

### **SuperTooth DISCO 3**

The portable Bluetooth A2DP stereo speaker with 2 speakers on the front that you'll be blown away by 12 Watt of high & outstanding quality audio!

## Product Description

The SuperTooth DISCO 3 is a portable wireless stereo speaker able to stream music from any Bluetooth A2DP device, including iPhone, iPad – or even iPod Touch. It is equally compatible with other phones, Computers, and MP3 players that support Bluetooth A2DP.

The SuperTooth DISCO 3 comes with 3.5mm stereo jack cable for the devices that do not support Bluetooth A2DP

## Product Overview

### External Controls

### Back View

## Charging

### ***Charging via Usb Cable***

1. Connect the Usb Cable to the DC 5V Usb Input found at the back of the SuperTooth DISCO 3 then connect the other end of the Usb Cable to your Computer.
2. The Charge Indicator will steady red while charging. When Charge Indicator goes green the charging is complete.

## Turning the SuperTooth DISCO 3 On and Off

**Power On:** Press and hold the On/Off button for 2 seconds. A power on beep heard on speaker.

**Note:** At first time use, turning on the SuperTooth DISCO 3 will automatically go to pairing mode (ready to be pair).

**Power Off:** Press and hold the On/Off button for 3 seconds. A power off beep heard on speaker.

## Pairing the Supertooth Disco 3 with your Bluetooth A2DP phone/device

Pair the SuperTooth DISCO 3 to your phone/device to create the link or audio connection between the two. Pairing should be done at first connection to a phone/device.

**Important:** Make sure that your phone/device supports A2DP\* (Advanced Audio Distribution Profile) and the last paired device is not visible before proceeding.

**Note:** Any other device previously paired with the SuperTooth DISCO 3 must be turned off or its Bluetooth must be disabled before proceeding.

1. From Off, Press and hold the On/Off button for 6 seconds until the Play/Paused button blinks red fast. This indicates that the SuperTooth DISCO 3 is ready to be pair.
2. While the SuperTooth DISCO 3 is in pairing mode, access the Bluetooth menu of your phone/device. Turn on its Bluetooth function then execute a Bluetooth search to find the SuperTooth DISCO 3. (See your phone/device's manual).
3. When the phone/device displays the list of Bluetooth devices, select ST DISCO3.
4. When the phone/device asks for the password/pin code, enter 0000 and press OK.
5. Pairing is successful if the red LED indicator turns off (connected/standby mode).
6. The SuperTooth DISCO 3 is now ready to use with your phone/device.

\* A2DP (Advanced Audio Distribution Profile) is a technology enabling to stream stereo sound from an audio source (phone, COMPUTER or laptop) to a stereo speaker or headset via Bluetooth. To do so both devices must support this profile.

## Using the SuperTooth DISCO 3 with your Bluetooth A2DP phone/device

**IMPORTANT:** The SuperTooth DISCO 3 needs to be “paired” with your phone/device first. Please refer to Pairing the SuperTooth DISCO 3 with your Phone/Device.

### ***Streaming Music from an A2DP Phone/Device***

1. Go to your phone/device’s music player and play a track by pressing “Play” on your player or the Play/paused button on the Disco 3 for 1 second. If the SuperTooth DISCO 3 is connected, the music will be heard directly in the speaker. See your phone/device’s manual if needed.
2. Audio is now on the SuperTooth DISCO 3. At this point, the orange background LED turns steady indicating that phone/device is connected/streaming with the SuperTooth DISCO 3.
3. When connected, you will be able to control the music using the buttons on the SuperTooth DISCO 3 (please refer to SuperTooth DISCO 3 Button Functions for streaming A2DP music).

### ***Reconnecting the SuperTooth Disco 3 with a Bluetooth A2DP phone/device already paired***

When you turn it On, the Disco 3 reconnects automatically with the latest paired device. When you leave the Bluetooth operating range, with the Disco 3 Turned ON, it disconnects. When you come back into the Bluetooth operating range, press Play / Paused Button for 1 second to reconnect the latest paired device. The Disco 3 beeps twice which means it reconnects to the phone.

### **SuperTooth DISCO 3 Button Functions (for Bluetooth connections only)**

The following functions can be controlled using the buttons on the SuperTooth DISCO 3.

To do so, your phone/device must support AVRCP\* (Audio/Video Remote Control Profile), a technology enabling to control functions directly from the SuperTooth DISCO 3.

#### **For streaming A2DP Music**

- ▶ To **play** a track, press the Play/Pause Button on the speaker for 1 second.
- ▶ To **pause** a track, press the Play/Pause Button on the speaker for 1 second.
- ▶ To skip to the **next** track, press the Forward Button on the speaker for 1 second.
- ▶ To skip to the **previous** track, press the Backward Button on the speaker for 1 second.
- ▶ To **fast-forward** a track at a specific point, press and hold the Forward Button on the speaker then release to resume.
- ▶ To **rewind** a track at a specific point, press and hold the Backward Button on the speaker then release to resume.

- ▶ To **increase the volume** level, press the Volume Up Button on the speaker for 1 second or hold the button until reached the desired volume level.
- ▶ To **decrease the volume** level, press the Volume Down Button on the speaker for 1 second or hold the button until reached the desired volume level.

\* Audio/Video Remote Control Profile is a Bluetooth profile that allows Bluetooth devices to control media playback on remote devices.

## **Using the SuperTooth DISCO 3 with a non Bluetooth A2DP Mp3 Player**

You can connect directly an MP3 player via Stereo Line Input situated at the back of the Supertooth Disco 3.

