

A guide for future
students

2018 Degree and Diploma Guide

Ready for life and work

Jennie Diep (cover image)

Bachelor of Applied Sciences
(Medical Radiations)

As part of my studies, I had the opportunity to complete multiple clinical placements. Working with real patients gave me a valuable insight into what it takes to be a radiation therapist.

Since graduating, I have secured a job as an intern at Monash Health. My goal is to eventually work in MRI or ultrasound and gain experience working in Australia or perhaps overseas.

RMIT is an internationally recognised university of technology, design and enterprise.

While RMIT is one of Australia's original universities—known for excellence in art and engineering, design and management, and architecture and finance—its approach is anything but old school.

RMIT is all about real-life exploration, and encouraging students to apply knowledge and theory in practical settings.

RMIT offers programs at all levels of study, across a wide range of areas.

At RMIT, you'll have access to state-of-the-art facilities, inspiring teachers and mentors, and programs designed to set you up for success.

If you're ready to see how far you can go, start thinking about studying at RMIT.

Study in the heart of the world's most liveable city

Industry at the centre of everything RMIT does

Take your RMIT experience across the world

Acknowledgment of country

RMIT University acknowledges the Wurundjeri people of the Kulin Nations as the traditional owners of the land on which the University stands. RMIT University respectfully recognises Elders both past and present. We also acknowledge the traditional custodians of lands across Australia where we conduct business, their Elders, Ancestors, cultures and heritage.

Job ready

RMIT is serious about getting you ready for what comes after university.

To do that, a number of programs have been developed to help you navigate the transition from student life to work life.

Future Ready

Future Ready is an RMIT initiative designed to help you succeed. Learn how to impress employers in our resume-building workshops, get valuable job search advice and improve your interview game.

RMIT Activator

If you're an entrepreneur in the making, RMIT Activator can help you open a pop up store, establish a social venture or commercialise your big tech idea.

Job Shop

You can also visit RMIT's Job Shop for help with your career search, attend employer workshops and seminars to find out exactly what they're looking for, and explore volunteer opportunities that could land you your dream job.

Wherever you're headed, RMIT can help you get there.

**Gain the skills to
kick-start your career.**

Industry connected

Knowledge will only get you so far. Real success comes to those who can hit the ground running.

More than ever, employers need graduates who can get the job done from day one. That's why many RMIT programs are co-designed with industry leaders to ensure you get the practical skills you'll need to succeed.

And the collaboration doesn't end there.

Industry mentoring programs give you the opportunity to learn directly from a professional with a proven track record of success.

Work-integrated learning allows you to use what you've learned in the classroom in a real-life scenario. It might be an industry internship or working on a real project for one of RMIT's community partners. Whether your placement happens on site or off campus, your work will count towards your studies.

With a focus on the real-life application of academic knowledge, RMIT lets you test-drive your dream job.

Dan Johnson

Advanced Diploma of Business
(Public Relations)

For Dan, being part of a global work-integrated learning project gave him both a valuable international perspective and the chance to put into action his management skills. He says studying PR drew together his varied interests and skillsets, preparing him for a range of real world roles.

The best thing about PR is that if you're good at it, you can get a job in any industry in the world because effective communication is key.

Global opportunities

Meet interesting people, discover different cultures and gain a new perspective on your studies with one of RMIT's eye-opening global experiences.

From short study programs to semester-long exchanges, study abroad and work-based opportunities, RMIT has something to satisfy your wanderlust.

James Scully: USA – Monument Valley, border of Utah and Arizona. RMIT exchange to California State Polytechnic University, USA

Study overseas

Spend one or two semesters abroad and continue to earn credit towards your program. Here are just a few of the places you could go.

- Universita Bocconi, Italy
- University of the Arts London, UK
- Edinburgh College of Art, UK
- Fashion Institute of Technology, USA
- Parsons School of Design, USA
- Barcelona School of Architecture, Spain

Work abroad

RMIT's International Industry Experience and Research Program (RIIERP) is perfect if you're harbouring global ambitions. RIIERP students undertake a six to 12 month internship at leading companies, gaining valuable exposure to renowned leaders, proven business strategies and inspiring cultures.

Student Mobility

Hear from students talking about their overseas study experiences.

Watch the video at:

Take a short trip

Interested in a shorter trip? Global Intensives are short programs that can be a great way to earn credit towards your program and see the world over the summer or winter break.

To find out more, visit www.rmit.edu.au/students/global-study-options.

RMIT Vietnam

Study at RMIT's Vietnam campuses in Ho Chi Minh City and Hanoi. You'll experience another culture while still being at RMIT.

Exploring Québec City and Le Château Frontenac on a weekend trip with the other interns.

Grace Marconi

Bachelor of Engineering (Biomedical Engineering) (Honours)

I have been able to complete internships at Polytechnique Montréal in Canada and with the St Vincent's Department of Medical Research. Both these internships have been incredible experiences and allowed me to learn so much in terms of biomedical engineering, professional practices and postgraduate research. I've also had real industry experience, preparing me for the workforce and providing me with direction for my career after I graduate.

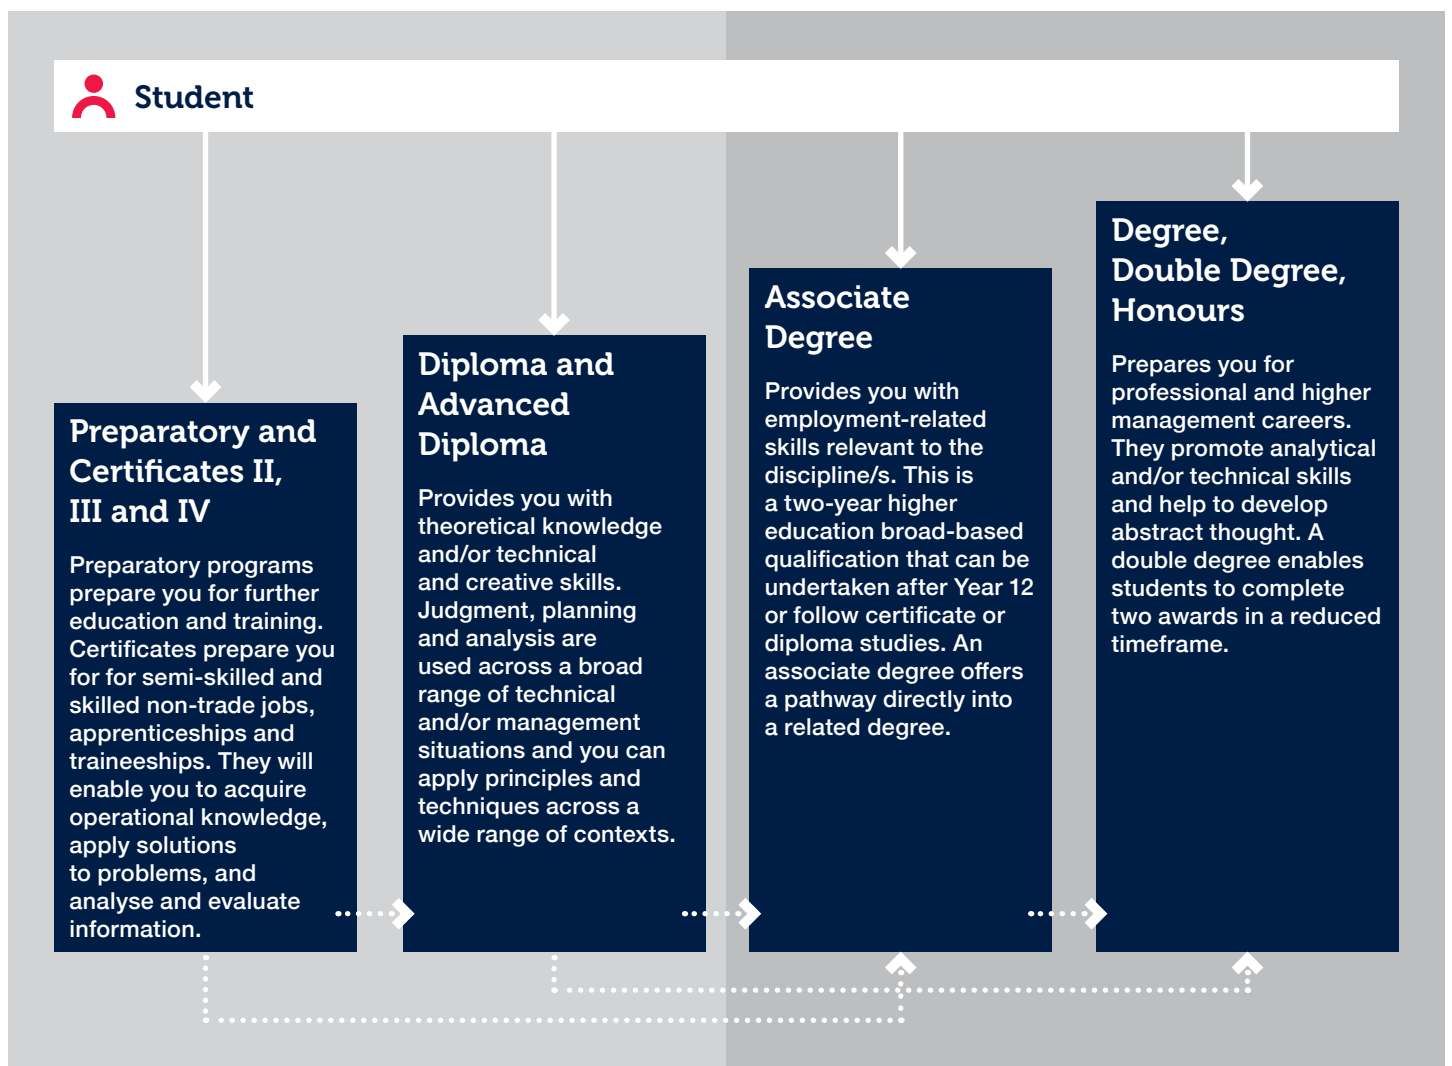

Pathways

Don't meet the entry requirements?

Pathways provide opportunities for you to progress from one program to another.

Different levels of study at RMIT mean you can explore more than one way to get the qualification you want.

Certificate, diploma and associate degree qualifications can be credited towards a degree. Alternatively, partly completed degree studies may be credited to a diploma, advanced diploma or different degree.

Explore RMIT's campuses

Live and learn at one of RMIT's three vibrant campuses.

RMIT's three Melbourne campuses are home to a dynamic and thriving student population. From the hustle of Melbourne's CBD to the buzz of Brunswick and the tranquillity of Bundoora, each offers a unique and inspiring learning environment.

Cutting-edge facilities, including the Swanston Academic Building and Design Hub, represent RMIT's commitment to developing world-class learning, teaching, training and research spaces.

Melbourne City

At the centre of the city

Situated on Swanston Street, the City campus has been an iconic part of the Melbourne CBD for more than 100 years. The campus is surrounded by cafes, galleries, theatres, restaurants and parks, and is easily accessed by public transport.

Melbourne Central railway station is convenient to most campus buildings, while a number of north-south Yarra trams run up and down Swanston Street.

Brunswick

Part of a creative hub

Brunswick is where multicultural Melbourne meets its creative soul. The campus is home to around 3000 students and to many of RMIT's design-related programs, including fashion and textile technologies.

Getting to and from the campus is easy. Jewell railway station, on the Upfield line, is a short walk away and the number 19 tram runs from Elizabeth Street in the city to the campus.

Bundoora

The great outdoors

Situated in the northern Melbourne suburb of Bundoora, this campus is home to many of RMIT's education, health and biomedical science programs. The campus features state-of-the-art learning and sporting facilities, and is surrounded by amazing bushland and parks.

There is plenty of parking on and around campus, and it is well serviced by tram and bus services.

New Academic Street

RMIT's New Academic Street (NAS) project takes the Melbourne City campus's integration with the CBD to the next level. As part of NAS, four ageing buildings on Swanston Street are being transformed into amazing, mixed-use spaces featuring learning and social environments including garden terraces, library, meeting spaces and a media precinct.

Make the most of uni life

There's more to uni life than lectures.

As an RMIT student you'll find there are so many ways to make the most of your uni days. Whether it's joining a sporting team or social club, starting a band or taking a ski trip, there really is something for everyone.

