### Correct Disposal of This Product (Waste Electrical & Electronic Equipment)

(Applicable in the European Union and other European countries with separate collection systems). This marking shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources. Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal. This product has an embedded, non-replaceable battery, do not attempt to open the product or remove the battery as this may cause injury and damage the product. Please contact the local recycling facility for removal of the battery. The embedded, non-replaceable battery is designed to last the life time of the product.

Hereby, EURO COMMUNICATION EQUIPEMENTS, represented by Michel BOSTVIRONNOIS, CEO, declares that the SUPERTOOTH D5, MODEL BT D5, is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC of the European Parliament and of the Council of 9 March 1999 on radio equipment and telecommunications terminal equipment and the mutual recognition of their conformity.

### SUPERTOOTH D5 - Pairing

1. Put the BT D5 in pairing mode by pressing the MFB Button (1) until a pairing beep is heard on the speaker and the LED Indicator (2) turns red / blue alternately.
2. While the BT D5 is in pairing mode, access the Bluetooth menu of your phone / device. Turn on its Bluetooth function then execute a Bluetooth search to find the BT D5 (See your phone / device's manual).
3. When the phone / device displays the list of Bluetooth devices, select BT D5.
4. If the phone / device asks for the password / pin code, enter 0000 and press OK.
5. Pairing is successful if the LED Indicator (2) blinks blue every 3 seconds.
6. The BT D5 is now ready to use with your phone / device.

Federal Communications Commission (FCC) Statement  
Industry Canada (IC) Statement  
15.21  
You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC/IC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :  
- Reorient or relocate the receiving antenna.  
- Increase the separation between the equipment and receiver.  
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules and Industry Canada licence-exempt RSS standard(s) Operation is subject to the following two conditions :  
1) This device may not cause interference and  
2) This device must accept any interference, including interference that may cause undesired operation of the device.

FCC/IC RF Radiation Exposure Statement :  
This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
