- Gift Box * 1

USER GUIDE (EN)

06/03/19 V01

IMPORTANT NOTES

- Before using B530 wireless earbuds, please charge both case and earbuds;
- While you are trying to connect the earbuds to a new device, make sure the earbuds are not connected with any other devices;
- We provide 3 pairs of ear tips (include one pair installed on the earbuds), please select the best one for different occasions;
- A key to sound quality in any earbud is the FIT of rubber ear tips to the listener. If you don't have a snug fit, you could lose up to 30-75% of the sound quality;
- If the earbuds cut in and out frequently in routine use, it should be a defective item. Feel free to contact us. We would help to solve your issue within 8 hours normally.

How to contact us?

(Don't forget to provide your order number while contacting us):

- us@tranya.com (US, CA, MX)
- eur@tranya.com (Europe)

- support@tranya.com (other markets)

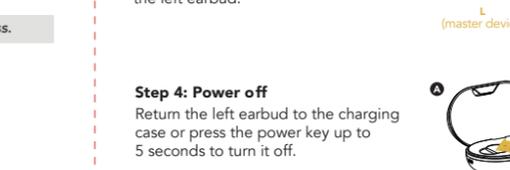

Our website (www.tranya.com) and Facebook ([Tranya](https://www.facebook.com/tranya)) are available now, and you can get the help quickly and some discounts of new products if you **SUBSCRIBE/FOLLOW/LIKE** us.

CONNECT SETTINGS FOR STEREO MODE

Stereo Mode (Dual Mode: The left and right earbuds are as a whole item.)
Follow the tips to connect your earbuds:

Step 1: Power on

The earbuds will power on AUTOMATICALLY when you remove the earbuds from the charging case with a voice prompt of "POWER ON".

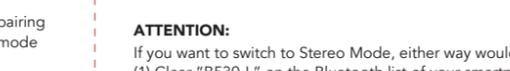

Step 2: Pairing

When both earbuds are on, the left and right earbuds will connect with each other AUTOMATICALLY with a voice prompt of "DU" from each earbud. Once two earbuds are connected, the right earbud (master device) will enter the pairing mode AUTOMATICALLY with a voice prompt of "PAIRING".

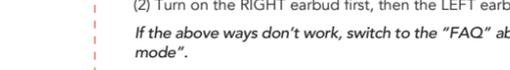

Step 3: Connected

Search and select "B530-R" on your smart phone to finish your settings, with a voice prompt of "CONNECTED" from the right earbud.

Step 4: Power off

Return to the charging case or press the power key on either one of the earbuds up to 5 seconds to turn off the earbuds.

CONNECT SETTINGS FOR MONO MODE

Mono Mode (Single Mode: The left or right earbud is as a separate item.)
Follow the tips to connect only the LEFT earbud:

Step 1: Power off firstly

Press the power key on the left earbud up to 5 seconds to turn it off if it is on when you start setting.

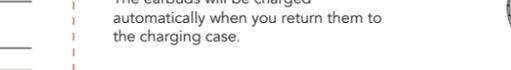

Step 2: Power on and Pairing

Press the power key on the left earbud up to 5 seconds to power on and enter pairing mode with voice prompt of "POWER ON" and "PAIRING" within 20 seconds. (**Don't take your finger away until you hear "PAIRING".**)

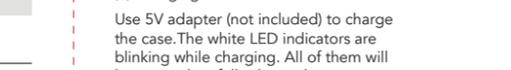

Step 3: Connected

Search and select "B530-L" on your smart phone to finish your settings, with a voice prompt of "CONNECTED" from the left earbud.

Step 4: Power off

Return to the charging case or press the power key on either one of the earbuds up to 5 seconds to turn off the earbuds.

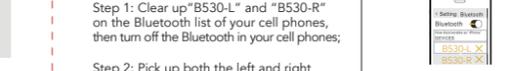

CONNECT SETTINGS FOR MONO MODE

Mono Mode (Single Mode: The left or right earbud is as a separate item.)
Follow the tips to connect only the LEFT earbud:

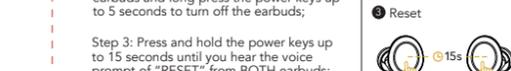

Step 1: Power off firstly

Press the power key on the left earbud up to 5 seconds to turn it off if it is on when you start setting.

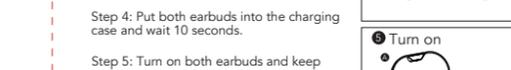

Step 2: Power on and Pairing

Press the power key on the left earbud up to 5 seconds to power on and enter pairing mode with voice prompt of "POWER ON" and "PAIRING" within 20 seconds. (**Don't take your finger away until you hear "PAIRING".**)

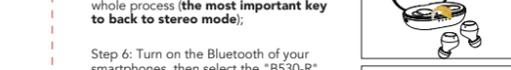

Step 3: Connected

Search and select "B530-L" on your smart phone to finish your settings, with a voice prompt of "CONNECTED" from the left earbud.

Step 4: Power off

Return to the charging case or press the power key on either one of the earbuds up to 5 seconds to turn off the earbuds.

CONNECT SETTINGS FOR MONO MODE

Mono Mode (Single Mode: The left or right earbud is as a separate item.)
Follow the tips to connect only the LEFT earbud:

Step 1: Power off firstly
