Important Safety Instructions

Important safeguards for you and your new product

Always be careful when using your LCD TV. To reduce the risk of fire, electrical shock, and other injuries, keep these safety precautions in mind when installing, using, and maintaining your machine.

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this apparatus near water.
- 6) Clean only with a dry cloth.
- Do not block any of the ventilation openings. Install in accordance with the manufacturer's instructions.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9) Do not defeat the safety purpose of the polarized or grounding type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use the attachments/accessories specified by the manufacturer.
- 12) Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 13) Unplug this apparatus during lightning storms or when unused for long periods of time.

Important Safety Instructions

- 14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus

CAUTION

RISK OF ELECTRIC SHOCK DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This symbol indicates high voltage is present inside. It is dangerous to make any kind of contact with any inside part of this product.

This symbol alerts you that important literature concerning operation and maintenance has been included with this product.

NOTE TO CABLE/TV INSTALLER:

This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electric Code (U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of the cable entry as practical.

Important Safety Instructions

WARNING

TO PREVENT DAMAGE WHICH MAY RESULT IN FIRE OR ELECTRIC SHOCK HAZARD, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

Caution:

- These servicing instructions are for use by qualified service personnel only.

 To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.
- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Important:

One Federal Court has held that unauthorized recording of copyrighted TV programs is an infringement of U.S. copyright laws.

Certain Canadian programs may also be copyrighted and any unauthorized recording in whole or in part may be in violation of these rights.

REGULATORY INFORMATION:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

What is LCD TV?

What is LCD TV?

LCD (Liquid Crystal Display) is a next generation flat-panel display module. Liquid crystal material is contained between sheets of glass and electricity causes the liquid crystal material to reflect or block the light emitted from a light source inside the display chassis.

By incorporating this LCD display module, LCD TVs enable you to enjoy outstanding picture quality without the worries of space limitation and harmful radiation you may have experienced with conventional CRT TVs.

Features

- Picture-in-Picture : Enables you to simultaneously display two different image sources.
- PC Compatible Monitor: Enables you to connect PC (D-Sub, DVI) input for displaying high-resolution SXGA (1280x1024, 60Hz) PC images.
- HDTV-Ready Display: Enables you to view high-definition digital pictures using a DVD player or HDTV set-top receiver.
- Various Picture/ Sound Controls: Enables you to set the picture and sound settings for a number of different types of programs and viewing and listening conditions.
- Auto Power On/Off Timer: Enables you to set the TV to automatically turn ON or OFF at a preset time.
- Auto Channel Search : Enables you to set the TV to search for all available standard broadcast and cable TV channels and store them automatically.

Mounting on a Wall

Your LCD TV can be mounted on a wall as shown in the figure above.

Installation Precautions

Wall Mounting

Please secure enough space for safe use. (Please refer to A and B.)
Installation of the LCD TV in an improperly ventilated location can cause a fire or damage to the LCD TV due to increased temperature.

A (Mounting on a wall)

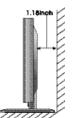

Contact your dealer to purchase the "Adjustable-angle wall mount" required for wall-mounted installation.

Using the Stand

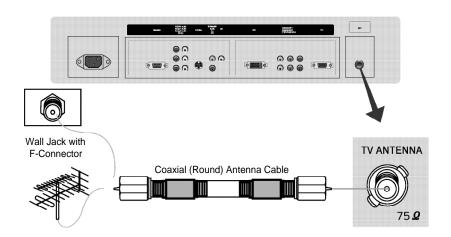

Do not install on an unstable location with support area smaller than the LCD TV.

B (Using the Stand)

Installing an Antenna

Connecting an Outdoor Antenna

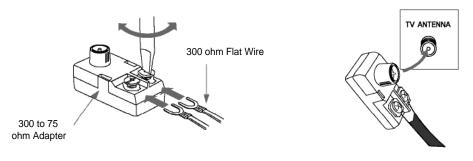

For the best reception, we recommend you use an outdoor antenna.

Severely weathered antennas and antenna cables can reduce the signal quality.

