NEW FOR 2006

POLEMORPHICS®
DISPLAY SYSTEM

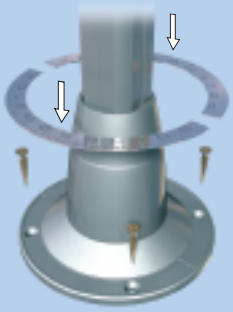
This innovative and patented display system enables any 2mm thick rigid sheet material to grip into a 'pole' without the need for fixings or brackets. Simply push the panel or graphic holder into the slot in the pole and it is gripped securely in place. It is a truly revolutionary display solution that is easily adaptable to suit any interior display situation - retail, banks, car dealerships, travel and estate agents, museums, galleries, hotels, etc

International Patents Pending
Application No. 0607683.0

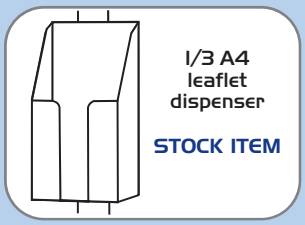
KEY FEATURES

- Beautifully engineered, strong and safe
- Cheaper than wire or rod display systems, much faster to install and significantly more flexible
- Does not require professional installers and associated costs and inconvenience
- Flexible polycarbonate poster holders offer safety to passers-by and are indescructible - unlike rigid acrylic
- Can be free-standing or permanently fixed
- Easily and quickly updateable by untrained staff

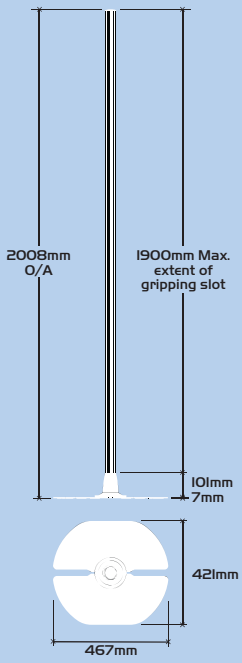
STOCK ITEM



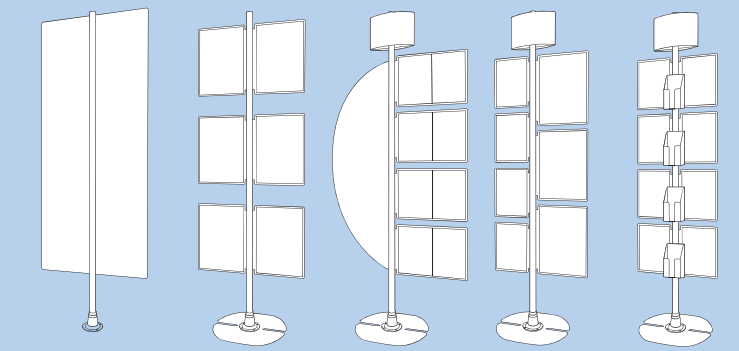
Pole & 'boss' without base for permanent floor mounting



Duallock fixed to non panel gripping pole faces



Display examples:



Note - New Polemorphics pole profiles and standard accessories are part of a continuous development programme

SIGHTMASTER
FORECOURT SIGN

- Double-sided large format poster display solution
