What Is Ozone & How Does It Work?

Ozone (O₃) is a naturally occurring substance found in nature that we cannot live without. Ozone is an activated form of oxygen (O₂) with three atoms where regular oxygen has two. Ozone in the upper atmosphere filters out harmful rays from the sun without which all life on earth would cease to exist. Closer to home ozone is produced by lightning in thunderstorms. I'm sure you have experienced the freshness in the air after a storm. Ozone is very unstable and has an average half life of 20 minutes, this is why ozone must be produced at the point of use and cannot be stored in a container for later use. Ozone will cast off its third atom onto any other organic element thereby oxidizing it or converting it to another substance. In the case of odors it will convert a foul-smelling substance into a non-odorous substance naturally with no unhealthy chemicals to buy, store or use. Once ozone has done it's job it converts back to oxygen. Ozone will also deactivate and destroy molds, bacteria, virus, fungus, and mildew.

Introducing Total Zone

The Total Zone TZ-BB1 ozone generators are the most modern, technically advanced systems on the market today. The TZ-BB1 uses a patented ceramic chip corona discharge technology to produce the ozone and a patented "RAD", Radiant Ambient Dispersion technology to disburse the ozone. This process allows the TZ-BB1 to have no moving parts. All Total Zone ozone generators are designed and built for the utmost reliability in the harshest environments.

Markets For Total Zone Ozone Generators

- ◆ All hotel rooms can be non-smoking but they can still be smoked in.
- ◆ All used cars can be odor free, easier to sell.
- ◆ All fire and water damage companies use ozone.
- ◆ Apartment complexes can save on carpet replacement and extensive cleaning services after tenants move out, especially if they had animals.
- ◆ Restaurants, Bars, etc. can cut down on offensive odors and give their patrons a much more enjoyable atmosphere to dine and socialize in.
- ◆ Realtors can remove all odors from homes they are trying to sell. A smelly house is hard to sell.