Arts and Culture

You don't have to be an arts student to take part in RMIT's writing, dance, design, film, and visual and performing arts programs.

Clubs and Societies

If you're after a chance to meet new people and gain new skills, join one of the 135 student-run clubs and societies.

Leadership Development

Develop professional and personal skills by taking advantage of leadership training and networking opportunities to get an edge in the job market.

Recreation and Social

Get involved in RMIT's free weekly food and music events, take advantage of the ski lodge at Mt Buller or explore Australia on one of RMIT's amazing tours.

As an RMIT student you'll find there are so many ways to make the most of your uni days.

Art, Design and Architecture

Explore your ideas through making.

The impact of art, design and architecture is felt everywhere – providing innovative solutions and new perspectives on economic, social and environmental issues.

RMIT is recognised globally for its reputation in art, design and architecture education.

You'll learn from academics who are professional practitioners and from day one you'll engage actively in the design process – gaining the skills, entrepreneurial spirit and knowledge for a global career.

A career in design gives you the ability to create your own path – there are no limits to the ideas you can develop, the people you can meet and the places you can go. It's a myth that creatives don't make money – in Victoria design firms contribute around \$7 billion annually to the state's economy.

RMIT gives graduates the fundamental skills and connections to ensure flexible and diverse global career opportunities, enabling them to work where, when and how they choose.

Study areas

- Architecture and urban design
- Fashion and textiles
- Fine and visual art
- Games, animation and interactive media
- Graphic and communication design
- Industrial, furniture and product design
- Interior design
- Landscape architecture
- Photography
- Visual merchandising

Victoria Bliss

Bachelor of Fashion (Design) (Honours)
Forever New scholarship recipient

Aside from providing me with an amazing gateway into the fashion industry, the scholarship also means I can achieve all these crazy dreams and design ideas that, in the past, may not have been financially viable.

The RMIT Forever New scholarship aims to foster inspiring and exceptional talent in the Bachelor of Fashion (Design) (Honours). Recipients receive \$20,000, a European research trip with the Forever New buying team and year long contract with the retailer's design group upon graduation.

RMIT rankings

First in Australia and 16th in the world for Art and Design.

First in Australia and 17th in the world for Fashion and Textiles.

36th in the world for Architecture.

Source: QS World University Rankings by Subject 2016

What's it like being an art, design and architecture student at RMIT?

See how RMIT University transforms students into confident, job-ready creatives as they prepare to showcase their work to the world in their final end-of-year exhibitions.

Art, Design and Architecture

RMIT architects win national prize

M@ STUDIO Architects is a design research-focused practice led by RMIT University staff, comprising architects, landscape architects, academics and students, which won the 2016 NGV Architecture Commission through an open national competition that drew more than 90 entries.

M@ STUDIO's winning design "Haven't you always wanted...?" is a playful hot pink pavilion inspired by a suburban Melbourne car wash. The installation transformed the National Gallery of Victoria's garden into a magical and interactive space.

Textile designer named Australian Graduate of the Year

Bachelor of Arts (Textile Design) graduate Michelle de Castro has been named Australian Graduate of the Year by the Design Institute of Australia for her innovative and experimental work in textile design.

Michelle's style combines her graphic design background with her Textile Design degree to produce outcomes that combine a strong conceptual base with an expressive, illustrative style.

“Superstruct” by de Castro combines new technologies and materials to create a bold range of future-driven textiles for a women's activewear range.

Michelle's designs have a visual beauty and style, but they also showed a high level of “solutions thinking” that is needed today to combine design ideas and design fulfilment.

DIA judge Susan Lauter

Photography by Danielle Chau.

Luke Tiziani

Bachelor of Design
(Communication Design)

VCAA Season of Excellence
2012, Top Designs Exhibition

Shortlisted for the 2014
Melbourne Design Awards

TDK Graphic Design Awards –
16 for 2016

Luke's advice for
design students:

- Experiment as much as you can. It's all about learning new skills, so challenge yourself to learn something new for each project.
- Work hard and be confident, get your work out there! Create an online portfolio and get on social media. Share it, spread it and only show work that you enjoy doing.
- Know the industry you're getting into both locally and internationally. Apply for internships, jobs, competitions and exhibitions.
- Get feedback and opinions from others to improve your work. Sometimes feedback hurts, but don't take it personally – grow that tortoise shell of yours!

Bachelor of Interior Design (Honours)

📄 BH115 📍 City 🕒 4 years **VTAC** 3200332691

This program positions Interior Design as an idea-led design discipline. It explores the potential and future of interior design as a practice concerned with the spatial and temporal relations between people and the surrounding environment. Different interiors are considered from architectural, retail, exhibition and urban environments; digital and filmic spaces; performance and theatre design; art installations and more.

www.rmit.edu.au/programs/bh115

➔ **ADg** Interior Decoration and Design (2 years) *plus* bachelor (additional 3 years) = 5 years total duration.

➔ **Adv** Building Design (Architectural) (2.5 years) *plus* bachelor (additional 2.5 years) = 4 years total duration.

➔ **Dip** Interior Design and Decoration (2 years) *plus* bachelor (additional 3 years) = 5 years total duration.

[🔗 Selection Task](#)

Prerequisites

Units 3 and 4 – a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Associate Degree in Interior Decoration and Design

📄 AD020 📍 City 🕒 2 years **VTAC** 3200333541

Develop specialised knowledge and high-level technical skills to explore and deliver unique design solutions for a broad range of interior concepts. Graduates can work across a range of commercial and residential interior design offices and boutique design and decoration consultancies.

www.rmit.edu.au/programs/ad020

[🔗 Selection Task](#)

Prerequisites

Units 3 and 4 – a study score of at least 20 in any English (except EAL) or at least 25 in English (EAL).

Diploma of Interior Design and Decoration

📄 C5333 📍 City 🕒 1.5 to 2 years **VTAC** 3200310034 **NCC** MSF50213

In this practical program learn 2D and 3D design skills and the decorative aspect of design. Develop documentation and technical skills in order to present your ideas to both residential and commercial clients in a professional brief.

www.rmit.edu.au/programs/c5333

[🔗 Selection Task](#)

Prerequisites

None.

Certificate IV in Interior Decoration

📄 C4355 📍 City 🕒 2 years (part-time only) **NCC** MSF40113

This practical program is your entry into the field of interior design and decoration. Plan, design and decorate an interior with a focus on the development of the project's aesthetic, environmental, spatial and safety aspects, as well as your client-presentation skills.

www.rmit.edu.au/programs/c4355

Prerequisites

None.

Landscape Architecture

Bachelor of Landscape Architectural Design

📄 BP256 📍 City 🕒 3 years **VTAC** 3200332101

Landscape architecture is more than beautiful gardens; you'll develop the skills and knowledge to deal with the challenges of urbanisation such as water, energy and food security, as well as ensuring equitable access to transport, work, leisure, health and happiness. Landscape architects have the potential to improve the lives of everyone.

www.rmit.edu.au/programs/bp256

[🔗 Selection Task](#)

Prerequisites

Units 3 and 4 – a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Photography

Bachelor of Arts (Photography)

📄 BP117 📍 City 🕒 3 years **VTAC** 3200332681

A unique combination of industry training and academic study will teach you to analyse photography in a broad historical and cultural context, as well as encourage critical engagement and innovation in your practice. Situated in the heart of vibrant Melbourne, you'll learn in purpose-designed studios using the latest technology and digital photographic equipment.

www.rmit.edu.au/programs/bp117

➔ **Dip** Photo Imaging (2 years) *plus* bachelor (additional 2 years) = 4 years total duration.

[🔗 Selection Task](#)

Prerequisites

Units 3 and 4 – a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Certificate IV in Photography and Photo Imaging

📄 Cert IV: C4373, Dip: C5351 📍 City 🕒 Cert IV: 1 year, Dip: 1 year **VTAC** 3200372074

NCC Cert IV: CUA41115, Dip: CUA50915

Develop core photographic skills in the key areas of image capture in studio and on location, digital manipulation, output and photo theory. The program emphasises industry knowledge, collaboration and professionalism.

www.rmit.edu.au/programs/c4312

[🔗 Selection Task](#)

Prerequisites

None.

Visual Merchandising

Diploma of Visual Merchandising

📄 C5325 📍 City 🕒 1.5 years **VTAC** 3200372164 **NCC** SIR50212

With graduates working across the globe, this diploma is recognised as a design leader. Working to industry briefs, this hands-on program will develop your creative display and design skills for retail, exhibitions, event and photo-styling industries, preparing you for a highly successful career as a creative individual.

www.rmit.edu.au/programs/c5325

[🔗 Selection Task](#)

Prerequisites

None.

Kira Rosenwax

Bachelor of Arts (Fine Art)

What is it like to work on festival projects, or be employed in companies and institutions such as galleries, museums or studios? Kira explains.

As a young emerging artist I want to do as much as I can, to see what feels right for me, and what to pursue in the creative world.

The Bachelor of Arts (Fine Art) gives you the opportunity to do an internship, where you can address and solve real issues in an arts industry workplace environment.

I learnt a lot during my six-week internship with international artist Hannah Bertram. By getting hands-on, one-on-one knowledge from Hannah, I've been able to reinforce my own ways of thinking and creating, as well as gaining a good sense of time management.

Building, Construction and Planning

RMIT graduates are building, construction and planning leaders who have the ability to respond to the needs of growing communities.

More than half the world's population is living in cities. With the increase in urbanisation, the development of our environment is about more than just constructing buildings and roads.

Today's growing cities need to be carefully planned to create liveable and sustainable spaces that will accommodate diverse and growing communities.

At RMIT, you will gain professional skills to design, plan, shape, finance and manage urban spaces and the cities we live in.

RMIT is renowned for successful student outcomes, strong links with industry and innovative approaches to teaching. Using the latest technology and teaching methods, RMIT equips students with the skills needed to succeed in this thriving industry.

Study areas

- Building and trades
- Civil engineering
- Construction and project management
- Property and valuation
- Surveying and geospatial sciences
- Urban design

Joseph Martakis

Bachelor of Applied Science (Construction Management) (Honours)

After initially pursuing a career in trade, Joseph decided to focus on his studies to broaden his knowledge and skill set in the construction industry.

The construction industry is more than simply the building of infrastructure and dwellings. RMIT has prepared me with the practical, leadership and strategic skills I need for a career that will contribute to creating vibrant, cohesive and economically productive communities.

Project management

Project managers are the powerhouses that drive a project from its conception through to its completion. They're not limited to the construction industry either – they're required across all fields.

Find out more:
www.tinyurl.com/RMIT-ProjectMgmt

Why study Building, Construction and Planning at RMIT?

Work-integrated learning gives you the opportunity to learn from professionals and take part in internships.

Participate in study tours and exchanges with more than 150 partners in 41 countries.

RMIT is highly regarded for its teaching methods and classroom technologies, with a QS ranking of 36 for the Built Environment.

RMIT's Employer of Choice program gives you employment experiences that enhance your studies and prepare you for your career.

with RMIT.**

Building, Construction and Planning

Samantha Vilella

Bachelor of Applied Science
(Construction Management)
(Honours)

Samantha's interest in buildings, construction and cities motivated her to study construction management.

I would encourage anyone with an interest in the built environment to study this degree. It will prepare you for the challenges of the construction industry – from planning, coordination and design, through to the completion of a project. You'll develop the tools to shape the future built environment.

- ➔ **Dip** Youth Work (1 year) *plus* bachelor (additional 3.5 years) = 4.5 yrs total duration.

📄 ATAR (2017: 70.25)

Prerequisites

Units 3 and 4 – a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Lauren Peek

Bachelor of Urban and Regional Planning

Studying a Bachelor of Urban and Regional Planning has helped Lauren gain practical experience in the field.

I have always loved being in the city; it has always fascinated me. I chose to study the Bachelor of Urban and Regional Planning to become involved in the process of changing the built environment.

RMIT is one of the few universities that offers a paid-work placement component as part of the planning program.

Business

Study here. Succeed anywhere.

By studying business at RMIT, you'll develop skills relevant to your career aspirations. Let us help you turn your natural talents into skills valued by employers and the global marketplace.

