# CUSTOMER SERVICE

## Expert Customer Service at Your Fingertips

**Our attention to detail shows in both the quality of our products and the quality of our customer service.**

- We work tirelessly to take the confusion out of buying the right AV mount, furniture and accessories for your TV and components
- Our customer service hotline is staffed Monday through Friday, 7 a.m. to 7 p.m. CST
- Hotline staff understand the full functionality of our products and can provide tips and techniques for successful installations
- Online MountFinder™ tool matches specific TVs to the correct Sanus mounts and accessories—MountFinder™ is available at [www.sanus.com](http://www.sanus.com)
- We stand behind our products with an industry-leading warranty

**Our customer service team is experienced and passionate about the consumer electronics industry.**

- Service team members receive continuing and extensive hands-on training with every Sanus product
- Service team members complete Certified Technology Specialists curriculum and testing from InfoComm International, a non-profit association serving the AV industry worldwide
- Customer service hotline team has direct access to product engineers to ensure accurate answers for all questions

Customer service hotline is just a call or click away.  
Dial 1-800-359-5520 and press "1" or email [info@sanus.com](mailto:info@sanus.com).

# SANUS.COM

## Comprehensive Product Information at the Click of a Button

The Sanus Systems website leads the industry in usability and state-of-the-art development. Offered in eight languages and multiple regions internationally, it's a one-stop-shop for information, including comprehensive product details and the latest Sanus news and press releases.

### Sanus.com brings you:

- **MountFinder™**  
Match any TV to the perfect mount with our comprehensive TV and product database
- **Store locator**  
Find Sanus dealers based on postal code
- **New product information**  
Stay up-to-date with our latest product introductions
- **Detailed product specifications**  
Get information on all Sanus products, including furniture, speaker stands, mounts and accessories
- **Product Manuals**  
Locate and download installation instructions for any Sanus product
- **Support**  
Find details on warranties, returns, exchanges and replacement parts
- **Contact Information**

### MountFinder™

MountFinder™ is a comprehensive TV and product database that takes the guesswork out of finding the perfect wall or ceiling mount. Simply enter the brand or model number of your TV, and MountFinder™ will display all compatible Sanus mounts.

If you are unsure of your model number, or if your particular television or monitor is not listed in our database, our advanced MountFinder™ allows you to search for compatible Sanus products based on the physical specifications of your television or monitor.

FOUNDATIONS

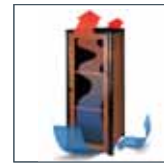

AV FURNITURE & ACCESSORIES

# AV FOUNDATIONS™

FEATURES AND BENEFITS • INNOVATIVE TECHNOLOGY

« **Convection Cooling System**  
 Concealed venting allows heated air to flow out the top while drawing in cool air through the bottom, keeping AV components at a proper temperature

« **Wire Management System**  
 Wire management system helps keep cables concealed and organized

« **Virtually Eliminates Resonance**  
 Custom-engineered construction using strategically placed MDF virtually eliminates resonance

« **Solid Materials**  
 Construction using Grade A hardwood veneers or solid hardwood frames offers an outstanding combination of stability, durability and style

« **Elegant Glass Shelves**  
 Extra-thick tempered-glass shelves are heat-treated for added safety, strength and shatter resistance

« **Designed To Handle Large Systems**  
 Deep, spacious shelves are designed to handle even the largest AV systems

« **Sturdy Construction**  
 Solid heavy-gauge steel construction offers strength and support in a clean design

« **Easy To Assemble**  
 Assembly hardware included for easy installation

« **Multiple Options**  
 Versatile furniture lines offer multiple designs, sizes and finishes

« **Versatile Designs**  
 Select models feature expandable shelf options and interchangeable door panels to match any home décor and AV equipment need

TV dimensions vary widely, therefore it is important to confirm that the dimensions of your specific TV will be compatible with the furniture shown above. Sanus does not warrant that any TV within the size ranges above will fit onto the specified furniture.

