	
<b>SD card slot</b>	1 (SDHC supported)	
<b>USB port</b>	Supported HDD *Require optional HDD case	
<b>Video output</b>	HD output HDMI port, SD output composite (BNC terminal, NTSC or PAL)	
<b>Network</b>	RJ-45 port (10BASE-T / 100BASE-TX)	
<b>Alarm input</b>	2 NO / NC setting, This output is also used for day/night control of color, B/W and auto mode.	
<b>Alarm output</b>	1 Selectable NO/NC; open collector	
<b>External lens control</b>	Zoom / Focus / Common (Voltage control: ±6 to ±12 V)	
<b>Operation button</b>	SET button and Cursor buttons (These are used for MENU and Zoom / Focus.)	
<b>Picture quality</b>	Selectable	
<b>Bandwidth</b>	No limitation and selectable bandwidth limitation	
<b>DDNS</b>	✓	
<b>Interface</b>	10BASE-T / 100BASE-TX (PoE compatible)	
<b>Protocols</b>	RTP*, RTSP*, TCP/IP, UDP, HTTP, HTTPS, SMTP, NTP, DHCP, FTP, UPnP, DDNS	
<b>Simultaneous access</b>	16	
<b>Security</b>	BASIC authentication ID/password, SSL supported	
<b>Environmental conditions</b>	Temperature: -10°C to +50°C (+14°F to +122°F), Humidity: within 90% RH	
<b>Power requirement</b>	24 V AC ±10%, 50 Hz / 12 V to 15 V DC / PoE (compliant with IEEE 802.3af)	
<b>Power consumption</b>	12.3 W	
<b>Dimensions</b>	95(W) x 67(H) x 159(D) mm [3.7(W) x 2.6(H) x 6.3(D) in.]	
<b>Weight</b>	710 g [25.0 oz.]	

\*Available for CGI commend only NOTE: Specifications subject to change without notice

High-resolution E-Day/night Network Camera

VCC-N6695P

<b>H.264</b>	<b>JPEG</b>	Minimum illumination <b>0.25 lx</b>	Multi-spot / Center-zone <b>BLC</b>	<b>ATW</b> Manual
<b>25 IPS</b> (720 x 576)	Alarm IN x 1 Alarm OUT x 1	<b>24 V AC</b> 12 V to 15 V DC	<b>PoE</b>	

Dual Codec for H.264 and JPEG

Monitoring can be conducted simultaneously in H.264 and JPEG formats by minimizing network traffic.

- H.264 ActiveX Plug-in required (bundled).

Electronic Day/Night Function

The new E-Day/Night function allows an automatic changeover from color mode to B/W mode. This makes it possible to achieve 24-hour high quality in light and dark conditions.

Image from conventional camera

Image from E-Day/Night camera

High Sensitivity

Sensitivity has significantly increased by about 3dB compared to conventional models. A newly-developed CCD sensor partners with SANYO's advanced technologies to enable the camera to clearly capture objects even in dark conditions.

E-mail Function

A setting for automatic sending of mail (up to 5 addresses can be set) is provided. By using this setting, an alarm notification e-mail can be set when an alarm is detected. Or, e-mails can be sent at regular intervals. In either case, an image can be attached to the e-mail.

Power-over-Ethernet (PoE)

VCC-N6695P supports the IEEE 802.3af standard for Power-over-Ethernet (PoE) applications to allow power supplied over LAN cabling. In addition to making installation easier, this allows camera installation in places where it would otherwise be difficult to secure a power source.

Video Management Software (VMS)

**VA-SW50** (Advanced) / **VA-SW60** (Enterprise)

See page 17 for details.

Network Recorder (sold separately)

**VA-SW3050S** (for server) / **VA-SW3050C** (for client)

See page 18 for details.

Camera Mount **VA-VCT31** (sold separately)

See page 42 for details.

MODEL	VCC-N6695P
<b>Scanning system</b>	PAL standard 625 lines, 50 fields/sec.
<b>Image sensor</b>	1/3" (approx. 4.8 mm x 3.6 mm) interline transfer method CCD
<b>Picture elements</b>	Total: 795(H) x 596(V), Effective: 752(H) x 582(V)
<b>Horizontal resolution</b>	540 TV lines (typical)
<b>Minimum illumination (approx.)</b>	50IRE 0.35 lx (at F1.2, at color mode), 0.25 lx (at F1.2, GAIN on, at B/W mode) 20IRE 0.14 lx (at F1.2, at color mode), 0.1 lx (at F1.2, GAIN on, at B/W mode)

Network Specifications

MODEL	VCC-N6695P
<b>Image compression</b>	H.264 / JPEG
<b>Resolution</b>	<b>H.264</b> 720 x 576, 352 x 288, 176 x 144 <b>JPEG</b> 720 x 576, 720 x 288, 640 x 480, 360 x 288, 176 x 144
<b>Picture quality</b>	5 levels
<b>Frame rate</b>	<b>H.264</b> Max. 25 IPS (720 x 576) <b>JPEG</b> Max. 25 IPS (720 x 576)
<b>Bandwidth</b>	128, 256, 512 Kbps, 1, 2, 3, 4 Mbps, no limitation
<b>DDNS</b>	✓
<b>Alarm buffer</b>	Up to 8 MB; configurable
<b>Interface</b>	10BASE-T/100BASE-TX, PoE (IEEE802.3af) compatible
<b>Protocols</b>	TCP/IP, UDP, HTTP, HTTPS, SMTP, NTP, DHCP, FTP, UPnP, DDNS
<b>Simultaneous access capacity</b>	Image: Maximum 16 (admin: 1)
<b>Security</b>	BASIC authentication (ID/password), SSL supported (image only)
<b>Accessories</b>	CD-ROM (VA-SW3050LITE, Active X, Manual)

High-resolution Weatherproof AF Zoom Network Camera  
**VCC-XZN600P**

<b>H.264</b>	<b>JPEG</b>	Minimum illumination <b>0.04 lx</b>	Multi-spot / Center-zone <b>BLC</b>	ATW AWC Manual
<b>25 IPS</b> (720 x 576)	Alarm IN x 2 Alarm OUT x 1	24 V AC 12 V to 15 V DC	<b>PoE</b>	Image Stabilizer

**The two Independent CODECS of H.264 and JPEG**

The H.264, which optimizes the network video streams at a low transfer rate, is ideal for monitoring real-time video images. On the other hand, the commonly used JPEG format is suitable for monitoring and recording without losing quality. The presence of the two codecs gives the user the option to choose whichever is suitable for obtaining critical information.

**Power-over-Ethernet (PoE)**

Both VCC-XZN600P / VCC-ZMN600P support the IEEE 802.3af standard for Power-over-Ethernet (PoE) applications to enable power supplied over LAN cabling. In addition to making installation easier, this allows camera installation in places where it would otherwise be difficult to secure a power source.

**DDNS (Dynamic DNS)**

The VCC-XZN600P / VCC-ZMN600P can be accessed with a fixed host name (e.g. sanyovcczmn600p), which makes the network easy to remember, always available, and secure.

**E-mail Function**

A setting for automatic sending of mail (up to 5 addresses can be set) is provided. By using this setting, an alarm notification e-mail can be set when an alarm is detected. Or, e-mails can be sent at regular intervals. In either case, an image can be attached to the e-mail.

**Schedule setting**

Timer sending or alarm notification can be performed during a specified time period. The following 5 functions are provided: TIMER (SMTP) for timer sending of e-mail, TIMER (FTP) for timer sending of images via FTP mode, ALARM (SMTP) for e-mail notification of an alarm, ALARM (FTP) for sending of alarm images via FTP mode, and REMOTE ALARM "ACTIVE" for enabling camera alarm output 2 by remote operation.

**IP66 Rated Enclosure**

VCC-XZN600P is designed to fight off dust and water. The IP66 compliant package is suitable for outdoor installation at locations exposed to wind and rain.

**VCC-XZN600P**

High-resolution AF Zoom Network Camera  
**VCC-ZMN600P**

<b>H.264</b>	<b>JPEG</b>	Minimum illumination <b>0.04 lx</b>	Multi-spot / Center-zone <b>BLC</b>	ATW AWC Manual
<b>25 IPS</b> (720 x 576)	Alarm IN x 2 Alarm OUT x 1	24 V AC 12 V to 15 V DC	<b>PoE</b>	Image Stabilizer

**Adjustable Arm**

The angle of the arm is adjustable in all directions. Since the flexible joint is secured by screws, the arm maintains its position without sagging over time. In addition, a safety wire is included to prevent accidents. Installation on a ceiling or wall is easy without any additional parts. The wires are securely protected inside the arm.

Integrated flexible arm

**VCC-XZN600P**

**32X Sensitivity Boost for Minimum Illumination of 0.00125 Lx**

While achieving 0.04 lx minimum subject illumination at maximum gain, sensitivity can be further heightened 32X for 0.00125 lx minimum illumination when the sensitivity boost function is activated at 50 IRE (F1.4). [B/W mode], 0.0005 lx minimum illumination when the sensitivity boost function is activated at 20 IRE (F1.4). [B/W mode]

**Built-in Intelligent Digital Motion Detector and Zoom Detector**

The Intelligent Digital Motion Detector enables reliable and accurate motion detection by analyzing the magnitude of movement and the size of object from changes in picture brightness. When a moving object is detected, VCC-XZN600P / VCC-ZMN600P can send an alarm signal to external units and/or automatically switch to the optical zoom mode, according to the user's preference. Furthermore, an external alarm input terminal makes it possible, when an alarm signal is received, to automatically zoom in to the site of activity, according to a preset zooming operation.

**Registering a view setting file (CAMERA VIEW)**

To support shooting in various surveillance conditions like when the surveillance location is bright (or dark), the CAMERA VIEW screen allows you to register up to 2 patterns of shooting settings as camera view setting files.

**Image Stabilizer**

A gyro-sensor picks up camera vibration in the 5 to 15 Hz range, which is then suppressed electronically. This feature offers a clear image even in a strong wind or when the camera is installed near a highway with heavy traffic.

## Privacy Masking

When there is a house, or even an object as small as a window, within the camera frame, to protect other people's privacy it is possible to mask the area so that it will not appear on the monitor screen. Up to 4 rectangular masks of any desired size can be set per screen.

## Operation Buttons

### VCC-ZMN600P

The camera comes with function buttons on its side, which can be used to manually adjust the focus and magnification of a live image. The buttons can also be used to change settings.

#### Operations during live monitoring

- ① Set the focus
- ② Zoom out/into (Magnification: x1 to x30)
- ③ Auto focus operation

#### Operations on the menu screen

- ① Menu select
- ② Adjust or choose the value for the selected item
- ③ Set the value you adjusted or chose for the selected item, or switch to the sub-menu

## 13 Mode Electronic Shutter Speeds

2x, 4x, 8x, 16x, 32x, 1/50, 1/120, 1/250, 1/500, 1/1000, 1/2000, 1/4000, and 1/10000 sec.

## Other features

- High Resolution of 540 TV Lines • Adjustable gamma correction and aperture settings • Display of assignable camera ID and titles (16 characters max.) • Mirror function

## Video Management Software (VMS)

VA-SW50 (Advanced) / VA-SW60 (Enterprise)

See page 17 for details.

## Network Recorder (sold separately)

VA-SW3050S (for server) / VA-SW3050C (for client)

See page 18 for details.

## Camera Control Unit VAC-70

(sold separately) See page 42 for details.

MODEL	VCC-XZN600P	VCC-ZMN600P
<b>Scanning system</b>	PAL standard 625 lines, 50 fields/sec.	
<b>Image sensor</b>	1/4" (approx. 3.6 mm x 2.7 mm) interline transfer method CCD	
<b>Picture elements</b>	Total: 795(H) x 596(V), Effective: 752(H) x 582(V)

**SANYO proposes the 2.6x pan-focus lens for a focused view of a broader area**

With a vari-focal lens, objects that are in front of or behind the focus point are blurred. To eliminate this problem, a new technology was developed to increase the depth of field so that everything in the field of view is in focus at the same time. SANYO has been one of the leaders in the development of this technology and has successfully commercialized the 2.6x pan-focus lens that offers an image with greater depth of field. The new lens makes it possible to capture a clear image of objects in the background.

**Privacy Masking**

When there is a house or even an object as small as a window within the camera frame, to protect other's privacy it is possible to mask the area so that it will not appear on the monitor screen. Up to 8 rectangular masks of any desired size can be set. These masking areas may be protected with a (max.) 4-digit password.

**PTZ Operations**

VDC-DPN9585P / VCC-PN9575P comes with a PT mechanism and allow panning of 335 degrees (55 degrees\*) and tilting of 90 degrees (90 degrees\*) to reduce blind spots in the surveillance area. When particular angles are preset on the camera (up to sixteen points), it moves to each position quickly at the speed of 120 deg/sec max. For both panning and tilting. Combining these features with the motion detector, it is possible to catch all actions taking place in the area.

\* For wall-mounted cameras

High-resolution Indoor mini PTZ Network Dome Camera  
**VCC-PN9575P**

<b>JPEG</b>	Minimum illumination <b>1.9 lx</b>	Multi-spot / Center-zone <b>BLC</b>	<b>PT mechanism</b>	720x286,640x480 360x286,176x143
<b>25 IPS</b> (720 x 286)	Alarm IN x 2 Alarm OUT x 1	24 V AC 12 V to 15 V DC	<b>PoE</b>	

**Flexible Motion Detector**

The Flexible Motion Detector enables reliable and accurate motion detection by analyzing the magnitude of movement and the size of object from changes in picture brightness. When a moving object is detected, VDC-DPN9585P / VCC-PN9575P can send an alarm signal to external units and/ or switch to the optical zoom mode that can be preset either to 1.0x, 1.4x, 2.0x, or 2.6x zoom.

**SANYO Security Systems for the Creation of a Full-fledged LAN or Internet**

Video captured by camera can be viewed using the bundled VA-SW3050LITE viewer software. Use of the VA-SW3050S/C archiving software (sold separately) allows simultaneous monitoring of streams from up to 128 cameras as well as recording of live audio and video data. \*Use of the VDC-DPN9585P's or the VCC-PN9575P's built-in networking features allows viewing of video from a single camera with a generic web browser (Internet Explorer).

**Power-over-Ethernet (PoE)**

Both VDC-DPN9585P / VCC-PN9575P support the IEEE 802.3af standard for Power-over-Ethernet (PoE) applications to enable power supplied over LAN cabling. In addition to making installation easier, this allows camera installation in places where it would otherwise be difficult to secure a power source.

**Surveillance-Point Monitoring with Video and Audio Data**

The VDC-DPN9585P / VCC-PN9575P are equipped to enable two-way voice communications via audio signals sent between cameras and PCs. Transmission of crystal clear images together with audio offers those overseeing surveillance as a sense of being right there at the scene.

### Easy Setup with an On-screen Menu

The VDC-DPN9585P / VCC-PN9575P offers an on-screen menu for setting up the camera any desired way.

### Operation on PoE, AC or DC Power Sources

The VDC-DPN9585P / VCC-PN9575P can operate on PoE, 12 V DC (12 V to 15 V DC) or 24 V AC (60 Hz, and even at a tolerance of ±10%). Switching to the correct mode occurs automatically when power is supplied.

### Dual Power Source of 24 V AC and 12 to 15 V DC

These models support dual power supply to allow a flexible operation in diverse circumstances.

### Other Features

- 16 Preset Positioning and Sequential Monitoring Functions
- Display of assignable camera ID and titles (16 characters max.)

# Network Board

The built-in network interface and the expansion board for network connection enables SANYO color CCD cameras to connect to a network.

The user can operate a network connected camera using a web browser (Internet Explorer) and network surveillance software.

## The two Independent CODECS of H.264 and JPEG

The H.264, which optimizes the network video streams at a low transfer rate, is ideal for monitoring real-time video images. On the other hand, the commonly used JPEG format is suitable for monitoring and recording without losing quality. The presence of two codecs gives the user the option to choose whichever is suitable to obtain optimum picture quality in any given environment. This ensures that critical information will not be overlooked.

# Network Software

SANYO's network software is available in the forms of VMS, VA-SW3050S or VA-SW3050C, depending on the scale of the surveillance system. For a large-scale surveillance system for a hospital or bank to a smaller system for a school or store, you will find the right software package with SANYO.

## Surveillance-Point Monitoring with Video and Audio Data

Bi-directional audio communication and remote camera control make it possible to monitor any place regardless of local conditions. Monitoring the ambient sound adds a new dimension to the surveillance.

\* Except for VA-50LAN / VA-20LAN / VCC-XZN600P / VCC-ZMN600P.

## PoE (Power over Ethernet)

Camera expansion becomes easy with the use of PoE.

\* Supported by VCC-XZN600P / VCC-ZMN600P / VCC-PN9575P / VDC-DPN9585P / VCC-HD4000P / VCC-N6695P / VA-82LAN / VA-51LAN.

