

Electrolux Handling System

Pre-wash tables R>L for rack type

Some Electrolux dishwasher models can perform to their full potential, if combined with the Electrolux Handling System range. The modular system allows to design ergonomic and reliable solutions to handle, transport and sort kitchenware, obtaining the most effective flow in the dishwashing room. The Basic range has been specifically designed to create an ergonomic and efficient small dishwashing area to satisfy specific capacity and space requirements. The range consists of loading and unloading tables, prewash tables and sorting units.

865322

EASY TO INSTALL

- The tables are supplied knocked-down and are easy to assemble.
- As standard, the tables are to be secured to the dishwasher and fitted with one pair of legs at the other end.
- The stainless steel feet can be adjusted ± 50 mm to ensure that the tables drain back into the dishwasher.

EASY TO USE

- All models incorporate an overflow siphon.
- Model 865324 is equipped with a scraping hole.

- 700x500x300mm bowl is available upon request.
- Splashback included on all tables.
- Designed for 500x500 mm dishwashing racks.
- Can be equipped with useful accessories such as plain undershelves and pre-rinse units.

EASY TO CLEAN

- The deep anti-drip profiles are completely folded with a lower edge for safe and easy cleaning.
- All surfaces are smooth with a polished finish.

EASY TO MAINTAIN

- Constructed in AISI 304 stainless steel.
- Square 40x40 mm tubular legs in AISI 304 stainless steel.

EASY ON THE ENVIRONMENT

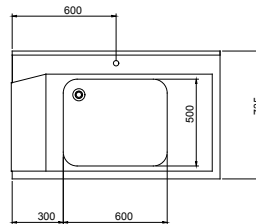

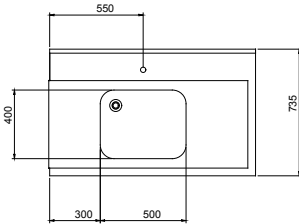

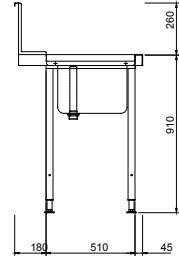

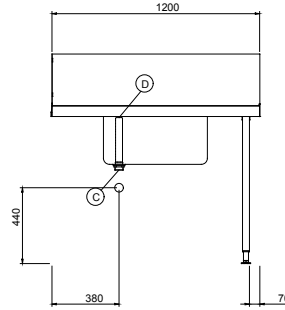

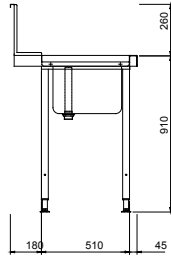

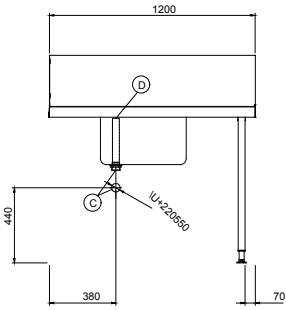

- 98% recyclable by weight.
- CFC free packaging.
- Developed and produced in ISO 9001 certified factory.