# VERTICAL AV FOUNDATIONS™

VF5023-B1

## Modern meets practical with Vertical AV Foundations™

Sanus Vertical AV Foundations™ combine the storage capacity of a cabinet with the discreet look of a low-profile wall mount, creating a versatile, stylish piece that can literally fade into the woodwork. These wall-mounted AV stands feature **adjustable tempered-glass shelves** and generous **wire management channels**, so they're perfect for mounting directly under a TV. And some models offer an **interchangeable glass and wood back panel** in case you change your décor. It's the most practical piece of art you'll ever own.

« Strong tempered-glass shelves can be vertically adjusted to accommodate any AV component arrangement

« VF5022 and VF5023 include interchangeable black glass and wood back panels to match any home décor

« VF2012 and VF2022 feature post installation height adjustment to mount directly below television.

« Concealed wire management discretely routes cables to wall plates behind interchangeable panels

# COMPONENT AV FOUNDATIONS™

**Built to perform for home theater junkies without compromising aesthetics**

It's easy to find a nice-looking cabinet ... that won't fit your gear or keep it cool. And it's easy to find a high-test rack ... that would send interior decorators running. That's why we set out to redesign our Component AV Foundations™ line. **Vented, large-cavity, cable-organizing, resonance-absorbing** cabinets with the beauty of **natural hardwood veneers** and contemporary design elements such as **extruded aluminum pillars**. It's more than a mouthful. It's a masterpiece.

CFV47cb | CFA56cb | UF34

- 

« Center channel cavity with speaker grill cloth on CFV69 allows for concealed speaker placement
- 

« Convection cooling system allows heated air to escape as cooler air is drawn in
- 

« Extra-deep, full-width wire channel easily contains all cables from even the most complex systems
- 

« Solid polyester feet with optional carpet spikes dampen resonance
- 

« Removable carpet glides make rearranging furniture easy on carpeted surfaces
- 

« Quick-release removable back panels provide easy access to AV components for wiring
- 

« Adjustable isolation shelves separate AV components for vibration reduction
- 

« Versatile line includes glass and wood door panel options for a customizable design

# WOODBROOK AV FOUNDATIONS™

**Fine furniture that satisfies both AV and interior design enthusiasts**

Passion meets creativity with Sanus Woodbrook AV Foundations™. Connoisseurs of fine furniture will be pleasantly surprised by the quality of construction, with beautiful materials such as **solid hardwoods** and **tempered glass**. But the real beauty lies in the creative **flexibility to customize each piece**. Door options include glass to prominently display AV components or solid hardwood to cleverly conceal them. The result is an AV setting with clean lines and a timeless look that's sure to inspire.

WFA44mo | EF28b

# NATURAL AV FOUNDATIONS™

NF213b | NF24b

Contemporary design and rigid construction come together to create strength and beauty. The Natural AV Foundations™ line from Sanus Systems is elegant. It's **contemporary**. And it's **functional**. When designing Natural Furniture, Sanus set out to create an element of lasting beauty. But the real beauty is in the engineering. **Solid Grade A hardwood, extra-thick tempered glass and rigid steel pillars** provide incredible strength. With a full complement of accessory pieces, it's easy to decorate an entire room.

« Concealed wire path keeps even the largest cables hidden

« Open architecture allows unrestricted airflow for cooling

« Beautiful natural hardwood with contrasting steel pillars provide a strong support

« Rear top shelf corners are angled, allowing furniture to fit tightly into corners

MODEL TV13w ONLY

# SPEAKER FOUNDATIONS™

FEATURES AND BENEFITS • INNOVATIVE TECHNOLOGY

« **Optional Speaker Isolation Technology**  
Brass studs or neoprene pads provide superior speaker isolation

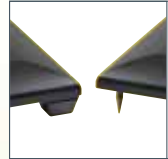

« **Stability On Any Surface**  
Solid, high-mass construction offers stability on any surface

« **Resonance Damping Rings**  
Integrated resonance damping rings isolate speaker from vibrations for a clean, pure sound

« **Quality Construction Materials**  
Energy-absorbing MDF, solid hardwood or heavy-gauge steel construction increases sound quality by providing acoustic isolation

