Are you ready?
In NFL 2K, Sega stunned the competition with jaw-dropping graphics and expert game-play content to rest on their laurels, the team has rebuilt the graphics engine for NFL 2K2 and added tons of new motion-captured animations. The AI has been sharpened to a razor's edge - you'll have to be at the top of your offensive game to lead your team to the top of the league. Use the improved running game to pound the defense and then throw long to speedy wideouts for the score. On defense, you will have to be on the top of your game too. The offense's AI will now take advantage of each quarterback's strengths so if you're playing against a mobile QB, you better watch for the rollout.

Are you ready?
Did we forget to mention Network Play? Yup, you can go online with NFL 2K2 and compete with players from around the world. But this year there's a little bit of a twist. We're going to keep track of all of your wins, losses and dropped connections. Why? To find out who the best of the best is, of course. So when you head online make sure you check out the Top 50. Do you have enough game to crack this elite list of players?

STARTING THE GAME

Are you ready?

Pop in your disc. Get out of the locker room and onto the field. This is NFL 2K2 and this is the ultimate professional football experience. Are you ready?

STARTING THE GAME

NOTE: Sega Sports™ NFL 2K2 is a one to four-player game. Before turning the Dreamcast Power ON, connect the controller(s) or other peripheral equipment into the control ports on the Dreamcast. To return to the title screen at any point during gameplay, simultaneously press and hold the A, B, X, Y, and START buttons. This will cause the Dreamcast to shutdown and reset the software and display the title screen.

CONTROL SUMMARY

NFL 2K2 is designed with analog functionality in mind. The SEGA Dreamcast analog controls provide a full range of motion and add to the overall depth of the game. By going to the Game Options -> Controller r however, you can change the control scheme to use D-Pad instead. Either way is acceptable, it's a matter of personal preference.

To highlight and select specific menu items, press the Analog Stick (or D-pad) in the direction of the menu until it highlights. If you have questions when viewing most menus and screens, press the Y button for Command help.

MENU CONTROLS

Button	Action
Analog Pad (or D-Pad)	Highlight menu options
A	Select / Scroll through the highlighted selection
B	Cancel selection / return to previous.
X	Change menu focus
Y	Command Help Menu

Coach's Corner: Getting Help

If at any time you need help navigating through the menus, press Y and a help screen will help you find the way.

GENERAL GAMEPLAY CONTROLS

Start Button	Action
Start (during gameplay)	Pause Menu
Analog Pad	Highlight formations or play sets
D-Pad (at line of scrimmage)	Change control of your player

CALLING PLAYS

Start Button	Action
R/L	Toggle through formations
A	Select formation or play
B	View previous formations or play sets
X	Flip play or formation

You can also call plays from your VMU (see Game Options Menu on page 20.). With Play Calling, controls for selecting plays are the same as if you used the main screen. Press the X Button (flip play formation) a two-way arrow icon will appear on the main screen to indicate a successful play flip.

Coach's Corner: Bluff Mode

Hey, no cheating! When you are playing against another human opponent, the last thing you want them to know is what play you are calling. To keep the information secret, press the A button and keep it held down. You can then scroll through other pages of plays or formations to hide your play. When you release the A button, it will call the play you originally selected.

When you are playing a game with more than one person per team (e.g. two-on-two), any player on the team can select a play. If you are on offense, the first player to enter a play will be the quarterback. Be careful though, both players will be able to select the play at the same time, so you will want to designate who the play-caller will be.

If you have VMU Play Calling activated, both players can cycle through the plays on the VMU. However, only the player who is plugged into the priority controller port will be able to view the plays on the VMU screen (Port A has priority over B, C, and D; Port B has priority over C and D; etc.).

ON OFFENSE

OFFENSE

Coach's Corner: Play Calling

Click on what play to call? Then ask NFL 2K2 for assistance. During play calling, press the A button once and either the offensive or defensive coordinator for your team will suggest a play. Press the A button again to accept the selection.

