Notes for Settings & Preferences

For descriptions of features and functions visit EscortRadar.com and download the PASSPORT S55 Owner's Manual.

Restoring the Factory Default Settings:

To restore PASSPORT S55 to its original factory settings, press and hold **BRT** and **VOL** while powering on detector. **RESET** message will display, acknowledging the reset.

Service Procedure

If your S55 ever needs service, call us at **1-800-543-1608**. We may be able to solve your problem over the phone. If the problem requires that you send your S55 to the factory for repair, we will provide you with a Service Order Number, which must be included on the outside of your shipping box.

Enclose the following information with your S55 and power cord:

- Your Service Order Number
- Your name and return address
- Your daytime telephone number
- A description of the problem you are experiencing

Quick Reference

Congratulations

PASSPORT
S55

You've purchased the **all-new PASSPORT S55** which is one of the most advanced high-performance radar and laser detector on the market. The PASSPORT S55 provides long-range warning on all radar bands and laser bands.

Our patented Digital Signal Processing (DSP) provides extreme radar range with minimal false alarms. Patented Mute and AutoMute circuits keep the PASSPORT S55 quiet in even the most populated areas.

Go to EscortRadar.com for the full featured PASSPORT S55 Owner's Manual.

Guía de Referencia Rápida Española traducida y manual con todas las funciones también son disponibles a www.EscortRadar.com

PASSPORT S55 Features

The PASSPORT S55 introduces the following state-of-the-art performance and features:

- Long-range K and Ka-band radar performance, including instant-on POP mode.
- Exclusive AutoSensitivity intelligently filters out annoying false alarms, plus Highway, Auto, and Auto No X settings.
- Exclusive ExpertMeter tracks and displays up to 4 radar signals simultaneously.
- Exclusive SpecDisplay provides actual numeric frequency for any radar signal and alert bar.
- Plus, it's compatible with ESCORT Live, our exclusive real-time ticket-protection network, which warns you of upcoming alerts received and reported by other users in the area, and gives you access to local speed limit data for over-speed alerts.*

*Requires Optional SmartCord Live and app subscription.

**ESCORT
Live!**

Installation

Windshield Mount

PASSPORT S55's EasyMount windshield bracket is designed for unobtrusive and hassle-free mounting.

Mounting Tips:

- Center of windshield between driver and passenger.
- Ensure clear view of road ahead.
- Avoid windshield wipers and heavily tinted areas.

PASSPORT S55 Mounting Location

WARNING: ESCORT cannot anticipate the many ways PASSPORT S55 can be mounted. It is important that you mount PASSPORT S55 where it will not impair your view nor present a hazard in case of an accident.

For optimum detection performance, we recommend the following:

- Using the Windshield Mount, mount your PASSPORT S55 level, and high enough on your front windshield to provide a clear view of the road from the front and rear.

- Mount PASSPORT S55 away from windshield wipers, other solid objects, and heavily tinted areas that might obstruct the radar antenna or laser lens.

1 Depress the adjustment/release button on the top of PASSPORT S55 (by the logo S55) and slide the EasyMount Bracket into the slot until it is locked into the position which best fits the angle of your windshield (there are four settings available). For extremely horizontal or extremely sloped windshields, the EasyMount Bracket can be bent.

To ensure that the suction cups adhere to the windshield firmly, be sure to keep both your windshield and the suction cups clean.

2 To adjust the PASSPORT S55 on your windshield, use the EasyMount adjustment button located on the top of the PASSPORT S55, and slide PASSPORT S55 forward or backward to obtain a level position.

When installed and adjusted properly, the back top edge of the PASSPORT S55 should rest solidly against your windshield.

User's Tip: You can leave the EasyMount bracket in place on your windshield, and easily remove PASSPORT S55 by pressing the adjustment button and sliding PASSPORT S55 off the mount. Again, be sure to position the bracket where it won't present a hazard in the event of an accident.

Additional mounts are available at EscortRadar.com

Controls & Features

Using PASSPORT S55

- 1** Plug small end of SmartCord into modular jack on PASSPORT S55 and large end of SmartCord into your car's lighter/accessory socket.
- 2** PASSPORT S55 should power on automatically. If not, press the device's power button. 

NOTE: You can easily access and customize all of your Settings and Preferences by pressing and holding the VOL and BRT buttons. See Settings & Preferences for details.