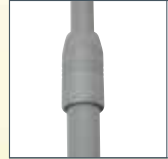

« **Acoustic Isolation Technology**  
Adjustable carpet spikes and polyester or rubber feet isolate speaker stand to reduce resonance and improve sound quality

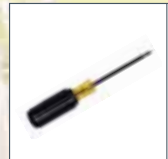

« **Wire Management Path**  
Large integrated wire path or concealed wire channel organizes heavy-gauge cables

« **Contemporary Design**  
Unique designs include heavy-gauge steel, solid hardwood and MDF for a speaker stand built to perform with no compromising on aesthetics

« **Adjustable Height**  
Adjustable height allows speakers to be placed at optimum listening level

« **Easy To Assemble**  
Easy assembly can be completed in minutes with just a Phillips screwdriver

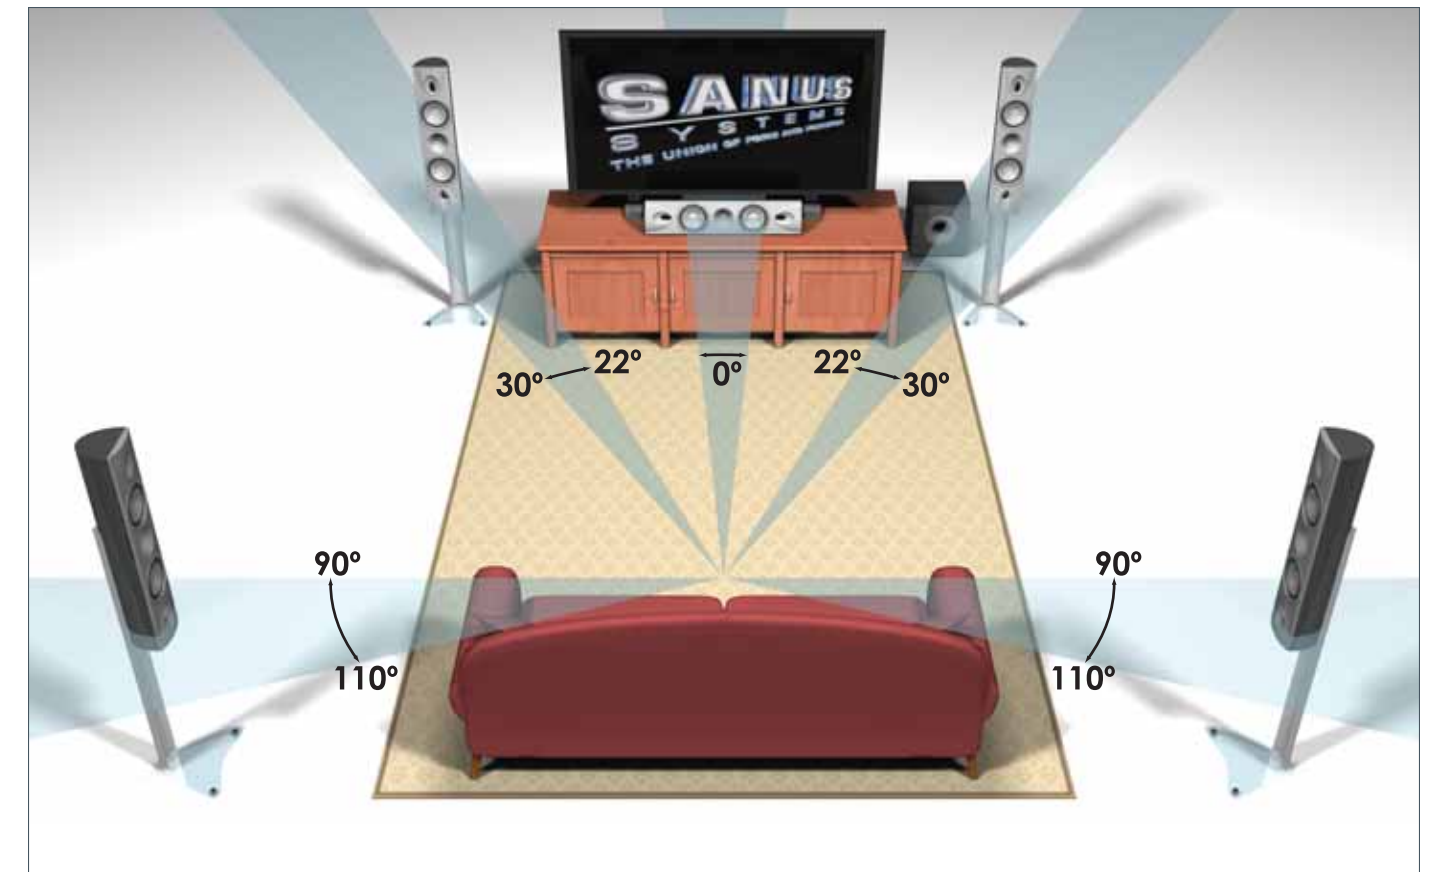

« **Resonance Reduction**  
Some pillars can be filled with shot for added stability and resonance reduction

Java AV Foundations™ models JFV65e and JFBD1e shown with Euro Speaker Foundations™ model EF28b

# PROPER SPEAKER PLACEMENT

FOR 5.1 SURROUND SOUND HOME THEATERS

Mounting and positioning the speakers correctly can be more important to sound quality than choosing components. For optimal sound, the tweeter should be at ear level. For most installations, the correct height is around 40 inches (give or take 5 inches). Key factors that affect this are the height of the listener and the height of the listener's chair.

## FRONT AND CENTER SPEAKERS

Place as close as possible to the same height, at or near ear level

## SURROUND SPEAKERS

Place slightly behind and above ear level and facing horizontally (not down at the listener)

# ULTIMATE SPEAKER FOUNDATIONS™

## The ultimate acoustics for a true audiophile experience

When the Sanus engineers and Cramer Studio set out to create Ultimate Foundations™, they left no stone unturned in their quest for acoustic perfection. They started with a base constructed of an **energy-absorbing material** created with components of minerals, resin and glass. Next, they created a support of not one, not two, but three large-diameter **heavy-gauge steel pillars** designed to be filled with sand or shot. This creates a speaker stand weighing more than 80 pounds. And they finished this masterpiece with an ultra-heavy-gauge steel top plate complete with **brass isolation studs**. The result truly is acoustic perfection.