## Video Management Software (VMS)

## Network Recorder VA-SW3050S / VA-SW3050C

**SANYO Video Management Software (VMS) VA-SW50 (Advanced) / VA-SW60 (Enterprise)**

SANYO Video Management Software is a software management platform for SANYO's IP and megapixel cameras, most of the industry's standard IP and megapixel cameras and encoders, and SANYO's embedded DVRs. Video Management Software is an NVR, PC DVR and embedded DVR control platform with total integration all under one software application.

**Video Management Software (VMS) VA-SW50 (Advanced Edition) / VA-SW60 (Enterprise Edition)**

**VA-SW50 (Advanced Edition)**

Up to 16 camera connection, control, recording, and management of SANYO IP cameras, and other brands standard IP cameras. [Maximum: 5 clients]

**VA-SW60 (Enterprise Edition)**

Unlimited camera connection, control, recording, and management of SANYO's DVRs\*, SANYO IP cameras, other brands standard IP cameras, and other brands megapixel cameras. [Unlimited clients]

**VA-SW50 (Advanced Edition) / VA-SW60 (Enterprise Edition) Features**

- Easy-to-navigate GUI with:
    - File tree architecture
    - Multi-screen configurations
    - Drag and Drop camera placement
    - Easy tool bar for major functions
    - Motion Detection
    - Digital Pan, Tilt, Zoom
  - Multifunctional file tree:
    - Define IP cameras / IP video encoders
    - Define cameras connected to DVRs\*
    - Define whether cameras are live view as well as archived
    - Define remote servers
    - Drag and drop any camera on the tree to the viewing screen
    - Archives can also be accessed directly
  - Allows PTZ Control of Network PTZ Camera
  - Supports SANYO's PTZs through connected DVRs\*
  - Permissions can be assigned at the individual, group, and server levels
  - Time Date Search is easily accomplished through a scalable scroll bar
  - Provides user-friendly wizards and comprehensive user management
  - Supports from one to an unlimited number of cameras per server (version dependent)
  - Multiple clients can be connected to a single server
  - Client can be connected to multiple servers
- \*Please contact your dealer for supported DVRs.

## Network Recorder VA-SW3050S / VA-SW3050C

Surveillance via network is possible from a PC by installing VA-SW3050S (for server) or VA-SW3050C (for client). Recordings are made in JPEG format and managed exclusively by VA-SW3050S (for the server).

### Network Recorder VA-SW3050S / VA-SW3050C (sold separately)

The network recorder VA-SW3050S / VA-SW3050C is an application program that extends the network operation of the camera. By installing this software, it is possible to monitor images from multiple cameras on a split screen and access and operate up to 128 cameras over a network.

VA-SW3050S further offers the convenience of recording live images and alarm/timer functions. The VA-SW3050C allows the user to play videos recorded with the VA-SW3050S. It is an exclusive software package for cameras.

(NOTE) One software package is necessary for each PC.

### VA-SW3050S (for server) / VA-SW3050C (for client) Features & VA-SW3050LITE (Bundled) for Viewing

- Accessible to up to 128 cameras.
- Up to ten users can be registered for each computer, and the operational authorization level can be set differently for each camera.
- There are a variety of other optional functions to facilitate monitoring operation. (VA-SW3050LITE / VA-SW3050C)
- Can split the display into one, four or sixteen screens. (VA-SW3050LITE / VA-SW3050C)
- Image searching function can search through recorded images for a playback. (VA-SW3050C)
- Images on the monitoring display can be printed and saved. (VA-SW3050C)
- Changes camera settings, and controls cameras remotely. (VA-SW3050LITE / VA-SW3050C)
- Recording can be set to start automatically by timer or by alarm. (VA-SW3050S)

### VA-SW3050S / VA-SW3050C / VA-SW3050LITE (Bundled) Feature Comparison

### System Requirements (for VA-SW3050S / VA-SW3050C / VA-SW3050LITE)

PC	IBM PC/AT and compatibles			
OS	Windows® XP Professional SP2, Windows® Vista, Windows® 2003 Server SP2 (VA-SW3050S only)			
CPU	Core2Duo E6700, 2.66GHz or higher	Core2Duo E6700, 2.66GHz or higher*1 Core2Duo E8500, 3.16GHz or higher*2	Pentium IV, 3.0GHz or higher	Core2Duo E6700, 2.66GHz or higher*1 Core2Duo E8500, 3.16GHz or higher*2
Memory	1GB (Windows® XP) 2GB (Windows® Vista)	1GB (Windows® XP) 2GB (Windows® Vista)*1 2GB or more	1GB or more	1GB (Windows® XP) 2GB (Windows® Vista)*1 2GB or more
Network interface	100BASE-TX			
Display card	1920 x 1200 pixels or higher		1024 x 768 pixels or higher, 16million colors or higher	1920 x 1200 pixels or higher
Graphics chip	ATI: Radeon X1000 series or higher nVidia: GeForce 6000 series or higher Quadro4 series or higher			
Audio	—	Sound card with 100% Direct-X compatibility and speakers*3		

\*1 When the number of cameras connected is 4 or fewer

\*2 When the number of cameras connected is between 5 and 16

\*3 The camera main unit is not equipped with audio functions.

•Ver. 6.0 or higher

•For Full-HD display

Note: Depending on your computer's performance or network environment, the system may enter the busy state if the PC is connected to many H.264 video channels. If a warning message appears in the dialog box, decrease the number of the connected H.264 video channels.

# Camera

## A Comprehensive Line-up of Multi-functional High Resolution Cameras Solves a Variety of Surveillance Needs

550  
TV Lines

### Horizontal Resolution

All cameras from SANYO offer exceptional picture resolution. By improving the optical filter and maximizing the performance of the CCD with a proprietary algorithm, it produces sharp outlines and natural color with no blurring.

### PAN-FOCUS

Technology in Perspective

Pan-focus lens can bring a broad area into focus, enabling the camera system to visualize everything in the field of view clearly at the same time. The lens also has a 2.6x zooming function. As a result, it allows a surveillance camera to capture a clear video image offering details of background objects.

### DAY NIGHT

24-hour surveillance is now possible with just a single camera that works as a color camera during the day and a high-sensitivity B/W camera during the night. The mode of operation is automatically switched by replacing the optical filter. The use of an optical filter in the color mode also allows video recording in true colors.

Minimum illumination  
0.03 lx

### Minimum subject illumination

The minimum illumination required for recognizing a subject is generally 2 to 6 lx for color cameras, and 0.03 lx for B/W cameras. Minimum subject illumination changes according to the F value of combined lenses. When F1.2 lenses and F1.4 lenses are combined with an F1.2 lens, minimum subject illumination is reduced, making monitoring possible in dark locations.

Multi-spot / Center-zone  
BLC

### Backlight compensation

When filming in directions with backlighting such as entrance ways or windows where the backlighting causes the subject to appear as a silhouette, this function automatically adjusts to the most appropriate aperture.

Without backlight compensation  
Subject appears as a silhouette against bright background.

With backlight compensation  
Subject appears clear and sharp.

SANYO CCD cameras use four systems: center-zone photometry system, 5-section photometry mode setting, multi-spot photometry (48 / 64-section) systems and multi-spot masking.

With the **center-zone photometry** system, the brightness of the light measuring area is measured, and by automatic adjustment of the lens aperture, a clear and sharp image is possible even when the subject is backlit.

With this system, the light measuring area is in the center of the screen for an optimal image of the subject. With the **5-section photometry** system, the screen is divided into 5 sections to which the user will assign

15-scale weights. The brightness of the picture will be kept at optimum by giving priority to the area with the higher weight. (A DC type auto-iris lens is required to enable this mode.)

With the **multi-spot photometry (48/64-section)** system, the screen is divided into 48 / 64 areas on which luminous intensity is measured separately to determine the lighting/backlight conditions of all objects. This makes it possible to apply optimum backlight compensation even for peripheral and moving objects. With the **multi-spot masking (48-section)** system, certain areas can be eliminated from the photometric measurement using a 48-section grid. The light intensity for the remaining area is measured and the image brightness is adjusted accordingly.

ATW  
AWC  
Manual

### White-balance

Sometimes the color of clothes seen under lighting inside a shop appears different when viewed in sunlight outside. This is due to variation in the color temperature of the light source. The human eye is highly adaptable to variation in the color temperature of light sources so that even when the light source changes, white appears as white. But CCD adaptability is poor, and to reproduce unbalanced white when the light source changes, correction of the image signal is necessary. All SANYO color CCD cameras have TTL (Through The Lens) auto tracing white-balance, so even in a location with significant variation in color temperature of the light sources, such as next to a window, the image is automatically adjusted to achieve the best color.

Internal sync.  
External sync.  
Line lock

### Synchronizing System

This is the timing used by the security camera when filming (synchronizing). There are sync systems that synchronize with the internal sync signal circuit (internal sync.), or that synchronize with a sync signal input to the security camera from outside (external sync.), or those that use the cycle of the camera's AC power to synchronize (line lock). When switching between several security cameras for surveillance using one monitor, synchronizing the cameras is necessary. For this, the line lock and external sync systems are used.

Electronic shutter

### Electronic Shutter

The camera can be used in a variety of situations by adjusting the shutter speed.

Image Stabilizer

### Image Stabilizer

A gyro-sensor picks up camera vibration in the 5 to 15 Hz range, which is then suppressed electronically. This feature offers a clear image even in a strong wind or when the camera is installed near a highway with heavy traffic.

SSP  
Pelco-C/D Support

### SSP (RS-485) compatible

By using SSP (SANYO Security Serial Protocol), cameras and DVRs can be controlled with just one controller over a daisy chain connection up to a maximum of 254 devices. The maximum cable length (total length of the daisy chain path) is 1200 m (4000 feet).

24 V AC  
12 V to 15 V DC

220 V to 230 V AC

### Power Sources

The power sources for driving the camera.

Specialty camera

High-resolution AF Speed Dome Camera  
**VCC-9800P E series**

<b>540</b> TV Lines	Minimum illumination <b>0.05</b> lx	Multi-spot/ 5-section <b>BLC</b>	<b>ATW</b> <b>AWC</b> Manual	Internal sync. Line lock
<b>Electronic shutter</b>	<b>SSP</b> Pelco-C/D Support	<b>24 V AC</b> or <b>230 V</b>	<b>Image Stabilizer</b>	<b>Auto Tracking</b>

High-resolution AF Speed Dome Camera  
**VCC-9700P E series**

<b>540</b> TV Lines	Minimum illumination <b>1.0</b> lx	Multi-spot/ 5-section <b>BLC</b>	<b>ATW</b> <b>AWC</b> Manual	Internal sync. Line lock
<b>Electronic shutter</b>	<b>SSP</b> Pelco-C/D Support	<b>24 V AC</b> or <b>230 V</b>	<b>Image Stabilizer</b>	<b>Auto Tracking</b>

**High-speed Panning of 435°/sec**

The camera makes it possible to capture the image of exact points of surveillance with high-speed panning of 435°/sec between preset positions. This accurate mechanism is capable of capturing quickly moving objects and objects approaching the camera when it is zoomed in.

Pan / Tilt speed	Pan	Max. 435°/sec.
	Tilt	Max. 400°/sec.
	Manual pan/tilt	0.1 to 120°/sec.

**Preset Accuracy to ±0.014 (typical) of a Degree**

In the case of a speed dome camera, the motorized drive's performance is vital in order to capture numerous points of surveillance during lens movement and zoom-ratio changes. SANYO's new series of speed dome cameras keeps the accuracy of the camera's return to preset points to within 0.014 (typical) of a degree for precision capture of images from surveillance.

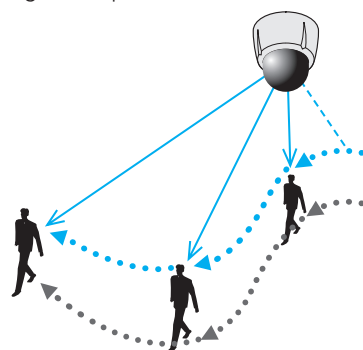

Designated point set using preset position function | Image from conventional camera with error margin as large as 0.2° | Error margin of designated point is a mere 0.014° (typical)

**Auto Tracking**

**VCC-9800P E / VCC-9700P E**

The camera comes with an image processing algorithm that is capable of detecting moving objects on the screen and tracing an object automatically. When there are multiple movements, an object with the biggest move will be traced. Further settings are available according to the pattern of movement.

The auto return mode provides an added feature that forces the camera to its Preset Position when no movement is detected for a preset duration.

**Image Stabilizer**

**VCC-9800P E / VCC-9700P E**

A gyro-sensor picks up camera vibration in the 5 to 15 Hz range, which is then suppressed electronically. This feature offers a clear image even in a strong wind or when the camera is installed near a highway with heavy traffic.

**Maximum 576x Zoom Function 36x Optical Zoom and 16x Digital Zoom**

**VCC-9800P E / VCC-9700P E**

The 36x optical zoom and 16x digital zoom can be combined for a close-up of 576x. This allows even distant subjects to be checked in detail, allowing one camera to monitor a wide area.

**Up to 256 Preset Positions**

**VCC-9800P E / VCC-9700P E**

The user can set up to 256 preset positions with VCC-9800P E / VCC-9700P E and up to 128 preset positions with VCC-9600P E / VCC-9500P E. Preset positions can be set to any angle from pointing directly below the camera to looking horizontal. The adjustable range of the lens focus any direction to offer the capability to fully capture any surveillance area. When manually operated, the lens can be moved at the speed of 0.1 °/sec to 120°/sec for accurate tracking of moving objects.

**Four Types of Auto Mode Setting**

Sequence, Tour, Auto Pan and Auto Return modes are available.

Example System

High-resolution AF Speed Dome Camera  
**VCC-9600P E series**

<b>540</b> TV Lines	Minimum illumination <b>0.04</b> lx	Multi-spot/ 5-section <b>BLC</b>	<b>ATW</b> <b>AWC</b> Manual	Internal sync. Line lock
Electronic shutter	<b>SSP</b> Pelco-C/D Support	24 V AC or 230 V		

**Upward Surveillance Enabled PTZ Operation**

In addition to endless 360°/sec panning, the camera's lens section enables 185°/sec tilting in the vertical plane for an area of surveillance expanded by 5° (indoor applications only) compared to previous models.

**No dead areas with new speed dome cameras**

**Available in Three Forms, Outdoor Type, Surface Type or In ceiling Type**

The camera is available in three different styles. Assemble them with different fittings and covers to make a camera most suitable for your surveillance needs.

**All around Privacy Masking**

When there is a house, or even a window, within the camera frame, to protect other people's privacy it is possible to mask the area so that it will not appear on the monitor screen. Up to 24 rectangular masks of any desired size can be set.

**SSP (RS-485) Compatible**

By using SSP (SANYO Security Serial Protocol), cameras and DVRs can be controlled with just one controller over a daisy chain connection up to a maximum of 254 devices. The maximum cable length (total length of the daisy chain path) is 1200 m (4000 feet).

**Coaxial Control or RS-485**

Coaxial control: SSP / H-SSP / PELCO-C  
 RS-485: SSP / H-SSP / PELCO-D / PELCO-P / Kalatel / AD / BBV / Ultrack / Bosch

High-resolution AF Speed Dome Camera

**Easy-to-Manage Installation, Setup and Adjustment**

Enclosed within the housing are an integrated lens, a motor and a pan/tilt mechanism. Attachment to the power supply base by simply sliding the release levers simplifies installation at the point of surveillance. The settings circuit board is detachable for access to protocol, address and other switch settings.

**Detachable without disconnecting power cable**

Slide the camera unit's two release levers and lock the power supply base into position. No special tools required for camera unit installation or removal.

**Detachable Settings Circuit Board**

Basic camera settings can be made while holding the settings circuit board in hand, as the board is detachable from the power supply base. The I/O side of the board features 8 input and 2 output terminals for alarm signals.

<b>Terminal side (Side-A)</b>	<b>DIP switch side (Side-B)</b>
<p>Alarm inputs (8) Alarm outputs (2) RS-485A/RS-485B</p>	<p>Address setting Baud rate setting RS-485/Coax setting SSP/Pelco setting Termination setting</p>

**JPEG Network board VA-80LAN** (sold separately)

**H.264 / JPEG Network board VA-82LAN** (sold separately)

See page 15 for details.

This expansion board for network connection enables SANYO VCC-9800P E / VCC-9700P E / VCC-9600P E / VCC-9500P E to connect to a network. The user can operate a network connected camera using a web browser (Internet Explorer). It comes with the VA-SW3050LITE viewer software.

**Video Management Software (VMS)**  
**VA-SW50** (Advanced) / **VA-SW60** (Enterprise)  
 See page 17 for details.

**Network Recorder** (sold separately)  
**VA-SW3050S** (for server) / **VA-SW3050C** (for client)  
 See page 18 for details.

