

## MASTERGOLD™ ENGINE OIL

Your engine takes a tremendous pounding day in and day out. But you can protect and preserve it with the best engine oil available — MasterGold.

MasterGold is a premium, high-performance diesel engine oil designed to stand up to the toughest operating conditions. Less susceptible to thermal and chemical breakdown, MasterGold provides excellent oil-consumption control and maximum engine-wear protection.

Compare before you buy. Use the engine oil specifically designed for your equipment and field conditions. Prolong your hard working engine's life with MasterGold heavy-duty engine oil.

## MULTI G 134™ FLUID

Multi G 134 is a multi-purpose fluid that helps ensure the best performance of your transmission, PTO clutches, wet brakes and hydraulic system. Unique friction modifiers suppress wet brake chatter, ensuring maximum stopping power and increased brake life. Superior anti-wear additives reduce pitting on critical gear surfaces. Oxidation inhibitors keep sludge from forming, and keep the oil flowing to critical parts. Multi G 134 is compatible with commonly used seal and gasket materials for longer seal life.

## GR-9 MULTIPURPOSE GREASE

GR-9 is a general purpose NLGI 2, lithium-soap, extreme-pressure grease for use in agricultural, construction and industrial equipment. GR-9 is for anti-friction and plain bearings (including non-disc brake wheel bearings), universal joints, spline shafts, water pumps and general chassis lubrication.

## SYSTEMGARD® OIL ANALYSIS

Let Systemgard oil analysis tell you what's really going on inside your engine, transmission and hydraulic system. Detect potential problems early, spot trends, and keep small, easily fixed problems from becoming serious ones. See your New Holland dealer for more information.

## NEW HOLLAND MAINTENANCE INSPECTIONS

Everyone agrees that routine inspections by trained technicians are essential to good maintenance. Inspections not only need to be routine, they need to be consistent with the needs of the equipment and its owner.

Our NEW HOLLAND Maintenance Inspection programs are based upon prearranged inspections at intervals consistent with your needs. A professional and systematic approach to equipment service can:

- Reduce costly downtime.
- Extend the service life of your equipment.
- Increase machine productivity.
