4. CAUTION

- 1.No naked flame sources, such as lighted candles, should be placed on the equipment.
- 2.Ventilation holes should not be covered with items such as newspapers, tablecloths and curtains that would prevent ventilation.
- 3.The product should not be placed in a humid environment for a long time or exposed to continuous rain or strong shocks.
- 4.The equipment should not be placed on the vase such as a class of items filled with liquid.
- 5.The battery (battery pack or combination of batteries) should not be exposed to such as sunlight, fire or similar overheating environment.
- 6.If the battery is not replaced properly there is a risk of explosion, only with the same type or equivalent type of battery to replace.
- 7.If debris or liquid accidentally falls into the product, immediately disconnect the power supply and have it inspected by a professional before use.
- 8.Shall not open the back cover to prevent electric shock and other accidents, such as the need for maintenance, should be asked to deal with the company's personnel.
- 9.This product does not come with power adapter sales, consumers who use power adapter power supply, you should buy matching use of CCC certification and meet the standard requirements of the power adapter. The output specification of the adapter is $5V=1A$.
- 10.Do not shake the machine with the silicone belt in your hand.

5. CE DOC

Hereby, SHENZHEN FENDA TECHNOLOGY CO., LTD. declares that the radio equipment type RW10 is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: <https://server-in.fendasmart.com/project/src/speaker/RW10/cedoc/index.html>

Operation frequency(Max power)

Bluetooth: 2400MHz-2483.5MHz (10dBm)

EU regulatory conformance:RF exposure information: The EIRP power of the device at maximal case is below the exempt condition, 20mW specified in EN62479: 2010.

RF exposure assessment has been performed to prove that this unit will not generate the harmful EM emission above the reference level as specified in EC Council Recommendation(1999/519/EC).

6.FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

The power delivered by the charger must be between min 0.5 Watt required by the radio equipment, and max 5 Watts in order to achieve the maximum charging speed.