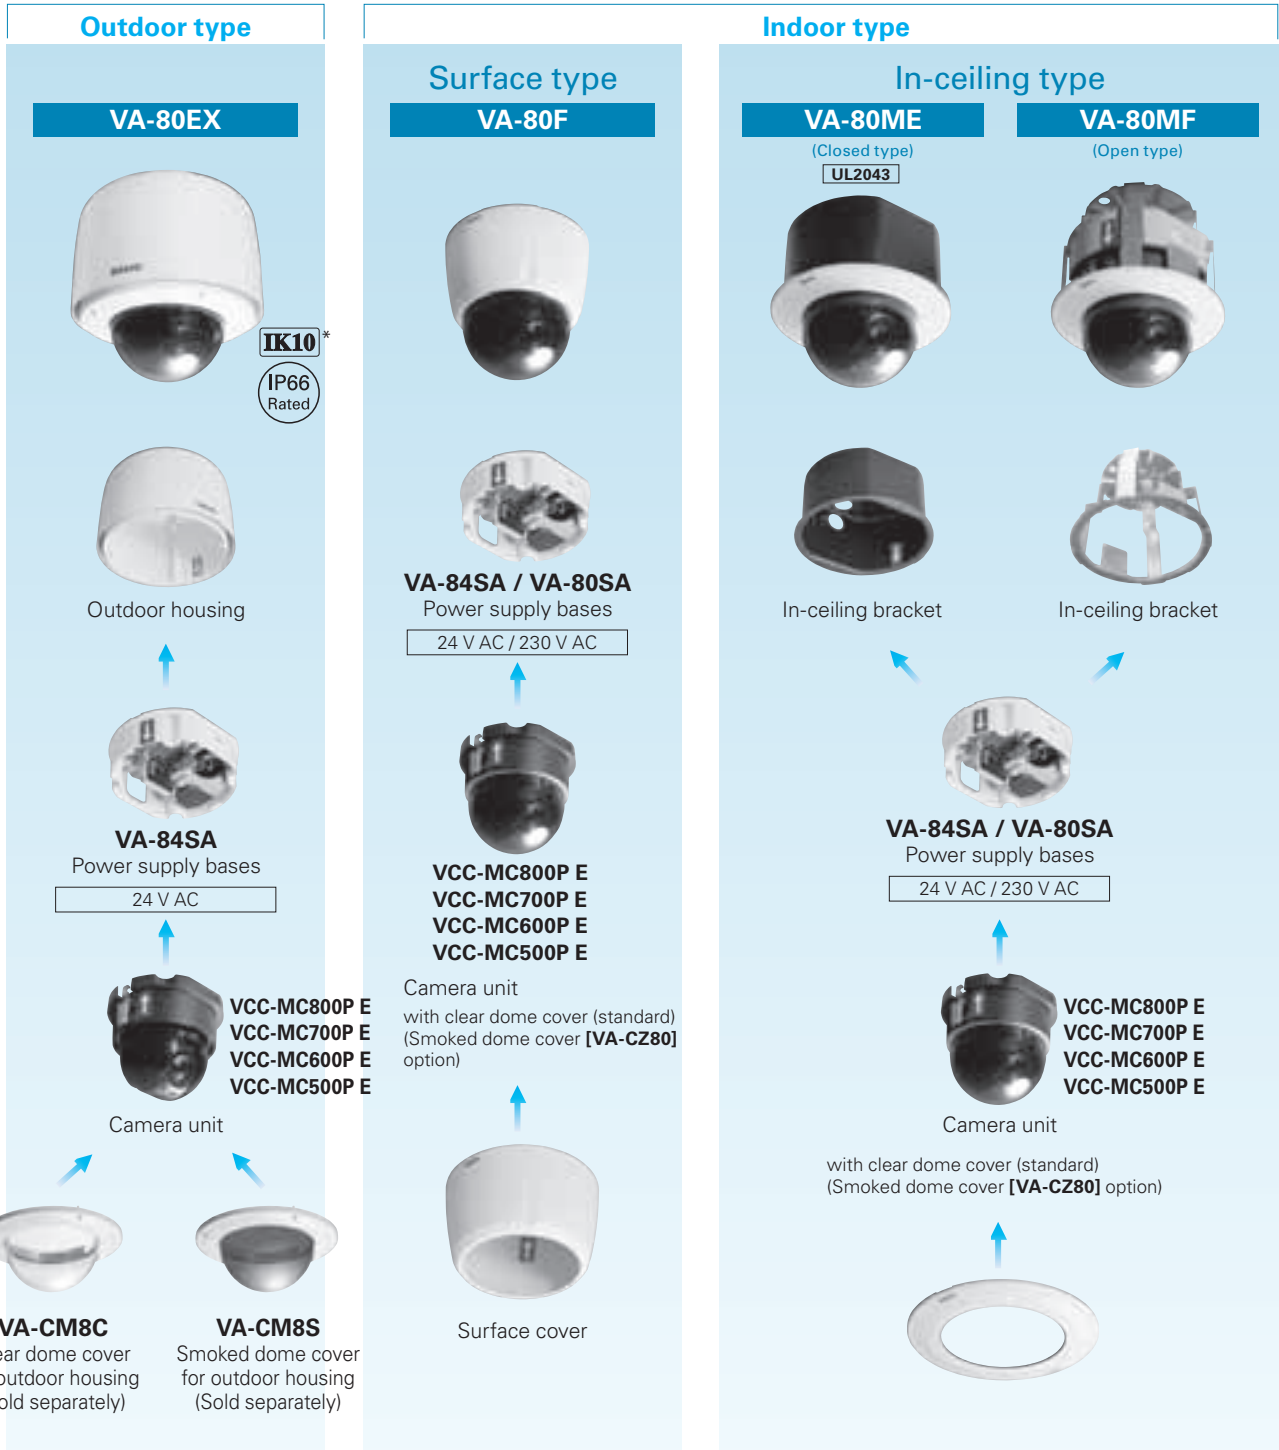

**Camera Control Unit VAC-70**  
 (sold separately) See page 42 for details.

**SSP Control Unit**  
**VSP-9000 / VSP-8500 / VSP-3000** (sold separately)  
 See page 57, 58, 59 for details.

### Available in Three Different Packages

Outdoor, Surface, or In-ceiling — Select a combination that matches your needs!

The combination of camera units and options allows the user to create tailor-made solutions. It also simplifies the installation.

\*Protection class of an impact for IK10: It supports "a protection class for the mechanical shock" of EN50102 of the European standard.

## Specialty camera

### High-resolution Weatherproof AF Zoom Camera

## VCC-XZ600P

<b>540</b> TV Lines	Minimum illumination <b>0.04</b> lx	Multi-spot / Center-zone <b>BLC</b>	ATW AWC Manual	Internal sync. Line lock
Electronic shutter	<b>SSP</b> Pelco-C/D Support	24 V AC 12 V to 15 V DC	Image Stabilizer	NVT UTP video

### High Resolution of 540 TV Lines

SANYO has improved the horizontal resolution to 540 TV lines by developing the full capability of CCD and using an IR cut filter with enhanced performance. The result is a better picture quality, which even a conventional high resolution camera cannot match.

### 32X Sensitivity Boost for Minimum Illumination of 0.00125 Lx

While achieving 0.04 lx minimum subject illumination at maximum gain, sensitivity can be further heightened 32X for 0.00125 lx minimum illumination when the sensitivity boost function is activated at 50 IRE (F1.4). [B/W mode], 0.0005 lx minimum illumination when the sensitivity boost function is activated at 20 IRE (F1.4). [B/W mode]

### Built-in Intelligent Digital Motion Detector and Zoom Detector

The Intelligent Digital Motion Detector enables reliable and accurate motion detection by analyzing the magnitude of movement and the size of object from changes in picture brightness. When a moving object is detected, VCC-XZ600P / VCC-ZM600P / VCC-ZM500P can send an alarm signal to external units and/or automatically switch to the optical zoom mode, according to the user's preference. Furthermore, an external alarm input terminal makes it possible, when an alarm signal is received, to automatically zoom in to the site of activity, according to a preset zooming operation.

### Registering a view setting file (CAMERA VIEW)

To support shooting in various surveillance conditions like when the surveillance location is bright (or dark), the CAMERA VIEW screen allows you to register up to 2 patterns of shooting settings as camera view setting files.

### High-resolution AF Zoom Camera

## VCC-ZM600P

<b>540</b> TV Lines	Minimum illumination <b>0.04</b> lx	Multi-spot / Center-zone <b>BLC</b>	ATW AWC Manual	Internal sync. Line lock
Electronic shutter	<b>SSP</b> Pelco-C/D Support	24 V AC 12 V to 15 V DC	Image Stabilizer	NVT UTP video

### IP66 Compliant Enclosure & Adjustable Arm VCC-XZ600P

The angle of the arm is adjustable in all directions. Since the flexible joint is secured by screws, the arm maintains its position without sagging over time. In addition, a safety wire is included to prevent accidents. Installation on a ceiling or wall is easy without any additional parts. The wires are securely protected inside the arm.

### Image Stabilizer

A gyro-sensor picks up camera vibration in the 5 to 15 Hz range, which is then suppressed electronically. This feature offers a clear image even in a strong wind or when the camera is installed near the heavy traffic highway.

Without image stabilization

With image stabilization

### 13 Mode Electronic Shutter Speeds

2x, 4x, 8x, 16x, 32x, 1/50, 1/120, 1/250, 1/500, 1/1000, 1/2000, 1/4000, and 1/10000 sec.

### Built-in Communication Board

SSP + Twisted pair board

Communication protocol:

Coaxial control: SSP / H-SSP / PELCO-C

RS485: SSP / H-SSP / PELCO-D

Twisted pair terminal (CAT 5) for video signal:

NVT built-in UTP video

### Maximum 480x zoom

The 30x optical zoom and 16x digital zoom can be combined for close-ups at a magnification power of 480x. This allows even distant subjects to be observed in detail, enabling one camera to monitor a wider area.

## Specialty camera

### High-resolution AF Zoom Camera

# VCC-ZM500P

**30x**  
Optical Zoom

<b>540</b> TV Lines	Minimum illumination <b>0.8 lx</b>	Multi-spot / Center-zone <b>BLC</b>	ATW AWC Manual	Internal sync. Line lock
Electronic shutter	<b>SSP</b> Pelco-C/D Support	24 V AC 12 V to 15 V DC		

### Privacy Masking

When there is a house, or even an object as small as a window within the camera frame, it is possible to mask the area so that it will not appear on the monitor screen to protect other people's privacy. Up to 4 rectangular masks of arbitrary size can be set per screen.

### Other features

- Adjustable gamma correction and aperture settings
- Display of assignable camera ID and titles (16 characters max.)
- Mirror function

### Camera Control Unit VAC-70

(sold separately) See page 42 for details.

## Specialty camera with Vari-focal lens

High-resolution Vandal-resistant IR Dome Camera

# VDC-D1785IRVP

<b>540</b> TV Lines	Minimum illumination <b>0.0</b> lx	<b>BLC</b>	<b>In-ceiling Surface</b>	<b>Vandal-resistant</b>
<b>24 V AC</b> <b>12 V DC</b>	Vari-focal IR lens	<b>IR LED</b>	<b>UTP video</b>	

### High Resolution of 540 TV Lines

SANYO has improved the horizontal resolution to 540 TV lines by developing the full capability of CCD and using an IR cut filter with enhanced performance. The result is a better picture quality, which even a conventional high resolution camera cannot match.

### 3.2x Vari-focal IR Lens

The 3.2x vari-focal IR lens (3.7 mm to 12 mm) is capable of providing wide angle pictures in addition to standard pictures.

### IR LED

There is no need to prepare a separate light source. The camera comes with an infrared LED and, therefore, all you need to do is install the camera. The built-in LED makes it possible to capture images of an intruder even in complete darkness without alerting the intruder.

Conventional Camera

SANYO IR LED Camera

### Day/Night

24-hour surveillance is now possible with just a single camera that works as a color camera during the day and a high-sensitivity B/W camera during the night. The mode of operation is automatically switched by replacing the optical filter. In addition to the IR sensing and high-sensitivity (BW) modes, the IR LED further expands the feasibility of surveillance, even in complete darkness.

### IP67

VDC-D1785IRVP is designed to fight off dust and water. The IP67 compliant package makes it suitable for outdoor installation at locations exposed to wind and rain. Of course, this does not preclude its use for indoor applications.

### Vandal-resistant Dome Camera

Vandal-resistant camera casing does not break even when hit with a hammer. Eliminates concern about the camera being damaged.

### Suitable for a variety of applications

In addition to the basic flush-mount casing for the ceiling, a surface-mount adaptor is included for increased versatility.

### Three-axis adjustment

The three-axis mechanism makes it easy to adjust the field of view. It increases freedom in installation.

### TRIPLE Video Output (BNC/UTP/ADJ)

A UTP output has been added to the conventional composite video output. It makes wiring easier and less expensive. The camera also has an added terminal for adjustment for the convenience of modifying the field of view and focus at the time of installation.

### AC / DC Power Source Compatibility

VDC-D1785IRVP comes with power supply terminals of 24 V AC and 12 V DC. Select an appropriate source, depending on the location.

MODEL	VDC-D1785IRVP	
Scanning system	PAL standard 625 lines, 50 fields/sec.	
Image sensor	1/3" (approx. 4.8 mm x 3.6 mm) interline transfer method CCD	
Picture elements	Total: 795(H) x 596(V), Effective: 752(H) x 582(V)	
Horizontal resolution	540 TV lines	
Minimum illumination	50IRE	0.7 lx (color at F 1.4, IR LED: OFF), 0.0 lx (B/W, F 1.4, IR LED: ON)

## Specialty camera with Vari-focal lens

### High-resolution WDR Vandal-resistant Dome Camera **VDC-W1595VP**

<b>480</b> TV Lines	Minimum illumination <b>1.0</b> lx	<b>WDR</b> Wide Dynamic range	<b>ATW-A</b> ATW
Internal sync. Line lock (24 V AC user)	24 V AC 12 V to 15 V DC	Vari-focal lens	

### High-resolution Vandal-resistant Dome Camera **VDC-D1585VP**

<b>520</b> TV Lines	Minimum illumination <b>0.05</b> lx	<b>BLC</b>	<b>ATW-A</b> ATW
Internal sync. Line lock (24 V AC user)	24 V AC 12 V to 15 V DC	Vari-focal lens	

### High-resolution Vandal-resistant Dome Camera **VDC-C1575VP**

<b>520</b> TV Lines	Minimum illumination <b>1.0</b> lx	<b>BLC</b>	<b>ATW-A</b> ATW
Internal sync. Line lock (24 V AC user)	24 V AC 12 V to 15 V DC	Vari-focal lens	

#### 3 variations

Wide Dynamic Range, Day/Night camera, or color High-resolution camera available. 2.3x vari-focal lens is ideal for interior. Weatherproof construction also makes it suitable for outdoor use. (IP66 rated)

#### IP66

VDC-W1595VP, VDC-D1585VP, and VDC-C1575VP are all designed to fight off dust and water. The IP66 compliant package makes them suitable for outdoor installation at locations exposed to wind and rain. Of course, this does not preclude its use for indoor applications.

#### 2.3x Vari-focal Lens

The 2.3x vari-focal lens (2.6 mm to 6 mm) is capable of providing wide angle pictures in addition to standard pictures. The camera allows its user to manually adjust the pan and tilt angles in the range of 360° and 120° respectively.

#### Vandal-resistant Dome Camera

Vandal-resistant camera casing does not break even when hit with a hammer. Eliminates concern about the camera being damaged.

# Pan-focus Camera

By adopting Cutting-edge Technology, SANYO has Developed a Pan-focus lens camera which offers better functionality with a clearer image for a broader area.

## PAN-FOCUS Technology in Perspective

**520**  
TVL  
Horizontal-resolution

The SANYO pan-focus camera delivers 520 TV lines. The DSP (Digital Signal Processor) with a proprietary algorithm produces sharp outlines and natural color with no color smudges.

### Built-in Intelligent Motion Detector and Intelligent Zoom Detector

The Intelligent Motion Detector enables reliable and accurate motion detection by analyzing the magnitude of movement and the size of object from changes in picture brightness. When a moving object is detected, SANYO's camera can send an alarm signal via SSP or network and/or switch to the optical zoom mode that can be preset either to 1.0x, 1.4x, 2.0x, or 2.6x zoom.

**2.6x zoom**

### SANYO offers the 2.6x pan-focus lens for a focused view of a broader area

With a vari-focal lens, objects that are in front of or behind the focus point are blurred. To eliminate this problem, a cutting-edge technology was developed to increase the depth of field so that everything in the field of view is in focus at the same time. SANYO has been one of the leaders in the development of this technology and has successfully commercialized the 2.6x pan-focus lens that offers an image with greater depth of field. The new lens makes it possible to capture a clear image of objects in the background.

