FLI CHARGE **FLIqi** Fast charging Qi module

Thank you for purchasing the FLIqi fast charging Qi module. Simply place your Qi-enabled smartphone or wireless device on the FLIqi surface to charge.

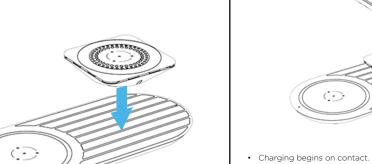

Package content

• (1) FLIqi fast charging Qi module User manual

- The FLIqi provides 10 watts of fast charging power. Place the FLIqi module on any FLI Charge conductive surface to fast charge the latest Apple, Samsung and Android smartphones The FLIqi can also be used as a standalone Qi charger when
- plugged into a wall outlet.
- Compact design for easy portability.

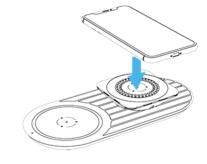

Place the FLIqi fast charging Qi module onto any powered FLI Charge conductive surface ensuring that at least 2 of the pogo pins located on the bottom make contact.

How to Use

How to Use

 Place your Qi-enabled smartphone or wireless device on the FLIqi surface to charge.

How to Use

• If using as a standalone charger, use a USB-C cable with power adapter (both not included) to connect the FLIqi to a

Maintenance and Usage

- Place the FLIqi on any FLI Charge conductive surface making sure at least 2 of the 4 pogo pins make contact. Confirm that the conductive surface is powered on. If using as a standalone charger, the AC wall outlet should be
- located near the FLIqi charging pad and be easily accessible.

 Ensure that dirt or other contaminants are not on the charging pad or underneath the FLIqi. Charging will not occur if proper contact between the FLIqi and the FLI Charge
- conductive surface is not made. Ensure that the Qi-enabled device is resting flat on the charging surface of the FLIqi. Charging will not occur if the device is in a tipped position and not centered on the pad. If you are using a case with your Qi-enabled smartphone, ensure that it is not too thick and is Qi compatible. Otherwise, your phone may not charge.

Troubleshooting Guide

Cause	Solution
The device is not Qi-enabled.	Place only Qi-enabled devices on the Qi charging pad.
Device is not resting properly on the FLIqi charging pad surface.	Ensure the device is laying flat and making good contact with the charging surface. Clean pad surface if necessary.
USB-C cable not firmly plugged into charging pad or AC adapter not plugged into wall socket.	Ensure the AC adapter is plugged into a working outlet and the USB-C plug is firmly inserted into charging pad.
The FLIqi module is not making contact with the FLI Charge conductive surface.	Make sure at least 2 of the 4 pogo pins are making contact with the FLI Charge conductive surface.
Smartphone case is too thick and/or non Qi-compatible.	Replace with thinner and/or Qi-compatible smartphone case.
Device is not resting properly on the FLIqi charging pad surface.	Ensure the device is laying flat and making good contact with the charging surface. Clean pad surface if necessary.
Smartphone case is too thick and/or non Qi-compatible.	Replace with thinner and/or Qi-compatible smartphone case.
Metallic objects such as keys or coins may be on the charging pad.	Remove metal objects and charging will resume normally.
