

## Honeywell American Meter

### AC-250 RMD USB Dongle

The Honeywell-American Meter AC-250 is the industry's most cost-effective gas meter for residential and small commercial applications. It is unequalled for accuracy retention and for life cycle maintenance economies.

The USB Dongle, used in conjunction with the AC-250 Remote Meter Disconnect (RMD), allows the gas utility to increase productivity in managing safety, revenues, and costs while enhancing customer service, without the need to purchase expensive equipment.

The USB Dongle will connect to existing utility PCs that run Windows Operating Systems. Along with the Honeywell Remote Meter Interface (RMI) software, the utility can communicate with any AC-250 RMD meter with minimal capital investment.

### **SPECIFICATIONS**

**Communication:** 900 MHz ISM Band

**Communication Range:** 950 feet  
(line of sight)

**Data Security:** AES-128 encryption

**Operation Temperature:** 20°F to 140°F

**Size:** 5 1/2" L x 2" W x 1" D

**Weight:** .25 lbs

**Cable (included):** USB A to USB B

### **FEATURES & BENEFITS**

- Compact device, suitable for portable or fixed applications
- Standard USB port reduces the need for proprietary cables
- Built-in encryption ensures communications are secure

# AC-250 RMD USB Dongle Technical Specifications

## User Information (Part 15.105)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

If you experience trouble with this equipment, please contact Customer Services at Honeywell American Meter. Do not attempt to repair this equipment yourself unless you are replacing the entire module.

## Compliance Statement (Part 15.19):

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference, and
- 2) This device must accept any interference received, including interference that may cause undesired operation.

## Warning (Part 15.21):

Changes or modifications not expressly approved by Honeywell could void the user's authority to operate the equipment.