UF34 | CFV47eb | CFA56eb

	« Brass speaker isolation studs provide a stable non-slip surface		« Integrated Poron® rings isolate speaker from vibrations in the floor
	« Wide triangular base with spikes and rubber pads or carpet spikes provides superior stability on any surface		« Steel pillars can be filled with shot or sand for added stability
	« Cork Resonance Damping Rings provide the ultimate foundation with acoustic perfection		« The spackled gray finish goes well with almost any décor

# STEEL SPEAKER FOUNDATIONS™

## The perfect home theater solution

Resonance damping rings and adjustable isolation studs provide **superior acoustic isolation**. Custom-designed top plate provides safe and secure bolt-mounting option for many of today's speakers. The heavy-gauge tubular steel pillars can be filled with sand or shot for increased mass. A **wire management system** keeps speaker cables neatly organized. And the **heavy 10-gauge steel base** was designed by Cramer Studio and includes both **adjustable spikes and rubber feet**.

SF26b | SFV49b

« Heavy-gauge steel construction provides extreme rigidity and stability

« Large heavyweight base provides superior stability on any surface

« Center channel stand tilts speaker to focus sound using adjustable studs or neoprene speaker pads

« Cork resonance damping rings isolate vibrations to help provide superior acoustics

# NATURAL SPEAKER FOUNDATIONS™

## High-performance speaker supports with the beauty of real hardwood construction

The softly contoured, hand-rubbed, black lacquer base is constructed of acoustically superior MDF and comes with both premium adjustable carpet spikes and polyester feet. The extra-thick pillar is constructed of solid hardwood for the perfect combination of beauty and quality. A patented wire management channel safely hides speaker cables behind the pillar. And the strong but inconspicuous MDF top plate comes with brass speaker studs and neoprene isolation pads.

