

Public Hunting Areas

Hunting regulations on the public hunting areas listed for Regions 1-5 on the following 8 pages are often more restrictive than the statewide regulations listed in this digest. Hunters are cautioned to contact the site well in advance of a planned hunt to request a hunter fact sheet that will list site-specific regulations. Fact sheets can be obtained at www.dnr.state.il.us/lands/landmgt/hunter_fact_sheet/index.htm.

The taking of any wildlife species not listed in this digest or on the hunter fact sheet is generally unlawful. Hunting may be allowed for additional species not listed here, such as teal, woodchuck, skunk, rail, snipe, partridge and crow. Please contact the site for information on opportunities to hunt these species. The regional land or wildlife manager (see page 1 for regional phone numbers) can be contacted for questions about various sites.

Some site-specific regulations that apply to all state sites are as follows: **(REMEMBER—MORE RESTRICTIVE SITE-SPECIFIC REGULATIONS WILL APPLY AT MANY INDIVIDUAL SITES).**

Blaze Orange Clothing Requirements

● During pheasant, rabbit, quail and partridge season, hunters and trappers are required to wear a hat/cap and an upper outer garment of solid and vivid blaze orange of at least 400 square inches while trapping or hunting pheasant, quail, Hungarian partridge, rabbit, snipe, rail and woodcock on all state

sites. **NOTE:** Camouflage blaze orange material does not meet this requirement.

- Blaze Orange Requirement – Ground Blinds on Public Hunting Areas. It is unlawful to use or occupy a ground blind during any firearm deer season on public land unless at least 400 square inches of solid vivid blaze orange material is securely attached to the upmost portion of the blind and a substantial amount of orange is visible for 360 degrees.

It is unlawful:

- To hunt with any weapon except shotgun or bow and arrow unless otherwise specified.
- For any person to possess any alcoholic beverage while in any hunting/trapping area for the purpose of hunting or trapping.
- To hunt or trap on any site with a manned check station without first declaring game killed on a previous hunt and in possession either on the hunter's person or in his or her vehicle.
- To construct or use any tree stand using nails, screws or any device which pierces or cuts the bark of the tree on which it is installed. Any tree stand must be portable and must be removed at the end of each day, unless otherwise specified in site-specific regulations. Only one tree stand is allowed per deer permit holder at each site.
- To hunt or trap in a restricted area.
- To hunt or trap outside designated areas at the site.

- To enter a refuge, restricted area or waterfowl rest area unless authorized by the Department.
- To buy, sell or commercialize hunting or trapping rights, directly or indirectly, except that this does not apply to Department of Natural Resources hunting or trapping fees or to the operation of controlled pheasant hunting on Department lands pursuant to a written concession agreement.
- To hunt or trap without a valid permit where permits are required.

Hunting Opportunities for Disabled Hunters:

Disabled Hunters are given the opportunity to hunt a variety of game species on Department-managed land, federal land or private land where the Department issues permits. All five regions have sites offering disabled hunting opportunities and are identified for easy recognition. Hunters are encouraged to contact the site for specific regulations for the opportunities provided.

To utilize a site's disabled hunting program, a hunter must meet the qualifications for being disabled as described in the section on Hunting License/Stamp Requirements and Exemptions (footnotes 8 and 9 on page 5).

Shawnee National Forest:

- The construction, use or occupancy of any permanent tree stand or other permanent elevated device for the purpose of hunting is prohibited. Title 36, Code of Federal Regulations, Part 261.58 (v) (36 CFR 261.58(v).

DISABLED OUTDOOR OPPORTUNITIES

The Illinois Department of Natural Resources is committed to providing greater access and programs for persons with disabilities. We want to make it easier for disabled individuals to hunt, fish and pursue other outdoor activities. In 1999, these issues were addressed by establishing a new program entitled, "Disabled Outdoor Opportunities." Objectives for this program include: establishing partnerships with organizations representing people with disabilities and working cooperatively to mainstream DNR programs and facilities to better meet the needs of the individuals they represent, review existing DNR recreational opportunities to identify and eliminate barriers to participation, develop and coordinate training programs for staff and continually provide knowledge on the basic needs and concerns of this segment by working with DNR site planners and engineers to develop integrated barrier-free designs for recreational facilities.

DNR is continuing to expand its program for disabled hunters and anglers. Disabled hunters can participate in deer, pheasant, waterfowl and dove hunting at various sites throughout Illinois. A number of fishing events are held each year as well. Even though DNR is committed to having season long hunting opportunities for people with disabilities there are also special events. For more information on special events such as hunting and fishing in your area go to the DNR website at www.dnr.state.il.us/doo/index.htm or call your state park site. Also, refer to pages 32-39 in the Digest of Hunting and Trapping Regulations for a list of public hunting areas.

2009 Spring Turkey Shotgun

DNR is continuing to make reasonable accommodations for people with disabilities. If you draw a permit for a particular county and you want to hunt a state park in that county that does not already have a permit allocation, make sure you contact the state park site within 10 days of your intended hunt so that the site staff can make reasonable accommodations. DNR is committed to giving individuals with disabilities a place to hunt.

Special Permits

The Department of Natural Resources offers two special permits for people with disabilities:

Crossbow: Special permits may be issued by the DNR to qualified handicapped persons allowing them to use a crossbow to hunt species during regular archery seasons. This permit must be carried by the hunter along with all required hunting licenses, stamps or permits. To qualify for a crossbow permit, a person must either have a permanent physical impairment due to injury or disease, congenital or acquired, that renders him/her so severely disabled as to be unable to use a conventional bow and arrow device, or must be legally blind.

Standing Vehicle: DNR may also issue permits to paraplegics or other disabled persons to hunt from a vehicle, if the person meets the criteria set forth by Department Rule. While hunting, the vehicle must be totally immobile with the engine turned off. When the vehicle is moving, firearms must be unloaded and enclosed in a case, except, however, that holders of standing vehicle permits who are in the field legally hunting pheasant, quail, Hungarian partridge or rabbit, shall be permitted to carry a loaded and uncased shotgun in or on a vehicle under conditions described by Department Rule.

Neither of these permits may be issued until an application has been submitted. For an application or further information, contact the Office of Law Enforcement (217) 782-6431 or visit www.dnr.state.il.us.

Refer to page 5 (foot notes 8 and 9) for appropriate disability classifications.

For more information about the Disabled Outdoors Opportunities Program, contact Jay Williams, DNR, 503 East Main St., Benton, IL 62812, telephone (618) 439-9111, ext. 257, or email jay.williams@illinois.gov.
