!!! Attention!!!

- Do not allow minors to use the laser pointer unsupervised. Laser pointers are not toys.
- Avoid direct eye exposure.
- Never shine the laser pointer at anyone. The laser pointer is designed to illustrate inanimate objects.
- Do not point the laser pointer at mirror-like surfaces. A reflected beam can act like a direct beam on the eye.

Introduction :

Presenter is more than an ordinary presenter. Its stylish shape makes it more like an art piece to enhance users' use experiences and enjoyments.

RF wireless technology makes Presenter transmit data up to 60 feet (20 meters). Conveniently placed page up and page down buttons help you page through slides effortlessly.

With its omni-directional feature, you can confidently conduct the business meeting, hold the conference, and instruct the teaching lesson.

Presentation hotkey is convenient to open prepared PPT/PPS/PDF/OPD/ABW file. Laser pointer helps every report to catch audience attention.

Features :

- 1. Innovative design of omni-directional Presenter for performing a perfect presentation
- 2. Simple pairing design
- 3. Presentation hotkey allows you to start the prepared PPT/PPS/PDF/OPD/ABW file conveniently
- 4. Laser pointer with secure design helps you to catch audience attention and uses it safely.
- 5. Working with a value software
- 6. User- friendly interface help user to operate easily.

Package contents :

- Presenter
- USB type RF Dongle
- Value Software CD-ROM
- CR2032 battery x 1
- User's Manaul

System Requirements :

- Microsoft[®] Windows[®] Win2000, XP, Vista.
- 512MB RAM recommended.
- CD-ROM drive or DVD-ROM drive.
- USB Port; PC platform

Mode Feature:

- 11 button Presenter
- Use Cypress wireless solution.
- RX side Conforms to USB Specification Version 2.0
- RX side Conforms to USB HID Specification Version 1.1
- TX side Support one LED for Indication
- RX side Support one LED for Indication
- Support Laser pointer function
- Use DC 3V power operation: CR 2032 \times 1.
- Receiver with USB Port, it's easy to connect with your computer
- RX side supports one Low Speed USB device

Installation and operation :

1. Separate presenter and receiver -

Rotate the presenter and receiver to different direction (as the arrow).

Pull receiver away from presenter.

Separate presenter and receiver.

FEDERAL COMMUNICATIONS COMMISSION INTERFERENCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and
- (2) This device must accept any interference received, including interference that may cause undesired operation.
