

Congratulations and Important Warning

Congratulations

Your new Passport SR7 is the most advanced custom-installed radar/laser detector available.

The Passport SR7 includes long-range X, K, and SuperWide Ka radar capability, improved Digital Signal Processing for superior range and reduced false alarms, our patented Mute and AutoMute, audible and visual band alerts, and all the performance you'd expect from Escort.

In addition, your new Passport SR7 introduces a new level of Radar/Laser defense including:

- Supercharged radar performance, for superior K, and Ka-band sensitivity
- Advanced EZ-Programming lets you instantly set up to 9 customized features
- Exclusive AutoSensitivity™ mode drastically reduces false alarms, plus Highway and City settings
- Ultra-bright alphanumeric display uses 280 LEDs for crystal clear information
- Exclusive ExpertMeter™ tracks and displays up to 8 radar signals
- New SpecDisplay provides numeric frequency for any radar signal
- Detects and decodes up to 64 Safety Warning Systems signals
- Exclusive vertical display option provides maximum installation flexibility
- Standard remote mute button provides one-touch mute, and volume adjustment
- Optional Laser Shifter™ ZR3 compatible

If you've used a radar detector before, a review of the Quick Reference Guide on page 4, and the EZ-Programming information on pages 10 and 11 will briefly explain the new features.

If this is your first detector, please read the manual in detail to get the most out of your new Passport's performance and features.

Please drive safely.

IMPORTANT INSTALLATION WARNING

Your new Passport must be installed by a professional. Car Audio specialists and many car dealers can install Passport for you.

Attempting to install the Passport SR7 without expertise in automotive electronic installations can cause personal injury during the installation, or can damage your Passport or your vehicle. If your vehicle is damaged during installation, its safety systems may be compromised, which could cause personal injury or property damage.

FCC Note:

Modifications not expressly approved by the manufacturer could void the user's FCC granted authority to operate the equipment.

Passport SR7 Quick Reference Card

There are 9 user-selectable options so you can customize your Passport SR7 for your own preferences.

The buttons labeled CITY and MUTE are also used to enter the Program Mode, REVIEW your current program settings, and to CHANGE any settings as desired. The words PROGRAM, REVIEW, and CHANGE are located on the front of the display, and are highlighted in gold graphics.

How to use EZ-Programming

1 To enter Program Mode, press and hold both buttons down for 2 seconds. (The unit will beep twice, and will display the word "Program".)

2 Then press the REVIEW button to review the current settings. (You can either tap the button to change from item to item, or hold the button to scroll through the items.)

3 Press the CHANGE button to change any setting. (You can either tap the button to change from setting to setting, or hold the button to scroll through all the options.)

4 To leave Program Mode, simply wait 8 seconds without pressing any buttons. (The unit will display Complete, beep 4 times, and return to normal operation.)

Factory Default Settings

To reset Passport to his original factory settings, press and hold the "CITY" and "MUTE" buttons while turning the power on. Passport's display will provide a visual alert, and an audible alert, indicating the reset.

An example, here is how you would turn Passport's AutoMute feature off.

1 Enter the Program Mode by holding both the CITY and MUTE buttons down for 2 seconds. Passport will beep twice and display Program.

2 Press and hold the REVIEW button. Passport will scroll through the categories, starting with Pilot Light (P1 L01), then Praser-on regulator (Pr-On), then Signal strength meter (Sh-Mtr), and then AutoMute (AutoM).

3 Release the REVIEW button when Passport shows the AutoMute item. Next the factory setting is for AutoMute to be ON. Passport will display OFF/ON. (If you accidentally don't release the Review button in time, and Passport goes to the next category, hold the Review button down again, and after Passport scrolls through all categories, it will begin again at the top of the list.)

4 Press the CHANGE button to change from OFF to ON to activate OFF.

5 To complete the Programming, simply wait 8 seconds without pressing any buttons. Passport will display Complete, beep 4 times, and return to normal operation.