PERFORM THE SNAP

Button	Action
Analog Stick L/R	Send eligible receiver in motion
L/R	View receiver's button assignments, player names and fatigue levels.
A	Hurry players to the line of scrimmage / snap ball
/	Call up the Audible Menu, press A, B, or X to select an alternate play. Press Y again to cancel.
<	Lower crowd noise (quarterback)
3	Fake snap signal

Coach's Corner: No-Huddle Offense

Are you running out? Need to score quick? Want to try catching the defense off guard? Then try running the no-huddle offense. Press the Y button immediately after completion of the play to quickly run the same play again. You can always call an audible once you've gotten your team set at the line, you just need to hurry them back to get the play off quickly.

RUNNING

Button	Action
A	Speed Burst / Power Move
L or R	Stiff Arm Left or Stiff Arm Right
L+R	Juke Move
X	Dive
Y	Hurdle or High Step
B	Spin Move
D-Pad	Lateral the ball to the closest teammate behind you
Instant Energy	Press and hold A while running to fill the player arrow completely, then press any special move button to perform a more powerful move.

Coach's Corner: Power Move

Instant Energy only lasts for a short period of time. Use it sparingly, as overuse can increase the likelihood of a fumble.

Button	Action
Any Button	Pass to that receiver (double tap to fake)
D-Pad	Throw the ball away

QUARTERBACK SCRAMBLE

The best offensive line is going to let a defender through every once in a while, so you'd be ready to get out of the way. Hold down the R Trigger and your QB becomes a runner. You can scramble out of the way. Use the R Trigger with the buttons below to pull off power moves to evade would-be tacklers. Once you've crossed the line of scrimmage, you can't pass the ball anymore, so you can let go of the R Trigger and run the play as a normal running back would.

Button	Action
R+L	Juke Move
R+A	Speed Burst / Power Move
R+B	Spin Move
R+X	Slide / Dive
R+Y	Hurdle

Coach's Corner: Throwing on the run

Sometimes the defense will bite on a QB scramble and the cornerbacks will come up to try and tackle him. But as long as you are behind the line of scrimmage, you can still pass the ball. So, if you see a cornerback leave his receiver, let go of the R Trigger and pass the ball.

MAXIMUM PASSING

If you want total control over your offensive results, turn on Maximum Passing from the Controller Assignment Screen (see page 21). With Maximum Passing activated, you can lead your receivers to thread the ball in front of, behind and around the defenders. To use Maximum Passing, press the Analog Stick in the direction in which you want to adjust the throw. Press a little for a small adjustment; press harder for a bigger adjustment. For example, to lead the receiver, press Up on the Analog Stick. To throw behind and to the left of a receiver, press Down and Left.

Coach's Corner: Passing

With Maximum Passing you've got total control over getting the ball into the receiver's hands. Tapping the pass button lobbs the ball to the receiver - that's good for letting the receiver run underneath it, but gives time for the defenders to close on the ball. Holding the pass button down longer (making sure to release it before the ball leaves the quarterback's hand) will result in a normal throw. Finally, holding down the button past the ball's release will result in a bullet pass - great for when you have to get it to the receiver quickly.

CATCHING A PASS

Button	Action
B	Select receiver nearest the ball
X	Dive for pass
Y	Jump for pass

Note: When catching a pass, it is not necessary to press an action button, but doing so will increase your chances of successfully catching the ball.

ON DEFENSE

DEFENSE

BEFORE THE SNAP

Button	Action
B or D-pad	Select a defender
Analog Stick	Re-position defender
L or R	View players (with defensive back selected)
L or R	Shift defensive line (with defensive lineman selected)
A	Hurry players to line of scrimmage
X (at line of scrimmage)	Pump up the crowd
Y	Call audible. From the Audible Menu, press A, B, or X to select alternate play. Press Y again to cancel audible.

Coach's Corner: Hands Free

Would you rather be the strategist or the tactician? On defense you don't have to take control over the players - you can let the killer AI take care of it if you want. Just make sure you don't touch the controller (either moving the analog stick or pressing a button) and the AI will do the rest. If you do touch the controller, it's up to you - you will be in control of one of the 11 players on defense.

AFTER THE SNAP

Button	Action
B	Take control of the defender nearest to the ball
A	Speed Burst
X	Dive / Tackle
Y	Jump to knock down or intercept a pass
L or R	Defensive Line Special Move
D-Pad	Swap control of your players
Instant Energy	Press A while running to fill the player arrow completely. Then press any special move button to form a more powerful move.