#### Image with a pan-focus lens

- Clear focusing on all shooting area with great depth of field (D.O.F.)
- No focus adjustments
- Remote zoom adjustment by camera control unit, VAC-70

#### Image with a vari-focal lens

- Clear focusing to a specific area

# VCC-XZ200P

<b>520</b> TV Lines	Minimum illumination <b>0.06</b> lx	Multi-spot / Center-zone <b>BLC</b>	ATW AWC Manual	Internal sync. Line lock
Electronic shutter	<b>SSP</b> Pelco-C/D Support (option VA-20ST)	24 V AC 12 V to 15 V DC		

### IP66 Rated Enclosure

VCC-XZ200P is designed to fight off dust and water. The IP66 compliant package makes it suitable for outdoor installation at locations exposed to wind and rain.

### Adjustable Arm

The angle of the arm is adjustable in all directions. Since the flexible joint is secured by screws, the arm maintains its position without sagging over time. In addition, a safety wire is included to prevent accidents. Installation on a ceiling or wall is easy without any additional parts. The wires are securely protected inside the arm.

### Intelligent switching from Color to B/W

Selecting Color or B/W mode can be done automatically by the camera, or else manually. In addition, the user is allowed to change the switchover point from 1 to 10 lx (nominal) using the on-screen menu. The integration of Color and high sensitivity B/W modes in one camera makes it a versatile tool for any surveillance need. It is truly an all-in-one camera.

### Flexible Motion Detector

The Flexible Motion Detector enables reliable and accurate motion detection by analyzing the magnitude of movement and the size of object from changes in picture brightness. When a moving object is detected, VCC-XZ200P can send an alarm signal\* to external units and/or switch to the optical zoom mode that can be preset either to 1.0x, 1.4x, 2.0x, or 2.6x zoom.

\*Only when using VA-20LAN or VA-20ST board option

#### Network Board VA-20LAN (sold separately)

See page 15 for details

This expansion board for network connection enables SANYO color CCD cameras to connect to a network. The user can operate a network connected camera using a web browser (Internet Explorer). It comes with the VA-SW3050LITE viewer software.

#### Network Recorder (sold separately)

**VA-SW3050S** (for server) / **VA-SW3050C** (for client)  
See page 18 for details.

#### SSP+Twisted Pair Board VA-20ST (sold separately)

Coaxial control : SSP / H-SSP / PELCO-C  
RS-485: SSP / PELCO-D  
Twisted pair terminal (CAT5) for video signal: NVT built-in UTP video  
NOTE: The VA-20LAN and the VA-20ST cannot be used concurrently.

#### Heater Board VA-50H (sold separately)

The heater board protects the camera from cold weather. It allows the camera to operate at temperatures as low as -30°C. (24 V AC only)

#### Camera Control Unit VAC-70

(sold separately) See page 42 for details.

### Privacy Masking

When there is a house or even an object as small as a window within the camera frame, to protect other people's privacy it is possible to mask the area so that it will not appear on the monitor screen. Up to 4 rectangular masks of any desired size can be set per screen. These masking areas may be protected with a 4-digit (max.) password.

### Easy Setup with an On-screen Menu

The VCC-XZ200P offers an on-screen menu for setting up the camera any desired way.

### Other Features

- Display of assignable camera ID and title (16 characters max.)

MODEL	VCC-XZ200P
<b>Scanning system</b>	PAL standard 625 lines, 50 fields/sec.
<b>Image sensor</b>	1/4" (approx. 3.6 mm x 2.7 mm) interline transfer method CCD
<b>Picture elements</b>	Total: 795(H) x 596(V), Effective: 752(H) x 582(V)
<b>Horizontal resolution</b>	More than 520 TV lines
<b>Minimum illumination (approx.)</b>	50IRE 1.2 lx (F1.9, Gain High, Color mode) / 0.06 lx (F1.9, Gain High, B/W mode) 20IRE 0.48 lx (F1.9, Gain High, Color mode) / 0.024 lx (F1.9, Gain High, B/W mode)
<b>Video output level</b>	1.0 V (p-p) (75 Ω, composite)
<b>Video S/N ratio</b>	More than 50 dB (AGC OFF)
<b>Backlight compensation</b>	ON (Multi-spot photometry [High/Normal], Center-zone photometry) / OFF
<b>Day/Night</b>	Auto (High/Low) / Color / B/W: External control
<b>White-balance</b>	ATW / AWC / Manual (MWB) / Outdoor (3200) / Indoor (5600) / Fluorescent (FLUO)
<b>Gain control</b>	High / Normal / Off
<b>Gamma</b>	0.45 / 1
<b>Motion detector</b>	On / Off: Motion zoom function
<b>Privacy masking</b>	ON / OFF, max. 4 masked locations
<b>Electronic shutter</b>	1/50, 1/120, 1/250, 1/500, 1/1000, 1/2000, 1/4000, 1/10000 sec.
<b>Lens</b>	Built-in motorized zoom pan-focus auto iris lens, f=2.8 to 7.3 mm (2.6x), F1.9 to 3.0
<b>Synchronizing system</b>	Internal sync. / Line lock
<b>V phase adjustment</b>	LINE PHASE
<b>Optical zoom</b>	2.6x
<b>Alarm input</b>	1 (NO / NC), with alarm zoom function
<b>Character display</b>	On / Off, Camera ID max. 16 characters, adjusting position
<b>Aperture compensation</b>	High plus / High / Normal / Off
<b>Environmental conditions</b>	<b>Operating</b>
	<b>Storage</b>
<b>Power requirement</b>	24 V AC ± 10%, 50 Hz or 12 V to 15 V DC
<b>Power consumption (approx.)</b>	3.5 W (without options), 6.0 W (with options), 13.0 W (with heater)
<b>Dimensions (approx.)</b>	141(W) x 172(H) x 400(D) mm [5.6(W) x 6.8(H) x 15.7(D) in.]
<b>Weight (approx.)</b>	1.56 kg [55.0 oz.] (without sunshade) 1.76 kg [62.1 oz.] (with sunshade)

## Pan-focus camera

High-resolution Vandal-resistant PTZ Dome Camera

### VDC-DP9585P

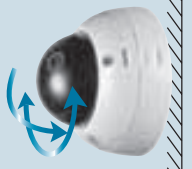

<b>520</b> TV Lines	Minimum illumination <b>0.06</b> lx	Multi-spot / Center-zone <b>BLC</b>	<b>PT</b> mechanism	Internal sync. Line lock
Electronic shutter	<b>SSP</b> Pelco-C/D Support	24 V AC 12 V to 15 V DC	NVT UTP video	

#### PTZ Operations

VDC-DP9585P / VCC-P9575P comes with a PT mechanism and allows panning of 335 degrees (55 degrees\*) and tilting of 90 degrees (90 degrees\*) to reduce blind spots in the surveillance area. When particular angles are preset on the camera (up to sixteen points), it moves to each position quickly at the speed of 120 deg/sec max. For both panning and tilting. Combining these features with the motion detector, it is possible to catch all actions taking place in the area.

\* For wall-mounted cameras

<b>Ceiling</b>	<b>Wall</b>
	
PAN 0 to 335° TILT 0 to 90°	PAN 0 to 55° TILT 0 to 90°
<b>Operation protocol</b>	
Coaxial Control: SSP / H-SSP / PELCO-C RS-485: SSP / PELCO-D	

#### 16 Preset Positioning and Sequential Monitoring Functions

Up to 16 preset positions (with different settings for pan, tilt, and zoom) can be registered for a single VDC-DP9585P / VCC-P9575P. A simple key entry to a controller allows you to easily switch to the scene you want to monitor. Auto-pan monitoring can be also be programmed by designating two end points on a horizontal plane.

High-resolution Indoor mini PTZ Dome Camera

### VCC-P9575P

<b>520</b> TV Lines	Minimum illumination <b>1.9</b> lx	Multi-spot / Center-zone <b>BLC</b>	<b>PT</b> mechanism	Internal sync. Line lock
Electronic shutter	<b>SSP</b> Pelco-C/D Support	24 V AC 12 V to 15 V DC	NVT UTP video	

#### High sensitivity minimum required illumination

Minimum required illumination is an impressive 0.06 lx at F1.9 in B/W mode and 1.2 lx at F1.9 in color mode.

#### Privacy Masking

When there is a house or even an object as small as a window within the camera frame, to protect other's privacy it is possible to mask the area so that it will

not appear on the monitor screen. Up to 8 rectangular masks of any desired size can be set. These masking areas may be protected with a 4-digit (max.) password.

#### Twisted pair terminal (CAT5)

Twisted pair terminal (CAT5) for video signal:  
NVT built-in UTP video 

#### Tough, Impact-resistant Body

The IP66 compliant weatherproof enclosure can resist tampering by intruders. The drip-proof finishing makes it suitable for outdoor installations.

#### VDC-DP9585P

#### Built-in Electronic Shutter

A high-speed electronic shutter that is internally switchable for eight modes using a DIP switch allows adjustment increments from 1/50 to 1/10000 sec.

#### AC / DC Power Source Compatibility

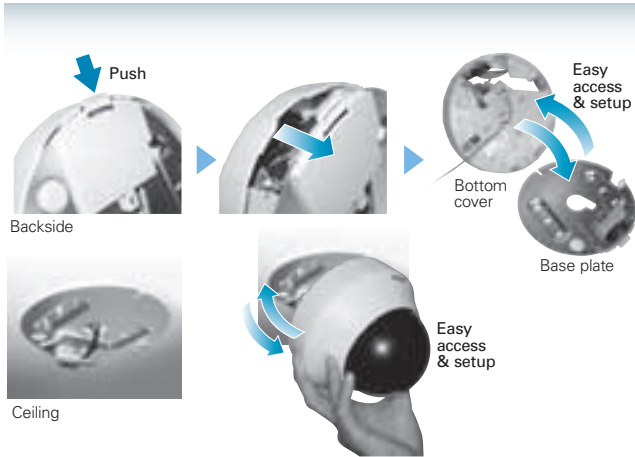

VDC-DP9585P / VCC-P9575P come with power supply terminals of 24 V AC and 12 V to 15 V DC. Select an appropriate source, depending on the location.

## Easy interior access and setup

### VCC-P9575P

The camera unit and bottom cover can be detached very simply. Moreover, easy attachment and detachment of the bottom cover to and from the base plate for installation to the ceiling or wall simplifies setup and camera angle adjustment at the point of surveillance.

## Other Features

- Includes intelligent motion detector
- Display of assignable camera ID and titles (16 characters max.)

### Heater Board VA-50H (sold separately)

See page 34 for details for VCC-DP9585P

The heater board protects the camera from cold weather. It allows the camera to operate at temperatures as low as -30°C. (24 V AC only)

### Camera Control Unit VAC-70

(sold separately) See page 42 for details.

### Smoked Cover VCZ-50 (sold separately)

See page 34 for details for VCC-P9575P

### Half-Mirror Cover VCZ-51

See page 34 for details for VCC-P9575P

### SSP Control Unit

**VSP-9000 / VSP-8500 / VSP-3000** (sold separately)

See page 57, 58, 59 for details for details

# New Advanced Wide Dynamic Range Camera

- VCC-WD8875P
- VCC-WD8870P
- VCC-W8775P
- VCC-W8770P

## Advanced WDR Image Processing System

### A new WDR method and a newly developed CMOS sensor produce new technology

A new CMOS sensor and SANYO's advanced technology have made it possible to capture the surveillance subject with an image processing technique that is closer to human vision, to produce a true-color, high-resolution video picture regardless of light source. The new engine generates a linear output of low and high illumination areas without a time-lag, leading to a natural image with a dynamic range a great deal wider than that of conventional products. The sensor generates a smear-less output distinctive of a CMOS element, but with a sensitivity equivalent to CCD, to offer an image much brighter than ordinary CCD cameras. This is, indeed, a camera with a human eye.

### Sanyo's New CMOS Sensor

An enhanced CMOS sensor has made it possible to pick up additional information electrons that have been left out in the past. This increase in information density results in an accurate reproduction of images closer to reality.

### Progressive Scan Format

SANYO's new WDR camera uses the simultaneous read method for the image received by the sensor. Compared to the conventional multi-sampling method, the camera has no delay in signal, making it possible to depict edges more clearly when tracking a moving object. It also eliminates flickering of blinking light sources and offers video images more friendly to the human eye.

### The horizontal resolution of 550 TVL (typical) leads the industry.

The combination of superior picture with a horizontal resolution of 550 TVL and WDR makes it possible to capture the surveillance subject's image more vividly.

### Retina-Morphic processing

The retina replication algorithm, a new technology made possible by Iridix® and SANYO, has made it possible to make real-time dynamic range correction. SANYO's WDR cameras utilize this technology to reproduce contrast that exceeds the capability of human eyes, and to deliver true colors even in an environment where the brightness changes rapidly.

Conventional Camera

SANYO WDR Camera

### Pure and natural color reproduction with the Bayer RGB filter

An RGB filter is a filter used to extract the three primary colors of light. The use of an enhanced filter results in the generation of faithful and natural colors.

### Super Dynamic Range of 65dB

SANYO's Advanced WDR camera has achieved super dynamic range of 65dB in the industry top class by combining with the new WDR CMOS sensor and SANYO's Advanced Image Processing Engine. (Advanced WDR Image Processing System)

### An enhancement of the DNR (Digital Noise Reduction)

function enables unprecedented low-noise levels. A high-performance DNR function suppresses S/N ratio deterioration associated with the enhancement of darker areas. As a result, almost noise-free image processing is now possible to produce images that are free of jumps in contrast.

DNR OFF

DNR ON

### The Minimum Illumination of 0.8 lux

Although CMOS sensors were considered poor at handling scenes with low illumination, SANYO's advance technology has solved the problem. The sensitivity is now as good as CCD.

### Incorporates Premium Bayer Mosaic RGB Filter

The Advanced WDR camera also makes use of the acclaimed Bayer Mosaic RGB filter which extracts light's three primary colors (red, green and blue) from the CMOS sensor to deliver highly realistic and vivid colors that allow extremely accurate color reproduction.

### White Balance

White balancing is an important and fundamental feature in surveillance systems. Backed by its 40 years of experience, SANYO has developed a pure white balance function to achieve faithful color reproduction.

Conventional Camera

SANYO WDR Camera

### Smearless

Conventional CCD units are known to generate vertical noises (smears) associated with bright spots. The new sensor diminishes these smears and offers a clear and bright picture.

Conventional cameras

SANYO WDR Camera

### Day/Night

VCC-WD8875P / VCC-WD8870P

24-hour surveillance is now possible with just a single camera that works as a color camera during the day and a high-sensitivity B/W camera during the night. The mode of operation is automatically switched by replacing the optical filter. The use of an optical filter in the color mode also allows video recording in true colors.

Day (color image)

Night (black & white image)

### Dual Power Source of 24 V AC and 12 to 15 V DC

VCC-W8775P / VCC-WD8875P

These models support dual power supply to allow flexible operation in diverse circumstances.

### Power Source of 230 V AC

VCC-W8770P / VCC-WD8870P

The AC power source is for 120 to 240 V.

\* Iridix technology is provided by Apical Limited, UK.

Images used may differ slightly from actually recorded scenes.

(Unit: mm)

MODEL	VCC-WD8875P	VCC-WD8870P
Scanning system	PAL standard 625 lines, 50 fields/sec.	
Image sensor	1/3" (approx. 4.5 mm x 3.38 mm) Progressive scan method CCD	
Picture elements	800(H) x 600(V) effective picture elements	
Horizontal resolution	550 TV lines (Typical)	
Minimum illumination (approx.)	0.8 lx (at F1.2 color mode) / 0.08 lx (at F1.2 B/W mode)	
Video output level	1.0 V (p-p) (75 Ω, composite)	
Video S/N ratio	More than 50 dB (AGC OFF)	
Backlight compensation	ON / OFF	
Wide Dynamic	ON/OFF, adjusting level etc. D-range: 65dB	
Day/Night	Auto / Color / B/W: supported external control	
White-balance	ATW / Manual	
Light control	Optical auto iris lens / Electronic iris	
Electronic iris	ON / OFF, 1 / 50 to 1 / 36,000sec	
Electronic shutter	1/50, 1/120, 1/250, 1/500, 1/1000, 1/2000, 1/4000, 1/10000 sec.	
Lens iris level	level: L to H	
Lens mount	CS mount	
Auto iris output	DC type	
AGC gain	HIGH / NORMAL / OFF	
Synchronizing system	Internal sync. / Line lock	
Aperture	HIGH / NORMAL / LOW / OFF	
Menu	OSD, title setting: 16characters	
Environmental conditions	Operating Temperature: -10°C to 50°C [+14°F to 122°F] Humidity: within 90% RH Storage Temperature: -20°C to 70°C [-4°F to 158°F] Humidity: within 70% RH	
Power requirement	24 V AC ±10%, 50 Hz or 12 V to 15 V DC	220 V to 230 V AC, 50 Hz
Power consumption (approx.)	6.9 W	6.5 W
Camera mount	1/4" - 20 UNF (top / buttom selectable)	
Dimensions (approx.)	71.0 (W) x 45.0 (H) x 120.5 (D) mm [2.8 (W) x 1.8 (H) x 4.7 (D) inch]	71.0 (W) x 45.0 (H) x 140.5 (D) mm [2.8 (W) x 1.8 (H) x 5.5 (D) inch]
Weight (approx.)	330 g [11.6 oz.]	550 g [19.4 oz.]

