

WEBER STATE UNIVERSITY  
RADIOLOGIC SCIENCES  
3925 UNIVERSITY CIRCLE  
OGDEN UT 84408-3925

Dear Prospective **Radiologic Technology (Regional) Specialty** Student:

We are pleased to hear of your interest in pursuing Radiologic Technology as a career. To apply to the Weber State University Radiologic Technology Program, please do the following steps by the **May 1** deadline:

1. Complete four years of High School or it's equivalent;
2. Be a Registered or Board Eligible Radiologic Technologist (or have equivalent educational experience as determined and approved by the Weber State University Radiologic Sciences Program Director);
3. Submit official transcripts for all colleges/universities you have or are currently attending to the **Dr. Ezekiel R. Dumke College of Health Professions Office of Admissions and Counseling with your application.** A separate set of transcripts will need to be submitted with your application to the University Admissions office.
4. Complete the Specialty Program Application for Admission form enclosed.
5. **Submit a letter of intent from clinical site. This will start the affiliation agreement process.**
6. Be accepted as a student in good standing at Weber State University;
7. Submit **three** Personal Reference Forms (enclosed) with your completed application.

Applying to the Weber State University Radiography Program is competitive. The program usually receives two to three applications for every available position; therefore, be advised:

- A. It is **YOUR** responsibility to see that all of the above-listed materials have been received by the Dr. Ezekiel R. Dumke College of Health Professions Admissions and Counseling Office—files which are incomplete will not be reviewed;
- B. Demonstrate ability to achieve scholastically; The minimum prerequisite overall and basic science GPA is 2.5 and files which have GPA's below 2.5 will not be reviewed;
- C. Applicants with files which are not reviews for the above-listed reasons and who reapply the following year will not receive "re-applicant" status.
- D. Incomplete applications will be returned once student selection is complete.

Applicants will be notified by letter of their acceptance or non-acceptance into the Radiologic Technology Program by the end of Spring Semester.

Once an applicant has been accepted to the program, he/she will be required to successfully complete the background check and drug screening process at their own expense prior to the program start date. Individuals who have been convicted of, or plead guilty to, or plead nolo contendere to a crime which is either a felony or is a crime of moral turpitude should contact the Radiologic Sciences department prior to making application to determine eligibility for the American Registry of Radiologic Technologist Certification Examination.

Finally, please be advised that expenses will include tuition, textbooks, course modules, supplies, uniforms/lab coats and travel to clinical sites as well as Weber State University. The textbooks for the specialty areas are costly.

For more information, please contact the Dr. Ezekiel R. Dumke College of Health Professions Radiologic Sciences Department at (801) 626-6057 or the Admissions and Counseling Office at (801) 626-7136.

Thank you for your interest in the Weber State University Radiologic Technology Program.

NOTE: Successful completion of the program allows you the opportunity to apply for the National Certification examination.

In January, 1889, Weber State University was first organized in downtown Ogden Utah as Weber Academy. At the time, it was owned by the Church of Jesus Christ of Latter-Day Saints; 117 years later, at a new location and now a state-owned school, the University has grown to be one of the best undergraduate schools in the State and Nation. At the present time there are approximately 18,000 full-time students who may choose from over 160 degree areas. Recognized as a leader in the areas of Allied Health Sciences, Technology, Education and Business, Weber State is competent in other aspects of academia. In January, 1991, Weber State College became **Weber State University**.

The Weber State Campus is located at the base of the Wasatch Mountains in Ogden Utah, 35 miles north of Salt Lake City. It is one of the most up-to-date schools in the Intermountain Region with 88% of its buildings constructed since 1960. The beautifully landscaped campus covers 400 acres and has a beauty all its own reflected both in the award winning landscape and in the 60 modern buildings. Construction of the Marriott Health building was completed in September, 1995. A highly competent faculty, combined with an extensive library and numerous 'hands-on' labs, give the students a chance at a first-rate education. Add to that a vast array of extra-curricular activities and you have a GREAT University;

The Weber State University Radiologic Sciences Cluster of Programs was the recipient of the 1990 Secretary of Education's Award for Outstanding Vocational-Technical Education Programs.

**Accreditation:**

Weber State is a member of the American Council on Education and the American Association of State Colleges and Universities and is accredited by the Northwest Association of Schools and Colleges. Being an accredited institution allows the students to apply for federal student loans and grants.

**Radiologic Sciences** is a medical field that uses ionizing radiation, sound waves and magnetic fields to produce medical images for diagnostic purposes or to treat diseases by combining medical procedures with technology.

**BACHELOR OF SCIENCE IN HEALTH SCIENCES**

To obtain a baccalaureate degree, the student must complete the WSU General Education requirements, a major and a minor emphasis, a quality assurance course, and RADT SI4943, Baccalaureate Thesis (3) or equivalent.

A specific curriculum pattern can, with consultation, be tailored to the needs and interests of the student. Successful completion enables the student to graduate with a Bachelor's Degree in Health Sciences.