DEFENSIVE LINE

NFL 2K2 contains a series of special moves for the defensive linemen, including spin, under and swim moves. Depending on a player's position and attributes, one of the moves will be performed when the special move button is pressed.

Button	Action
L	Perform a move to the left
R	Perform a move to the right

*Note, you have to be engaged by a blocker to execute a special move.

Coach's Corner: Using The Right Player

Before the snap, you can use the D-Pad or the B Button to select which defender you are controlling. Try to use a lineman or a blitzing linebacker or safety - that way, all you have to do is get to the QB or hitting the running back in the backfield. If you select a cornerback or a safety that is dropping back in coverage, you won't be able to see the man you're supposed to be defending if he runs off screen. This leaves you open for big pass plays.

SPECIAL TEAMS

REPLAY CONTROLS

TEAMS

CONTROLLING THE BALL

1. Set the ball trajectory and direction with the analog stick. Be sure you take into account the movement of the arrow, it will drift if you let go of the analog stick.
2. Press A to snap the ball / start the play.
3. Press A again to stop the power meter as close to the top as possible for a booming kick.

CONTROLLING PUNTS AND KICKOFFS

Button	Action
Analog Stick	Control return man after reception
D-Pad	Lateral ball after reception
Y (before catching ball)	Fair Catch (on punts only)
Y (after catching ball)	Down the ball (In the end zone only)
Hold L or R	View selected player names on both teams

Coach's Corner: Special Teams

Having quality special teams can make a difference in the game. Pinning the opponent inside their own 5-yard line or nailing a 40+ yard field goal can be key. Make sure you work on your kicking game as well as your offense and defense.

REPLAY CONTROLS

Need to see that play again? Want to rub it in your friend's face after the big score? Then bring up the Replay feature of NFL 2K2 from the pause menu to view the last play again.

A	Play at real time speed

X	Zoom In
Y	Replay Panel ON / OFF
L	Rewind (analog)
R	Fast forward (analog)
D-Pad	Move aim indicator
Analog Stick Up	Pan High
Analog Stick Down	Pan Low
Analog Stick Left	Pan Left
Analog Stick Right	Pan Right

Note: While moving the aim indicator, you can also "lock on" to any player to follow him throughout the entire replay. To do so, simply move the aim indicator directly on top of whatever target you wish to track.

ed, two-handed, forwards or backwards, all the QB has to do is get the ball near him and Moss will come down with it. His encore performance was 80 catches for 1413 yards. He topped that in year three with 77 catches for 1437 yards. What will year four hold? EXHIBITION PLAY

EXHIBITION

Now that you've got all of the basics down, let's head on out to the field and throw the pigskin around. Here's the flow of all the menus and screens you see as you set up an Exhibition game.

CHOOSING TEAMS

Use the analog stick to move your controller icon to either the team on the left (visitors) or the team on the right (home team). Then use the L and R triggers to scroll through the list of all the teams available in NFL 2K2.

CONTROLLER ASSIGNMENT SCREEN

Once you've selected the teams, the Controller Assignment screen appears. Press the analog stick or D-Pad LEFT / RIGHT to align your controller with the team you wish to command. If you wish to use Maximum Passing (and you should to get the ultimate NFL 2K2 experience), press the A Button to toggle it on. When everything is the way you want, press the Start Button to advance to the game.

