## Newsletter

Thank you for requesting our catalogue.

As you will see from our contents list, Warrior Miniatures offer a large range of models covering most popular wargame periods and sizes. At the last count it was over 1700.

We have continued our mission of offering the best possible value for money with more figures to the 'pound' than any other manufacturer. Who else offers Napoleonic 25mm figures at such a low cost, with 100 piece army packs for £25.00, or a 50 piece 10 mm pocket army for only £3.00!

Feast you eyes on all the goodies we have. Most of our ranges list either armies or sets saving you more over the cost of single figures. They are designed to help beginners get started and old campaigners afford that army they have been promising themselves for years. Besides our own figures, we also make *Gallia Miniatures*, *Crusade Miniatures*, *Dragon Fantasy* and *Over The Wire Games & Miniatures* each specialising in their own way. In fact something for everyone. Finally, we always welcome ideas and suggestions.

Thank you for your support.

May your dice always roll true!