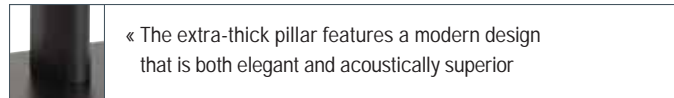

NF24b | PFV36-B1

« Center channel stand tilts speaker to focus sound using adjustable studs or neoprene speaker pads

« Adjustable carpet spikes or screw-in polyester feet add stability on any surface

« The extra-thick pillar features a modern design that is both elegant and acoustically superior

« Patented wire management path easily organizes and conceals even the largest cables

MODEL EFSATw ONLY

# BASIC SPEAKER FOUNDATIONS™

Simple yet elegant, these speaker stands raise any speaker to the proper listening height

Basic Foundations™ may be affordable, but they're certainly not cheap.

The construction begins with **energy-absorbing MDF**, not particle board. Add to that features like **ABS plastic spikes**, a **concealed wire path** and **neoprene speaker isolation pads**, and you've got sound Foundations for your speakers.

Plus the **powder-coated black finish** blends seamlessly into most any setting.

BF24b | PFV47b

« Three height options allow speakers to be perfectly placed for a custom audio experience

« Sturdy ABS plastic push-in spikes provide a solid foundation on most any surface

« Neoprene speaker isolation pads provide a soft, non-slip surface

« Patented concealed wire path hides even the largest cables from view

« Energy-absorbing MDF construction increases sound quality by providing acoustic isolation

« Easy assembly can be completed in minutes with just a Phillips screwdriver

MODEL HTB7 ONLY

# HOVER SPEAKER FOUNDATIONS™

## The first speaker stand designed to meet Dolby Laboratories' specifications

The proper positioning of home theater satellite speakers is not as obvious as it seems. While many people enjoy sound reproduced from speakers at ear level, the correct positioning, according to Dolby Laboratories, is actually several feet above ear level. Enter Hover Foundations. These **heavy-duty cast iron and steel** speaker stands are the first ever that meet the placement guidelines of Dolby Laboratories. And they do so with rugged construction designed to hold speakers up to 10 lbs. and include features such as **adjustable height** and a **concealed wire management path**. Plus, Hover Foundations include both straight and angled pillars for Dolby surround or direct listening. Get ready to hear what Dolby Digital REALLY sounds like.

HF1b | SFA29b

- « Adjustable height allows speakers to be placed at optimum listening level
- « High-mass cast iron base includes adjustable carpet spikes and rubber pads for stability on any surface
- « Includes top plates and brackets to fit most small speakers
- « Concealed wire path hides cables from view for a clean and organized appearance
- « Durable powder-coated black or silver finish provides a modern look
- « Easy assembly can be completed in minutes with just a Phillips screwdriver