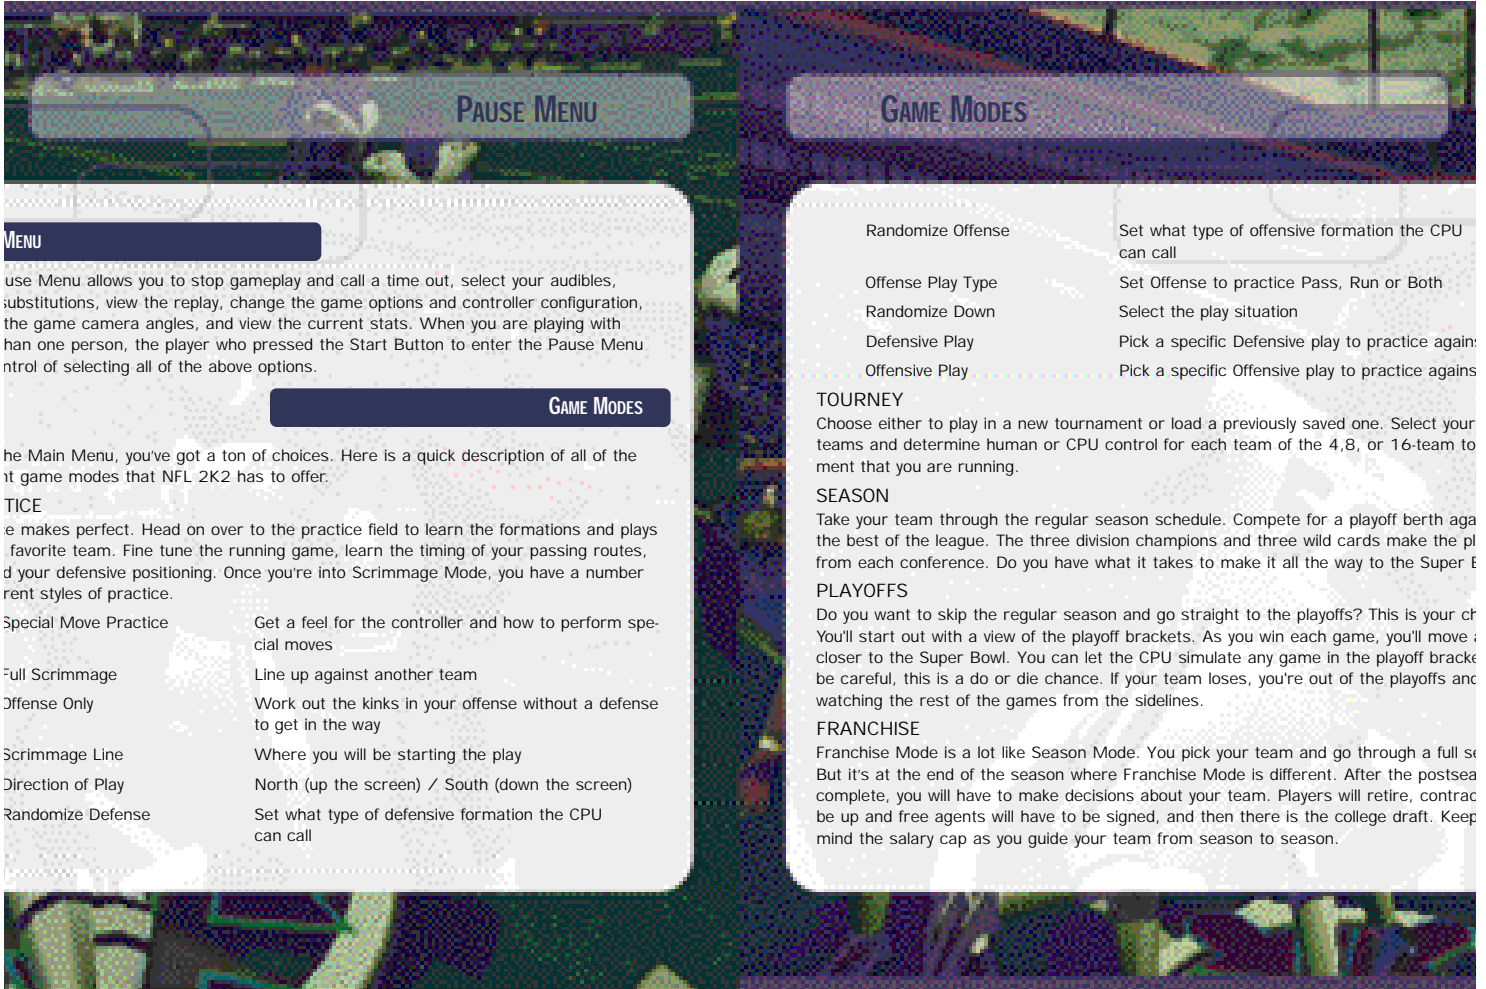

COIN TOSS

Visiting team gets to call it. Winner of the toss gets to choose whether to kick or receive. Loser chooses which goal to defend. Following the coin toss, the Special Teams play call screen appears.

