

# MODEL G0501 SLIDING TABLE SAW MANUAL UPDATE

The Sliding Table Saw has changed slightly from when the manual was originally written. We have improved the crosscut fence, extension tables, blade guard assembly, and the blade guard dust port size has been increased to 3". This manual update includes assembly instructions, parts lists, and parts diagrams that have changed because of those improvements. We have also included a simplified method for adjusting the sliding table to be parallel with the saw blade.

Use this update **WITH** the original manual, not as a replacement for it. Before operating your new sliding table saw, you **MUST** read and understand the entire G0501 manual.

*If you need additional help with any of these procedures, contact our Tech Support at (570) 546-9663 or by email at [techsupport@grizzly.com](mailto:techsupport@grizzly.com).*