Whether your goal is to develop new skills in business, build on existing knowledge, be a leader or problem-solver, or create new jobs for the future, we can help you make an impact within the classroom and outside.

RMIT offers a range of flexible study options that take into account your previous experience and study requirements, whether you chose to study in Melbourne, Hanoi, Ho Chi Minh City or online.

If you're looking for a shorter term overseas experience, we'll show you ways to combine work or study as part of your RMIT journey.

No matter what options you choose, as an RMIT business graduate you'll learn the latest trends from industry professionals, benefit from our peer mentor and student ambassador programs, and be able to tap into professional networks to prepare you for work anywhere in the world.

Study areas

- Accounting
- Economics and finance
- Entrepreneurship
- Information systems
- International business
- Management, business and administration
- Marketing and advertising
- Statistics and analytics
- Supply chain and logistics

Chester Sek

Bachelor of Business (Information Systems) (Applied)

Completing a one-year internship during his degree gave Chester the opportunity to develop practical industry knowledge.

I want to pursue my interest in mobile development, networking and information technology security to improve the way we live. I feel my degree has helped me start to understand the complex issues facing businesses in this area.

A week in the life of a business student

Find out how recent logistics graduate Caitlin Farrelly balances study, work and a social life and her advice to future business students at RMIT.

Dianne Caday

Diploma of Financial Planning Bachelor of Business (Economics and Finance)

After working in the banking industry for several years Dianne decided to expand her expertise with a formal qualification that would allow her to focus on a career as a financial planner.

I decided to go back to university to study financial planning as a pathway into a bachelor degree in economics and finance. I chose RMIT because of the hands-on program that enabled me to really develop my financial and analytical skills.

Alana Maragos

Bachelor of Business (Management)

Alana gained a graduate job after completing a summer internship and says her degree gave her the skills and knowledge to step confidently into the workforce.

I chose RMIT because I had heard there was a strong focus on the practical application of knowledge and skills as opposed to just theory and this was important to me. I also really liked having the ability to adapt the program around my individual interests.

International Business	
<p>Bachelor of Business (International Business) (Applied)</p> <p>BP027 City 4 years VTAC 3200333121</p> <p>Build skills and knowledge to manage, analyse and interpret the complex nature of global organisations. Joseph Pinkard

Diploma of Business Administration

Looking to make a career change into the not-for-profit sector, Joseph chose to study a Diploma of Business Administration to give him relevant skills and knowledge.

I chose RMIT because of its reputation, the blended mode of delivery and the practical nature of the program. The Diploma of Business Administration is a theoretical and practical program that will help you to get real-life training and experience.

Vasileia Maria Papayianneris

Diploma of International Business

Advanced Diploma of International Business

Bachelor of Business (International Business)

RMIT's study pathways helped Vasileia Maria transition from vocational education into higher education.

Studying a vocational education program really suits my learning style as I enjoy the smaller class sizes and the personalised teaching style. I now have an in-depth knowledge of the world of international trade and a much deeper understanding of where this program can take me.

Mathematics, Statistics and Analytics

Bachelor of Analytics (Honours)

📄 BH119 📍 City ⌚ 4 years VTAC 3200339991

Gain skills in analytics through studies in statistics, operations research, computer science, IT and commerce. Career pathways include quantitative analysts, business analytics, business intelligence, financial analysts and statisticians.

www.rmit.edu.au/programs/bh119

🔗 ATAR – Not Published

Prerequisites

Units 3 and 4 – a study score of at least 20 in one of Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Science (Statistics)

📄 BP245 📍 City ⌚ 3 years VTAC 3200332151

Companies rely on statistics for reporting, data modelling and forecasting operational results. Learn to use a number of industry-relevant computer packages and gain the skills and knowledge to apply statistics to a broad range of industries.

www.rmit.edu.au/programs/bp245

🔗 ATAR – Not Published

Prerequisites

Units 3 and 4 – a study score of at least 20 in one of Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Supply Chain and Logistics

Bachelor of Business (Logistics and Supply Chain Management) (Applied)

📄 BP143 📍 City or RMIT Vietnam ⌚ 4 years VTAC 3200332131

Tackle business problems in the global marketplace and understand the complexities of logistics, supply chain and trade industries. Careers can be found in retail, manufacturing, transport, warehousing and procurement. This degree includes one year of compulsory work-integrated learning to combine theory and practice.

www.rmit.edu.au/programs/bp143

† Includes one year of work-integrated learning.

Communication and Digital Media

Find your creative direction.

RMIT is recognised globally for its expertise in communication and digital media.

Graduates include bestselling authors, award-winning journalists, successful screenwriters, and leading communications practitioners and researchers.

At RMIT you'll learn from digital and communication experts to build hands-on, practical and creative skills.

RMIT programs bring industry professionals into the classroom and simulate real-life environments, projects and technologies, preparing you for a career in the rapidly changing media landscape.

Modern facilities and industry partnerships allow students to move fluently between the classroom, studio and workplace.

You will have a head start on the competition, graduating with practical experience and the ability to think strategically about design, communication and future trends.

As digital media and communication landscapes evolve, you'll have the opportunity to set yourself up for a career that pioneers change.

Study areas

- Communication and writing
- Marketing and advertising
- Music and audiovisual
- Screen and media

Aaron Farrugia

Advanced Diploma of Screen and Media

When I was thinking about studying to work in the film industry, I knew I wanted to study a hands-on program that gave me practical camera experience from day one.

Aaron has worked as a director of photography and cinematographer across feature films, music videos and television commercial campaigns for clients such as Country Racing Victoria, British Paints, NAB, SPC Ardmona, Red Rooster, AAMI and AustralianSuper.

App design and development

Digital Media students work in teams to design and develop mobile apps as part of their final year project.

Budgie was one of the apps created and was designed to help young users keep track of their finances. Users can enter daily transactions and set monthly goals. Budgie's mood changes depending on the current balance.

Why study Communication and Digital Media at RMIT?

Opening in 2017, Media Street is a purpose-built student facility with world-class design, animation, television and film studios.

Experts from industry advise on RMIT programs to ensure you learn the most up-to-date technology and practices.

Studio-based learning lets you work on real projects with RMIT's industry partners.

Current partnerships include Ogilvy, ACMI, NGV, Iloura, Deloitte Digital, Film Victoria, SBS Radio, Channel Seven and the ABC.

Festival partnerships include Melbourne International Film Festival, Melbourne Music Week, Emerging Writers Festival, Melbourne International Animation Festival and the St Kilda Film Festival.

Communication and Digital Media

Brodie Lancaster

Bachelor of Communication
(Media)

Brodie took advantage of her time at RMIT to experiment and play with new media and ideas.

I am a senior editor at The Good Copy, which is a writing studio in Collingwood where I manage editorial for different clients and help manage things like Rooftop Cinema and the Independent Photography Festival.

My biggest achievement has been growing my publication, *Filme Fatales*, from an independent, handmade zine to a really exciting publication with international stockists and readers.

Communication and Writing

Jarni Blakkarly

Bachelor of Communication (Journalism)

Jarni won the 2016 Walkley Student of the Year Award. He works freelance regularly for the ABC, Al Jazeera, Reuters and BBC World Service.

I'm excited by the ways in which digital journalism is evolving and the new ways of online multimedia and interactive story-telling that are emerging.

RMIT's journalism course has the best reputation, but it was also the more practical industry focus of the course that drew me to it. It seemed like a very hands-on, less theoretical course which for journalism is much more relevant.

Computing, Games and Information Technology

We are living in a digital age where too much information is never enough.

RMIT Computing and IT programs prepare you to meet today's digital challenges, and to imagine how people and technology will interact in the future.

Every industry needs experts in computer science and IT to help them manage and process data and provide network support and security.

In a nutshell, computer scientists understand the "why" behind programs and IT specialists manage the systems.

RMIT lets you customise a university degree to suit your interests. You can build a flexible skill set by combining courses that match your passions and talents.

At RMIT, you're not just learning theory. You're solving real industry problems and developing market-ready software.

Study areas

- Computer science
- Games and interactive media
- Information systems
- Information technology
- Software engineering

Charles He

Bachelor of Software Engineering

After he graduated from the Bachelor of Software Engineering, Charles secured a job in mobile app development.

We had a lot of exposure to industry. In the third year I completed an internship which gave me a great insight into Australian corporate culture and in the final semester I did a project with Seek to improve the quality of their search engine.

Meet the teacher: Professor John Thangarajah

Associate Professor John Thangarajah is a self-confessed technophile who is looking forward to a world where artificial intelligence can improve our daily lives.

He teaches programming and specialist artificial intelligence courses and aims to inspire and challenge the next generation of computer scientists through exciting projects using technology such as Oculus Rift, Lego Mindstorms and humanoid robots.

Why study Computing, Games and Information Technology at RMIT?

Benefit from innovative and industry-relevant courses, giving you the practical skills and knowledge that employers need and value.

RMIT's programming club provides a fun and social way to familiarise yourself with team-based project work.

Get a practical head start through paid industry placements, unpaid internships and industry projects.

www.rmit.edu.au/study-with-us/computing-games-and-information-technology

Take IT to the limit.

Computing, Games and Information Technology

Edeline Amelia

Bachelor of Computer Science

Computer Science graduate Edeline loves the industry because she gets to create products that directly impact people's lives by making processes simpler.

I chose to study at RMIT as it is well known for delivering quality IT courses and each course combines theory and practical experience. I also liked having the flexibility in choice of subjects.

Every day has something new and there's no limit to the innovative things that will come.

Computer Science

Diploma of Information Technology

C5341 City 1 year. Part-time may be available. VTAC 3200372294 NCC ICT50115

Apply your IT skills to a business context by learning about programming, web development, operating systems, networking and databases. Career pathways lead into IT project management, software, database and web development.

www.rmit.edu.au/programs/c5341

ATAR – Not Published

Prerequisites

None.

Certificate IV in Information Technology Networking

C4378 City 1 year VTAC 3200310084 NCC ICT40415

You will develop knowledge and technical skills essential for the IT industry, enabling you to pursue a career in roles such as network technician, network administrator, network services administrator, network support coordinator, network security coordinator and IT operations administrator.

www.rmit.edu.au/programs/c4378

ATAR – Not Published

Prerequisites

None.

Software Engineering

Bachelor of Software Engineering

BP096 City 4 years VTAC 3200332261

You will learn the software engineering principles and practices to acquire the extensive skills necessary for developing and managing complex, quality-measured software systems, studying analysis and design, coding, testing, deployment, project management and other critical areas. This degree includes an industry placement in the third year. Career roles may include software developer, tester, architect, designer or management.

www.rmit.edu.au/programs/bp096

ADg Information Technology (2 years) *plus* bachelor (additional 3 years) = 5 years total duration.

ATAR (2017: 90.25)

Prerequisites

Units 3 and 4 – a study score of at least 25 in one of Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Paige De Vanny

Bachelor of Design (Animation and Interactive Media)

The Bachelor of Design (Animation and Interactive Media) alumnus recently landed her dream job at Weta Digital, one of the world's leading visual effects companies based in New Zealand.

The Oscar-winning company is responsible for bringing to life performance-driven digital characters like Gollum (*The Lord of the Rings*) and Smaug (*The Hobbit*), Kong (*King Kong*) and Caesar (*The Planet of the Apes*).

I've always loved drawing and story telling. I definitely knew I wanted to study in a creative field, whether it be design or fine art. What appealed to me with the Animation and Interactive Media degree was that it was really versatile. While learning the technical skills and software for the creative corporate world we also had core classes in things like design, life drawing and sound mixing. It was the right mix of technical knowledge and creative freedom.

[†] Students who successfully complete the associate degree with a minimum Grade Point Average of 2.0 out of 4.0 are guaranteed a place in the degree.

Education and Teaching

Passion with purpose.

Few careers offer the chance to impact the lives of individuals as much as teaching.

From early childhood educators who guide learning through play to secondary teachers who encourage individual and critical thinking, teachers and educators are rewarded with their students' achievements and progress every day.

RMIT education programs prepare you for the classrooms of the future by combining technology with best-practice teaching methods.

You'll be taught by education specialists with extensive practical experience and valuable insights to guide you through your degree and into the classroom.