SELECTING YOUR PLAYS

If you want to get to the Super Bowl, you'll have to have three key ingredients: talent, teamwork, and execution. This isn't old school AI where you could call the same plays over and over again. To win, you are going to have to mix up your plays on offense and defense to your team's strengths. If you have great cornerbacks, you can gamble more with blitz and man-to-man coverage. If you have a great running back, then pound the ball out on the ground. For the offensive playbook, passing plays are displayed in blue and running plays are displayed in red.

PAUSE MENU

MENU

The Pause Menu allows you to stop gameplay and call a time out, select your audibles, substitutions, view the replay, change the game options and controller configuration, the game camera angles, and view the current stats. When you are playing with more than one person, the player who pressed the Start Button to enter the Pause Menu has control of selecting all of the above options.

GAME MODES

From the Main Menu, you've got a ton of choices. Here is a quick description of all of the different game modes that NFL 2K2 has to offer.

TICE

Practice makes perfect. Head on over to the practice field to learn the formations and plays of your favorite team. Fine tune the running game, learn the timing of your passing routes, and work out your defensive positioning. Once you're into Scrimmage Mode, you have a number of different styles of practice.

Special Move Practice	Get a feel for the controller and how to perform special moves
Full Scrimmage	Line up against another team
Offense Only	Work out the kinks in your offense without a defense to get in the way
Scrimmage Line	Where you will be starting the play
Direction of Play	North (up the screen) / South (down the screen)
Randomize Defense	Set what type of defensive formation the CPU can call

GAME MODES

Randomize Offense	Set what type of offensive formation the CPU can call
Offense Play Type	Set Offense to practice Pass, Run or Both
Randomize Down	Select the play situation
Defensive Play	Pick a specific Defensive play to practice against
Offensive Play	Pick a specific Offensive play to practice against

TOURNEY

Choose either to play in a new tournament or load a previously saved one. Select your teams and determine human or CPU control for each team of the 4, 8, or 16-team tournament that you are running.