Before making any onnections, inspect all antenna hardware. Any service center can explain the various outdoor antennas vailable to you.

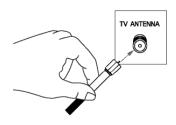

300 Ohm Flat Wire

Connect the 300 ohm flat wire to the screws on the 300 ohm to 75 ohm adapter. Push the end of 300 ohm to 75 ohm adapter onto the 75 ohm antenna jack.

75 Ohm Coaxial Cable

Connect the 75 ohm coaxial cable directly to the 75 ohm antenna jack.

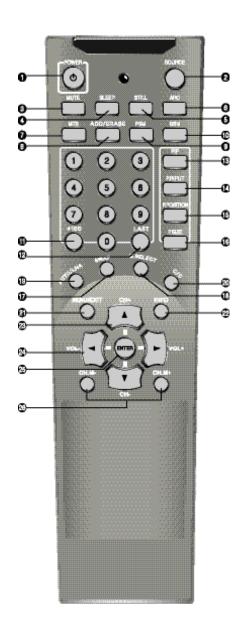

Remote Controller

Functions of remote control buttons

The remote control is using Infra-Red (IR). Point it towards the front of the LCD TV. The remote control may not work correctly if it is operated out of range or out of angle.

- 1. POWER: TURNS THE TV ON AND OFF(page.20)
- 2. SOURCE: USE TO SELECT AN INPUT SOURCE (page.23)
- 3. MUTE: PRESS TO TEMPORARILY CUT OFF THE SOUND (page.21)
- SLEEP: PRESS TO SELECT A TIME FOR THE TV TO TURN OFF AUTOMATICALLY (page.39)
- 5. STILL: PRESS TO STOP THE ACTION DURING A PARTICULAR SCENE (page.21)
- 6. ARC (Aspect Ratio Control) : PRESS TO CHANGE THE SCREEN SIZE (page.28)
- 7. MTS (Multi-Television Sound): PRESS TO SELECT MONO OR STEREO MODE (page.36)
- 8. ADD/ ERASE: PRESS TO ADD OR ERASE CHANNELS
 IN THE TV'S MEMORY (page.23)
- 9. PSM: PICTURE STATUS MEMORY KEY (page.24) (CUSTOM, DYNAMIC, STANDARD, MOVIE, MILD)

- 24. , (VOL-, VOL+): PRESS TO INCREASE OR DECREASE THE VOLUME OR MENU CONTROL KEY
- 25. ENTER: SAVE THE VALUE
- 26. CH.M-, CH.M+: PRESS TO CHANGE THE ONE BY ONE CHANNEL

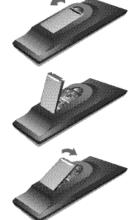

Precautions

Avoiding Remote Control Problems

- 1. Check the polarity (+,-) of the batteries in the remote controller.
- 2. Check that the batteries have power.
- 3. Check that the LCD TV is powered and that it is properly plugged in.
- 4. Check if any three-wavelength lamp, special fluorescent or neon sign is turned on near the LCD TV.

Inserting Batteries in the Remote Controller

- 1. Open the cover out completely.
- Insert the two supplied batteries (AAA, 1.5V). Ensure that the polarities (+ and -) of the batteries are aligned correctly.
- 3. Replace the cover.

⚠ CAUTION :

Risk of explosion if battery is replaced by an incorrect type.

Dispose of used batteries according to the national code (Recycling program).

How to use remote controller

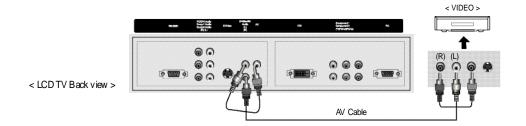

- The remote control should be operated within 23feet (7m) and 30° to the left and the right of the IR receiver on the front of the LCD TV.
- · Used batteries should be disposed properly.