Study areas

- Career education
- Health and physical education
- Teacher education
- Training and assessment

Monica Lamperd

Bachelor of Education (Primary Education)

Monica chose RMIT because of the placements and international opportunities that it offered.

As part of my studies at RMIT I have been involved in several really wonderful teaching placements, including a rural school in Nepal in my third year. As corny as it sounds, this experience completely changed my life!

Why teach?

Teaching is a challenging yet rewarding profession.

From seeing students achieve that “light bulb” moment to guiding them in their future careers, here are five more reasons to pursue a career in teaching:

- Shape the lives of young people
- Get transferable and globally recognised skills
- There’s strong demand for new teachers
- Learn the value of tradition and innovation
- Work in a challenging and rewarding profession

Why study Education and Teaching at RMIT?

Discover what teaching is like around the world through global placement experiences.

Students are immersed in all aspects of teaching as they gain practical classroom experience across different learning environments.

As a student you will learn by doing in RMIT’s professional experience program.

RMIT is connected to a community of industry partners established over 50 years.

Education and Teaching

Elizabeth Jukes

Bachelor of Education
(Early Childhood)

Elizabeth believes a good teacher is someone who is passionate and values education.

Early childhood education at RMIT prepares students for their careers by having dedicated lecturers that have worked in the field and understand what is actually needed in the workplace.

The staff are supportive and understand the individual needs of students, which made the learning experience so valuable.

RMIT's professional placement system enables students to have hands-on experience which builds students' confidence before entering the classroom.

§ This program is currently under review. Please contact Info Corner on tel. +61 3 9925 2260 or visit 330 Swanston Street (cnr La Trobe St) Melbourne for more information.

Health and Physical Education

Bachelor of Applied Science (Health and Physical Education)[§]

BP041 Bundoora 4 years

Prepare for a career as a specialist health and physical education teacher at primary and secondary schools. This degree also allows you to gain a second teaching method from a range of offerings and is accredited by the Victorian Institute of Teaching.

www.rmit.edu.au/programs/bp041

ATAR – Not Published (program not offered in 2017.)

Prerequisites

Units 1 and 2 – satisfactory completion in two units (any study combination) of General Mathematics or Mathematical Methods; and Units 3 and 4 – a study score of at least 20 in one of Biology, Chemistry, Mathematical Methods (any), Specialist Mathematics, Physical Education or Physics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL). There may be an interview for some applicants.

Bachelor of Applied Science (Exercise and Sport Science)

See page 57 for details

Teacher Education

Bachelor of Education (Primary Education)

BP046 Bundoora or Brunswick 4 years VTAC Brunswick: 3200133001, Bundoora: 3200233001

Prepare for the demands of 21st-century learning and teaching, combining hands-on experiences with leading research. Graduates are eligible for registration with the Victorian Institute of Teaching and can teach nationally and overseas.

www.rmit.edu.au/programs/bp046

➔ **Cert IV** Certificate IV in Education Support (1 year) *plus* bachelor (additional 4 years) = 5 years total duration.

BRUNSWICK:

ATAR (2017: 65.15)

BUNDOORA:

ATAR (2017: 65.15)

Prerequisites

Units 3 and 4 – a study score of at least 20 in mathematics (any) and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Education (Primary and Early Childhood Education)

BP046 Bundoora 4 years VTAC 3200210051

This specialised degree provides you with a professional qualification allowing you to work in a diverse range of primary and early childhood education contexts, both locally and internationally.

www.rmit.edu.au/programs/bp046

➔ **Cert IV** Education Support (1 year) *plus* bachelor (additional 4 years) = 5 years total duration.

ATAR (2017: 65.15)

Prerequisites

Units 3 and 4 – a study score of at least 20 in mathematics (any) and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Education (Primary Education and Disability Studies)

BP046 Bundoora 4 years VTAC 3200231061

This specialised degree provides you with a professional qualification in both primary education and disability studies. You'll be prepared to teach learners with special needs in either special schools or mainstream schools.

www.rmit.edu.au/programs/bp046

➔ **Cert IV** Education Support (1 year) *plus* bachelor (additional 4 years) = 5 years total duration.

ATAR (2017: 65.00)

Prerequisites

Units 3 and 4 – a study score of at least 20 in mathematics (any) and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Certificate IV in Education Support

C4349 Brunswick 1 year VTAC 3200110144 NCC CHC40213

This program will provide you with the essential skills to work collaboratively with teachers and students in school and community settings.

www.rmit.edu.au/programs/c4349

Selection Task

Prerequisites

Applicants require validated significant experience in direct learning support, under limited guidance. Refer to URL for more information.

Jeremy Thomson

Bachelor of Education

The desire to experience something different every day motivated Jeremy to pursue a career in primary education.

Choosing to study with RMIT was easy, as I have always associated the word “creative” with the University, something essential in the teaching profession.

Primary school settings are essentially creative communities, and so I felt that RMIT would best prepare me to enter the profession with a fresh perspective.

Engineering

Engineers change the way we live. They turn technical discoveries into practical solutions.

Engineering at RMIT is based on innovation and creativity. RMIT is recognised internationally for expertise and leadership in engineering education and research.

At RMIT, specialised programs allow you to develop your skills in the areas that interest you most. You'll design and create products, systems, structures and services that transform industry and improve lives.

You'll benefit from RMIT's strong industry partnerships with local and global opportunities. Through work placements, industry projects, internships, seminars and events, you'll be in contact with industry every step of the way.

International experience such as overseas work experience, exchange and study tours will give you a competitive edge.

You'll also graduate work ready with all engineering bachelor degrees accredited with Australia's peak body for engineers, Engineers Australia.

At RMIT there's more than one way to reach your goal with pathways available through the Associate Degree in Engineering Technology and a range of advanced diplomas.

Study areas

- Aerospace engineering and aviation
- Biomedical engineering
- Chemical engineering
- Civil engineering
- Computer engineering
- Electrical and electronic engineering
- Environmental and sustainable engineering
- Mechanical and automotive engineering
- Mechatronics and manufacturing systems
- Telecommunications engineering

David Purser

Bachelor of Engineering (Aerospace Engineering) (Honours) / Bachelor of Business (Management)

David has combined international travel with industry work experience as part of his double degree in aerospace engineering and business management.

As part of my degree I spent seven months working with Airbus Defence and Space in Germany. This was an incredible experience – I got to live abroad while gaining industry experience. From day one I felt like a real engineer.

VicHyper – the future of transportation?

An inter-disciplinary team of RMIT students is revolutionising the future of transportation in Elon Musk's SpaceX Hyperloop Pod Competition.

Hyperloop is redefining high-speed ground transportation, with the ability to transport both people and cargo at the speed of sound (1200 km/h). To reach these unprecedented speeds, a pod travels within an elevated tube network held at a near vacuum utilising magnetic levitation and linear induction motors.

With an award-winning braking system, VicHyper was selected from more than 1700 global entries to compete in the final 30.

Why study Engineering at RMIT?

RMIT's specialised engineering programs mean that you gain specific knowledge from the start.

Get engaged with industry through work placements, industry projects and work-integrated learning.

Go global and expand your horizons through international work experience, exchange and study tours.

Project-based learning will help you bridge the gap between theory and practice.

Engineering

Flight Training at Point Cook

RMIT's Associate Degree in Aviation (Professional Pilots) is run from world-class flight training facilities and environment at Point Cook. Point Cook was the world's first military air base and home to the Royal Australian Air Force Museum.

RMIT is the only operator at Point Cook, which minimises circuit congestion and delays, and enables more take-offs and landings per hour than many other airfields, improving training efficiency.

The Point Cook Airfield is ideally situated with access to all types of airspace environments and variable weather conditions created by mountains, sea and city. This enables trainees to develop the confidence and capability to handle aircraft command under a variety of conditions.

[†] Students who successfully complete the associate degree with a minimum Grade Point Average of 2.0 out of 4.0 are guaranteed a place in the degree.

[‡] Years one and two are conducted on the City campus and years three and four are conducted on the Bundoora campus.

[§] Years one, two and three are conducted on the City campus and years four and five are shared between the City and Bundoora campuses. The management component is studied on the City campus for all five years.

David Amy

Bachelor of Science (Applied Chemistry) / Bachelor of Engineering (Chemical Engineering) (Honours)

Graduate Manufacturing Engineer, CSL Behring

A double degree in chemistry and chemical engineering saw David gain real-life experience with a work placement in a chocolate factory.

The degree structure meant that I could learn fundamental skills early on, and then build on this knowledge through a range of industry-relevant projects. I finished the degree as a well-rounded graduate, having accrued knowledge and secured a role in industry.

** Years one and two are conducted on the City and Bundoora campuses. Years three and four are conducted mostly on the Bundoora campus.

†† The chemical engineering parts of this double degree are delivered on the City campus. Pharmaceutical sciences is delivered on the Bundoora campus.

Agnes George

Bachelor of Engineering (Civil and Infrastructure) (Honours)

The opportunity to gain hands-on experience through work-integrated learning and design projects inspired Agnes to study civil engineering at RMIT.

Work-integrated learning helped me to gain substantial experience in my field and also provided me with an understanding of how corporate life works.

† Students who successfully complete the associate degree with a minimum Grade Point Average of 2.0 out of 4.0 are guaranteed a place in the degree.

†† Some laboratory classes will take place on the Bundoora campus.

Civil Engineering

Bachelor of Engineering (Civil and Infrastructure) (Honours)

📄 BH077 📍 City and Bundoora†† ⌚ 4 years **VTAC** 3200432471

Learn to plan, design, construct, supervise, manage and maintain essential infrastructure in communities. Graduates are employed as civil engineers, project managers, design engineers, construction managers and environmental engineers.

www.rmit.edu.au/programs/bh077

- ➔ **ADg** Engineering Technology – Civil major (2 years) *plus* bachelor (additional 2 years[†]) = 4 years total duration.
- ➔ **Adv** Engineering Technology (2 years) *plus* bachelor (additional 2.5 years) = 4.5 years total duration.

📄 ATAR (2017: 92.60)

Prerequisites

Units 3 and 4 – a study score of at least 20 in Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Engineering (Civil and Infrastructure) (Honours) / Bachelor of Business (Management) DOUBLE DEGREE

📄 BH088 📍 City and Bundoora†† ⌚ 5 years **VTAC** 3200432591

Combine civil and infrastructure engineering with an understanding of complex issues including wider economic and social factors. Graduates move into management roles within the engineering industry, and provide technical and business leadership.

www.rmit.edu.au/programs/bh088

📄 ATAR (2017: 95.45)

Prerequisites

Units 3 and 4 – a study score of 20 in Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Associate Degree in Engineering Technology – Civil major

📄 AD026 📍 City ⌚ 2 years **VTAC** 3200333661

Manish Sharma

Bachelor of Engineering (Computer and Networking Engineering) (Honours)

Associate Degree in Engineering Technology – Computer and Network Major

A fascination with computers and the inner workings of the internet have inspired Manish to study networking and computer engineering.

Studying the associate degree at RMIT was the best decision of my life. A major benefit is that it is a pathway into the degree, so now I'm continuing my studies in a bachelor degree.

[†] Students who successfully complete the associate degree with a minimum Grade Point Average of 2.0 out of 4.0 are guaranteed a place in the degree.

^{**} Most lectures take place on the City campus; however, some lab classes will run at specialised facilities at the Bundoora campus. The commerce component is studied on the City campus.

[‡] Most lectures take place on the City campus; however, some lab classes will run at specialised facilities at the Bundoora campus. The management component is studied on the City campus.

^{**} Most lectures take place on the City campus; however, some lab classes will run at specialised facilities at the Bundoora campus.

Elysia Coade

Bachelor of Engineering
(Electrical Engineering)
(Honours)

Graduate Electrical Engineer,
MMG Limited

With a passion for engineering, Elysia's degree in electrical engineering is taking her to Tasmania as a graduate engineer for a mining company.

As part of my degree I undertook a 12-week work placement at an engineering consultancy firm. During my placement I saw how all the theory fell into place in real-life situations. This made my studies more engaging and really increased my skill base.

†† Some laboratory classes will take place on the Bundoora campus.