VISIONMOUNT

AV MOUNTS

VisionMount™ model VMMAA18b shown with Woodbrook AV Foundations™ model WFFV44mo

 <p>« <b>Universal by Design</b> — Mounting brackets featured on many mounts are designed with multiple holes to fit virtually any LCD or plasma TV</p>	 <p>« <b>Virtual Axis™ 3D</b> — Available with MF202, MF203, MF209, MF215 and MC1A, this patented technology allows the mount and TV to move easily in every direction possible with totally fluid motion</p>
 <p>« <b>Roll Control</b> — Allows mount to rotate to left or right, ensuring your TV is perfectly level, even after hanging</p>	 <p>« <b>Virtual Axis™</b> — A patented technology that allows smooth, effortless tilting motion. And because it balances the TV's weight on itself, you can move it with the gentle touch of a finger</p>
 <p>« <b>Adjustment Knobs</b> — Available on tilting and full-motion mounts to enable your TV to tilt and swivel easily while maintaining the perfect viewing angle, all without the use of tools</p>	 <p>« <b>Lateral Shift</b> — Allows horizontal movement of mounting brackets on wall plate for perfect TV placement, even with off-center studs</p>
 <p>« <b>Cable Management</b> — Wires and cables are easily routed, keeping them concealed and organized</p>	 <p>« <b>SmoothLock™</b> — A tilt and swivel system that uses revolutionary tapered bearings to provide strong, smooth pivoting without sagging or readjustment. Tilt your TV or monitor and it stays put, without the use of tools</p>
 <p>« <b>Corner Mounting</b> — Select mounts can be positioned in a corner to save space, offering a large range of motion for easy viewing from anywhere in a room</p>	 <p>« <b>Easy Installation</b> — Complete in just minutes          1. Attach plate to wall          2. Attach brackets to TV          3. Hang TV on wall plate</p>
 <p>« <b>UL Listing</b> — A nationally recognized safety standard listing granted to all Sanus mounts after rigorous weight capacity and angle hanging tests by Underwriters Laboratories Inc.®</p>	 <p>« <b>Product Warranty</b> — All Sanus products are covered by a limited warranty. Visit <a href="http://www.sanus.com">www.sanus.com</a> for details.</p>

**CHOOSE SIZE\***

 <p><b>SMALL</b> Generally used with LCD TVs up to 23". Most small Sanus mounts support up to 30 lbs. and fit TVs with VESA-standard mounting holes on back spaced (mm) 100 x 100 or 75 x 75.</p>	 <p><b>MEDIUM</b> Generally used with LCD TVs 23" to 40". Most medium Sanus mounts support up to 80 lbs. and fit TVs with VESA-standard mounting holes on back spaced (mm) 200 x 200, 200 x 100 or 100 x 100.</p>	 <p><b>LARGE</b> Generally used with PLASMA and LCD TVs up to 50". Most large Sanus mounts support up to 130 lbs. and fit random hole patterns on back of TV.</p>	 <p><b>EXTRA LARGE</b> Generally for PLASMA and LCD TVs 42" and up. Most extra-large Sanus mounts support up to 175 lbs. and fit random hole patterns on back of TV.</p>
--	--	--	---

**CHOOSE TYPE**

 <p><b>FULL MOTION</b> Extend, retract, tilt and swivel your TV for perfect viewing from anywhere in the room. Great for corner placement — saves space while still offering a large range of motion. Reposition as often as desired with smooth, effortless motion.</p>	 <p><b>TILTING</b> Tilt up and down for better viewing from the sofa, bed or even the floor. Also useful for eliminating glare.</p>	 <p><b>LOW PROFILE</b> Mount flush to the wall to maximize the sleek, thin look of the TV.</p>
--	---	--

Search for TV model or brand. Enter at least two characters.

\*Some Sanus mounts vary from details above. Also, each TV has unique characteristics. Visit [www.sanus.com](http://www.sanus.com) and click on MOUNTFINDER™ to choose a brand and model of TV to verify compatible Sanus mounts.

**ALSO AVAILABLE: SPECIALTY MOUNTS**

 <p>« <b>AUTOMATED MOUNT</b> Fully automated tilt, swivel and extend movements at the touch of a button for perfect viewing angles anywhere in a room—universal remote control included.</p>	 <p>« <b>DESK MOUNTS</b> A great space-saver that offers increased freedom of movement. Attach without tools to desks up to 3" thick to cleverly hide hardware.</p>
 <p>« <b>PULL-OUT CABINET MOUNT</b> Extend and retract TV from cabinets and armoires for better viewing. Can be used with a variety of low-profile or tilting mounts.</p>	 <p>« <b>UNDER-CABINET MOUNT</b> Under-cabinet mounts tilt and swivel in all directions for multiple viewing angles and conveniently tuck under a cabinet when not in use.</p>
 <p>« <b>CEILING MOUNTS</b> Tilt and swivel TV in all directions for easy viewing from anywhere in the room. Great as a space-saver or when wall mounting is not an option.</p>	

# VISIONMOUNT® AUTOMATED MOUNT

**Change the channel ... and the position of your flat-panel mount.**

Our fully automated full-motion mount offers tilt, swivel and extend motions up to 12" from the wall at the touch of a button. Its **easily programmable settings** allow you to pre-set your four favorite TV locations, so it's simple to find and keep the perfect viewing angles for any room. All mounting hardware is concealed and protected by a **decorative cover**, and an exterior control panel allows for easy maintenance without disturbing the mount. Add to that a **universal remote** featuring TV, DVD and mount control functions, and it makes a great addition to any home theater.

