EQUIPMENT

## TOUGHER AND SMARTER.

You want tough? Then the Series 3000 Garden Tractors are for you. Features like a 9-gauge welded steel frame, PowerShaft™ technology and a cast-iron front axle stand up to the toughest conditions. Plus, power steering and dual foot-pedal hydrostatic drive make it easy to operate the mower on all types of terrain. That's tougher. That's smarter.

### EASIER OPERATION

A second hydraulic valve is standard on the GT 3200. It provides smooth, effortless operation of the deck lift and attachments.

### STRONGER ENGINES

The Cub Cadet professional-grade Kohler® Command® V-Twin OHV horizontal engine has cast-iron cylinder sleeves, automotive-style air filters and full-pressure lubrication for longer life.

### SMARTER TECHNOLOGY

The steel PowerShaft™ direct-drive shaft delivers power from the engine directly to the transmission and deck. Choose from a variety of deck sizes and attachment options. All operate by an exclusive E-Vac™ PTO that offers the smoothest engagement possible.

### TOUGHER BUILD

The 9-gauge welded steel frame features full-length twin C-channel construction to absorb stress for a longer life and is backed by a 5-year warranty.
