

LINCO Lease Automatic Custody Transfer Units

Customer-driven solutions for the measurement and sampling of liquid hydrocarbons in the oil and gas industry

TECHNOLOGY

LINCO Lease Automatic Custody Transfer Units

Cameron's LINCO™ Lease Automatic Custody Transfer (LACT) units offer single-source, customer-driven solutions for the transfer of ownership of liquid hydrocarbons throughout the global oil and gas industry. With an unrivaled dedication to engineering excellence, Cameron provides field-proven, precise and reliable measurement for some of the most challenging applications around the world.

CAM-LACTs–Rapid Delivery, Prefabricated, In-Stock Units

- Prefabricated with standard LACT unit specifications
- Select application options available
- Rapid turnaround and delivery times
- Global availability through Cameron's extensive network

High-Spec, Customized, Engineered Units

- Designed and customized to specific customer requirements
- Designed to measure, monitor and sample in some of the harshest environments
- Customized software and instrumentation programs
- Options available for insulation, heat tracing, NACE trim and complementary meter runs

Features and Benefits

- Accurate, repeatable and reliable measurement and sampling for a variety of data, including:
 - Viscosity ranges
 - API gravity ranges
 - S&W ranges
 - Wax content
 - Contaminants
 - Corrosives
 - Deposits
- Application-driven metering technologies
- In-house, single-source automation solutions
- Quality-sources instrumentation and technologies from industry-leading partners
- Dedicated training, support and service technicians around the globe
- Complete suite of capabilities to complement LACT units
- Built and designed to industry-recognized standards (including API, ANSI and ASME)

Training and Support

Cameron offers factory-trained service personnel for long-term maintenance, as well as expert customer training for these systems to ensure safe and efficient operation.

In addition to design and engineering services provided to the liquid hydrocarbon measurement industry, Cameron offers a full range of onsite contracted field services.

These services include, but are not limited to:

- Troubleshooting difficult measurement problems
- Field maintenance at system and component level
- Repair and/or replacement of worn and/or defective components
- Onsite liquid meter proving and calibration

CAMERON OFFERS SINGLE SOURCE SOLUTIONS AND MAINTAINS A HIGHLY TRAINED STAFF OF DESIGNERS, ENGINEERS, TECHNICIANS, ELECTRICIANS, FABRICATORS AND ASME CODE WELDERS.