### ***Connecting directly with a non Bluetooth A2DP MP3 player with the SuperTooth DISCO 3***

1. Plug the audio cable into the Stereo Line Input found at the back of the SuperTooth DISCO 3 and the other end to the output of your music player.
2. Press play on your music player to stream music directly to the SuperTooth DISCO 3.
3. Non Bluetooth devices won't support Play / Pause / Previous / Next Commands from the Disco 2. Please use the buttons of your Mp3 player directly.

## **Clear settings or Reset**

### **To clear the pairing settings of the speaker**

Turn the speaker to pairing mode (from off, press and hold the On/Off button for 6 seconds until the red LED indicator blinks fast) then press and hold the Play/Pause button for over 5 seconds until a beep heard. Pairing List is now erased.

### **To hardware reset the speaker**

Press and hold the On/Off button for about 30-35 seconds, then the speaker will turn off. This means that you successfully hardware reset the SuperTooth DISCO 3.

## **SuperTooth DISCO 3 Specifications**

Bluetooth Compliance: Bluetooth version 4.0 specifications

Supported Bluetooth Profiles: A2DP (Advanced Audio Distribution Profile) / Stereo music streaming / AVRCP (Audio/Video Remote Control Profile)  
Operating Range: 10 meters Bluetooth standard  
Frequency: 2.4 GHZ

#### Battery and Power:

- ▶ Music Playing Time (high volume level): 3 to 4 hours
- ▶ Music Playing Time (medium volume): upto 15 hours
- ▶ Stand-by time: upto 2000hours
- ▶ Charging Time: 3 hours
- ▶ Battery Type: Lithium-Ion Power pack battery

#### Audio Features:

- ▶ Dual High efficiency speakers + bass reflex
- ▶ 12 Watt RMS power
- ▶ Compatible with any Bluetooth phone, computer or MP3 player
- ▶ Jack 3.5 auxiliary input for non Bluetooth A2DP MP3 players, iPods or computers
- ▶ Wireless Play/Previous/Next/Pause/Stop/Volume control (AVRCP standard)
- ▶ aptX High quality Bluetooth audio codec

#### Special Features:

- ▶ Low Battery/ Charging indicator
- ▶ Illuminated controls
- ▶ Can charge from the computer USB

#### Size and weight:

- ▶ Height: 180 mm
- ▶ Width: 108 mm
- ▶ Depth: 70 mm
- ▶ Weight: 546 g

Accessories: 3.5 mm stereo jack cable and USB cable

**FCC/IC statements :**

Federal Communications Commission (FCC) Statement

Industry Canada (IC) Statement

15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC/IC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules and Industry Canada licence-exempt RSS standard(s) Operation is subject to the following two conditions :

1)This device may not cause interference and

2)This device must accept any interference, including interference that may cause undesired operation of the device.

**FCC/IC RF Radiation Exposure Statement :**

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

## **Déclarations FCC / IC :**

Commission Federale des Communications (FCC)

Déclaration Industrie Canada (IC)

15,21

Vous êtes averti que les changements modifications non expressément approuvés par la partie responsable de la conformité pourraient annuler l'autorité de l'utilisateur d'exploiter cet équipement.

15.105 (b)

Cet équipement a été testé et jugé conforme aux limites pour un appareil numérique de classe B, conformément à la partie 15 des règles de la FCC / IC. Ces limites sont conçues pour fournir une protection raisonnable contre les interférences nuisibles dans une installation résidentielle. Cet équipement génère, utilise et peut émettre des fréquences radio et, s'il n'est pas installé et utilisé conformément aux instructions, peut causer des interférences nuisibles aux communications radio. Cependant, il n'existe aucune garantie que ces interférences ne se produiront pas dans une installation particulière. Si cet équipement provoque des interférences nuisibles à la réception radio ou télévision, ce qui peut être déterminé en éteignant et rallumant l'équipement, l'utilisateur est encouragé à essayer de corriger l'interférence par une ou plusieurs des mesures suivantes:

- Réorienter ou déplacer l'antenne réceptrice.
- Augmenter distance entre l'équipement et le récepteur.
- Brancher l'équipement dans une sortie sur un circuit différents-de celui sur lequel est branché le récepteur. Consulter le revendeur ou un technicien radio / TV qualifié.

Cet appareil est conforme a la partie 15 des regles FCC et aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'opération est soumise aux deux conditions suivantes:

- 1) Cet appareil ne peut causer d'interférences et
- 2) Cet appareil doit accepter toute interférence, y compris les interférences qui peuvent causer un mauvais fonctionnement de l'appareil.

### **FCC / IC Déclaration d'exposition aux radiations RF:**

Cet équipement est conforme aux normes FCC / IC limites d'exposition aux radiations dans un environnement non contrôlé. Les utilisateurs doivent suivre les instructions de fonctionnement spécifiques de la conformité d'exposition aux RF. Cet émetteur ne doit pas être co-localisés ou fonctionnant en conjonction avec une autre antenne ou transmetteur.

The *Bluetooth*® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Euro-CB is under license. Other trademarks and trade names are those of their respective owners.

## **Français :**

Par la présente, Euro Communication Equipements, représentée par Xavier Marchant, Président Directeur Général, déclare que l'appareil SUPERTOOTH BT3, MODEL BT3, est conforme aux exigences essentielles de la directive 1995/5/EC du Parlement Européen et du Conseil du 9 Mars 1999 concernant les équipements hertziens et les équipements terminaux de télécommunications et la reconnaissance mutuelle de leur conformité.
