UNIFY

Drive business and future-ready your customers organisation with OpenScape Business

OpenScape Business

Distribution Central and Unify are offering a range of OpenScape business software bundles to meet the demand of growing businesses and suit your SMB business customers.

Why OpenScape Business?

OpenScape Business provides a complete all-in-one solution for your SMB customers.

- **Single application –** One application only for all UC functions
- **Embedded contact centre** - System-wide internal directory and favourites
- **Mobile twinning capability –** Switch calls to and from mobile or desk device
- **Call journal feature** – Complete call history for ease of tracking
- **Click to dial** – Call a contact directly from a number displayed in any application
- **Intelligent myAgent management system** – Transfer calls, see status of staff, manage staff presence & voicemail
- **Call pop-ups & live call recording** – Record live calls when you are already on the call,
- **Visual voicemail for 320 voicemail boxes**– Prioritise messages, send voicemail messages via email, automatically change voicemail to reflect presence status

Why the OpenScape Business Software Promotion Bundles?

- Simple ready-to-use bundles
- Suitable for customers with 10 – 40 users
- High value offering with up to **a 20%** saving off regular prices
- Single SKU for quoting and ordering
- Help your customers get future-ready
- Easy to scale to meet the demand of growing businesses

OpenScape Business S can be installed on:

Linux   Windows Hyper-V®   vmware vSphere

These simple ready-to-use bundles are suitable for both your OpenScape Business and OpenScape Business S customers.

These licensing bundles can only be applied as a complete package onto a single system.