Environmental and Sustainable Engineering (continued)

Bachelor of Engineering (Sustainable Systems Engineering) (Honours)
 BH076 City and Bundoora*** 4 years VTAC 3200433271

Combine new technologies and innovative engineering approaches for sustainable global development. Learn how to protect, restore and create engineered and natural systems that are socially, environmentally and economically sustainable.

www.rmit.edu.au/programs/bh076

→ **ADg** Engineering Technology – Sustainable Systems major (2 years) *plus* bachelor (additional 2 years[†]) = 4 years total duration.

📄 ATAR – Not Published

Prerequisites
 Units 3 and 4 – a study score of at least 25 in Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Engineering (Sustainable Systems Engineering) (Honours) / Bachelor of Industrial Design (Honours) DOUBLE DEGREE
 BH100 City and Bundoora†† 5 years VTAC 3200433231

Combine sustainable systems engineering and industrial design to gain a head start in the industry. Learn holistic approaches to the design of sustainable technologies and engineering systems and focus on developing innovative and ethical designs.

www.rmit.edu.au/programs/bh100

📄 ATAR – Not Published

Prerequisites
 Units 3 and 4 – a study score of at least 25 in Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Engineering (Sustainable Systems Engineering) (Honours) / Bachelor of Business (Management) DOUBLE DEGREE
 BH092 City and Bundoora† 5 years VTAC 3200433211

Combine sustainable systems engineering and management to kickstart your career. Focus on the new technologies and innovative engineering approaches needed for sustainable global development, as well as organisational planning, leadership and accounting.

www.rmit.edu.au/programs/bh092

📄 ATAR – Not Published

Prerequisites
 Units 3 and 4 – a study score of at least 25 in Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Associate Degree in Engineering Technology – Sustainable Systems major
 AD026 City 2 years VTAC 3200333661

Be introduced to the fundamental principles of engineering that apply across a range of fields. In second year you can choose to specialise in sustainable systems engineering. You also have an opportunity to pathway into a relevant degree.

www.rmit.edu.au/programs/ad026

📄 ATAR (2017: 50.95)

Prerequisites
 Units 3 and 4 – a study score of at least 20 in Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 20 in any English (except EAL) or at least 25 in English (EAL).

Mechanical and Automotive Engineering

Bachelor of Engineering (Automotive Engineering) (Honours)
 BH074 City and Bundoora† 4 years VTAC 3200431021

Work to develop economical and sustainable automotive designs or solve automotive problems encompassing complete car design. Automotive engineers are employed by major car, truck and bus companies, as well as racing teams and parts manufacturers.

www.rmit.edu.au/programs/bh074

→ **ADg** Engineering Technology – Mechanical major (2 years) *plus* bachelor (additional 2 years[†]) = 4 years total duration.
 → **Adv** Engineering (Mechanical) (2 years) *plus* bachelor (additional 2.5 years) = 4.5 years total duration.

📄 ATAR (2017: 80.15)

Prerequisites
 Units 3 and 4 – a study score of at least 25 in Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Engineering (Mechanical Engineering) (Honours)
 BH070 City and Bundoora† 4 years VTAC 3200431761

Understand the conversion and control of energy and motion in machinery and systems. Mechanical engineers apply knowledge of materials, structures, energy and management to solve technical problems.

www.rmit.edu.au/programs/bh070

→ **ADg** Engineering Technology – Mechanical major (2 years) *plus* bachelor (additional 2 years[†]) = 4 years total duration.
 → **Adv** Engineering (Mechanical) (2 years) *plus* bachelor (additional 2.5 years) = 4.5 years total duration.

📄 ATAR (2017: 85.10)

Prerequisites
 Units 3 and 4 – a study score of at least 25 in Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Dinesh Nijhawan

Bachelor of Engineering (Environmental Engineering) (Honours)

Dinesh decided to study environmental engineering to help improve the world's drinking water problem. He chose RMIT because of the combination of theory with practical knowledge.

I am passionate about our environment and believe we can eliminate health problems caused by poor drinking water quality around the world.

The highlight of my studies has been being able to meet so many people who are passionate about the same thing as me. It has been incredibly motivating and encouraging. The lecturers are simply incredible. They find ways to incorporate practical knowledge where possible alongside theoretical knowledge.

[†] Students who successfully complete the associate degree with a minimum Grade Point Average of 2.0 out of 4.0 are guaranteed a place in the degree.

[‡] Years one, two and three are conducted on the City campus and years four and five are shared between the City and Bundoora campuses. The management component is studied on the City campus for all five years.

[§] Years one and two are conducted on the City campus and years three and four are conducted on the Bundoora campus.

^{***} Years one and two are conducted on the City campus and years three and four are conducted on the City and Bundoora campuses.

^{†††} Years one, two and three are conducted on the City campus and years four and five are shared between the City and Bundoora campuses. The industrial design component is studied on the City campus for all five years.

World Trade Skills

RMIT mechatronics students were invited to participate in a live demonstration at the WorldSkills Australia National Competition, Melbourne event. A team of students from the mechanical and electrical streams of the Associate Degree in Engineering Technology showcased their skills, producing an industrial scale working model of an automated warehouse to international judges and industry experts.

Years one, two and three are conducted on the City campus and years four and five are shared between the City and Bundoora campuses. The management component is studied on the City campus for all five years.

†† Years one and two are conducted on the City campus and years three to five are conducted on both the City and the Bundoora campuses.

††† Years one, two and three are conducted on the City campus and years four and five are shared between the City and Bundoora campuses.

⁹⁹⁹ Years one and two are conducted on the City campus, year three is shared between the City and Bundoora campuses and years four and five are conducted on the Bundoora campus. The biotechnology component is studied on the City campus.

||||| Years one and two are conducted on the City campus. Year three is conducted mostly on the City campus with some classes at the Bundoora campus. Years four and five are conducted on the Bundoora campus with year five having some classes at the City campus.

Advanced Manufacturing Precinct (AMP)

The AMP combines RMIT's expertise in technology and design innovation. RMIT is developing the next generation of engineers, designers and technicians, working closely with industry both in Australia and internationally. RMIT's vision is to be the leader in the implementation of the next wave of manufacturing in Australia.

Find out more:
www.rmit.edu.au/advancedmanufacturing

[†] Students who successfully complete the associate degree with a minimum Grade Point Average of 2.0 out of 4.0 are guaranteed a place in the degree.

[‡] Years one and two are conducted on the City campus and years three and four are conducted on the Bundoora campus.

^{‡‡} Years one, two and three are conducted on the City campus and years four and five are shared between the City and Bundoora campuses.

Environment and Sustainability

Plant the seeds of change for a sustainable future.

RMIT's environment and sustainability programs will empower you to create a greener, more sustainable world.

Sustainability issues are challenging societies in urban and rural areas all over the world. Tackling these environmental issues requires a multidisciplinary approach.

RMIT offers a diverse range of programs that explore different aspects of environment and sustainability. Many of these programs include hands-on experience through field studies and excursions, conducted in association with industry, government and environmental agencies.

Designed to reflect industry, they provide the opportunity to collaborate with students from other areas through study tours to places including Vietnam and China.

Through specialised projects and research, you'll work with industry leaders and academic experts to find solutions to environment and sustainability issues around the globe.

Study areas

- Environmental and sustainable engineering
- Environmental science
- Surveying and geospatial sciences
- Sustainable practices

Why study Environment and Sustainability at RMIT?

Partnerships with industry, government and communities around the world provide opportunities to explore issues both locally and internationally.

Work placements and industry projects give you the chance to make a positive impact on an international scale.

A multidisciplinary approach replicates industry and gives you the opportunity to collaborate with students from other areas.

Mariah Murphy

Bachelor of Environmental Science

Bachelor of Engineering (Environmental Engineering) (Honours)

My degree was really practical with plenty of laboratory sessions and field excursions. It included a week at Lakes Entrance to do an environmental sampling and analysis course as well as a mandatory 12-week work-integrated learning project.

China Environmental Project

Each year a group of RMIT environmental engineering and science students undertake an intensive two-week study tour through China.

During their time in China, students hear firsthand from experts working on real issues that are affecting the country. Students collect data and other useful information to develop their own plan to approach these problems through engineering and policy-based solutions.

Health and Biomedical Sciences

From working with patients and researching new therapies to carrying out diagnostic tests and ensuring athletes perform at their best – health professionals make a real difference to the community.

Health and biomedical science programs at RMIT are driven to improve lives and make a positive impact. Strong industry links and purpose-built facilities produce health practitioners with skills that are highly valued.

As the medical system moves from “sick care” to “healthcare,” there’s a strong focus on wellbeing, health promotion, prevention, early detection, diagnosis, treatment and care. It also means the demand for health and medical professionals is high and career prospects are strong.

RMIT’s programs are developed in consultation with program advisory committees that are made up of practising professionals and many programs offer industry placements, student clinics and work experience. This ensures RMIT students graduate with the skills, industry experience and confidence to launch their careers.

Study areas

- Biomedical sciences
- Complementary medicine
- Dental studies
- Medical radiations
- Nursing and allied health
- Optical dispensing
- Pharmacy
- Psychology
- Sports science
- Workplace health and safety

David Sobey

Bachelor of Exercise and Sport Science
Bachelor of Biomedical Sciences (Honours)

David has turned his passion for sport into a career, with his studies in exercise and sports science landing him a job at the North Melbourne Football Club.

Since completing work experience and my honours degree, I’ve secured a full-time position at the North Melbourne Football Club as an assistant performance analyst. Working in an area you love, with equally passionate people, provides an amazing working environment.

RMIT's Health Sciences Clinic

Located at Uni Hill Bundoora, RMIT's Health Sciences Clinic provides clinical training for students of Chinese medicine, Chiropractic, Osteopathy and Psychology to meet registration requirements.

Under the supervision of registered practitioners and RMIT academic staff, senior students treat members of the public and provide clinical diagnosis, health advice and treatment for a range of conditions.

Why study Health and Biomedical Sciences at RMIT?

Work placements are an integral component of many programs, allowing students to gain experience and confidence, both in Australia and overseas.

Programs are industry developed, accredited and recognised by professional bodies. Industry input ensures teaching is current and relevant.

Purpose-built clinics, laboratories and classrooms help put theory and practice in context.

A dedicated campus at Bundoora provides a professional community environment to collaborate and develop skills.

**Be inspired to
make a difference.**

Health and Biomedical Sciences

Cristina Bitzilis

Bachelor of Biomedical Science (Laboratory Medicine)

As part of the laboratory medicine degree, Cristina completed placement at St Vincent's Hospital where she not only gained practical experience but also landed a full-time job offer.

I completed a 40-week placement within the Anatomical Pathology Department at St Vincent's Hospital.

This was an opportunity to apply all the information I had gained at RMIT in a clinical setting. I was able to work on real cases, in a busy laboratory, alongside medical scientists and pathologists.

Hayden Mitchell

Diploma of Remedial Massage

Keen to work with athletes on injury prevention and recovery, Hayden has enjoyed the practical nature of the Diploma of Remedial Massage.

I'm a hands-on learner so the practical nature of the Diploma of Remedial Massage appealed to me. The University was also highly recommended by family and friends.

Highlights of the program have been completing placement with the AFL academy and basketball academy; developing an understanding of the human body, particularly the muscular system; and seeing clients leave happy and impressed after a treatment.

*** A new code will be applicable for 2018 entry. Please contact Info Corner on +61 3 9925 2260 or visit 330 Swanston Street (cnr La Trobe St) Melbourne for more information.

Claire Landby

Bachelor of Pharmacy
(Honours)

Claire completed the Bachelor of Pharmacy (Honours) and now works as intern pharmacist at the Royal Melbourne Hospital, applying her skills as part of the hospital healthcare team.

After graduating from RMIT, I was fortunate to find an internship role at the Royal Melbourne Hospital.

My role enables me to apply the knowledge I gained during my degree in a clinical setting and to be a part of a healthcare team, working closely with doctors, nurses, speech pathologists, occupational therapists and social workers.

Hospital-based pharmacy roles are competitive and being able to work at one of Melbourne's major hospitals is very rewarding.

Nursing and Allied Health

Bachelor of Nursing

BP032 Bundoora 3 years, or 2 years (with prior study – refer to prerequisites) VTAC 3200231201

Covering acute care nursing, continuing care nursing, community care and mental health nursing, this degree prepares you for a professional career as a registered nurse. Excellent employment prospects exist in a diverse range of healthcare settings.

www.rmit.edu.au/programs/bp032

➔ Dip Nursing (2 years) plus bachelor (additional 2 years) = 4 years total duration.

