STATEMENT OF PRINCIPAL Buyers bid with confidence at our auctions. They know at no time whatsoever will they be in the position to have to bid against the auctioneer. Kramer Auctions do not purchase auctions, we conduct them. We do not guarantee returns. We believe this process will interfere with the integrity of the auction system. An auctioneer should never be in the position where he is tempted to bid against his customers. Therefore, you as a bidder can rest assured that you will not be bidding on equipment pre-purchased or price guaranteed by the auction company, BUT only bidding on equipment that is owned by the sellers we represent.

Featured Item: St. Amant Auction 2011 Seed Master

If you are in the market to update your seeding equipment we will have numerous great units on offer next spring.

In April 2014 Kramer Auctions Ltd. will be conducting a Complete Farm Equipment Dispersal Auction for Clear View Acres Ltd. – Guy & Lorraine St. Amant and Blair & Sarah St. Amant from near Meota, Saskatchewan.

On offer will be a **2011 Seed Master 70' seeding tool & SXX 300 air tank, Alliance liquid kit & Bandit 3400TC tow behind liquid cart**, 16" spacing, narrow fold, floatation package, lift kit, 15.0/55-17 tires, sectional control, liquid fertilizer kit, tire in tire option, on board air tank w/Ultra-Pro meter, load cells on seed tank, Bandit 3400TC liquid cart w/2 - 1700 US gallon tanks, 21.5-16.1 ft tires, 28L-26 rr tires, Model -BD3400TC/4WH, S#PWI00100209, Alliance Series 1126 Auto-Rate Injection system w/diaphragm pump, Model 1126-180UP Grade, S#06417 S#11665.

When discussing this modern seeding unit Guy & Blair St. Amant have this to say, "After talking to Norbert Beaujot founder of Seedmaster about what we wanted in an air drill we had it built. With the seed and fertilizer on section control and seed tank on scales has allowed us to be efficient with time and input cost. The ultrapro canola metering system and the excellent Seedmaster seed placement saves us \$/acre every year. The 16" spacing on only 2 ranks allows us to seed between rows with a lot of clearance for trash from the year before. It has been easy to operate and we have had great success seeding with this drill." Guy or Blair St. Amant