## Dome Camera with Vari-focal Lens

High-resolution Indoor mini Dome Camera with Vari-focal Lens

# VCC-9685VP

<b>540</b> TV Lines	Minimum illumination <b>0.5 lx</b>	Multi-spot / Center-zone <b>BLC</b>	<b>ATW</b> Manual	Internal sync. Line lock
<b>Electronic shutter</b>		<b>24 V AC</b> <b>12 V to</b> <b>15 V DC</b>	<b>Vari-focal Lens</b>	

### Entry model in mini-dome cameras

The indoor mini dome camera VCC-9685VP is a highly sensitive model with a vari-focal lens that offers a superior picture quality of 540TVL and enables the user to capture natural images by combination with a backlight compensation feature.

### Easy interior access and setup

The camera unit and bottom cover can be detached very simply. Moreover, easy attachment and detachment of the bottom cover to and from the base plate for installation to a ceiling or wall simplifies setup and camera angle adjustment at the point of surveillance.

### 2.9x Vari-focal Lens

The 2.9x vari-focal lens (2.8 mm to 8 mm) is capable of providing wide angle pictures in addition to standard pictures.

### AC / DC Power Source Compatibility

VCC-9685VP comes with power input terminals of 24 V AC and 12 V to 15 V DC. Select an appropriate source, depending on the location.

### Built-in Electronic Shutter

A high-speed electronic shutter that is internally switchable for eight modes using a DIP switch allows adjustment increments from 1/50 to 1/2000 sec.

LSB	ON	OFF	ON	OFF
MSB	ON	ON	OFF	OFF
Speed	1/2000	1/1000	1/120	1/50

### Simplified Settings

Hardware switch	ON	OFF
White balance switch	MWB	ATW
Aperture compensation setting	SHARP	NORMAL
Backlight compensation mode setting	MULTI	OFF
	CENT	OFF
Synchronizing system setting	Line Lock	Internal
Electronic shutter	LSB	ON
	MSB	ON

### Twisted pair board VA-10T (sold separately)

Twisted pair terminal (CAT5) for video signal:

NVT built-in UTP video

### Smoked Cover VCZ-50 (sold separately)

See page 34 for details for VCC-PN9575P

### Half-Mirror Cover VCZ-51

See page 34 for details for VCC-PN9575P

### In-Ceiling Bracket VA-DK02 (sold separately)

See page 34 for details

• **Other brackets** See page 34

### VCC-9685VP

MODEL	VCC-9685VP
<b>Scanning system</b>	PAL standard 625 lines, 50 fields/sec.
<b>Image sensor</b>	1/4" (approx. 3.6 mm x 2.7 mm) interline transfer method CCD
<b>Picture elements</b>	Total: 795(H) x 596(V), Effective: 752(H) x 582(V)

Dummy Camera  
**VC-0410**

- Ideal for a location requiring many cameras.
- Simply installing dummy cameras helps prevent crime.

Dummy Camera  
**VC-0450**

- A dome-shaped dummy camera that can be installed without spoiling the appearance of the building.
- Simply installing dummy cameras helps prevent crime.

Camera Mount  
**VA-VCT31**

- Possible to guide cable through pipe
- Maximum turning angle 360° horizontally and 105° vertically
- Maximum bearing weight 4 kg

Camera Control Unit  
**VAC-70**

Optional Accessory

The control unit allows the user to control\* and change camera settings.

**Technical Notes**

**Formula for determining the minimum subject illumination for different F value**

The amount of light passed through a lens is expressed by a value called "aperture value" (F value or F number). When the aperture is fully open (maximum aperture), the maximum amount of light is passed through the lens. This is the lens' brightness and is expressed by the "maximum aperture F value". The maximum aperture F value is obtained by dividing the focal length with the lens diameter (D). The capital letter "F" is used to distinguish it from "f", which means the focal length.

$$\text{Standard minimum subject illumination} \times \left( \frac{\text{Target F value}}{\text{Lens F value used for measurement}} \right)^2$$

**Example:**

For a lens of F1.2, use the value of 1.0 lx which is obtained by actual measurement.

When using a lens of F1.4:  
 $1.0 \times \left( \frac{1.4}{1.2} \right)^2 = 1.4 \text{ lx}$

When using a lens of F1.6:  
 $1.0 \times \left( \frac{1.6}{1.2} \right)^2 = 1.8 \text{ lx}$

$$F = \frac{f}{D}$$

SANYO defines the minimum subject illumination to be the level that produces the signal level of 50 IRE in measuring camera performance.

**For a comparison of minimum subject illumination:**

Always confirm the F value and the IRE level used in the measurement. If the F value and the IRE level do not match, then convert the values in camera specifications using the following method.

**Measurement Circuit:**

- A full-screen shot of the test chart
- Adjust the level so that the white portion in the middle of the test chart is set to 100 IRE.
- Reduce the light until the signal of the white portion drops to 50 IRE and measure the luminous intensity.

**Image Range Formula**

**Combination of 1/4" CCD camera and lens**

- Width (m) of subject that can be shot =  $\frac{3.6 \times L}{f}$
- Height (m) of subject that can be shot =  $\frac{2.7 \times L}{f}$

**Combination of 1/3" CCD camera and lens**

- Width (m) of subject that can be shot =  $\frac{4.8 \times L}{f}$
- Height (m) of subject that can be shot =  $\frac{3.6 \times L}{f}$

L : Distance between lens and subject (m)  
 f : Lens focal length (mm)  
 W : Width of subject (m)  
 H : Height of subject (m)

\*Actual shooting range may be smaller due to TV over scanning.

# Digital Video Recorder

Digital Technology Offers Multi-functional Recording with Superior Picture Quality Networking for Remote and Round-the-Clock Surveillance

## Quality Digital Recording

The DSR series utilizes JPEG2000, M-JPEG, and MPEG-4 video compression methods to offer clear and sharp crispy video recording. Simultaneous recording and playback is now possible with elegantly smooth motion.

## Network

Each unit in the DSR series features a Network terminal. Monitoring live video, playing back and reviewing recordings, starting a new recording, searching for recorded images, camera control, camera setup — all operations are possible from a PC with a network connection (using Internet Explorer version 5.0 or newer or Utility Software). It also enables the user to download recorded video and audio onto the PC.

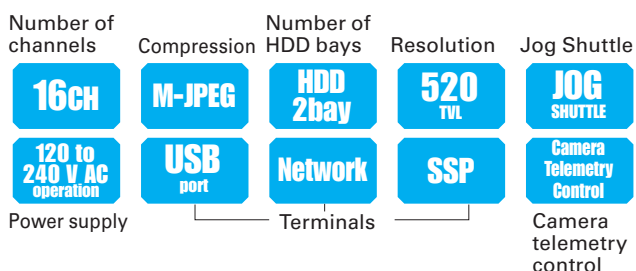

The DSR series models use either JPEG2000, Motion JPEG or MPEG-4 format, each of which has its own characteristics and advantages, so please select the DSR series model most suitable for your requirements.

### Characteristics of Video Compression

Model	Compression	Characteristics
DSR-5709P DSR-5716P	JPEG2000	A high compression rate is achieved while eliminating block noise and pixelation associated with the JPEG format.
DSR-3709PA DSR-3716PA	Motion JPEG	Motion pictures are produced by successive decompression-reproduction of frames recorded in JPEG format. Compared to MPEG, the compression rate is lower and the picture quality is higher.
DSR-2004 DSR-2016 DSR-HB8000	MPEG-4	The MPEG-4 standard was designed to reproduce a wide range of moving pictures from those on a low speed communication line to those with high-definition TV picture quality.

### Recorder Function Explanation

#### Legends

## 16ch

### Multi-screen Display

For both live picture monitoring (during multiplex recording) and playback of recorded pictures, the user can select from 16-screen display, 9-screen display, 4-screen display, and full-screen display.

- 4-screen display • Full-screen display
  - Screen position assignment\* • Monitor masking
- \* Does not apply to the DSR-20xx series.

## JOG SHUTTLE

### Jog Shuttle

(\* Also used to select menu options.)

#### Jog Dial

Simply by turning the Jog Dial with your finger to the left or right, the monitored images can be made to run forward or backwards for easy checking.

#### Shuttle Ring

Simply by turning the Shuttle Ring to the left or right, you can switch from playback to forward or reverse playback, or forward or reverse search. From pause, you can switch to forward or reverse slow-motion playback, normal speed playback, or search. Operation of these functions is easy, allowing very efficient searching.

### 1 Built-in Motion Sensor

DSR series comes with a built-in motion sensor. Different settings can be made for each camera image independently. The sensor can detect moving objects within the screen by picking up changes in brightness. The user can use this feature to trigger an alarm recording.

### 2 Mirror Recording

With two HDD's of the same capacity installed, it is possible to record the same video on both of them, thus allowing for a backup.

\* Does not apply to DSR-20xx series

### 3 Timer Recording

Uniform daily programming or independent programming for each day of the week are both available. Further, holidays\* can be entered by specifying the date and the month for which Sunday programming should be applied.

\* The DSR-20xx series does not support the holiday setting.

### 4 Alarm Recording

When an alarm signal is received from an external sensor, the recorder will automatically start recording in a mode predetermined by the user.

### 5 Alarm Counter

This feature allows the user to keep and display records of the date and time of alarms.

### 6 Video Loss Alarm

When the video signal feed is lost due to one of the following reasons, a buzzer sounds and the word "VIDEO LOSS" is displayed on the screen.

1. Wire breakdown
2. Disconnection of video terminal
3. Loss of power on a camera or other intermediary equipment

### 7 Disc Full Alarm

During a recording, an alarm can be set to give off a buzzer sound, along with a message on the display.

### 8 Fan Error / Disc Error

A beep will sound when an error occurs on the fan or the disc.

### 9 Time / Date Search

Searching recorded pictures is available by specifying the time and date.

### 10 Alarm Search

A list of up to 8 stored recordings (alarm number, recording date and time) along with a preview window offers the user an easy way of searching and playing back a particular event. You can easily switch to a full screen display and display a still picture, or perform a fast-forward search simply by turning the shuttle or jog dial or key button.

### 11 Alarm Thumbnail Search

It is possible to display up to 9 thumbnails for video recordings in the alarm area along with their respective alarm numbers. This feature allows the user to search for a particular event without playing back each recording.

### 12 Alarm Log Search

A search is narrowed using a log file by selecting the time, minute, month, and the day of the week on a GUI, and then the desired scene can be selected.

\*Does not apply to DSR-37xx series

### 13 Motion Detection Search

By setting a motion sensor on the screen, any scene with motion in the specified area will be brought up for further review.

\*Does not apply to DSR-20xx series

### 14 Archive Area Search

A list of up to 8 stored recordings (copied to archive area, recording date and time), along with a preview window, offers the user an easy way of searching and playing back a particular event. You can easily switch to a full screen display and show a still picture, or perform a fast-forward search simply by turning the shuttle or jog dial.

\*Does not apply to DSR-2004, DSR-2016 and DSR-HB8000

### 15 Security Lock

To prevent unauthorized manipulation or accidental operation while recording, the user can lock the functionality of the operation buttons, the jog dial, and the shuttle ring. There are two types of security lock: a quick method security lock and a 4 digit security lock.

### 16 Auto Delete Function

The allows the user to specify the storage period for each video clip, from one day up to 99 days.

When the specified period expires, the data will be automatically deleted.

### 17 30-day Memory Back-up

A built-in lithium battery is used to protect various DVR settings for 30 days.

### 18 Lifetime Counter

The monitor screen displays "used-time" counter (total power-on time.)

### 19 Buzzer

An alarm is indicated by a beep.

### 20 SMTP

An alarm can trigger an e-mail message sent to a preset address.

\*Does not apply to DSR-37xx series

### VGA output

#### VGA Output

Provides an analog RGB component video signal output for a monitor.

\*Does not apply to DSR-37xx series

### 4 USB port

#### USB Terminal

Useful in connecting an external disk writer and/or USB Memory device.

### 21 Local Back-up / Copy

Increases data portability Video downloading and MENU uploading / downloading by allowing the use of a compact flash memory.

### Network

#### Network Terminal

There is a built-in 100BASE-TX / 10-BASE-T LAN terminal, allowing remote surveillance / control from PC via network.

### SSP

#### SSP (RS-485/422) Compatible

By using SSP (SANYO Security Serial Protocol), cameras, multiplexers, DVRs and VCRs in a daisy chain over a distance of up to 1200m (4000 feet) can be controlled centrally with just one controller.

### 22 RS-232C Compatible

With RS-232C compatible recorders various operations are possible from an external computer.

\*Only DSR-HB8000

### Camera Telemetry Control

#### Camera Telemetry

The DVR can be used to control connected cameras.

\* The recording time may vary slightly depending on the complexity of the images and the presence of an audio signal.

\* The recording time will change depending on the settings for the storage area, and the availability of an optional HDD. Contact the place of purchase for details on increasing the capacity by adding a HDD.

### Optional External Unit (sold separately)

Optional units for the expansion of the DSR series, depending on the main unit used.

#### External HDD unit VA-EXH

The VA-EXH is an expansion unit that employs four HDD bays and enables further extension of recording time. for DSR-5716P / DSR-5709P \* Requires VZU-SATB1.

#### Disc writer VA-EXD1 B

This external DVD / CD-Writer is a perfect match for DSR-5716P / DSR-5709P.

#### Disc writer VA-EXD1 W

This external CD-Writer is a perfect match for DSR-3716PA / DSR-3709PA.

### Optional Accessories (sold separately)

#### S-ATA Board VZU-SATB1 for VA-EXH

The VZU-SATB1 enables the connection to an external HDD unit.

#### SCSI Board VZU-SCB1

The VZU-SCB1 enables the connection to an external RAID system. For further details on compatible devices, please contact the place of purchase.

#### Rack Mount Bracket VA-RACMK1 for VA-EXD B / VA-EXD W

#### Rack Mount Bracket VA-RACMK2 for DSR-5716P / DSR-5709P / DSR-3716PA / DSR-3709PA

#### Rack Mount Bracket VA-RACMK3 for DSR2016

#### VA-EXH

#### VA-EXD1 B, VA-EXD1 W

(Unit: mm)

16ch Digital Video Recorder  
**DSR-HB8000**

<b>16ch</b>	<b>MPEG-4</b>	<b>HDD 3bay+ 2bay W/S-ATA card</b>	<b>520 TVL</b>	<b>120 to 240 V AC operation</b>
<b>VGA output</b>	<b>4 USB port</b>	<b>Network</b>	<b>SSP</b>	<b>Camera Telemetry Control</b>

**MPEG-4**

The MPEG (Moving Picture Experts Group) -4 standard was designed to reproduce a wide range of moving pictures from those on a low speed communication line to those with high-definition TV picture quality. Also available is SANYO's proprietary format, the MPEG-4+ mode, which requires fewer resources. It is more advantageous in networks, enabling smooth video reproduction with a special playback operation.

**Digital security system is composed of analog and network cameras in a system**

The DSR-HB8000 is a hybrid model that is capable of connecting and controlling network cameras\* and conventional analog cameras simultaneously. \*Supported by JPEG only

**Simultaneous Recording and Playback (Max. 720 x 576 pixels per channel)**

**Camera Telemetry Control**

DSR-HB8000 is capable of controlling PTZ dome cameras and zoom cameras through coaxial cables or RS-485. It also allows this control from a network PC or a controller. The unit also supports protocols of other major brands.

**Full-motion, Multiple Screen Display of Live Video Images**

The monitor can display different video images from 4ch up to 16ch simultaneously, in addition to displaying a single channel in full-screen mode.

**Add Text Information on the Surveillance Video**

Recorded images can be looked up using the text data in the electronic journal. The AVE Interface provides access to the journal data containing information on a POS system or ATM terminals. For example, a transaction record on such systems can identify the operator, the time and date, the terminal, or the customer for any deposit, withdrawal, or exchange. This will serve as a valuable tool in enhancing the security system.