ATAR (2017: 69.00)

Prerequisites

Units 1 and 2 – mathematics (any) or Units 3 and 4 – mathematics (any); and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

ENROLLED NURSES:

Must have completed the Diploma of Nursing (Enrolled/Division 2 Nursing) within the last five years and have Nursing and Midwifery Board of Australia registration.

Associate Degree in Health Sciences

AD019 City 2 years full-time, or 4 years part-time VTAC 3200333641

Develop work-ready skills and knowledge for the health industry in either health promotion or health information management. Graduates may work in government, community centres, hospitals, health promotion agencies or health insurance companies.

www.rmit.edu.au/programs/ad019

ATAR (2017: 50.05)

Prerequisites

Units 3 and 4 – a study score of at least 20 in any English (except EAL) or at least 25 in English (EAL).

Diploma of Nursing

C5365 City or Bundoora 2 years VTAC CITY: 3200372334 BUNDOORA: 3200272334 NCC HLT51612

Enrolled nurses help to provide acute, preventive, curative and rehabilitative care under the direction and supervision of a registered nurse. Prepare for work in a range of diverse healthcare settings or continue your studies at degree level.

www.rmit.edu.au/programs/c5365

ATAR – Not Published

Prerequisites

Non-Year 12 applicants must complete the VETASSESS nursing test or equivalent or have successfully completed a relevant certificate III or above.

Certificate IV in Allied Health Assistance

C4367 City 10 months full-time, or 1 year part-time VTAC 3200310224 NCC HLT43015

As an allied health professional, you'll work alongside health professionals such as physiotherapists, occupational therapists and speech pathologists to facilitate rehabilitation and encourage optimal health.

www.rmit.edu.au/programs/c4367

ATAR – Not Published

Prerequisites

None.

Optical Dispensing

Certificate IV in Optical Dispensing

C4375 City 1 year full-time, or 1.5 years part-time VTAC 3200310094 NCC HLT47815

This qualification covers the skills and knowledge required by optical dispensers to dispense and supply optical appliances as prescribed by optometrists and/or ophthalmologists in accordance with Australian Standards. This program is also available as a traineeship.

www.rmit.edu.au/programs/c4375

ATAR – Not Published

Prerequisites

None.

Pharmacy

Bachelor of Pharmacy (Honours)

BH102 Bundoora 4 years VTAC 3200231191

This degree is your first step to becoming a pharmacist. It prepares you for the year-long internship you need to gain Australia-wide registration. Career paths lead into community pharmacy, hospital pharmacy and other more specialised roles.

Olatunji Falano

Certificate IV in Allied Health Assistance

After working as a personal care assistant Olatunji wanted to improve his skills, so signed up for a Certificate IV in Allied Health Assistance.

The Certificate IV in Allied Health Assistance is well structured and planned, with practical activities offering insights into real-life scenarios. Observation days and work placements in clinics made sure we consolidated what we had learnt.

Nothing could have been better for me than what was offered in this program, and it sets me up perfectly to continue on with a bachelor degree.

International and Community Services

Unlock your potential to lead change in a career that will help to develop socially-aware and responsible communities.

Succeed as an international professional who works to empower people, groups and communities and contribute to combating social and economic inequalities.

Be the voice for the marginalised or contribute to finding solutions that address global development problems.

Lead debate on social issues or be the crucial link between people of culturally and linguistically diverse backgrounds.

RMIT's programs are designed with a focus on training quality, field placement and preparing students for new ways of working.

Passionate staff, work placements, pathway opportunities and proven international research will help you thrive as a global practitioner.

You'll find solutions to support people in need and influence the creation of fairer policies and access to social, health and legal services.

RMIT's programs in international and community services are taught by staff who have extensive professional and industry experience.

Study areas

- Community services
- International studies
- Languages, translating and interpreting
- Psychology
- Social work

Natasha Gerente

Bachelor of Social Science (Youth Work)

Feeling like her previous qualifications were too broad, Natasha enrolled in a youth work degree so she could study children's rights and youth empowerment.

I chose to study RMIT's youth work degree because of the field education opportunity and the potential to experience life as a student on a different continent. My first placement was with Australian Youth Climate Coalition assisting the National Program Coordinator, which allowed me to get involved with major projects. It has been a year now and I am still working with the organisation.

Advance your global career

Enhance your employability and cross-cultural skills by studying a language alongside your degree.

RMIT offers language courses in:

- Chinese
- French
- German
- Greek
- Italian
- Japanese
- Spanish

Why study International and Community Services at RMIT?

Learn from passionate and engaged members of society who actively work towards a fairer world for all.

Work-integrated learning opportunities allow you to apply your skills to the workplace and be better prepared for success.

RMIT programs are professional qualifications with many being accredited by the leading industry body.

Have the opportunity to travel around the world while you study through study tours and exchanges with partner universities.

For more information visit:

www.rmit.edu.au/study-with-us/international-and-community-services

International and Community Services

Michael Marinelli

Bachelor of Arts
(International Studies)

International studies student Michael has had many opportunities to explore the world during his degree. In his first year of study, Michael participated in a global intensive study tour to The Netherlands and Bosnia.

The trip immersed me in the world of international law as well as the fallout from war crimes. It was an unforgettable experience that allowed me to really immerse myself in practical learning due to the field-trip nature of the tour.

Michael also had the opportunity to go to China and Hong Kong, giving him deepened knowledge of the region's foreign policy and history. Michael has plans to do a semester in the USA, thanks to RMIT's John Storey Junior Memorial Scholarship available to students.

Community Services	
<p>Bachelor of Social Science (Youth Work)</p> <p>BP191 City 3 years VTAC 3200333371</p> <p>Youth work is about realising justice for young people. International Studies

Bachelor of Arts (International Studies)

BP048 City 3 years VTAC 3200333031

Engage with a rapidly changing global environment in this professionally oriented degree. From policymaking in China to community development in South America, graduates find dynamic careers in the international and cross-cultural sectors.

www.rmit.edu.au/programs/bp048

➔ See the international and community services pathways table on page 61 for pathway options.

📄 ATAR (2017: 87.15)

Prerequisites

Units 3 and 4 – a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Languages, Translating and Interpreting

Advanced Diploma of Interpreting

C6134 City 6 months NCC PSP61112

Oral training for people with advanced bilingual skills. This program is approved by the National Accreditation Authority for Translators and Interpreters Ltd (NAATI) at a professional level.

www.rmit.edu.au/programs/c6134

📄 Selection Task

Prerequisites

Units 3 and 4 – English (any).

Advanced Diploma of Translating

C6133 City 6 months NCC PSP61012

Written training for people with advanced bilingual skills. This program is approved by the National Accreditation Authority for Translators and Interpreters Ltd (NAATI) at a professional level.

www.rmit.edu.au/programs/c6133

📄 Selection Task

Prerequisites

None.

Diploma of Interpreting

C5328 City 6 months NCC PSP52412

A preparatory interpreting program suited to bilingual individuals who have not yet reached an advanced level of language proficiency. This program is approved by the National Accreditation Authority for Translators and Interpreters Ltd (NAATI).

www.rmit.edu.au/programs/c5328

📄 Selection Task

Prerequisites

None.

Diploma of Languages

DP005 City Intensive mode: 1 year

Learn a new language or improve your proficiency in a language you already know while developing knowledge of cultures and societies. The diploma can be taken concurrently with any degree or as a stand-alone program.

Languages offered: Chinese, French, German, Greek, Italian, Japanese, Spanish. A one year full-time mode (Chinese and Japanese only) is also offered.

www.rmit.edu.au/programs/dp005

Prerequisites

Units 3 and 4 – a study score of at least 25 in any English (except EAL) or at least 20 in English (EAL).

Psychology

See page 57 for details

Social Work

Bachelor of Social Work (Honours)

BH105 City 4 years VTAC 3200331101

Develop the ability to pursue social justice and human rights principles in ethical, competent, critical and innovative ways. Graduates are eligible for membership of the Australian Association of Social Workers.

www.rmit.edu.au/programs/bh105

➔ See the international and community services pathways table on page 61 for pathway options.

📄 ATAR (2017: 77.05)

Prerequisites

Units 3 and 4 – a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Social Work (Honours) / Bachelor of Social Science (Psychology) DOUBLE DEGREE

BH106 City 5 years VTAC 3200333351

Gain a unique and broad grounding of both social work and psychology in this combined degree. You'll develop a working knowledge of social science, social work and psychology, providing you with a range of career options in human services and community roles. Graduates are eligible for membership with the Australian Association of Social Workers.

Justice and Legal

Activate your passion for social justice.

Become a leader in the justice and legal sector and help realise justice for individuals and create safer communities.

Make your mark in the justice and legal fields, from working with individuals to resolve disputes, policing and helping offenders resettle into the community to developing early intervention programs and policy reform.

Learn how policies are formed and gain the technical skills required to administer justice and understand what is needed to support individuals and institutions to live in a lawful society.

Justice and legal studies lead to excellent career prospects including roles in policing, corrections, legal administration, mediation, dispute settlement and child protection as well as roles within the courts and with civil and criminal law firms.

Study areas

- Justice
- Legal administration and policy

Bridge of Hope Innocence Initiative at RMIT

The initiative enables students to investigate cases of suspected wrongful conviction and assist in pursuing these if there is sufficient evidence.

Unique to RMIT, the initiative gives students the opportunity to help reduce the incidence of miscarriages of justice, make a positive difference in the lives of those wrongly incarcerated and lead justice system reform.

Watch the video:
www.tinyurl.com/RMIT-BOHII

Why study Justice and Legal at RMIT?

Access life-changing learning experiences through the Centre for Innovative Justice and programs such as the Inside Out Prison Exchange and Bridge of Hope Innocence Initiative.

RMIT has more than 50 years of experience in legal and justice education and training.

Developed in consultation with industry, RMIT programs are recognised as professional qualifications.

Put your skills into practice through work placements with industry organisations and get your foot in the door with future employers.

For more information visit:

www.rmit.edu.au/study-with-us/justice-and-legal

Reem Yehdego

Bachelor of Legal and Dispute Studies

Reem's volunteer work with a community legal centre inspired her to pursue studies in the Australian legal system.

RMIT really encourages its students to engage in the workforce. Volunteering helped me mature intellectually and built my character.

The Bachelor of Legal and Dispute Studies gave me the skills I needed to empower, enrich and amplify the voices of people that have been lost or silenced in issues that I engage with.

**** Enrol in highest qualification. Early exit points available.

ATAR (2017: 70.45)

Prerequisites

Units 3 and 4 – a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Associate Degree in Legal Practice (Paralegal)

AD015 City 2 years VTAC 3200332981

Identify and analyse legal concepts and principles in legal practice and prepare yourself for the increasingly complex role of a paralegal. Graduates work at paraprofessional levels in private and public law firms and conveyancing firms.

www.rmit.edu.au/programs/ad015

ATAR (2017: 55.05)

Prerequisites

Units 3 and 4 – a study score of at least 20 in any English (except EAL) or at least 25 in English (EAL).

Advanced Diploma of Legal Practice

C6141 City 2 years VTAC 3200372664 NCC 22276VIC

Learn how to open and manage legal files, take instructions, provide advice to clients and perform legal work under the supervision of a lawyer. Prepare to pursue a career as a law clerk or paralegal in either the private or public sector.

www.rmit.edu.au/programs/c6141

ATAR – Not Published

Prerequisites

None.

Diploma of Conveyancing

C5337 City 1.5 years part-time NCC BSB52015

Conveyancers work in areas associated with the transfer of ownership of land and related property transactions. Gain specialised technical skills in property transactions and learn about the legal system as it relates to conveyancing.

www.rmit.edu.au/programs/c5337

Prerequisites

None.

Tertiary Preparation – Justice and Legal

Certificate IV in Tertiary Preparation

C4386 City 6 months VTAC Business: 3200310234, Legal: 3200310244, Engineering: 3200317544, Science: 3200317554 NCC 22182VIC

This program is designed for Year 12 students, those returning to study after a break or career changers, preparing you for further tertiary studies. The program allows you to specialise in engineering, science, justice and legal, or business.

www.rmit.edu.au/programs/c4386

Selection Task

Prerequisites

None.

