- Supports over-current protection at USB host port

### DX-U27H41

### DX-U34H41

## Installing your hub

**Note:** When you connect your hub to a computer, the computer detects your hub and automatically installs the driver.

- 1 Connect the smaller end of the USB cable to the upstream port on the rear of the hub, then connect the larger end of the USB cable to an open USB port on your computer.

- 2 Plug the AC power adapter into your hub's DC jack and into a power outlet.
- 3 Connect your USB devices into your hub.

**Note:** Do not disconnect from your computer or USB device during data transfer. Doing so may corrupt your data or damage your devices.