**Extensive Search Functions**

**One Channel Search:** Searches for recorded video on a specific channel and plays it back.

**Time/Date Search:** Playback recorded video by specifying date and time.

**Thumbnail Search:** Displays a list of up to 24 images from the checked video in panorama mode.

**Motion Search:** Using motion detection, searches for video containing moving objects.

**Time Bar Search:** Displays a data mapping of recorded video on all channels and playback multiple video in multi-screen.

**Text Search:** Searches for texts and video using keywords in a POS (Point of Sales System) recording data.

**Alarm Log Search:** Searches for video from an event list.

**Monitor Plus**

By connecting four DSR-HB8000 units via a network, this feature offers a capability to view all 80 camera images on the main DSR-HB8000 unit.

**This monitor can view all 80 cameras**  
 16 cameras on DVR 1  
 16 cameras on DVR 2  
 16 cameras on DVR 3  
 16 cameras on DVR 4  
 16 cameras on DVR 5

**Easy and Secure Backup**

With the DSR-HB8000, the user can simply click on the Data Back-up icon on the Surveillance screen to store and manage a large amount of information on the network. In addition to the built-in HDD, a CD-R, CD-RW, or DVD on the integrated CD / DVD drive or a memory stick on the USB port can be selected as a backup destination.

## Supports NAS

Firmware version. No.:1.1.1 or later

A NAS\* (Network Attached Storage) is a single-purpose server (server appliance) that consists of a hard disk drive, network interface, OS, and management utilities. Since a NAS serves as an independent file server that allows network file sharing, DSR-HB8000 allows the user to store backup files on three different NAS systems. The built-in file system and network communication capability makes it easy to configure a system or make an addition to existing systems.

\* DSR-HB8000 DVR Utility software allows access to backup data enabling the user to replay stored video or extract data.

### \*NAS:

NAS is a general term referring to storage that is accessible by the use of LAN (Ethernet, FDDI, etc.) connected file systems, such as a NFS (Network File System) or a CIFS (Common Internet File System).

MODEL	DSR-HB8000
<b>Hard disk capacity</b>	One System Disk (S-ATA) + Two S-ATA HDD Bays + One Removable S-ATA HDD Tray + Two HDD w/S-ATA card (option) x 2 Max. HDD Capacity 5TB
<b>CPU</b>	Intel Pentium® 4 3.00GHz
<b>Operating system</b>	Microsoft Windows® XP Embedded
<b>Picture resolution (pixels)</b>	720 x 576, 720 x 288, 360 x 288
<b>Video codec</b>	MPEG-4, MPEG-4+
<b>Audio codec</b>	G.721, 8kHz sampling rate
<b>Picture quality</b>	5 levels (Basic, Normal, Enhanced, Fine, Super Fine)
<b>Recording speed</b>	400IPS/16ch (CIF), 200IPS/8ch (Half D1), 100IPS/4ch (D1)
<b>Still image capture (BMP/JPEG)</b>	720 x 576, 720 x 288, 360 x 288
<b>Number of cameras</b>	16 (IP camera: 8 units max.)
<b>Menu language</b>	English / French / Spanish / German / Italian
<b>Telemetry Control Protocol</b>	COAX: SANYO (H-SSP) / PELCO-C, BBV RS-485: SANYO (SSP) / PELCO-D / VICON / ULTRAK KALATEL / VCL / BBV / AMERICAN DYNAMICS
<b>Search mode</b>	One Channel Search, Time/Date Search, Thumbnail Search, Motion Search, Time Bar Search, Alarm Log Search Text Search
<b>Signal format</b>	PAL standard (Color) / CCIR standard (B/W) auto select, 625 lines, 400IPS
<b>Video input</b>	VBS / VS 1.0 V (p-p) 75 Ω, BNC x 16
<b>Video output</b>	BNC x 16 (Loop through), VGA x 1*1
<b>Main monitor output</b>	VS 1.0 V (p-p) 75 Ω BNC x 1*1
<b>Monitor 2 output</b>	VBS / VS 1.0 V (p-p) 75 Ω BNC x 1
<b>Audio input</b>	16ch: MicroCross connector x1 (rear)
<b>Audio output</b>	-8 dBs 600 Ω unbalanced mini jack x 1 (rear)
<b>Speed (Live)</b>	Max. 400IPS (16 screen split)
<b>Display Emulation</b>	Monitor Plus (Up to total 5 DVRs display)
<b>Screen split</b>	1, 4, 7, 8, 9, 10, 13, 16
<b>Backup storage support</b>	Internal DVD / CD drive, Internal Removable HDD (S-ATA), USB 2.0 x 4 (front x 2, rear x 2), NAS (TCP/IP)
<b>Interface</b>	ADSL, LAN / DDNS
<b>LAN</b>	RJ-45 x 1, LAN: 10/100/1000BASE-TX Compatible protocol: UDP, TCP/IP, HTTP, DHCP, SMTP, NTP, PPP server
<b>RS-485</b>	RJ-11 x 2, (With a termination switch)
<b>RS-485 (2ND)</b>	PTZ port x 1
<b>RS-232C</b>	D-sub 9-pin x 1
<b>USB</b>	USB 2.0 x 4 (Front x 2, Rear x 2)
<b>Sensor alarm input (Push lock)</b>	No-volt contacts, (100ms or more) x 16
<b>Alarm output (Push lock)</b>	Open collector, Low level active (Max. 25 mA) x 16, Relay output
<b>Mouse control input</b>	PS / 2 x 1
<b>Keyboard input</b>	PS / 2 x 1
<b>Expansion slot</b>	PCI x 5 (PCI-express x 2, PCI x 3)
<b>Power source</b>	100 V to 240 V AC, 50 / 60Hz
<b>Power current</b>	8A (100 V AC), 4A (240 V AC)
<b>Operating conditions</b>	Temperature: 5°C to 40°C (41°F to 104°F) Humidity: 30 to 80%RH (non-condensing)
<b>Storage temperature</b>	-5°C to 60°C (23°F to 140°F)
<b>Dimensions</b>	431(W) x 177(H) x 458(D) mm (17.0(W) x 7.0(H) x 18.0(D) in) —mountable as 4U rack unit
<b>Net weight (approx.)</b>	21.8 kg (44.1 lbs.) (HDD x 4, DVD-R/W x 1)
<b>Standard accessories</b>	Keyboard x 1, Mouse x 1, AC power cord (European x 1, North American x 1), S-ATA cable x 2, Audio conversion cable, Rack mounting kit (1 set), Removable HDD key x 2, Front panel key x 2 DVD-ROM x1 (Recover disc: Windows XP), CD-ROM x1 (Application disc: Operation / programming manual)
<b>Option</b>	S-ATA*2 card (Support add S-ATA HDD x 4), POS/ATM

NOTE: Specifications subject to change without notice

\*1 Either the video output or VGA output can be enabled at any one time.

\*2 For the detail contact the place of purchase.

### Warnings regarding HDDs

- Do not attempt to install or replace a HDD on your own. You cannot use these HDDs on PCs.
- The unit may be damaged if it is exposed to an impact or vibration, or the power plug is disconnected during operation.
- Sanyo will not be held liable for any data loss due to an HDD error or a failure during recording.
- "Microsoft" is registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries.
- All other company and product names are registered trademarks and/or trademarks of their respective owners.

(Unit: mm)

16ch Digital Video Recorder  
**DSR-5716P**

Made in Japan

16ch	JPEG 2000	HDD 2bay	520 TVL	JOG SHUTTLE
VGA output	USB port	Network	H-SSP only	Camera Telemetry Control

**A High-end Recorder Offering 100 IPS in JPEG2000 Enables extended recording in superior picture quality. It's an advanced model with new network features.**

**An all-in-one Unit with Superior Expandability that Also Serves as a System Hub**

The DSR-5716P / DSR-5709P processes a variety of signals — digital, SSP, network — and can play the role of a system hub. It offers clear picture recording and split-screen surveillance and comes with USB ports. Its video terminals enable multi-screen real-time monitoring at 800 IPS for DSR-5716P and 450 IPS for DSR-5709P. And it comes with a telemetry function that offers control over PTZ / zoom cameras, including those supplied by other manufacturers. It is an all-new unit that is capable of accommodating even the most sophisticated surveillance need.

**Extended Recording Time**

JPEG2000 improves picture quality without increasing the size of the data file, or maintains current quality with a reduced file size. This means you get more recording time from the same HDD capacity.

**Simultaneous Recording and Playback at 100 IPS (720 x 288 pixels)**

SANYO's expertise in the field has made it possible to record and playback simultaneously at a maximum speed of 100 IPS.

**Exclusive Extension Units**

The VA-EXH, an external HDD unit for further extending recording time, and the VA-EXD1 B, a disc writer for backing-up or copying data to portable media, are both available for the DSR-5716P / DSR-5709P.

(Note) The S-ATA board VZU-SATB1 is needed when connected to the external HDD unit, VA-EXH.

**ROI (Region of Interest)**

ROI is one of the advanced features included in the JPEG2000 compression method. By setting ROI, it is possible to apply better picture quality for particular areas preset on the screen. The ROI area setting is up to the user.

ROI: OFF BASIC mode (12KB)  
Use the same amount of data ...

ROI: MAX Static ROI recording (12KB)  
for enhancing the picture quality of regions of interest

9ch Digital Video Recorder  
**DSR-5709P**

Made in Japan

9ch	JPEG 2000	HDD 2bay	520 TVL	JOG SHUTTLE
VGA output	USB port	Network	H-SSP only	Camera Telemetry Control

**Camera Telemetry Control**

The DSR-5716P / DSR-5709P are capable of controlling PTZ dome cameras and zoom cameras through coaxial cables or RS-485. It also allows this control from a network PC or a controller. The unit also supports protocols of other major brands.

**Camera with no Alarm Input Controlled by an External Alarm**

Through this unit, an external alarm can prompt PTZ cameras such as VCC-9500P E / VCC-9600P E / VCC-9700P E / VCC-9800P E to return to preset positions and perform other operations. There are four operations available — PRESET, TOUR, AUTO PAN and SEQUENCE.

\*This control is activated only when the setting of alarm recording is ON and the setting of alarm trigger is the external alarm.

**Built-in VGA (1024 x 768 pixels) Terminal**

The VGA terminal allows direct connection to a PC monitor, which can then be used to monitor surveillance video. It also enables remote terminals to replay video with VGA quality, thus improving the thoroughness of monitoring.

**Supports up to 2TB HDD par one bay**

The unit has two HDD bays, each supporting up to 2TB HDD to make the unit the right choice in today's trend for bigger drives. Selecting a drive of the same capacity will allow the use of the mirroring\* function for data backup. For the latest available range of optional drives, contact the place of purchase.

**\* Mirror Recording**

DSR-5716P / DSR-5709P each comes with two HDD bays. With two HDDs of the same capacity installed, it is possible to record the same video on two HDDs, thus allowing for a backup.

## Alarm Log Search

Recordings made during a particular period are shown in a user-friendly GUI. By designating the hour, minute, month, or day of the week of alarm events, a search is performed on a log file to narrow the search and bring up the desired scene.

## Multi Alarm Events Copy

Now it is possible to copy recorded video and audio directly to external media without the use of the archive area. This allows the user to retrieve desired video quickly.

## CD-R/RW, DVD+R/+RW

The unit comes with two USB ports located on both the front and rear panels. Using one of these terminals, it is possible to backup data to CD-R/RW discs (Max. 640MB), DVD+R/+RW (Max. 4.6GB). The use of discs ensures secure storage of necessary video and audio data.

\*Recommended products only

## USB Ports

The DSR-5716P and DSR-5709P come with two USB ports, one each on the front and rear panel. The front USB port is handy for using USB memories, for features such as Downloading and Uploading in the setup menu, newly added firmware update, and downloading images. The rear port can be used to connect VA-EXD1B, which enables the downloading of images to a CD or DVD.

\*When the front and rear USB ports are used simultaneously, the front port is always given priority.

## Independent Alarm Recording Rate for Each Channel

The unit lets the user set different rates of recording for each camera for recordings activated by the motion sensor or an alarm input. Within the preset time frame, the user has freedom to change the recording rate for each camera according to needs.

### Optional accessories (sold separately)

#### External HDD unit VA-EXH

VA-EXH up to four HDDs enables a drastic increase in recording capacity.

#### Disc writer VA-EXD1 B

Backup important data on DVD+R/RW discs or CD-R/RW discs with the USB connection.

#### S-ATA Board VZU-SATB1 for VA-EXH

The VZU-SATB1 enables the connection to an external HDD unit.

#### SCSI Board VZU-SCB1

The VZU-SCB1 enables the connection to an external RAID system. For further details on compatible devices, please contact the place of purchase.

#### Rack Mount Bracket VA-RACMK2

for DSR-5716P / DSR-5709P / VA-EXH

#### Rack Mount Bracket VA-RACMK1

for VA-EXD1 B

## Choosing Live Picture Resolution at Remote Terminals

When the main unit is set to record video at basic quality, you can still choose enhanced quality for monitoring live video on a remote PC. It is also possible to record super-fine quality pictures on the main unit and monitor the basic quality video on a terminal to reduce network load. In short, the unit allows the user to choose the quality of live video independently, regardless of its recording mode. \*This does not apply when the recording is done at the maximum rate of 100IPS.

MODEL	DSR-5716P	DSR-5709P
<b>General</b>		
Hard disk capacity	Max HDD Capacity (Technically) per one bay 2TB	
Picture resolution	720 x 288 (pixels)	
Compression	JPEG2000	
Picture quality	5 levels (Basic, Normal, Enhanced, Fine, Super Fine)	
Recording speed	28 levels. (100 to 0.033 FPS)	
Recording area	Recording area / Archive area	
Number of cameras	16	9
Menu language	English / French / German / Spanish	
Date / Clock setup	Day / Month / Year (last two digits) / Hour / Minute / Second	
Magnification	2x digital zoom using the [ZOOM] button	
<b>Search mode</b>	Alarm Log Search, Alarm Search, Alarm Thumbnail Search, Time/Date Search, Archive Area Search, Motion detection Search, Bookmark Search	
<b>Memory backup</b>	Approximately 30 days (for 48 hours of electrification)	
<b>Video</b>		
Signal format	PAL standard (Color) / CCIR standard (B/W) auto select, 625 lines, 50 IPS	
Video input	VBS / VS 1.0 V (p-p) 75 Ω, BNC x 16	VBS / VS 1.0 V (p-p) 75 Ω, BNC x 9
Video output	BNC x 16	BNC x 9
Main monitor output	VS 1.0 V (p-p) 75 Ω BNC x 1, VGA x 1	
Monitor 2 output	VBS / VS 1.0 V (p-p) 75 Ω BNC x 1	
VGA output	Dsub-15 pin	
<b>Audio</b>		
Audio input	-8 dBs 27 kΩ unbalanced RCA x 1	
Audio output	-8 dBs 600 Ω unbalanced RCA x 1	
<b>Control Signal</b>		
LAN	10BASE-T / 100BASE-TX, RJ-45 x 1 Compatible protocol: UDP, TCP/IP, HTTP server, NTP, SMTP, DHCP	
RS-485 / 422	RJ-11 x 2, (With a termination switch)	
USB	USB2.0 Series terminal x 2 (Front x 1, Rear x 1)	
Alarm input	No-volt contacts (100ms or more) x 16	No-volt contacts (100ms or more) x 9
Alarm output	Relay (DC24 V Max. 1A / AC125 V Max. 0.3 A)	
Sensor alarm output	Open collector, Low level active (Max. 25 mA) x 16	Open collector, Low level active (Max. 25 mA) x 9
Remote control input	Two-wire voltage control x 2	
Non rec out	Normal 5 V DC, Low level active x1	
Clock set input	No-volt contacts (100ms or more) x 1	
Clock set output	Active low, Open collector Max. 25mA x 1	
Alarm reset	No-volt contacts (100ms or more) x 1	
Warning output	Normal DC 5 V Low level active x 1	
Disk full output	Normal DC 5 V Low level active x 1	
Output 1 / Output 2	Normal DC 5 V Low level active x 1	
External timer input	No-volt contacts (100 ms or more) x1	
<b>Protocols</b>	SANYO, Pelco, GE, AD, BBV	
<b>Expansion slot</b>	Option SCSI board (Ultra 160 SCSI), Option S-ATA board	
<b>Electrical</b>		
Power source	120 V to 240 V AC, 50 / 60 Hz	
Power consumption	720mA	
Operating conditions	Temperature: 5°C to 40°C [41°F to 104°F], Humidity: 80% or less	
<b>Physical</b>		
Dimensions	420(W) x 96(H) x 365(D) mm [16.5(W) x 3.8(D) x 14.4(D) in]	
Weight (Approx.)	6.1 kg [13.5 lbs.] (without HDD), 6.6 kg [14.6 lbs.] (with one HDD), 7.2 kg [15.9 lbs.] (with two HDDs)	

NOTE: Specifications subject to change without notice

### Warnings regarding HDDs

- Do not attempt to install or replace a HDD on your own. You cannot use these HDDs on PCs.
- The unit may be damaged if it is exposed to an impact or vibration, or the power plug is disconnected during operation.
- Sanyo will not be held liable for any data loss due to an HDD error or a failure during recording.
- "Microsoft" is registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries.
- All other company and product names are registered trademarks and/or trademarks of their respective owners.

