Number of sheets of paper			

Never run out of ink! Each
pack of **high-quality
paper** for our 'dye-sub'
printers is supplied with a
cartridge that lasts as long
as the paper.

With so many easy ways to get
fantastic prints – you're spoilt for
choice! Enjoy all the convenience
of photo-lab quality prints from the
comfort of your home with a Sony
Digital Photo Printer, order prints
from the Sony Print Service over the
Internet or simply go to your local
photo dealer.

Print by Sony
Produce photo-lab quality prints at home with ease
thanks to the magic of our **dye-sublimation printers**.
'Dye-sub' prints are smoother and more vibrant in
colour due to an astonishing 16 million different
colours and 256 gradations per pixel.

Print Service
With the **Sony Print Service**, it's easy to order prints
of all your favourite pictures over the Internet. Just
choose the pictures you want, send them to the
Sony Print Service online – and get high-quality prints
delivered right to your door! Want to know more?
Just visit www.sony-imaging.com/printservice

DPP-EX50

Bring the photo lab to your living room with
our stunning new DPP-EX50 Digital Photo
Printer – and enjoy high-quality, high-speed
'dye-sub' prints courtesy of its advanced
photo-quality processor. You can connect
any PictBridge* compatible camera,
including many Cyber-shot models, directly
to this printer for high-quality prints with
ease. Complete with a handy LCD control
panel, the DPP-EX50 can also be connected
to your TV for enhanced creative print
options. And using the user-friendly menu
on your TV, you can remove red-eye** from
your pictures, personalise your photos
by adding wallpaper backgrounds, text
and stamps or even make your own
calendars. For the utmost storage versatility,
this high-tech printer is also Memory Stick
and CompactFlash™ media compatible.

* PictBridge is a trademark.

** This function may not eliminate certain types of red-eye.

digital photo printer

Wide-angle
lenses
Expand your field of
vision with a wide-
angle lens. These
lenses are ideal for
capturing panoramic
shots and getting
wider subjects into
your pictures.

Close-up lens
Achieve brilliantly
detailed macro shots
of tiny subjects like
insects and flowers.
This close-up lens
gets you nearer to
your subjects from
a distance.

Choice accessories for special results

Tripods
A sturdy Sony
tripod is perfect for
capturing high-quality
night-time and long
exposure shots.

Tele lenses
Get closer to faraway
subjects without
disturbing them. A
tele conversion lens
is ideal for taking
detailed shots of
distant animals,
people and places.

Polarising filters
Enhance the colours
in your images and
eliminate unwanted
light reflection from
water and glass with
a polarising filter.

Neutral density
filters
Realise crystal-clear
images when
shooting in bright
light with a neutral
density filter.