VCR Connections

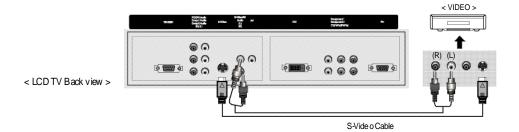

Connecting to the AV terminal

Connection terminals of other appliances differ by manufacturer and model.

Connect the LCD TV's AV In terminal to the VCR's AV Out terminal using the AV cable.
 (Make sure the color of the terminals and the color of cable are the same)

Connecting to the S-Video terminal

Use the S-Video cable for higher picture quality.

Playing the VCR

1. Turn on the LCD TV and press

on the remote controller.

2. Use

to move to "AV".

- · If S-Video has been connected, select "S-Video".
- 3. Turn on the VCR, insert the tape and press play button.

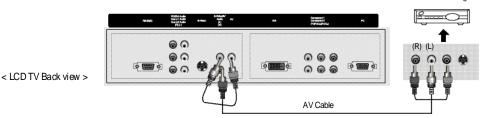

Cable TV Connections

าร 🧻

Connecting to the AV terminal

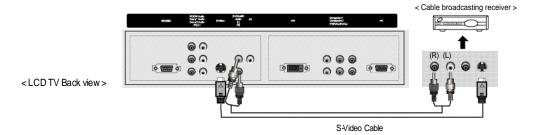

In order to watch Cable TV, Subscribe to your local Cable TV company and install a separate converter(Set-Top-Box) Connection terminals of other appliances differ by manufacturer and model.

< Cable broadcasting receiver >

· Connect the LCD TV's AV In terminal to the cable broadcasting receiver AV Out terminal using the AV cable. (Make sure the color of the terminals and the color of cable are the same)

Connecting to S-Video terminal

Use the S-Video cable for higher picture quality.

Viewing Cable TV

1. Turn on the LCD TV and press

on the remote controller.

2. Use

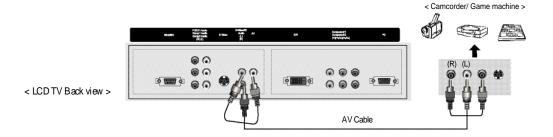

to move to "AV".

- · If S-Video has been connected, select "S-Video".
- 3. Turn on the cable broadcasting receive and select the channel you wish to view.

Camcorder/Game Console Connections

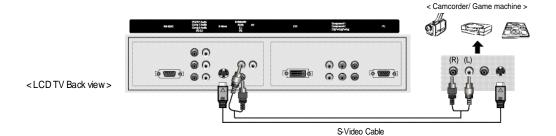

Connecting to the AV terminal

Connection terminals of other appliances differ by manufacturer and model.

· Connect the LCD TV's AV In terminal to the camcorder/game console's AV Out terminal with the AV cable. (Make sure the color of the terminals and the color of cable are the same)

Connecting to S-Video terminal

S-Video cable can be used if there is an S-Video terminal.

Using Camcorder/Game Console

1. Turn on the LCD TV and press

on the remote controller.

2. Use

to move to "AV".

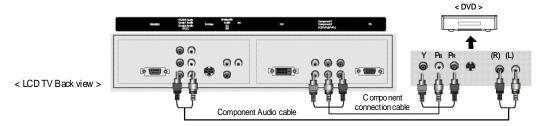

3. Turn on the Camcorder or video game and Set to Video mode.

- If S-Video has been connected, select "S-Video".
- (Please refer to the User's manual of Camcorder/ Video game for more information)
- (Floade Fold to the Cool of Manager Carnot dell' Video game for More Million at the
- 4. Insert tape into Camcorder and press play button or insert disc into the Video game console.

DVD Connections

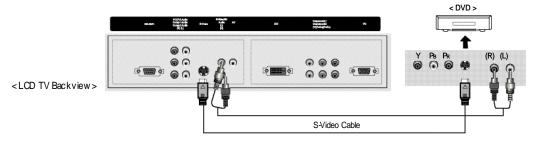

Connection terminals of other appliances differ by manufacturer and model.

