# HOME SCREEN

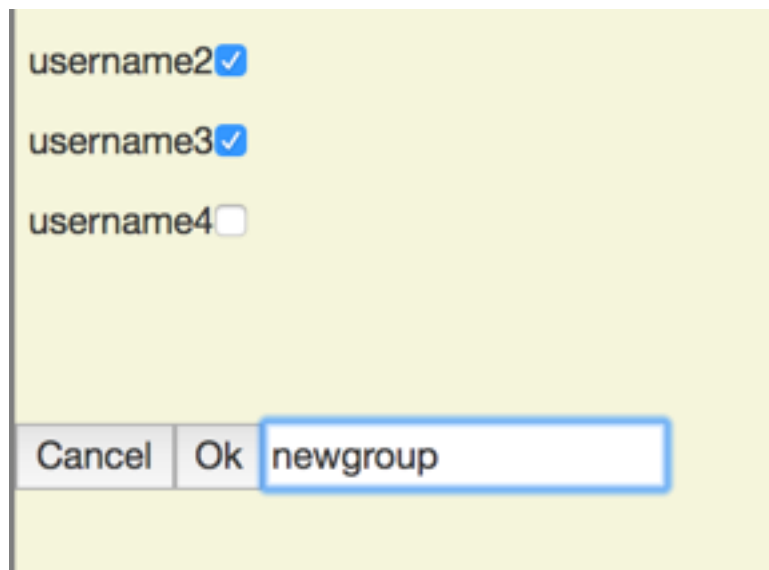

Active Users-> Indicated by green dot

TO send a message to a user in the list, select the use and send.

If the user is not in the list, Write the user name is the input on the homeScreen, and press Send.

User will get added on the list if it exists.

To form a group, select Form group, a list of users will appear, select the required users and write a name for the group. Click Ok to form the group

A screenshot of a dialog box for creating a group. The dialog has a light yellow background. It contains three user selection items: 'username2' with a checked checkbox, 'username3' with a checked checkbox, and 'username4' with an unchecked checkbox. At the bottom, there are 'Cancel' and 'Ok' buttons. To the right of the 'Ok' button is a text input field containing the text 'newgroup'.

Notifications appear when a new message is formed