Bryson Ward

Associate Degree in Legal Practice (Paralegal)

The opportunity to explore a range of career paths as well as further study options attracted Bryson to the Associate Degree in Legal Practice (Paralegal).

The Associate Degree in Legal Practice (Paralegal) allowed me to experience all aspects of the law while giving me the chance to pinpoint the area that appealed to me most. The program provides a pathway to further study and at the same time equips students with knowledge that can be transferred directly into the workplace.

One of the best things about studying at RMIT was the convenient City location. I also had great teachers and friends who made university life really enjoyable.

Science

Discover a science degree with all the answers.

From biology to chemistry, maths and physics, every area of science plays an important role in helping us to understand why and how things work.

And it's not all Bunsen burners and lab coats either. Science is about exploration and discovery – both in the lab and in the field.

At RMIT you'll go beyond the classroom and apply what you've learned to real-life problems. You'll gain hands-on experience working in teams during field studies and excursions, locally and internationally.

Projects that involve community groups or companies allow you to put your skills into action and make an impact before you graduate.

These include local field trips to Lakes Entrance, mapping the environment at Camp Jungai, exploring the aquatic environment at Lizard Island or even going overseas to tackle environmental challenges in China.

Study areas

- Applied science
- Biotechnology and biological sciences
- Chemistry
- Environmental science
- Food science and technology
- Mathematics, statistics and analytics
- Nanotechnology
- Physics
- Surveying and geospatial sciences

Dale Osborne

Bachelor of Science (Dean's Scholar) (Honours)

Budding researcher Dale is getting experience using state-of-the-art equipment during his studies at RMIT, in preparation for a career as a nanomaterial scientist.

The RMIT Virtual Experience Lab is an incredible facility that I've used to incorporate my chemical knowledge with computational modelling. I was able to produce high resolution images of the compounds I was investigating for my science project.

Award-winning cookie duo

Naomi Cutler and Charlize Snyman (pictured) were in their final year of the Bachelor of Food Science and Technology when they were given a brief to design Australia's new favourite biscuit.

"We based our Eat Me Coconut Chickpea Cookie off an Anzac biscuit recipe that we modified to eliminate allergen-containing ingredients," Naomi said.

The hard work paid off when Naomi and Charlize were announced winners of the undergraduate student category for the AIFST Product Development Competition. They scored a paid trip to the Chicago LovePulse Showcase, a cash prize of \$5000 each and an internship with the Retail Food Group.

Why study Science at RMIT?

Flexible and specialised programs combined with industry experience translates into great job outcomes for graduates.

RMIT's equipment and facilities are purpose-built and readily accessible. You'll start using industry-standard equipment and best practice from day one.

Hands-on practice is fundamental to learning and you'll complete a work placement or a research project designed to provide exposure to real-life challenges.

For more information visit:

www.rmit.edu.au/study-with-us/science

Science

Emily Verspaandonk

Bachelor of Science
(Applied Sciences) (Honours)

Emily is learning how to effectively communicate information and interpret data as she studies a Bachelor of Science (Applied Sciences) (Honours).

After graduating from RMIT, I was fortunate to find an internship role at the Royal Melbourne Hospital.

My role allows me to apply the knowledge I gained during my degree in a clinical setting and to be a part of a healthcare team, working closely with doctors, nurses, speech pathologists, occupational therapists and social workers.

[†] Students who successfully complete the associate degree with a minimum Grade Point Average of 2.0 out of 4.0 are guaranteed a place in third year of the degree.

Applied Science

Bachelor of Science (Applied Chemistry)
Bachelor of Science (Applied Sciences)
Bachelor of Science (Biological Sciences)
Bachelor of Science (Physics)

BP229 City 3 years VTAC 3200333011

Specialise right from the start or after your first year. Choose from applied chemistry, applied sciences, biological sciences and physics. Prepares you for a career in public and private industry, research organisations and government departments.

www.rmit.edu.au/programs/bp229

➔ **ADg** Applied Science – Biomedical Sciences stream (2 years) *plus* Bachelor of Science (Biological Sciences) (additional 1.5 years[†]) = 3.5 years total duration.

🔗 ATAR (2017: 72.15)

Prerequisites

Units 3 and 4 – a study score of at least 20 in one of Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Leon Monaco

Bachelor of Science
(Applied Chemistry)

Bachelor of Engineering
(Chemical Engineering)
(Honours)

Encouraged by the awards and recognition he's received as a student, Leon dreams that one day he might put his skills to use to distil the perfect whiskey.

I completed a week's work experience with Arup, a firm of designers, planners, engineers, consultants and technical specialists who do consultation work for projects around the world.

I was embedded with their Water Team on projects such as water purification and reuse. I enjoyed my time there as it gave me an insight into how an engineer can work as a consultant and aid in the design of a structure or process.

Bethany Green

Bachelor of Environmental Science
Bachelor of Engineering (Environmental Engineering) (Honours)

Bethany has discovered a love for geology while studying a double degree in environmental science and environmental engineering.

The Earth is our most valuable resource and by studying environmental science and engineering I can begin to understand its structures and cycles and help preserve it.

Fieldwork practice in this program takes you all around Victoria to places you otherwise might never visit and you start to appreciate just how amazing the Earth is and how diverse its natural environments can be.

† Students who successfully complete the associate degree with a minimum Grade Point Average of 2.0 out of 4.0 are guaranteed a place in third year of the degree.

Environmental Science (continued)

Bachelor of Environmental Science / Bachelor of Engineering (Environmental Engineering) (Honours)

DOUBLE DEGREE

📄 BH096 📍 City and Bundoora ⌚ 5 years VTAC 3200432221

Learn about environmental processes, and develop and implement waste minimisation, remediation strategies and environmental management systems. Graduates work in corporate or industrial sectors, government agencies and as consultants.

www.rmit.edu.au/programs/bh096

📄 ATAR – Not Published

Prerequisites

Units 3 and 4 – a study score of at least 20 in one of Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Food Science and Technology

Bachelor of Science (Food Technology and Nutrition)

📄 BP199 📍 City and Bundoora ⌚ 3 years VTAC 3200433441

Learn the science of large-scale food manufacturing and how to apply nutrition to food product development. Explore how food is made safe, nutritious and to meet consumer needs. Develop products while complying with strict safety and health guidelines. Graduates can choose from a broad range of career roles in the food industry.

www.rmit.edu.au/programs/bp199

➔ **ADg** Applied Science – Food Science stream (2 years) *plus* bachelor (additional 1.5 years)[†] = 3.5 years total duration.

➔ **ADg** Health Science (2 years) *plus* bachelor (additional 2.5 years)[†] = 4.5 years total duration.

📄 ATAR (2017: 68.15)

Prerequisites

Units 3 and 4 – a study score of at least 20 in mathematics (any) and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Science (Food Technology and Nutrition) / Bachelor of Engineering (Chemical Engineering) (Honours) DOUBLE DEGREE

📄 BH099 📍 City and Bundoora ⌚ 5 years VTAC 3200432181

Prepare for leading roles in the food industry. This double degree combines food science and engineering skills in key areas of product development and production systems.

www.rmit.edu.au/programs/bh099

📄 ATAR – Not Published

Prerequisites

Units 3 and 4 – a study score of at least 20 in Chemistry and in one of Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Science (Food Technology) / Bachelor of Business (Management) DOUBLE DEGREE

📄 BP289 📍 City and Bundoora ⌚ 4 years VTAC 3200433611

Gain the technical knowledge to work in the food industry, and the management and marketing skills to design and promote innovative products. Develop skills to manage global and large-scale food processing companies with a global operational focus.

www.rmit.edu.au/programs/bp289

📄 ATAR – Not Published

Prerequisites

Units 3 and 4 – a study score of at least 20 in mathematics (any) and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Associate Degree in Applied Science

See page 68 for details

Mathematics, Statistics and Analytics

Bachelor of Science (Mathematics)

📄 BP083 📍 City ⌚ 3 years VTAC 3200332411

Mathematicians apply modelling and problem-solving skills to analyse and understand complex systems, predict behaviour and make decisions. Career paths lead to working as analysts, data scientists and modellers in many areas of business, commerce, government, health and biology, ecology and environment, teaching, and the information technology and manufacturing industries.

www.rmit.edu.au/programs/bp083

📄 ATAR (2017: 81.50)

Prerequisites

Units 3 and 4 – a study score of at least 20 in one of Mathematical Methods (any) or Specialist Mathematics; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

Bachelor of Analytics (Honours)

Jaslyn Gray

Bachelor of Science (Physics)

Jaslyn has learned invaluable skills and has mentored up-and-coming students while studying the Bachelor of Science (Physics).

This program offers an opportunity to specialise in a particular area of study. It has taught me a broad range of skills and qualities including problem-solving, time management and teamwork which are invaluable in the real world of science and research.

Support and assistance

RMIT is here to make your transition to uni life as easy as possible.

Starting uni is a really exciting time. You'll probably be eager to get going and experience everything RMIT has to offer.

But uni life is not without its challenges. In addition to your studies, you may be juggling part-time work, figuring out your future career or balancing the demands of social and sporting commitments.

That's why RMIT offers a range of support services – to help you stay healthy and happy while you're making the most of your time at RMIT.

Whether it's help with assignment writing, health and wellbeing, financial advice and assistance, disability and counselling services, or guidance on career development, you will find it at RMIT.

- Counselling services
- Financial advice
- Legal advice
- Disability and long-term illness support
- Mental health support
- Ngarara Willim Centre

Study and Learning Centre

The RMIT Study and Learning Centre (SLC) is the place to go for advice and support from experienced learning skills advisors and students. You can get IT support and academic skills training at the SLC drop-in centre, participate in a free workshop that's relevant to your field of study or access a range of inspiring resources in the Learning Lab.

RMIT celebrates diversity in all its forms. RMIT welcomes people from low socioeconomic backgrounds as well as those with disabilities, diverse cultural and linguistic backgrounds, and different genders and sexualities.

Accommodation

You can search the different housing options on and around RMIT campuses with RMIT Accommodation Assistance.

www.rmit.edu.au/accommodation

Melbourne City

Accommodation abounds in and around Melbourne. RMIT Village is a five-minute tram ride from the City campus and offers the ultimate student experience.

RMIT Village

5 Flemington Road, North Melbourne.
Tel. 03 8330 2000
www.rmitvillage.com.au

Brunswick

There are numerous accommodation options, ranging from university apartments to private rentals, within easy reach of the Brunswick campus.

Pacifica Campus Apartments

1 Grantham Street, Brunswick.
Tel. 03 8686 7600
www.pacificapartments.com.au

UniLodge

Various locations.
www.unilodge.com.au

Bundoora

UniLodge at RMIT Bundoora offers a range of accommodation options from studios to shared two, three and four bedroom apartments. Every apartment is fully furnished and the monthly rent includes electricity, water and unlimited high-speed Internet.

UniLodge at RMIT Bundoora

345 McKimmies Rd, Bundoora.
Tel. 03 9998 8400
www.unilodge.com.au/lodge/rmitbundoora

VCE extension studies

Get a head start on your degree while completing your VCE.

If you're a high-achieving high school student, you may be able to undertake university subjects—completely free of charge—in your final year through RMIT's VCE extension studies.

Subjects are offered online or at RMIT's Melbourne City campus.

Why do VCE extension studies?

Experience university study

Gain bonus ATAR points using university subjects as your fifth or sixth VCE subject

Receive credit towards your university degree

You may receive an early offer to RMIT!

Subjects you can study in 2018^{††††}

- Computer Science
- Economics
- Engineering
- Environmental Science
- Geospatial Science and Surveying
- Global Politics
- Indigenous Health
- Landscape Architecture
- Management
- Marketing
- Maths: Calculus and Analysis
- Maths: Discrete Maths
- Maths: Stats and Data Analysis
- Project Management
- Psychology
- Science
- Sustainability

For more information or to find out how to apply visit www.rmit.edu.au/students/vce-extension.