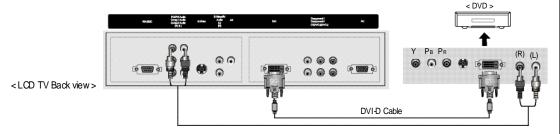

- 1. Connect LCD TV's Y, PB, PR terminal in Component 1 or 2 to DVD's Video Out terminal using the external cable.
- 2. Connect LCD TV's Audio terminals (left & right) in Component 1 or 2 to DVD's Audio Out terminal using the Audio cable.

Connecting to the S-Video terminal

S-Video cable can be used if there is an S-Video terminal.

Connecting to the DVI-D terminal

Playing the DVD

on the remote controller.

2. Use

to move to "Component1" or "Component2".

- · If S-Video has been connected, select "S-Video".
- 3. Turn on the DVD, insert the DVD and press Play button.

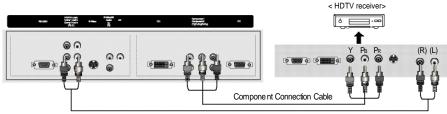

HDTV Connections

Connecting to the component terminal

Connection terminals of other appliances differ by manufacturer and model.

< LCD TV Back view >

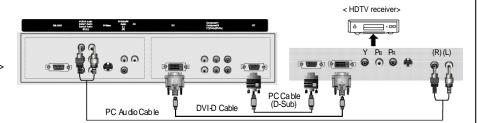

Component Audio Cable

- 1. Connect LCD TV's Y, P_B, P_R terminal in Component 1 or 2 to HDTV receiver's Video Out terminal using the external cable.
- Connect LCD TV's Audio terminals (left & right) in Component 1 or 2 to HDTV receiver's Audio Out terminal using the Audio cable.
- 3. It musts agree Component's number of Y, P_B , P_R terminal and Audio terminal.

HDTV receiver's output terminal can be marked Y, PB, PR or Y, CB, CR according to products.

Connecting to the PC/ DVI terminal

< LCD TV Back view >

- · Some of HDTV receiver(Set-Top-Box) have an PC Connector (D-Sub 15pin) DVI connector instead of Component output .
- · Connect Audio Cable from the Audio output terminal of receiver to the PC Audio input terminal of the LCD TV.

Viewing HDTV

on the remote controller.

2. Use

to move to "Component1" or "Component2".

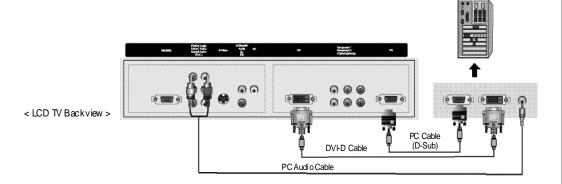

- · If D-Sub 15 Pin terminal has been connected, select "PC".
- · If DVI-D has been connected, select "DVI".
- 3. Turn on the HDTV receiver and select the channel that you want.

PC Connections

< PC >

Connecting to the PC /DVI terminal

Connection terminals of other appliances differ by manufacturer and model.

- · Connect LCD TV's PC Input terminal to PC's D-Sub terminal using the D-Sub cable.
- · Connect LCD TV's PC Audio terminal to PC's Audio terminal using the Audio cable. (Only possible for PC's with Audio terminal)
- \cdot If there is a DVI-D terminal in your PC, use the DVI-D cable connection.

How to Use as PC

1. Turn on the LCD TV and press

on the remote controller.

2. Use

to move to "PC".

If DVI-D has been connected, select "DVI"

3. Set the PC video output mode to VGA (640×480) / SVGA (800×600) / XGA (1024×768) , SXGA $(1280 \times 1024, 60Hz)$. In the mode higher than SXGA $(1280 \times 1024, 60Hz)$ "Out of Range" message appears. Be sure to change your PC video format to less than SXGA mode.

Powering the LCD TV

Power on/ off

- · To turn the LCD TV on :
 - Press the "Main Power" button of LCD TV and then press the "Standby" button.
- · To turn the LCD TV off:

Press "Standby" button on the LCD TV and then press the "Main Power" button. Turning the main power switch off will save energy. It is the same as unplugging the power cord. If ON Time setting is set, the main power should be ON.

