

SAFE USE AND OPERATION OF DEVICE (WIRELESS HANDHELD PHONE)

Read this information before using your device.

Your device is a low power radio transmitter and receiver. When it is ON, it receives and also sends out radiofrequency (RF) signals.

FCC RF EXPOSURE INFORMATION

In August 1996, the Federal Communications Commission (FCC) of the United States, with its action in Report and Order FCC 96-326, adopted an updated safety standard for human exposure to radiofrequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this device complies with the FCC guidelines and these international standards.

Use only the supplied or an approved antenna. Unauthorized antennas, damaged antennas, modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations. Please contact your local dealer for replacement antenna.

Body-worn Operation

This device was tested with the BC-2032 belt clip and LB-2032 softcase, offered by Audiovox, as an accessory to this device and was found to comply with the FCC exposure requirements. Other third-party belt clip and softcase or holsters have not been tested with this device and therefore their compliance with the FCC RF exposure limits cannot be confirmed.

When operating this device, a minimum separation distance of 1 inch (2.5 cm) must be maintained between the user's body and the device, including its antenna, to comply with the FCC exposure limits.

This particular device has not been designed for held-to-ear use and should never be used against the ear. It is designed to be used in a belt clip with an earphone microphone or as a speakerphone.

For more information about RF exposure, please visit the FCC website at www.fcc.gov.

PHONE OPERATION

When speaking into the Microphone or the Earphone Microphone, a minimum separation distance of 1 inch (2.5 cm) must be maintained between the user's face and the device, including its antenna, to comply with the FCC exposure limits.

This particular device has not been designed for held-to-ear use and should never be used against the ear.

In front of your face, hold the device keeping distance from your body. or, In front of your face, hold the device wearing the earpiece keeping distance from your body.
