

RNN optional reading assignment

What: Read and summarize a RNN paper.

Hand in report as pdf 1-2pages, 12pt font.

Focus on the key finding and their implications rather than the technical details.

Make sure that you appropriately cite any text from the literature.

A selected subset of papers provided in git repository.

If you'd rather chose a paper that is not on that list, then check with CS first.

Due: December 7