To turn on/off by remote controller:
 Press the Power button of remote controller (If the LCD TV is not turned on, check that the "Main Power" button on the LCD TV main body is turned on. The main power indicator will light up red if turned on).

After turning off the main Power, please wait at least more than 3 seconds to turn the main power back on.

Initial Settings

· When the brand new television set it turned on for the first time, following settings can be set using the plug and play function of the TV.

Using the menu

Press the "Main Power" button of LCD TV and then press the "Standby" button.

You will see the Tuner Mode selection menu.

- · Warm2: This results in a more reddish tone.

Do not use other functions that are mentioned on this user's manual. It will be main reason of a faulty and motion error.

In case a problem occurs with your LCD TV, please take the following steps first.

If you still have the problem, turn the power off and contact your dealer or an authorized service center.

Screen related Matters

Problem	Action
The screen does not appear.	Is the power plug pulled out? Insert the power plug. Turn the main power button on and press the power button of the remote controller.
The screen appears too slowly after the power is turned on.	This problem occurs for a brief time in the process of image elimination processing in order to hide temporary screen noise that occurs when the power is turned on. But if the screen does not come after 1 minute has passed, contact your dealer or an authorized service center.
Screen is too bright or too dark.	Perform brightness adjustment or contrast adjustment. (Please refer to page 24)
Screen is too large or too small.	Adjust the screen size. (Please refer to page 28)
Stripes appear on the screen and it shakes.	Stop using wireless telephones, hair driers and electric drills.
Simultaneous Screen does not appear.	Check that LCD TV and external equipment are connected. Check the inputs of simultaneous screen by pressing sub-screen selection.
The screen does not move.	Press the "STILL" button. (Please refer to page 21) Check if the Pause button is pressed on external equipment
Computer In put Screen is abnormal.	Perform manual fine adjustment (Please refer to page 40).
Automatic Turn On does not work.	Automatic Turn on function works only when turning the LCD TV off with the remote controller or standby button.
The screen does not appear on AV source.	Check that S-Video source is connected. If AV and S-Video are simultaneosely connected, you can't select AV source.

Sound related Matters

Problem	Action
Screen appears, Voice is not heard	1. Press the "MUTE"button. (page 21) 2. Increase the sound by pressing volume adjustment button. 3. Check if voice terminal of external input is connected properly. 4. Check if audio cables are connected properly. 5. If it is on PIP mode, convert audio of main screen and subscreen by pressing "S.SELECT". 6. Select and check the other input. If the sound still does not work and the other channels are the same after you have done as the above, contact your dealer or an authorized service center.
Lots of noise (static) occurs.	When connecting a Set-Top-Box, check that it is on stereo broadcasting If it is, the TV program may not be available or the reception may be bad. Check the audio source with another player. If that source is good, contact your dealer or an Authorized service center.

Trouble shooting Tips

Others

Problem	Action
Remote controller does not work.	Check if main power is on. Check that the batteries of the remote controller were loaded properly.
	Check to see if any obstacle exists between the LCD TV and the remote controller and remove it, if any.
	If the batteries have no power, replace them with two new batteries.
LCD TV makes strange noise.	It is the noise when the mechanism expands or contracts from to changes to the environment due to factors such as humidity, temperature, etc. It is not a failure.
LCD TV indication lamp is on.	The red means the Stand-by power is on. It will take a few seconds to turn off as the main power is off.
Had forgotten Password of V-Chip	Press , , , buttons on the Remotecontrol in V-Chip function.
Can not select PC mode when D-sub cable is connected to the RGB output of Set-top-box.	D-sub cable must not meet VESA standard. (D-sub No. 10 pin must be grounded) Component cable can be used if there is an Component terminal.(See Page 18)

This LCD TV is for household use and registered as suitable on electromagnetic waves. Therefore, you can use it in every location as well as residential areas.
