SignGold

No other sign making material adds value to signage like gold!

SignGold is used around the world to create beautiful graphics, signage and vehicle lettering, and has given thousands of sign professionals, just like you, the ability to offer "gold leaf" services, without the time and cost of traditional gilding.

SignGold cuts, weeds and applies much like any other high performance vinyl. At only 1 mil thick it not only requires no extra blade pressure when cutting, but will actually conform to rivets and other surface irregularities better than most premium vinyls...and 22 karat gold will not fade!

Fully compatible with other high performance vinyls, your projects become designed of lasting beauty, with SignGold's 10-14 year outdoor life, graffiti, stain and salt water resistance and UV protection.

Outdoor Durable Series Vinyl

All decorative series vinyl are printable with thermal transfer, solvent, eco-solvent, UV screen and digital printers.

Outdoor Durable Vinyls offer up to 5 years exterior life depending on environmental conditions, installation procedures and product suitability to the intended application. Durability may vary. Edge sealing is necessary for applications subject to demanding conditions, such as exposure to drastic weather or climate, marine or winter craft installations, etc. Edge sealing and applying a UV clear coat, or using a PSA UV overlaminating film provides added protection and enhances durability.