16ch Digital Video Recorder  
**DSR-3716PA**

Made in Japan

<b>16CH</b>	<b>M-JPEG</b>	<b>HDD 2bay</b>	<b>520 TVL</b>	<b>JOG SHUTTLE</b>
<b>120 to 240 V AC operation</b>	<b>USB port</b>	<b>Network</b>	<b>SSP</b>	<b>Camera Telemetry Control</b>

**DSR-3716PA / DSR-3709PA function as a system hub that connects different devices such as cameras and monitors. They offer added benefits of 520TVL high picture quality, real time (50IPS/screen) multiple screen monitoring, and USB ports to output data to a CD-R/RW disc.**

**Simultaneous Recording and Playback at 50 IPS**

The simultaneous recording and playback function makes it possible for the user to review recorded images without interrupting the recording in progress.

**Full-motion, Multiple Screen Display of Live Video Images**

Multiple live video images can be viewed simultaneously in 16, 9, or 4 split-screen display at the speed of 50 IPS/channel. Full-screen display is also available. Select the desired display mode without worrying about the update speed.

The maximum number of cameras for DSR-3709PA is nine respectively.

**Audio Recording Available**

Audio recording is available for recording speeds from 50 IPS to 1 IPS. (Audio input must be a single channel.)

**Supports up to 1TB HDD per one bay**

The unit has two HDD bays.

**\*Mirror Recording**

DSR-3716PA / DSR-3709PA each comes with two HDD bays. With two HDD's of the same capacity installed, it is possible to record the same video on two HDDs, thus allowing for a backup.

**Five Different Picture Qualities and 27 Recording Speeds Enable Flexible Settings**

The picture quality is selectable from BASIC, NORMAL, ENHANCED, FINE and SUPER FINE.

**Three Recording Modes for Flawless Recording**

DSR-3716PA / DSR-3709PA has three recording modes; Alarm, Timer, and Program. The three modes can operate individually or in any combination.

9ch Digital Video Recorder  
**DSR-3709PA**

Made in Japan

<b>9CH</b>	<b>M-JPEG</b>	<b>HDD 2bay</b>	<b>520 TVL</b>	<b>JOG SHUTTLE</b>
<b>120 to 240 V AC operation</b>	<b>USB port</b>	<b>Network</b>	<b>SSP</b>	<b>Camera Telemetry Control</b>

**Pre-alarm Recording / Alarm Recording / Timer Recording**

The timer recording mode allows the user to set eight different settings. Different settings for each day of the week and multiple settings for the same day are possible. It is also possible to specify the start / stop time or use a different recording speed.

**Programmed Recording**

For each of four available programs (P1 to P4), the user can specify particular cameras for recording. In addition, different recording speeds can be set for each program. These programs can also be used when making a timer recording or a pre-alarm recording.

**Extensive Display Options**

For both live picture monitoring (during multiplex recording) and replay of pictures, the user can select from 16-screen, 13-screen, 9-screen, 6-screen, 4-screen display, and full-screen (1-screen) display.

- Plus display
- Screen position assignment
- Monitor masking

The maximum number of cameras for DSR-3709PA is nine.

**AV Output Terminal on the Front Panel**

This terminal can be used for supplying signals to a consumer VCR or DVD recorder, thus enabling the use of analog video tapes and DVD discs as recording media. When a TV monitor is connected, the same video signal as on the main monitor can be supplied to it, including the menu screen.

## Camera Telemetry Control

The buttons on the DSR-3716PA / DSR-3709PA front panel allow the user to control PTZ / zoom cameras. The unit transmits SSP\* signals by overlaying them on to the video signal through a coaxial cable. This makes it possible to control cameras that support coaxial SSP transmission, without any additional device other than a video cable, not only from the front panel, but also from a SANYO controller or via a network. In addition, BBV and PELCO cameras can also be controlled if they support coaxial signal transmission. \* SSP (SANYO Security Serial Protocol) is a communication protocol for security devices developed by SANYO.

## A Camera with No Alarm Input Controlled by an External Alarm

Through this unit, an external alarm can prompt PTZ cameras such as VCC-9500P E / VCC-9600P E / VCC-9700P E / VCC-9800P E series to return to preset positions and perform other operations. There are five operations available — PRESET, TOUR, AUTO PAN, SEQUENCE, and AUTO FOCUS.

## Multiple Backup Methods Depending on Data Size CD-R/RW

Through USB ports located both on the front and rear panels, it is possible to backup data in the HDD archiving area to CD-R/RW discs. The use of discs assures secure storage of necessary video and audio data. (The two USB ports cannot be used simultaneously; the front USB terminal has the higher priority.)

## One Touch Multi-Channel Copy

Multiple channels can be copied to various media with a single operation. Use the Camera Select buttons on the front panel to select desired cameras and start recording. Pressing the MULTI button will select all cameras simultaneously.

## Multi-screen Display for Network PCs

DVR Viewer2 software allows the user to select from full-screen, Quad, Multi-9, and Multi-16 displays on any PC on the network. DVR Viewer2 software is automatically downloaded

### Optional accessories (sold separately)

#### Disc writer VA-EXD1 W

Backup important data on DVD+R/RW discs or CD-R/RW discs with the USB connection.

#### Rack Mount Bracket VA-RACMK2

for DSR-3716PA / DSR-3709PA

#### Rack Mount Bracket VA-RACMK1

for VA-EXD1 W

by copying an image. It is also available for download on our website.

\*The maximum number of cameras for DSR-3709PA is nine.

## Print Directly from a CF Card

For recommended products, visit our website [www.sanyosecurity.com](http://www.sanyosecurity.com) or contact the place of purchase.

## Network Features

The DVR is operable from a PC via network by using Internet Explorer.

Front AV	Video output	1.0 V (p-p) 75 Ω unbalanced RCA x 1	
	Audio output	-8 dBs 600 Ω unbalanced RCA x 1	
Interface	CompactFlash slot	CF type II	
Control Signal	LAN	10BASE-T / 100BASE-TX, RJ-45 x 1 Compatible protocol: UDP, TCP/IP, HTTP server	
	RS-485	RJ-11 x 2, (With a termination switch)	
	USB	USB1.1 Series terminal x 2 (Front x 1, Rear x 1)	
	Alarm input	No-volt contacts (100ms or more) x 16	No-volt contacts (100ms or more) x 9
	Alarm output	Active low, Open collector Max. 500 mA x 1	
	Sensor alarm output	Open collector, Low level active (Max. 25 mA) x 16	Open collector, Low level active (Max. 25 mA) x 9
	Remote control input	Two-wire voltage control x 2	
	Non rec out	Normal 5 V DC, Low level active x 1	
	Clock set input	No-volt contacts (100ms or more) x 1	
	Clock set output	Normal OPEN Low level active x 1	
Alarm reset	No-volt contacts (100ms or more) x 1		
Warning output	Normal DC 5 V Low level active x 1		
Disk full output	Normal DC 5 V Low level active x 1		
Alarm full output	Normal DC 5 V Low level active x 1		
Series input	Normal DC 5 V Low level active x 1		
Series output	Normal OPEN Low level active x 1		
External timer input	No-volt contacts (1 second or more) x 1		
Electrical	Power source	120 V to 240 V AC, 50 / 60 Hz	
	Power consumption	800mA	
Physical	Operating conditions	Temperature: 5°C to 40°C [41°F to 104°F], Humidity: 80% or less	
	Dimensions	420(W) x 96(H) x 365(D) mm [16.5(W) x 3.8(D) x 14.4(D) in]	
	Weight (Approx.)	6.3 kg [13.9 lbs.] (with one HDD unit)	

NOTE: Specifications subject to change without notice

### Warnings regarding HDDs

- Do not attempt to install or replace a HDD on your own. You cannot use these HDDs on PCs.
- The unit may be damaged if it is exposed to an impact or vibration, or the power plug is disconnected during operation.
- Sanyo will not be held liable for any data loss due to an HDD error or a failure during recording.

## 16ch Digital Video Recorder

## DSR-2016

**16-4ch Monitoring with Quality Picture of MPEG-4 and Full Motion Picture of 200 IPS\*** \*Only DSR-2016

## Low Rate but High Quality

Since MPEG-4 offers quality pictures at a low bit-rate, it is possible to record pictures for a considerably longer time compared to JPEG.

## MPEG-4

The MPEG (Moving Picture Experts Group) 4 standard was designed to reproduce a wide range of moving pictures, from those on a low speed communication line to those with high-definition TV picture quality. It is especially effective for application on low speed networks. While conventional MPEG1/2 encodes only portions of the picture that have changed from the key frames, MPEG-4 employs a new technique to disassemble a frame into objects. Simply put, it disassembles a picture into elements such as backgrounds, persons, buildings, etc. and records differentials or each object. The method is similar to that of M-JPEG recording format; MPEG-4 objects are not limited to physical ones, but include audio as well.

## Network

DSR-2016 / DSR-2004 offers network connectivity with LAN and WAN. MPEG is an international standard for highly efficient digital encoding (compression) of video and audio signal and is indispensable for video signal compression and transmission over a network. Compared to conventional systems, DSR-2016 / DSR-2004 offers improved surveillance video transmission — clear pictures at low bit-rate — by the adoption of MPEG-4.

Simultaneous Recording/Playback at 200 IPS **DSR-2016**

The DSR-2016 offers the capability to smoothly record and playback movement at a maximum rate of 200IPS. It also features two HDD bays, enabling expansion of storage capacity up to 1TB.

## Auto-recording with Optimum File Size

DSR-2016 / DSR-2004 automatically selects an optimum file size depending on the input signal to make recordings with the same picture quality. The recording time changes depending on the input signal.

## Built-in Motion Sensor

DSR-2016 / DSR-2004 comes with a built-in motion sensor. Different settings can be made for each channel image independently. The sensor can detect moving objects within the screen by picking up changes in brightness. The user can use this feature to trigger an alarm recording.

## 4ch Digital Video Recorder

## DSR-2004

## Easy Backup

Supports the use of USB memory sticks. This makes it easy to backup not only still images, but also videos in AVI format.

## Triplex Function

The Triplex function of DSR-2016 / DSR-2004 makes it possible to perform three functions simultaneously, i.e. recording, playback, and network monitoring.

Standard Configuration Includes a CD-R/RW Drive **DSR-2016**

The DSR-2016 comes with a CD-R/RW drive and does not require additional devices for backing up images and settings.

Compact Size of 350 mm Width **DSR-2004**

Digital recording is now available in a compact package of 350 mm in width. It is an ideal solution for the limited spaces of convenience stores and retail chains, where a large number of DVRs are needed.

## Search Functions

The three search functions — "Event Search", "Time / Date Search" and "Time Line Search" — call up desired images instantly. "Book Mark Search"

## Audio Recording Available

DSR-2004 comes with 4ch input and 1ch output terminals to enable audio recording on each channel. Note that the 1 - 4 channels are not selectable with the DSR-2016.

## Security Lock

Security lock — offers users the best option for security needs.

## IR Remote Control

The IR remote controller allows the user to control up to 99 DVRs (when DSR-2016 is used. When DSR-2004 is used, up to nine).

## Two-way Audio over a Network

During a remote surveillance, it is possible not only to receive audio, but also to send a warning message to the point of surveillance.

## Rear Connectors for Essential Needs

Though it's compact, the rear panel provides terminals for essential devices, including a microphone and speakers.

## DDNS (Dynamic DNS)

The DSR-2016 / DSR-2004 can be accessed with a fixed host name (e.g. sanyodsr2016p), which makes the network easy to remember, always available, and secure.

## DSR-2016 / DSR-2004 supports up to four concurrent Digital Client users

## SANYO DVR Utility software

The combination of DSR-2016 / DSR-2004 and SANYO DVR Utility 2000S enables monitoring and DVR operation via a network for enhanced usability.

### System environment

<b>OS</b>	Windows® XP Professional (SP2), Windows® XP Home DirectX® 8.1 or above

# SSP Control

Control all surveillance devices from one location using SANYO's proprietary protocol (SSP)

## VSP-9000

### Realize enhanced effectiveness in your security environment

The SSP Control System forms a state-of-the-art security environment that utilizes existing surveillance cameras and recording devices by effectively combining into a function device VSP-9000 / VSP-8500 Controller SANYO Security Serial Protocol (SSP) for RS-485 communications. The system enables the user-friendly linking of cameras, DVR and other elements, and you can control with your fingertips up to 254 cameras, 98 digital video recorders and 1 matrix.

### Control system supporting SSP telemetry devices and multiple protocols

It supports not only SSP (SANYO Security Serial Protocol), but also other major protocols such as Pelco-D, etc.

#### VSP-9000

Camera: SANYO (SSP, H-SSP), Pelco-D, Sensormatic, A.D., VCL, Ernitec, Videotec, (macro), M.mercer (Max.2 protocols within 1 system)

DVRs / Multiplexers : SANYO (SSP), Videotec

Video matrix switchers : Videotec

#### VSP-8500

Cameras: SANYO (SSP, H-SSP), Pelco-D, Sensormatic, A.D., VCL, Ernitec, Videotec, (macro), M.mercer (Max.2 protocols within 1 system)

DVR : SANYO (SSP)

Matrix SW : Videotec (SM328S; 32 inputs & 8 outputs)

### Backlit LCD with a touch screen

### VSP-9000

The 320 x 240 LCD screen installed on the front panel also serves as a touch panel. Settings, operation, and control of even a large-scale system can be done by touching the screen and displaying the menu. The touch panel offers easy access to otherwise complicated settings and operations.

### Touch the buttons displayed on the screen

•The menus and sub-menus can be set by pressing the keys represented by the icons

Simple keystrokes on the VSP-8500 control DVRs and PTZ cameras. The VSP-3000 is capable of controlling PTZ cameras.

# VSP-8500

### Customization of up to 26 user maps

**VSP-9000**

User maps can easily be designed by PC GUI and uploaded on the VSP-9000 through RS-232C

- The VSP-9000 LCD touch panel simplifies the operation of today's increasingly complex medium- to large-scale security systems.

### 40 free configurable macro-function keys for each map

**VSP-9000**

Allows the operator to control individual devices by assigning an address to each device.

### Telemetry control using 3-axis joystick (Pan/Tilt/Zoom)

To control digital video recorders, cameras, and other devices, the VSP-9000 / VSP-8500 (Camera control only) controller is equipped with a 3-axis joystick. The joystick guarantees easy operation from a remote location.

### Best solution for small-to-medium-size system

**VSP-8500**

The VSP-8500 allows the user to control various devices with simple key operations and is suitable for small to medium-size surveillance systems with some cameras, a DVR, and a matrix control.

### Direct keys for Camera and DVR control

### 3 password levels

The VSP-9000 / VSP-8500 facilitates a multi-level security setting according to the access level of the user.

### VSP-9000 / VSP-8500 rear panel

# VSP-3000

## Centralized camera controls from a single controller

Protocols	Controllable number of cameras
SSP/H-SSP	1 to 127
Pelco-D	1 to 255

## Telemetry control using 3-axis joystick (Pan/Tilt/Zoom)

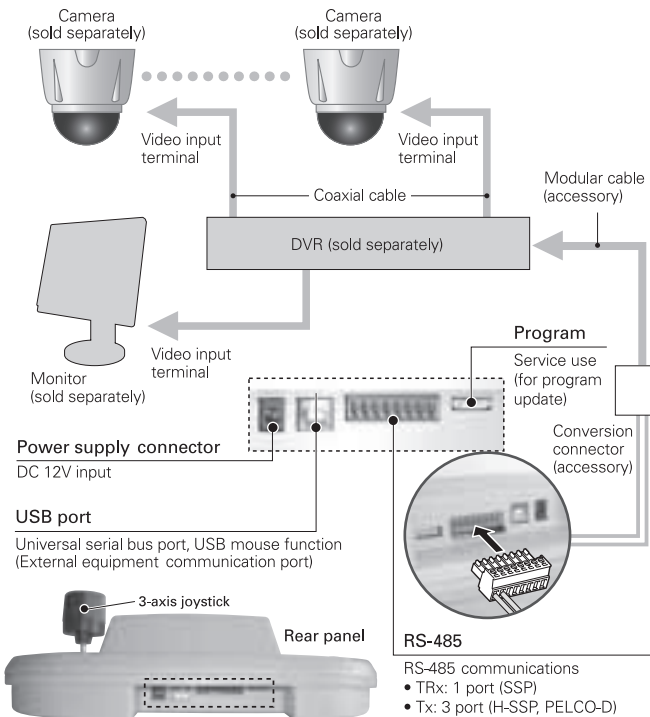

To control cameras the VSP-3000 (Camera control only) controller is equipped with a 3-axis joystick. The joystick guarantees easy operation from a remote location.

