

Task 1 Submission Instructions

Teams must upload the solutions to Task 1 as follows:

- In this task, you will be submitting a **single .zip file only**.
- After completing a sub-task, let's say **Task 1B**, copy **only the "Code" folder** (which contains all your modified final scripts for **Task 1B**) from **Task 1B** folder to a new destination folder.
- Rename this **"Code"** folder (at new destination) as **"Task 1B"**.
- Repeat the above two steps for **Task 1A**. Make sure all your modified scripts are in **"Task 1A"** and **"Task 1B"** folders (for the respective sub-tasks) that reside at the new destination folder location.
- In below Figure 1, a destination folder (**HC_Task1**) contains **Task 1A** and **Task 1B** folders with all the **mandatory files to be submitted for Task 1 submission**. **Note: Your Task 1 will be evaluated only if all the mandatory files are submitted.** Following should be the folder structure.

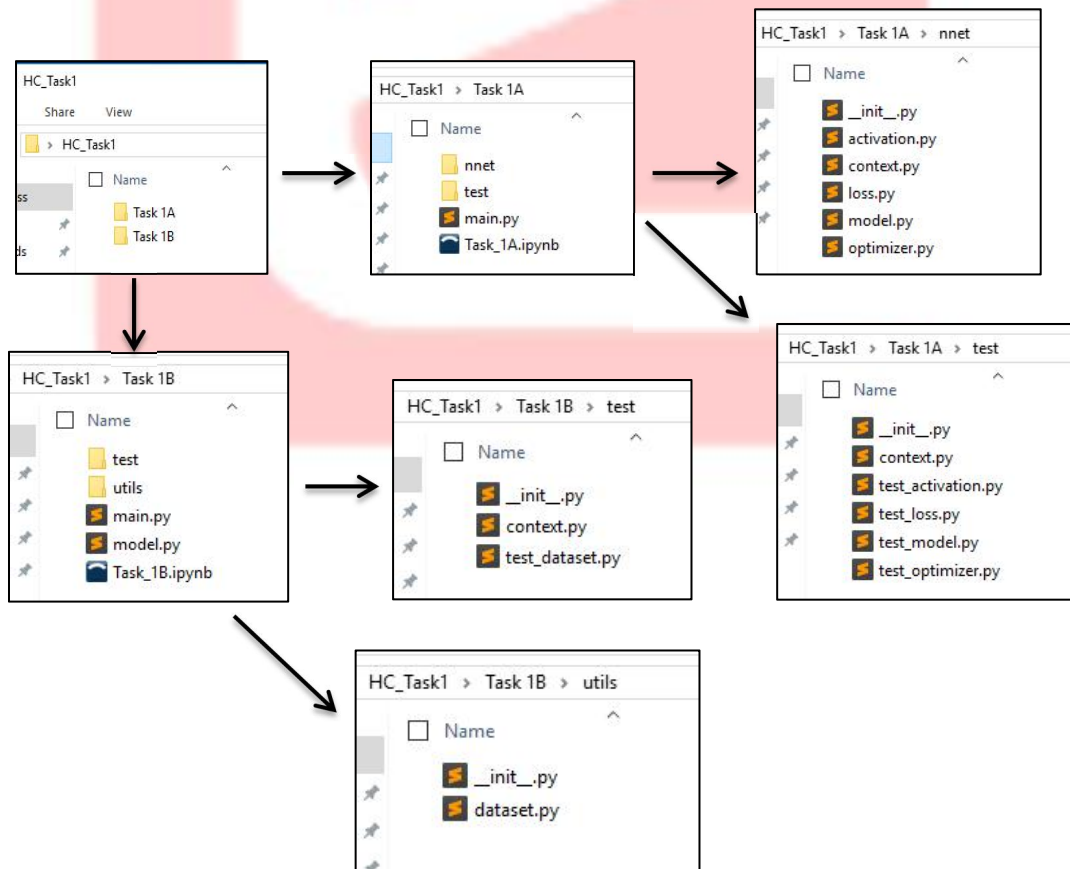

Figure 1

- Create a **.zip** file of this new destination folder (**HC_Task1** as in Figure 1) and name it as **HC#<TeamID>.zip**. For example, if your Team ID = 9999, the .zip file name will be **HC#9999.zip**.
- Upload the **HC#<TeamID>.zip** file on the portal. You can view all your submissions, so kindly download your submitted file from portal to verify the above steps. If anything is missing, please change it and re-upload the **HC#<TeamID>.zip** file before the deadline.

Deadline: HC#<TeamID>.zip for Task 1 is to be uploaded on or before Wednesday, November 28, 2018 11:59 pm.

You have got sufficient amount of time, so kindly follow a schedule for balancing your time with the Task 1 along with your curriculum activities. This will help you complete your Task 1 well before the deadline.

NOTE: If there are any changes in these submission instructions, we will post the update on Piazza only. So, please stay tuned there !

...Best Wishes ! ...
