Riding Mower Blades

Mulch Blades

Part Number

Mulch blades re-cut grass clippings many times and reduce them in size so that they fall onto the lawn and disperse into the grass unnoticed. Also, the mulched grass will biodegrade quickly to provide nutrients for the lawn. Always mulch with your highest engine (blade) speed as this will provide the best re-cutting action for the blades.

Walk Mower Blades

Mulch and Hi-Lift Blades	Part Number Model Number
--------------------------	-----------------------------

Mulch blades re-cut grass clippings many times and reduce them in size so that they fall onto the lawn and disperse into the grass unnoticed. Also, the mulched grass will biodegrade quickly to provide nutrients for the lawn. Always mulch with your highest engine (blade) speed as this will provide the best re-cutting action for the blades.