## 2-line backlit menu display

The display on the front LCD is easy to understand.

## Connection Example

## Mouse function for PC-based DVR, DSR-HB8000

- Simple camera control and DVR display switch change available
- Control system supporting SSP / H-SSP and Pelco-D protocols
- Telemetry control (pan/tilt/zoom) via 3-axis joystick and direct keys
- Max. 255 cameras connectable (Max. 127 for SSP)

MODEL	VSP-3000
<b>Communication method</b>	RS-485
<b>Communication speeds</b>	2400, 4800, 9600, 19200, 38400, 57600 bps
<b>Control communication terminal</b>	TX1, TX2, TX3, TRx

## VMC-L2019P

19" Horizontal 500 TV Lines 2 composite S-VIDEO IN-OUT terminals VGA input MULTI PAL<->NTSC SYSTEM

### Flat panel displays

These SXGA grade monitors display clear and crisp pictures. The thin package makes them the ideal choice for applications with limited space.

### Easy to access front panel switches

Ease of operation is the focus of this design. The user can switch the display, set the volume, and set the scan from switches on the front panel, or by using the remote controller.

- 1280 x 1024 Resolution • 1000:1 High contrast ratio
- 2 composite and 1 S-VIDEO input (Loophrough out, BNC type) • 1 VGA input • 2 audio input (RCA type)

## VMC-L2017P

## Full IP System Suitable for Large Scale Surveillance

SANYO's IP camera and network software offers freedom in integrating systems — from large scale systems for airports and shopping malls to centralized surveillance systems that connect dispersed schools and stores.

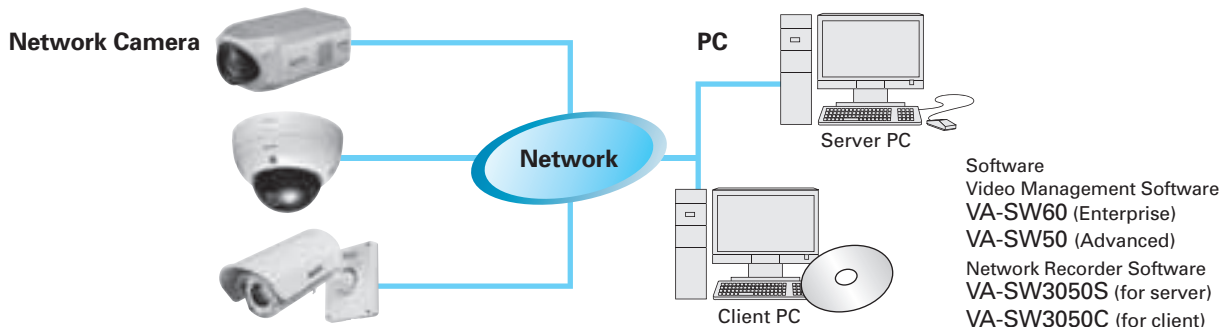

Shopping malls  
Educational facilities  
Transportation monitoring  
Airports

### IP Camera and Networking

The use of SANYO network software, for example, makes it possible to monitor different locations from a central point over a network. Without the constraints in wiring, optimized camera placement ensures the security of each area. Use a vandal-resistant PTZ camera for a crowded area like an entrance, or an HD Megapixel camera with recording function for a key surveillance point. Use a PTZ camera for a wide area to trace movements of a subject. For a parking lot or other outdoor facility, weatherproof zoom cameras and PTZ cameras are available. The WDR camera is a perfect solution for locations where intense backlight is expected. SANYO's product range includes a variety of IP cameras that offer the optimal choice for every situation. From large-scale application to small-scale surveillance needs, SANYO handles them all.

## Optimal Systems for Large to Medium Scale Applications

Connect shops and branch offices with a network for better management. The DSR-HB8000 can manage up to 80 cameras with Monitor Plus function over the network. Also multiple DSR-HB8000 can be connected with CMS via network.

### A Network Built Around a Hybrid DVR Provides The Best Solution for Remote Surveillance

In addition to normal surveillance and recording operations, including extensive video recording with MPEG-4 technology, the Hybrid DVR offers added features, such as building databases inter-connected with tenants' POS systems or ATM systems. The use of MPEG-4 improves the quality of remote surveillance over a network and expands the scope of applications.

### System configuration

Camera (Network / Analog)

## MPEG-4 Adopted for Quality Video Transmission

Small to medium-scale surveillance systems suitable for remote operations

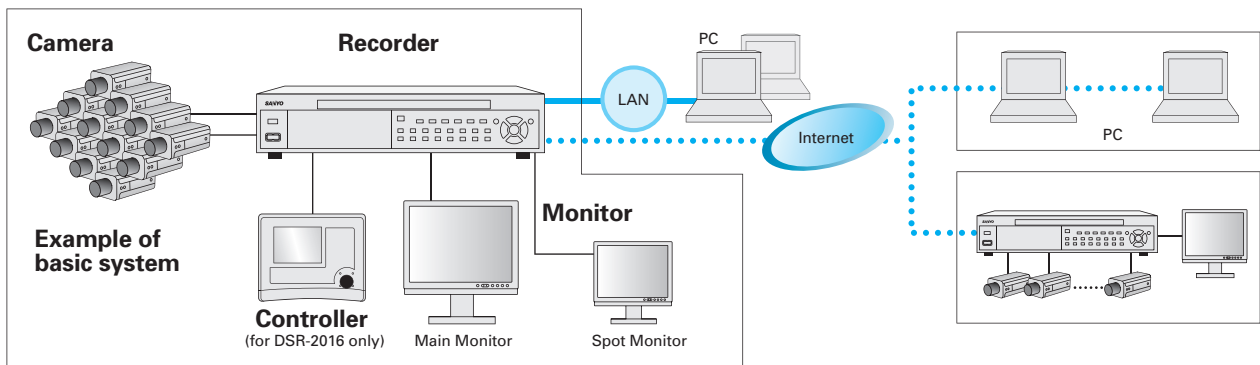

Offices  
Stores  
Retail shops  
Petrol Stations

## The Adaptation of DDNS Allows Stable Network Surveillance without a Fixed IP Address

The MPEG-4 format allows efficient video transmission and the construction of a system suitable for remote surveillance. For example, a small or medium-scale factory or store can be monitored at the head office via a network. A stress-free surveillance is possible, thanks to the superior picture quality of MPEG4.

Category	Description
Model No.	
<b>VA-EXH</b> 	The VA-EXH is an expansion unit that employs 4 HDD bays and enables further extension of recording time. for DSR-5716P / DSR-5709P with VZU-SATB1
<b>VA-EXD1 B</b> 	This external DVD+R / +RW / CD-R/RW is a perfect match for DSR-5716P / DSR-5709P.
<b>VA-EXD1 W</b> 	This external CD-R/RW is a perfect match for DSR-3716PA / DSR-3709PA.
<b>VZU-SCB1</b> 	The VZU-SCB1 enables the connection to an external RAID system. For further details on compatible devices, please contact the place of purchase for DSR-5716P / DSR-5709P.
<b>VZU-SATB1</b> 	The VZU-SATB1 enables the connection to an external S-ATA system, VA-EXH for DSR-5716P / DSR-5709P.

Category	Description
Model No.	
<b>VA-RACMK1</b> 	Rack mount bracket for VA-EXD1 B / VA-EXD1 W
<b>VA-RACMK2</b> 	Rack mount bracket for DSR-5716P / DSR-5709P / DSR-3716PA / DSR-3709PA
<b>VA-RACMK3</b> 	Rack mount bracket for DSR-2016

VA		
<b>VA-10T</b>	Twisted Pair Board for VCC-9685VP	39
<b>VA-13VG2811ASIR</b>	Standard Vari-focal IR Lens for 1/3" CCD Camera (f=2.8 to 11 mm)	43
<b>VA-13VG308AS</b>	Standard Vari-focal Lens for 1/3" CCD Camera (f=3 to 8 mm)	43
<b>VA-13VG308ASIR</b>	Standard Vari-focal IR Lens for 1/3" CCD Camera (f=3 to 8 mm)	43
<b>VA-13VG550T-LY</b>	Tele Vari-focal Lens for 1/3" CCD Camera (f=5 to 50 mm)	43
<b>VA-20LAN</b>	JPEG Network Board for VCC-XZ200P	15
<b>VA-20ST</b>	SSP+Twisted Pair Board for VCC-XZ200P	30
<b>VA-50AL</b>	Attachment for VDC-DPN9585P / DP9585P / DP7585P	34
<b>VA-50AM</b>	Attachment for VDC-W1595VP / D1585VP / C1575VP	34
<b>VA-50AS</b>	Attachment for VCC-PN9575P / P9575P / P7575PA / 9685VP	34
<b>VA-50BPL</b>	Pendant Mounting Bracket (long) for VA-50AL / VA-50AM / VA-50AS	34
<b>VA-50BPS</b>	Pendant Mounting Bracket (short) for VA-50AL / VA-50AM / VA-50AS	34
<b>VA-50BW</b>	Wall Mounting Bracket for VA-50AL / VA-50AM / VA-50AS	34
<b>VA-50H</b>	Heater Board for VCC-XZ200P / VDC-DPN9585P / DP9585P / DP7585P	34
<b>VA-50LAN</b>	JPEG Network Board for VDC-DP7585P / VCC-P7575PA	15
<b>VA-50ST</b>	SSP+Twisted Pair Board for VDC-DP7585P / VCC-P7575PA	33
<b>VA-51LAN</b>	JPEG Network Board (PoE) for VDC-DP7585P / VCC-P7575PA	15
<b>VA-80A</b>	Attachment (Indoor use) Adaptor Bracket	24
<b>VA-80AB</b>	Adaptor Bracket	24
<b>VA-80AC</b>	Corner Mounting Adaptor	24
<b>VA-80AP</b>	Pole Mounting Bracket	24
<b>VA-80BP</b>	Pendant Mounting Bracket	24
<b>VA-80BW</b>	Wall Mounting Bracket	24
<b>VA-80EX</b>	Outdoor Housing	24
<b>VA-80F</b>	Surface Cover	24
<b>VA-80LAN</b>	JPEG Network Board	15
<b>VA-80ME</b>	In-Ceiling Bracket (closed type)	24
<b>VA-82LAN</b>	H.264 / JPEG Network Board	15
<b>VA-AWM3</b>	Arm Bracket for VMC-L2017P / VMC-L2019P	60
<b>VA-BWM2</b>	Wall Mounting Bracket for VMC-L2017P / VMC-L2019P	60
<b>VAC-70</b>	Camera Control Unit	42
<b>VA-CDH60</b>	Dome Camera housing (Smoked cover)	42
<b>VA-CDH60C</b>	Dome Camera housing (Clear cover)	42
<b>VA-CM8C</b>	Clear Dome Cover (outdoor housing)	24
<b>VA-CM8S</b>	Smoked Dome Cover (outdoor housing)	24
<b>VA-CZ80</b>	Smoked Dome Cover (indoor housing)	24
<b>VA-DK02</b>	In-Ceiling Bracket	34
<b>VA-EXD1 B</b>	Disc Writer Unit for DSR-5709P / DSR-5716P	48
<b>VA-EXD1 W</b>	Disc Writer Unit for DSR-3709PA / DSR-3716PA	48
<b>VA-EXH</b>	External HDD Unit for DSR-5709P / DSR-5716P	48
<b>VA-HDC4000</b>	Hard Disk Case for VCC-HD4000P	9
<b>VA-HD2120</b>	120 GB 2.5" HDD for VCC-HD4000P	9
<b>VA-RACMK1</b>	Rack Mount Bracket (1U) for VA-EXD1 W / VA-EXD1 B	48
<b>VA-RACMK2</b>	Rack Mount Bracket (2U) for DSR-5709P / DSR-5716P / DSR-3709PA / DSR-3716PA	48
<b>VA-RACMK3</b>	Rack Mount Bracket for DSR-2016	48

<b>VA-SD004</b>	4 GB SD Memory Card for VCC-HD4000P	9
<b>VA-SW3050LITE</b>	Network Software	18
<b>VA-SW3050S / C</b>	Network Recorder Software	18
<b>VA-SW50</b>	SANYO Video Management Software (Advanced)	17
<b>VA-SW60</b>	SANYO Video Management Software (Enterprise)	17
<b>VA-VCT31</b>	Camera Mount	42
VC		
<b>VC-0410</b>	Dummy Camera	42
<b>VC-0450</b>	Dummy Camera	42
<b>VCC-4790P E</b>	1/3" Color CCD High-resolution Day/night Camera	40
<b>VCC-4795P E</b>	1/3" Color CCD High-resolution Day/night Camera	40
<b>VCC-5995P</b>	1/3" Color CCD High-resolution Camera	41
<b>VCC-6690P</b>	1/3" Color CCD E-Day/night High-resolution Camera	41
<b>VCC-6695P</b>	1/3" Color CCD E-Day/night High-resolution Camera	41
<b>VCC-9500P E</b>	High-resolution 30x AF Speed Dome Camera	22
<b>VCC-9600P E</b>	High-resolution 30x AF Speed Dome Camera	22
<b>VCC-9685VP</b>	Indoor mini Dome Camera	39
<b>VCC-9700P E</b>	High-resolution 36x AF Speed Dome Camera	21
<b>VCC-9800P E</b>	High-resolution 36x AF Speed Dome Camera	21
<b>VCC-HD4000P</b>	CMOS Full HD Network 10x AF Zoom Camera	7
<b>VCC-N6695P</b>	1/3" Color CCD E-Day/night Box-type H.264/JPEG Camera	10
<b>VCC-P7575PA</b>	High-resolution Indoor mini Dome Camera	33
<b>VCC-P9575P</b>	High-resolution Indoor mini PTZ Dome Camera	31
<b>VCC-PN9575P</b>	High-resolution Indoor mini PTZ Network Dome Camera	13
<b>VCC-W8770P</b>	1/3" CMOS High-resolution Wide Dynamic Range Camera	38
<b>VCC-W8775P</b>	1/3" CMOS High-resolution Wide Dynamic Range Camera	38
<b>VCC-WD8870P</b>	1/3" CMOS High-resolution Wide Dynamic Range Day/night Camera	37
<b>VCC-WD8875P</b>	1/3" CMOS High-resolution Wide Dynamic Range Day/night Camera	37
<b>VCC-XZ200P</b>	High-resolution Weatherproof Camera	30
<b>VCC-XZ600P</b>	High-resolution Weatherproof AF Zoom Camera	25
<b>VCC-XZN600P</b>	Weatherproof AF Zoom Network Camera	11
<b>VCC-ZM500P</b>	High-resolution AF Zoom Camera	26
<b>VCC-ZM600P</b>	High-resolution AF Zoom Camera	25
<b>VCC-ZMN600P</b>	AF Zoom Network Camera	11
<b>VCP-L07W</b>	Wide Conversion Lens for VCC-HD4000P	9
<b>VCZ-50</b>	Smoked Cover for VCC-PN9575P / P9575P / P7575PA / 9685VP	34
<b>VCZ-51</b>	Half-Mirror Cover for VCC-PN9575P / P9575P / P7575PA / 9685VP	34
VD		
<b>VDC-C1575VP</b>	High-resolution Vandal-resistant Dome Camera	28
<b>VDC-D1585VP</b>	High-resolution Vandal-resistant Dome Camera	28
<b>VDC-D1785IRVP</b>	High-resolution Vandal-resistant IR Dome Camera with IR LED	27
<b>VDC-DP7585P</b>	High-resolution Vandal-resistant Dome Camera	33
<b>VDC-DP9585P</b>	High-resolution Vandal-resistant PTZ Dome Camera	31
<b>VDC-DPN9585P</b>	Vandal-resistant PTZ Network Dome Camera	13
<b>VDC-W1595VP</b>	High-resolution Wide Dynamic Range Vandal-resistant Dome Camera	28
VM		
<b>VMC-L2017P</b>	17" High Performance Professional LCD Monitor	60
<b>VMC-L2019P</b>	19" High Performance Professional LCD Monitor	60
VS		
<b>VSP-3000</b>	SSP System Controller	59
<b>VSP-8500</b>	SSP System Controller	58
<b>VSP-9000</b>	SSP System Controller	57
VZ		
<b>VZU-SATB1</b>	S-ATA Board for DSR-5709P / DSR-5716P	48
<b>VZU-SCB1</b>	SCSI Board for DSR-5709P / DSR-5716P	48
