- Compatible with 2013 & 2014 Sony 4K UHD TVs

Features

Upgrade your Sony 4K Ultra HD TV.

Access the largest collection of movies and TV shows available in 4K Ultra HD, plus store videos from your 4K camcorder^{2,3}. And now, 2013 Sony 4K Ultra HD TV owners can stay up to date with 4K streaming services like Netflix⁸.

Download 4K movies to watch any time.

Once you're connected, you have access to over 200 4K movie titles from Video Unlimited, the world's first network video service. What's more, the built-in 1TB hard drive can store about 20 movies.²

Netflix, now in 4K.

Enjoy 4K streaming from Netflix—including season 2 of House of Cards—and experience instant entertainment with four times the detail of regular HD.²

Save your personal 4K videos, too.

Just connect your 4K camcorder and save your own 4K videos right on the box. A built-in 1TB hard drive has plenty of space for hours of footage.

Over 50 free titles

Start experiencing the game-changing resolution of 4K Ultra HD right away with over 50 free videos in 4K, including eye-popping short films, documentaries, music videos and sports videos. This collection showcases the immersive experience and fine detail that only 4K can deliver¹. When you see the full capabilities of end-to-end 4K video production, we think you'll agree — there's nothing else like it.

4K your way – rent or buy

In addition to the preloaded videos, feature films will be available to download for rent or purchase through the Video Unlimited 4K service. 24 hour rentals start at \$7.99, and purchases start at \$29.99. Choose from a collection of titles, including new releases, classic movies and TV episodes (purchase only)^{1,2}. 4K Ultra HD rental offerings will be available during the same time periods as DVD and Blu-ray™ rentals from other industry providers.

Streaming 4K photo services

Discover the beauty of photos on a 4K Ultra HD TV. Discover professional photos in 4K using the 500px service. Choose from a variety of photo slideshows from around the world that showcase the stunning detail of 4K. Share your personal photos in 4K with PlayMemories™ Online or directly via USB.

SONY

More brilliant expanded color

Spoil yourself with the widest color spectrum we've ever offered. With TRILUMINOS™ technology support, colors are more vivid, skin tones are more natural and landscapes feel like the real thing⁶.

Compatibility

The Sony 4K Ultra HD Media Player (FMP-X10) is exclusively compatible with Sony 4K Ultra HD TVs. It is not compatible with 4K Ultra HD TVs from any other brand.

1. The Sony FMP-X10 4K Ultra Media Player is exclusively compatible with Sony 4K Ultra HD TVs.

2. Broadband speed of at least 10 Mbps recommended for HD streaming or 4K downloads, 20 Mbps for 4K Ultra HD streaming. Content subject to change and may require fees. 4K download times will vary based on internet connection speed and bandwidth, and may require several hours for completion. Wireless connectivity requires 802.11 home network (802.11n recommended).

3. Storage of personal 4K videos available starting winter 2014. Online firmware update required. Select file formats supported. See specifications for supported file formats.

4. 1 Terabytes equals approximately 1000 Gigabytes. Not all memory is user accessible. Storage of 20 movies is based on average movie file size of approximately 38 GB per movie.
