■ User Guide

● Charge the Earbuds

- You may hear a warning tone when at low battery level, please charge the earbuds.
- Charging: place the earbuds in the charging case

Charging time: about 1 hour for a full charging

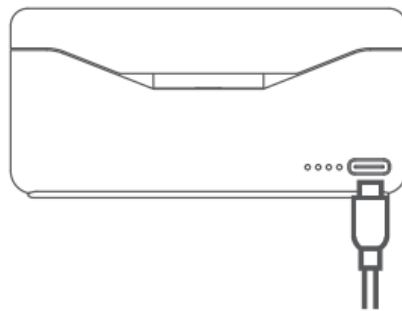

Indicator light flashing in a breathe pattern=charging Indicator light off=fully charged

● Charge the Charging Case

Every time when the charging case is opened, if only one indicator light on its bottom flashes, it indicates the charging case has low battery capacity, please charge in time.

Four indicator lights gradually flashing = charging

Indicator light steady lit = fully charged

Rated input: 5V==100mA(earbuds)

5V==1A(charging case)

Warning: The rechargeable batteries that provide power for this product must be disposed properly for recycling. Do not dispose of batteries in fire to prevent an explosion.

If not used for long periods of time, please charge the product with lithium battery at least once per three months.

- **Power ON/OFF**

- Power on automatically when taken out from the charging case;
- Power off automatically while placed in the charging case, or press and hold the multi-function button for approx. 5 seconds to turn off.

- **Bluetooth Connection**

- Take the earbuds out of the charging case, and press and hold the multi-function button for approx. 2 seconds to enter pairing state, the red and blue lights flash rapidly;
- Set your mobile phone to search and connect to “EDIFIER TWS NB”, after pairing is successful, the indicator light will flash slowly;
- Please feel free to use one earbud only or two earbuds together.

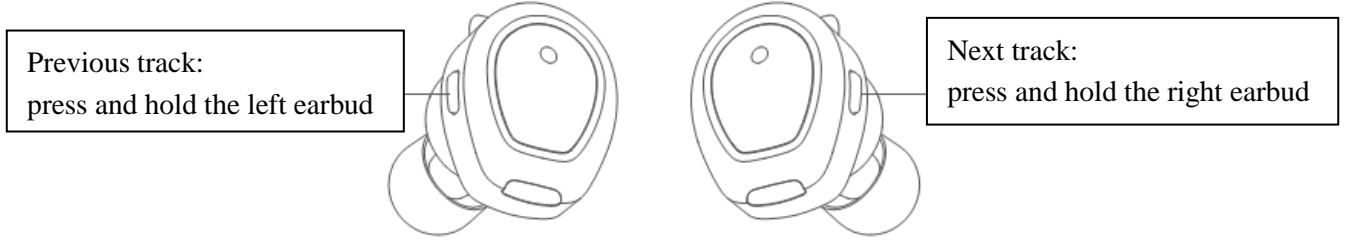

- **TWS (true wireless stereo) Pairing of the Left and Right Earbuds**

The left and right earbuds have finished TWS pairing before leaving factory. If the wireless connection fails to resume, please follow the steps below to re-pair:

- when in standby and without Bluetooth connection, triple press the pairing button to enter TWS pairing state, the blue light flashes rapidly;
- After pairing is done, blue lights of two earbuds flash slowly.
