Technology Price Guide • May 2013

One of the goals for Southeast Service Cooperative’s purchasing program is to save members **TIME**. We do this by coordinating bids so members don’t have to use time and other soft costs to conduct bids. Another way we can help save members time is reducing the amount of comparison shopping for technology products. To support this effort, we created a list of items that members frequently purchase and asked contracted technology vendors to provide pricing for members. We then compared the pricing on those products to Amazon and NewEgg. The result is this Technology Price Guide (pages 2-12), which outlines items where our pricing was the lowest and identifies the vendors providing the best price. While this guide does not contain all of the items you need to purchase, there are certain brands where our contract pricing is consistently lower. For example, Sony digital camera and video products are very frequently available at a lower price through C-DWG than both Amazon and NewEgg. Please let us know if you have any questions about this guide: Dale Walston dwalston@ssc.coop or Katie Schmitt kschmitt@ssc.coop.