Josh Caratelli

Bachelor of Computer Science

Josh was still at high school and studying RMIT's VCE extension studies, when he developed Smog Game app for iPhones and iPads, which shows children the benefit of reducing their carbon footprint.

Undertaking VCE extension studies at RMIT helped immensely in alleviating some of the technical issues I had, as I'm primarily a self-taught programmer, but after I began to be formally taught programming at RMIT, Smog Game's code quality and rate of progress shot up.

To be candid, taking the VCE extension studies was nerve-racking and exciting all jumbled into one big mess!

But RMIT provides a very welcoming and friendly environment to its students and by the end of the program I had made a fantastic group of new friends, had a taste of university life and had a nice ATAR boost going into my exams.

Find out more about Josh's Smog Game at www.smog-game.com.

^{††††} RMIT reserves the right to change or alter these offerings.

Access and eligibility

RMIT ensures that tertiary education is accessible to people from a wide range of backgrounds.

If your recent academic performance has been affected by educational disadvantage or other personal circumstances, you may be eligible for one of our equity access schemes.

The schemes provide priority access or equity consideration for eligible degree and diploma applicants.

You can apply if you:

- are a mature age applicant
- are an Aboriginal or Torres Strait Islander applicant
- are from a rural or regional area
- are a Year 12 student at a Schools Network Access Program (SNAP) school
- are of an under-represented gender in the program you are applying for (specific programs only)
- are from a non-English speaking background
- are living with a disability or long-term medical condition
- have experienced disadvantaged financial circumstances
- have experienced difficult circumstances (family or background).

You can apply for equity consideration using the VTAC Special Entry Access Scheme (SEAS) if applying for programs through VTAC or RMIT Access if applying for programs by direct application to RMIT.

To find more information about eligibility criteria and how to apply, visit www.rmit.edu.au/equity-access.

How to apply

Ready to start?

If you're in Year 12:

You'll need to apply through the Victorian Tertiary Admissions Centre (VTAC)^{###}.

Check with VTAC to make sure you meet the prerequisites and to find out if there are any additional selection criteria you'll need to complete as part of your application.

www.vtac.edu.au

Your application will be considered on the basis of your Australian Tertiary Admissions Rank (ATAR) or equivalent.

If you're not in Year 12:

You can apply through the Victorian Tertiary Admissions Centre (VTAC) for all programs^{###} or apply direct to RMIT University for advanced diploma, diploma and certificate IV programs.

Your application will be based on the results of your secondary, tertiary or other accredited academic qualifications including:

- Australian Tertiary Admissions Rank (ATAR), Tertiary Entrance Rank (TER) or equivalent
- Australian Qualification Framework (AQF) Certificate III or above
- previous university study (minimum two units)
- Special Tertiary Admissions Test (STAT) results
- work experience

If you're an RMIT student or recent graduate:

Apply direct to RMIT University
www.rmit.edu.au/apply

You may be able to apply directly to RMIT after VTAC closing dates. Check the RMIT website for the most up to date details.

Application tips

1. Check the program is offered in the semester you wish to study.
2. Check the correct application method and key dates.
3. Check program entry requirements and see if there are any additional selection requirements.
4. If you need to complete a selection task, prepare early and make sure you submit all information by the closing date.

Mid-year entry

To start studying in the middle of the year (Semester 2) all students need to submit their application to direct to RMIT.

Tip: Check the website to see if the program you want to study accepts mid-year applications.

^{###} Some certificate and diploma programs accept application directly to the RMIT School. Check program details at www.rmit.edu.au/study-with-us

Frequently asked questions

What are prerequisites?

Prerequisites are subjects that you need to study in order to be eligible to apply for a program. Make sure you check the program you're interested in to see what subjects you need.

What's a selection task?

Selection tasks (also known as selection requirements) are tasks that you are required to do in addition to your application for some RMIT programs.

These tasks give you the opportunity to display additional skills that are relevant to the program.

Important! Check the RMIT or VTAC websites for instructions and key dates. Your application will not be considered if you have not completed compulsory selection requirements.

There are different types of selection tasks and some programs may have more than one selection task.

Pre-selection kit: requires you to complete a creative task or to supply a folio of creative work.

Creative exercise: a face-to-face exercise where you are required to complete a creative task.

Folio assessment session: a session where you'll be asked to leave your folio with program staff, who will assess your folio.

Selection kit: requires you to complete a creative task or to supply a folio of creative work.

Folio presentation: a face-to-face session where you are asked about the work in your folio and your creative inspiration.

Interview: a face-to-face session where program staff ask you about yourself and your interest in the program.

Bilingual test: a test used to assess your language capabilities in both English and a language other than English (LOTE).

Supplementary form: a document where you are required to respond to a series of questions about your understanding and interest in the program.

Find out more about selection tasks at: www.rmit.edu.au/study-with-us/applying-to-rmit/local-student-applications/how-to-apply/application-methods/direct-application/supporting-documentation/selection-tasks.

Why do some entry requirements refer to study scores?

Some programs at RMIT require you to have achieved a minimum study score in a subject to be eligible for selection.

Study scores in this guide may change. It's important to check VTAC for specific prerequisites and study scores.

Does the published ATAR guarantee entry?

The clearly-in ATAR published in RMIT guides and websites are from the previous year and should be used as a guideline only. It indicates the lowest ATAR needed to be guaranteed a place in that program.

Why isn't there an ATAR published for some programs?

Some programs do not have an ATAR published. This might be because:

- the program does not select students based on ATAR, or does not select on ATAR alone, but considers a range of criteria, such as a folio, additional information form or interview results
- the program is new, so there is no clearly-in ATAR from the previous year
- fewer than 10 current Year 12 offers were made the previous year
- applications for the program are not through VTAC.

What does school-based application mean?

Some certificate and diploma programs accept application directly to the RMIT school teaching the program. Check the program information at www.rmit.edu.au/programs for information on how to apply or contact Info Corner on tel. 9925 2260.

If you have any questions about studying at RMIT University contact the team at Info Corner

Tel. 03 9925 2260
www.rmit.edu.au/infocorner

Scholarships

RMIT award more than 2000 scholarships worth millions of dollars every year.

RMIT is committed to enriching and transforming the futures of its students.

A scholarship can ease the financial burden of getting a university education and allow you to focus on your studies rather than paid employment. RMIT scholarships also provide opportunities to build your skills, enhance your employability, broaden your life experience and see the world.

To find out more about the scholarships available visit www.rmit.edu.au/scholarships.

Find the scholarship that's right for you:

Academic achievement

If you're a high-achieving student, you should apply for one of the many scholarships that recognise and reward outstanding academic results.

Equity

If economic, social or geographic factors are standing between you and a university education, an Equity Scholarship can help you realise your dreams.

Accommodation

If you need to move to Melbourne from interstate or regional Victoria, these scholarships can assist with accommodation costs.

Discipline-specific

Some areas of study (disciplines) offer scholarships that reward your initiative, support your academic progress, develop your leadership skills and promote personal success.

Aboriginal and Torres Strait Islander Students

If you're an Aboriginal and/or Torres Strait Islander student, RMIT has many scholarships designed to help you reach your academic goals.

Travel

Whether you want to study abroad, obtain an international industry placement or undertake research, there is a scholarship or grant to help you broaden your horizons.

Filmon Teclai

Bachelor of Business (Information Systems)
RMIT Equity Travel Grant

Thanks to an RMIT equity travel grant, Filmon was able to take part in a study tour to France.

I used the grant to fund the cost of my tickets and accommodation. Having the grant allowed me to focus on my studies and make the most of the experience without having to stress about funding the trip.

My most memorable moments were studying in Brest, a small but nice city. I enjoyed meeting the students from Brest Business School and touring around the city. I also enjoyed roaming around Paris and taking selfies next to the Eiffel Tower.

Fees

Tuition fees for Associate, Bachelor and Honours Degrees

Commonwealth Supported Places (CSP)

A Commonwealth supported place (CSP) is a place at university where the tuition fee is jointly paid by you and the Commonwealth Government. Your share of the fee (student contribution) is set by the government and determined by the discipline areas (bands) of your individual enrolled courses (subjects), not the overall program. The table below indicates what your annual fee would be for a full-time study load in 2017 if enrolled in courses from a single band.

A proportionate fee applies for more or less than the full-time study load or for enrolment in courses from a combination of bands.

For more information visit www.rmit.edu.au/study-with-us/applying-to-rmit/local-student-applications/fees/fees-by-level-of-study.

Student contribution band	Maximum student contribution in 2017
Band 1: humanities, behavioural science, social studies, clinical psychology, foreign languages, visual and performing arts, education, nursing	\$6349
Band 2: mathematics, statistics, computing, built environment, other health, allied health, science, engineering, surveying, agriculture	\$9050
Band 3: law, accounting, administration, economics, commerce, dentistry, medicine, veterinary science	\$10,596

Full-fee places

A full-fee place is a place at university that receives no financial contribution from the government. Fees cover the full cost of tuition and vary from program to program.

To be eligible for a domestic full-fee place you must be:

- an Australian citizen, or
- an Australian permanent visa holder or New Zealand citizen.

If you meet the above criteria but are not enrolled in a full-fee place, then you are a Commonwealth supported student.

If you do not meet the eligibility criteria for a domestic full-fee place or a Commonwealth supported place, please visit the RMIT International fees site.

You will pay fees based upon the number of credit points you are enrolled in for your program and the fee-per-credit-point for that program in the current year.

Most programs at RMIT have a standard annual full-time load of 96 credit points, so you can estimate your expected tuition fee for the year by multiplying the fee-per-credit-point by 96.

Tuition fees for Certificates, Diplomas and Advanced Diplomas

The tuition fees you pay depend on whether you are offered a Victorian Government subsidised place or a full-fee place, based on the eligibility criteria.

Victorian Government subsidised places

You will be offered a government-subsidised place if you meet the eligibility criteria based on your citizenship, age, prior education, the number of programs you are studying in the current year and the number of government-subsidised programs you have commenced in your lifetime at each level.

For more information visit www.rmit.edu.au/study-with-us/applying-to-rmit/local-student-applications/how-to-apply/apply-by-level-of-study/vocational-study/eligibility-for-a-government-subsidised-place.

For eligible students, this training is delivered with Victorian and Commonwealth Government funding. For a full list of program fees for a government-subsidised place visit www.rmit.edu.au/programs/fees/vocational/govtsub.

RMIT University's Registered Training Organisation (RTO) code is 3046.

Fee concession

You may be entitled to a tuition fee concession if you are in a government-subsidised place and you meet the eligibility criteria. For more information visit www.rmit.edu.au/programs/fees/vocational/concession.

Full-fee places

If you do not meet the criteria for a government subsidised place, you will be offered a full-fee place. For a full list of full-fee program fees visit www.rmit.edu.au/programs/fees/vocational/fullfee.

Commonwealth assistance (HELP Loans)

You may be eligible for financial assistance via one of the Australian Government's loan schemes.

For more information visit www.rmit.edu.au/programs/fees/helploans.

Other fees

In addition to tuition fees, you will be charged a student services and amenities fee. For more information visit www.rmit.edu.au/study-with-us/applying-to-rmit/local-student-applications/fees/additional-fees-and-expenses/other-expenses-material-and-admin-fees.

You may also be required to purchase items related to your program. For more information visit www.rmit.edu.au/programs/fees/other.

Important dates

May 2017

- 1 Mid-year intake opens
- 31 Closing date for mid-year timely applications. Applications will continue to be accepted for programs that still have places available.

August 2017

- 7 VTAC applications open
- 13 Direct applications open for degree and diploma programs (Semester 1, 2018 intake)

September 2017

- 28 Closing date for VTAC timely applications^{§§§§}

October 2017

- 3 Closing date for VTAC SEAS applications^{§§§§}

November 2017

- 3 Closing date for VTAC late applications^{§§§§}

December 2017

- 1 Closing date for direct timely applications – selected degree, certificate and diploma programs^{|||||}
- 1 Closing date for VTAC very late applications^{§§§§}
- 15 VCE results and ATAR released^{§§§§}

January 2018

- 3 VTAC Change of Preference closes^{§§§§}
- 17 Release of Round 1 offers

^{§§§§} VTAC dates were in draft status at the time of printing and are subject to change.

^{|||||} Applications will continue to be accepted for programs that still have places available.
