## About BSN Medical

BSN medical is a global leader in the worldwide healthcare market specialising in the areas of Wound Care, Fracture Management, Physiotherapy, Lymphology and Vascular Compression Therapy. We are focused on the development of world-class, branded products that offer high quality solutions for clinicians and patients alike.

BSN medical was originally formed as a joint venture between Beiersdorf and Smith & Nephew. In early 2006, we became a fully independent supplier of healthcare products. So whilst BSN medical may be a new name, it stands for brands such as, Strappal<sup>®</sup>, Gypsona<sup>®</sup>, Soffcrepe<sup>®</sup>, Delta Cast<sup>®</sup> and Leuko<sup>®</sup> with a long history that you have come to trust.

BSN medical combines the experience, consistent quality, dependable service and innovative strength of two global players with long traditions in the worldwide healthcare market.

We operate in 25 countries, and employ over 3,500 people worldwide. Production facilities are in the France, Germany, South Africa, Mexico and the United States. Sales and marketing operations support our largest markets.

BSN medical are proud to support the Association of Chartered Physiotherapists in Sports medicine. The ACPSM run training days on taping of soft tissue injuries using BSN medical products.

There are over 1000 members and the ACPSM is committed to promoting best practice in the field of Sports Medicine and provides a framework for a career pathway in Sports Physiotherapy.

For further information on the ACPSM and the taping courses they run please visit [www.acpsm.org](http://www.acpsm.org)

Further information on BSN Medical and wide product portfolio can be found on our website [www.bsnmedical.co.uk](http://www.bsnmedical.co.uk)

\* Mixed colour pack contains: blue, light blue, red, purple, neon pink and neon green

## Tensoplus®

### Strong Support Cohesive Bandage

Tensoplus® is a strong support cohesive bandage used for the compression and support of muscles and joints where traditional elastic adhesive bandages would be used. It is a combination of cotton, viscose and elastic yarns coated with a cohesive emulsion, which allows it to adhere only to itself and not to patient's skin. It is quick and easy to apply and has limited stretch properties, allowing strong controlled support. It is ideally suited for physiotherapy and sports use.

Size	Sales Unit	Case Quantity	BSN Code	Pip Code	NHSSC Code
8cm x 3m	1 x 1	1 x 10	72097-06	217-1098	FNG1186
10cm x 3m	1 x 1	1 x 10	72097-07	217-1106	FNG1187

## Crepe Bandages

**Vic<sup>®</sup>**

**Type 2 Wool Crepe Bandage BP**

Vic<sup>®</sup> is a high quality premium wool BP crepe bandage with Type 2 light support properties. It is ideal for use in Orthopaedics where warmth and absorbency properties are required.

## Accessories

### Articare® Cold Spray Instant Cooling Spray

Articare® Cold Spray provides instant cooling and rapid pain relief for soft tissue injuries. Suitable for quick, on-the-spot treatment for the immediate symptoms of sprains and strains; it is ideal for first aid or sports use.

Size	Sales Unit	Case Quantity	BSN Code	Pip Code	NHSSC Code
200ml	1 x 12	1 x 12	47422-00	036-0347	FNC073

### Articare® Cold Pack Instant Cold pack

Articare® Instant Cold Pack provides immediate cooling for up to 30 minutes for treatment of soft tissue injuries. The flexible bag conforms to body contours and requires no pre-cooling storage, simply squeeze the pack manually to activate. Once activated the Articare Instant Cold Pack provides quick local pain relief and helps to prevent swelling and inflammation. It is ideal for First aid or sports use.

Sales Unit	Case Quantity	BSN Code	Pip Code	NHSSC Code
1 x 24	1 x 24	47423-00	204-1937	FNC071

### Physiopack® Reusable Hot/Cold Pack

Physiopack® is a reusable gel pack providing either hot or cold therapy.

**Cold:** It's ideal for the treatment of muscular, tendon and ligament injuries, reduction of oedema and muscular stiffness.

**Hot:** Physiopack® increases blood flow, elasticity and plasticity of collagen fibres – reducing pain. The gel pack can be cooled in a freezer or heated in either hot water or a microwave.

Sales Unit	Case Quantity	BSN Code	Pip Code	NHSSC Code
1 x 12	1 x 12	72075-02	048-3537	FNC072

## Leukotape® Foam

Leukotape® foam provides cushioning, support and protection under with taping and bandaging techniques. It is particularly effective in providing a uniform pressure around bony prominences when applied with these techniques. Presented in sheets it is easily cut to the required shape and size.

Size	Sales Unit	Case Quantity	BSN Code	Pip Code	NHSSC Code
30cm x 20cm x 4mm	1 x 10	1 x 10	09776-00	359-1385	FNG1185

## Leukotape® Remover

Tape removal solution

Leukotape® Remover helps remove adhesive tapes and elastic adhesive bandages from the skin. It also prevents any adhesive residue which may be left on the skin. The remover is applied liberally to soak the tape and breaks down the adhesive allowing easy removal.

Size	Sales Unit	Case Quantity	BSN Code	Pip Code	NHSSC Code
350ml	1 x 1	1 x 1	92875-03	359-1377	FNG1191

## Tensospray®

Protective/Adhesive Spray

Tensospray® is a convenient clear spray which leaves a thin protective film over the surface of the skin before application of or adhesive tapes or bandages. This protective layer reduces skin trauma with removal of tapes and is also adhesive, promoting excellent adhesive traction for bandages and tapes.

Size	Sales Unit	Case Quantity	BSN Code	Pip Code	NHSSC Code
300ml	1 x 12	12 x 12	71602-00	217-1122	FNG1161

## Tensoban®

Polyurethane Foam Underwrap/Pre Tape

Tensoban® is a very thin polyurethane wrap. This can be used under adhesive bandages and tapes to protect the skin in taping and strapping techniques. It can also be used as a pre- tape in Orthopaedic casting to provide a smooth surface before the synthetic cast material is applied, on top of the padding layer.

Size	Sales Unit	Case Quantity	BSN Code	Pip Code	NHSSC Code
7cm x 20m	1 x 12	9 x 12	71500-08	217-1114	EAZ026
