VMWARE WORKSPACE ONE APP EXPRESS

Q. What is Workspace ONE App Express?

A. VMware Workspace ONE App Express helps organizations host Windows applications from the cloud in as few as 3 clicks. Built directly into Workspace ONE, this streamlined service is designed for customers who would like to virtualize their Windows apps directly via Workspace ONE. Hosted entirely in the cloud, there is no need to manage infrastructure, and with convenient hourly billing you won't have to predict your usage requirements up front, simply pay for what you use. With Workspace ONE App Express, each user gets dedicated compute so you won't have to worry about performance and right sizing your RDSH farms or hosted apps servers.

Q. How does Workspace ONE App Express work?

A. Workspace ONE App Express provides a platform for rapid, secure deployment of Windows software from the cloud. Via the Workspace ONE console, IT administrators upload and onboard applications and assign permissions with an easy-to-use web interface. They can push updates by patching one master image and publish to end users with a single click—no downtime required.

Q. Do I need to be a Workspace ONE customer in order to use Workspace ONE App Express?

A. Yes. Workspace ONE App Express is an add-on for Workspace ONE. Customers can now enjoy on-demand Windows application delivery from the cloud, enterprise mobility management, identity, and unified endpoint management from a single platform.

Q. Where can I learn more about Workspace ONE?

A. You can learn more about Workspace ONE, VMware's unified platform for digital workspaces on vmware.com at http://www.vmware.com/go/workspaceone.

Q. When will Workspace ONE App Express be available?

A. Workspace ONE App Express is currently in beta. If you are interested in participating as a beta cusotmer, you can sign up here.

Q. Where will Workspace ONE App Express be available?

A. Initially, Workspace ONE App Express will be available in the US only. We are working diligently to expand this offer globally.

Q. What applications are supported?

A. Any application that is compatible with WIndows Server 2012 R2 can be run in Workspace ONE App Express.

Q. How can I access applications delivered through Workspace ONE App Express?

A. Any device with an HTML 5 compliant browser can launch the Workspace ONE portal, providing access to applications delivered through Workspace ONE App Express.

Q. How does Workspace ONE App Express differ from Horizon Cloud?

A. Workspace ONE App Express is designed to be a lightweight solution for rapidly delivering cloud-hosted virtual Windows applications through Workspace ONE. For organizations who are not Workspace ONE customers, are looking to deploy virtual desktops, or want multiple infrastructure deployment options, VMware's Horizon Cloud service is a perfect fit.

Q. Where can I go to learn more about Workspace ONE App Express?

A. Customers can visit the Workspace ONE App Express product page to learn more about this new service and sign up to participate in our beta program.