« Full-motion mount featuring automated tilt, swivel and extension motions

« Flexible decorative cover creates a clean and finished look while protecting inner components

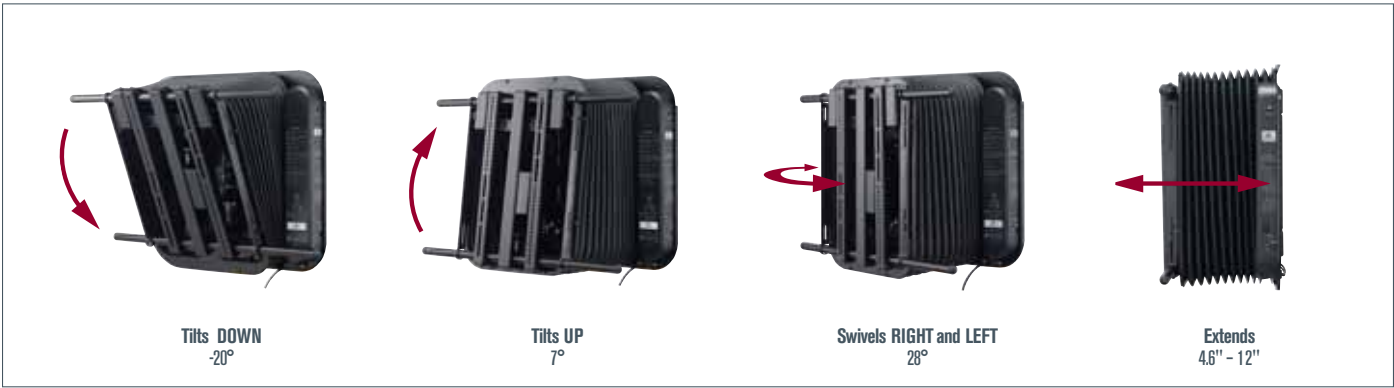

« Includes programmable universal remote for controlling mount, TV and DVD

« Four pre-programmable settings allow common viewing angles to be saved and set at the touch of a button

# VISIONMOUNT® RECESSED IN-WALL BOX

The new LR1A recessed box allows a TV to be flush to the wall, so it hangs like a picture.

1. Cut a hole in the sheetrock between 16" center studs and set the LR1A inside.\*
2. The finger-adjustable Quick Shims™ allow you to easily position and level the box and then secure it in place using provided hardware.
3. There are cutouts for signal and power cables on top and bottom, plus it's available in silver, black or paintable white to match any décor.
4. Once the LR1A is in place, choose a full-motion mount (model LRF118, VM400, or MF215) that fits your TV.

\* Safety note: Before cutting, ensure electrical wires or piping does not run within desired location

Models VM400b and LR1A-S1 shown

- ◀ LR1A In-Wall Box supports Sanus VisionMount VM400 or LRF118 wall mounts
- ◀ In-Wall Box is available in a paintable white finish to match any décor
- ◀ VM400 features a hinged arm to support and extend flat-panel TVs up to 100 lbs. from 0" to 17" off wall

- ◀ Finger-adjustable Quick Shims™ allow box to be leveled and secured tightly into place in no time
- ◀ LR1A features signal and power cable cutout holes to conceal and organize wires
- ◀ LRF118 is specially engineered for the LR1A and holds flat-panel TVs up to 130 lbs.

**BEFORE**  
Mount tucks neatly into in-wall box, enabling the TV to lie flush against the wall

**AFTER**  
TV and mount pull away from in-wall box; full-motion features readily available