SEASON

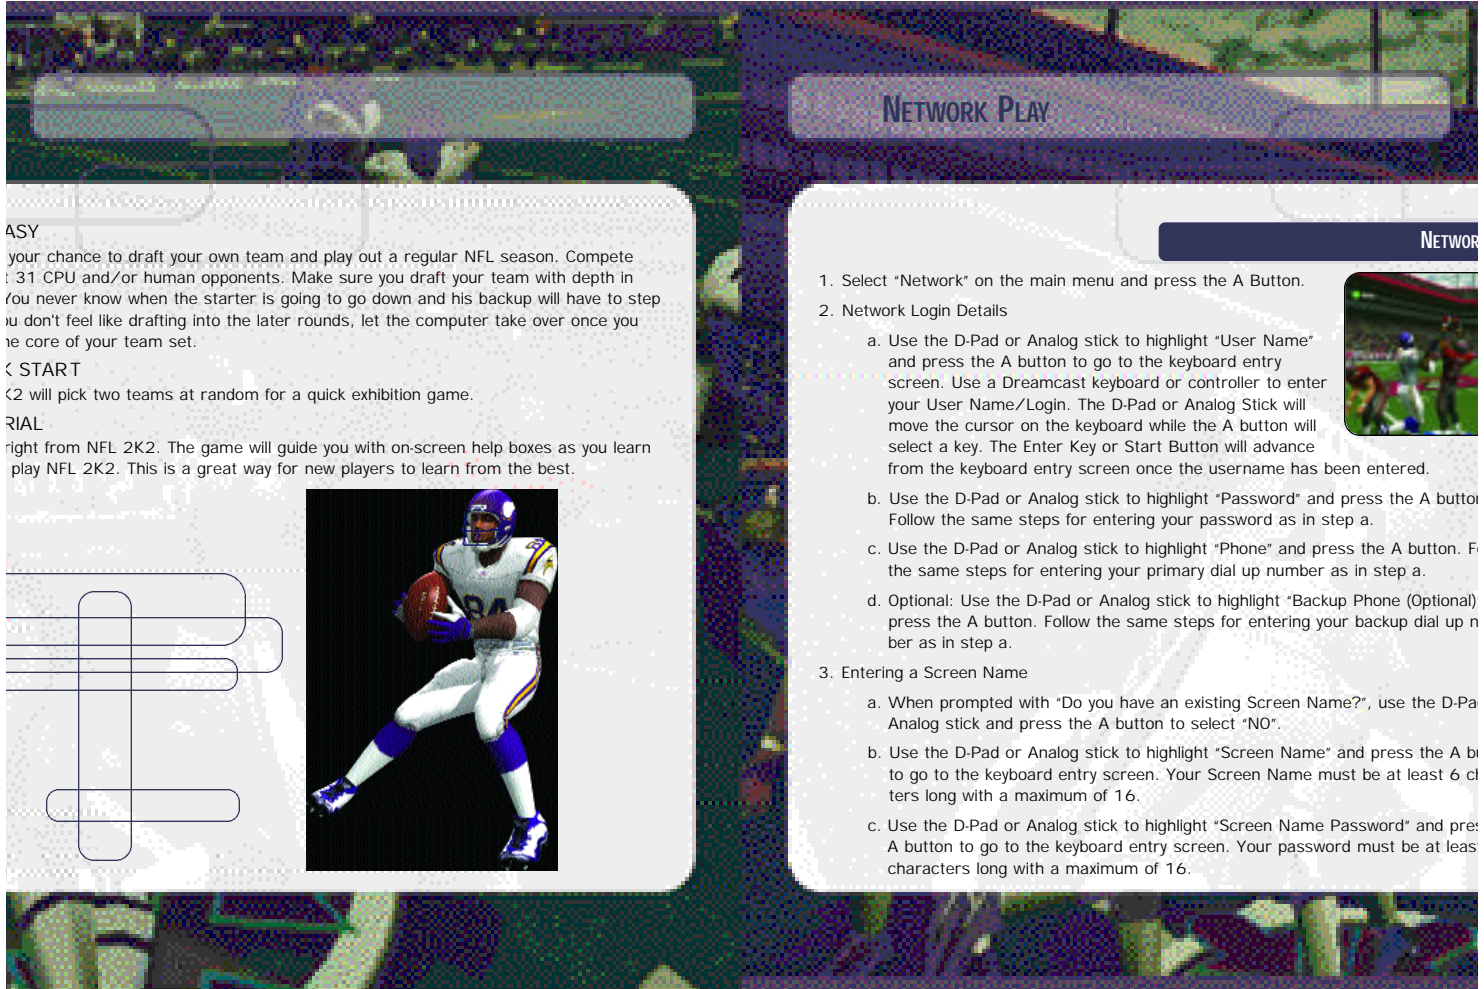

Take your team through the regular season schedule. Compete for a playoff berth against the best of the league. The three division champions and three wild cards make the playoffs from each conference. Do you have what it takes to make it all the way to the Super Bowl?

PLAYOFFS

Do you want to skip the regular season and go straight to the playoffs? This is your chance. You'll start out with a view of the playoff brackets. As you win each game, you'll move closer to the Super Bowl. You can let the CPU simulate any game in the playoff brackets, but be careful, this is a do or die chance. If your team loses, you're out of the playoffs and watching the rest of the games from the sidelines.

FRANCHISE

Franchise Mode is a lot like Season Mode. You pick your team and go through a full season. But it's at the end of the season where Franchise Mode is different. After the postseason complete, you will have to make decisions about your team. Players will retire, contracts will be up and free agents will have to be signed, and then there is the college draft. Keep in mind the salary cap as you guide your team from season to season.

ASY

your chance to draft your own team and play out a regular NFL season. Compete with 31 CPU and/or human opponents. Make sure you draft your team with depth in case you never know when the starter is going to go down and his backup will have to step in. If you don't feel like drafting into the later rounds, let the computer take over once you have the core of your team set.

< START

The computer will pick two teams at random for a quick exhibition game.

TRIAL

Right from NFL 2K2. The game will guide you with on-screen help boxes as you learn to play NFL 2K2. This is a great way for new players to learn from the best.
