PROOF THAT CUB CADET TRACTORS ARE BUILT BETTER.

The Series 1000 Lawn Tractor is the most innovative and maneuverable lawn tractor in its category. It features a best-in-class 12" turning radius, professional-grade engines, and welded steel frames that are the thickest in the industry — giving you the dependability you deserve. Combine that with a premium cutting system that leaves no grass uncut, and you've got a lawn tractor that can't be beat, not to mention it keeps the investment you call home looking beautiful.

STRONG**ER** ENGINES

Powerful Cub Cadet professional-grade engines by Kohler® and Briggs & Stratton® provide exceptional cutting performance, even in tall, thick grass.

CLEANER CUT

The cutting system features a deep deck that provides optimal grass lift and mulching capability. The overlapping blades ensure that no grass is left uncut, and a wide discharge chute spreads grass clippings evenly — providing a manicured lawn without clumping or uncut grass.

TIGHT**ER** TURNING RADIUS THAN ANY COMPETITOR

The most maneuverable lawn tractor in its class gets the job done faster with a 12" turning radius. It easily mows around obstacles, reducing the need for trimming and backing up.

TOUGHER BUILT TRACTORS

They're built to last with fully welded steel

frames that are the thickest in the industry

not to mention cast-iron front axles.

And each is backed by a

5-year warranty.

SMOOTHER RIDE A comfortable, ergonomic design features highback seats, extensive leg room, available arm rests, rubber-cushioned foot pads and soft-touch controls delivering an easy and enjoyable mowing experience.
