

# Special Considerations

## 150N Wireless LAN 3G Portable Router

(With Rechargeable Li-Battery)

**This product has an internal antenna and should be operated in its normal-use position to ensure the radiative performance and safety of the interference.**

**As with other mobile radio transmitting equipment, users are advised that for satisfactory operation of the equipment and for the safety of personnel, the equipment, including any attached USB transmitter, should be setup to operate at locations that can provide at least 5cm separation from users and by-standers during normal operation to comply with FCC RF exposure requirements.**
