

Bluetooth PCI-E WiFi Card
USER MANUAL

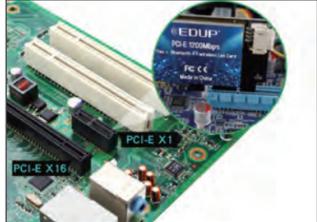

We're so glad you've purchased our Bluetooth PCIe WiFi Card, please install the the adapter driver and Bluetooth driver before using. The installing instruction as below.

1. Hardware Installation

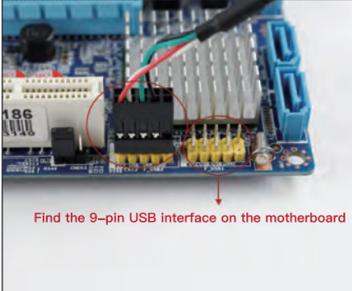

①. Open the side cover of the chassis and remove the chassis tailgate screws of the PCI-E card slot.

②. Insert the product into the corresponding card slot tightly, and either PCI-E/X1/X4/X8/X16 slots are available.

③. Find the 9-pin USB interface on the motherboard, insert the external wiring of the PCI-E card into the USB interface of the motherboard, and install the screws to secure the bracket.

2. How to install the PCI-E card driver?

01. Please install the driver from the included mini CD or download the EP-9620 driver from our official website.

02. Open the "WiFi" folder, and find the corresponding system driver to install. (Take the following Windows 7 64-bit OS installation as an example).

 → 

03. Please accept the terms of the End User License Agreement, click "Install" to start.

04. A processing bar of driver installation will show up as below.

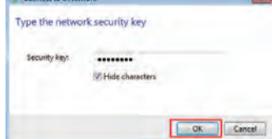

3. How to connect the PCI-E card to Wi-Fi?

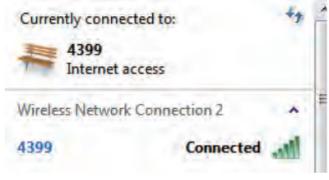

01. Open the Internet icon  at the lower right corner of the computer.

02. Searching and connecting the Wi-Fi you preferred on the detected Wi-Fi list.

03. Enter the Wi-Fi password to connect.

04. Finally you are connected to the Wi-Fi.

4. How to install the Bluetooth driver?

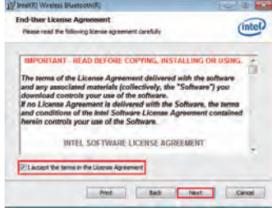

01. Open the "Bluetooth" folder, and find the corresponding system driver to install. (Take the following Windows 7 64-bit OS installation as an example).

 → 

02. Double click the file to running, and click the "Next" button twice.

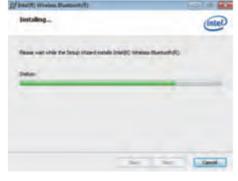

03. Please accept the terms of the agreement, then click the "Next" button.

04. Select the installation file path and save it in the local disk C by default. If you want to change another disk, please select "Change" button. Then click "Next".

05. The following process bar of Bluetooth driver installation will show up.

06. Click the "Finish" button when the Bluetooth driver can install successfully.

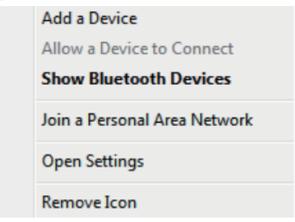

5. How to connect the Bluetooth Earphones with the adapter?

01. Find the Bluetooth icon  in the lower right corner of the desktop.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Operations in the 5.15-5.25GHz band are restricted to indoor usage only.
