IDsPlus Photo ID Software

- **IDsPlus Lite**

An entry-level standalone solution ideal for small to medium size organizations looking for an affordable, flexible, yet easy-to-use solution to produce photo ID cards. Included are a core set of tools allowing you to define data tables, sort, search, import, export, batch import update, create card designs, and perform batch printing.

- **IDsPlus**

Adds table level security to provide complete control over who can access each table and the functions they can perform. With linked tables, you can create look-up fields by linking data from other tables to eliminate errors. Add a signature capture pad to collect signatures.

- **IDsPlus Pro**

Move up to IDsPlus Pro if your installation requires multiple workstation access. As your needs grow, add workstation access at additional locations.

Included on each IDsPlus Lite, IDsPlus and IDsPlus Pro CD is a video training module (no voice).

Magicard ID Card Printers and Supplies

No more fake IDs! The Ultra patented HoloKote ® anti-forgery protection system is a standard feature on all Magicard Rio and Tango card printers. This unique system repeats a daylight visible security pattern across the whole surface of the card face and is available only on Magicard Rio and Tango card printers. HoloKote features require zero consumable costs and low set-up costs and lead-time for custom logos.

Custom security logos are applied to the card only when the HoloKote encrypted key is attached to the printer. When used with the Magicard optional HoloPatch cards, the logo is clearly visible from any angle even in poor light.

Magicard Rio single-side Printer

Professional desktop single side printer. Downloads and prints a color, single-sided card image (YMCKO) in less than 20 seconds using advanced bi-directional USB or parallel port.

Built tough to withstand the hard work of high throughput jobs, but also ideal for low duty cycle applications.

Two-year UltraCover plus warranty is included free with all Magicard Rio printers. Covers the free replacement of any failed printhead, whatever the cause of failure. UltraCover warranty can be extended to include years three and years three and four with the same coverage.
