

UA-767 Plus - One Step Plus Memory

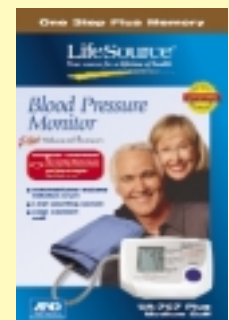

A sleek, easy-to-use blood pressure monitor with one button operation plus advanced features.

The One Step Plus Memory is a deluxe version of our top selling UA-767 One Step Auto Inflation Blood Pressure Monitor. The UA-767 Plus advanced features include an automatic inflation sensor that eliminates the need to pre-set the inflation level. The monitor also has “Last Reading Recall”, a memory function that displays the last blood pressure and pulse rate reading.

The UA-767 Plus has a unique Irregular Heartbeat feature. This monitor provides blood pressure and pulse rate measurements even when an Irregular Heartbeat occurs. The UA-767 Plus also has the following:

- Simultaneous readout of systolic/diastolic pressure and pulse rate
- Available in medium or large cuff sizes (cuffs can also be purchased separately)
- Large-print trilingual instruction guide with illustrations and quick start card in English, French and Spanish
- Four week blood pressure logbook

- Professional accuracy
- One button operation
- Last Reading Recall
- Irregular Heartbeat feature
- Large digital display
- Fast measurement
- Latex free
- Optional AC Power Adapter sold separately

UA-767 Plus - One Step Plus Memory

To obtain an accurate reading, it is important to use the correct cuff size. A cuff that is too small will result in a higher than expected reading and a cuff that is too large will result in a lower than expected reading. The UA-767 Plus - One Step Plus Memory unit comes in three different cuff sizes to accommodate your customer's needs.
