

For information about the scientific research related to RF energy exposure, see the EMF Research Database maintained by the World Health Organization at: www.who.int/emf.

Radio Frequency Interference. Radio-frequency emissions from electronic equipment can negatively affect the operation of other electronic equipment, causing them to malfunction. Although nabi is designed, tested, and manufactured to comply with regulations governing radio frequency emission in countries such as the United States, the wireless transmitters and electrical circuits in nabi may cause interference in other electronic equipment. Therefore, please take the following precautions:

Aircraft. Use of nabi may be prohibited while traveling in aircraft.

Vehicles. Radio frequency emissions from nabi may affect electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle.

Pacemakers. Persons with pacemakers should always keep nabi more than 15 cm (6 inches) from the pacemaker when the wireless device is turned on.

Other Medical Devices. If you use any other personal medical device, consult the device manufacturer or your physician to determine if it is adequately shielded from radio frequency emissions from nabi.

Health Care Facilities. Hospitals and health care facilities may use equipment that is particularly sensitive to external radio frequency emissions. Turn nabi off when staff or posted signs instruct you to do so.

If you have any reason to suspect that interference is taking place, turn nabi off immediately (press and hold the Power button, and then select OK in the Power Off window).

FCC Compliance

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device meets the FCC Radio Frequency Emission Guidelines and is certified with the FCC. This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the Federal Communication Commission (FCC) Rules.

These limits are designed to provide reasonable protection against harmful interference in residential installation. This device generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the equipment to an outlet on a circuit different from the one the receiver is connected to.
- Consult an experienced radio/TV technician for help.
- The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. This model (FCC ID: SIB-NABIJR-NV5B) has also been tested against this SAR limited. The highest SAR value reported under this standard during product certification for use at the body is 1.337 W/kg.

To prevent possible hearing damage, do not listen at high volume levels of long periods. Maximum earphone output voltage < 150mV.

This symbol indicates that this product must not be disposed of with your household waste. It is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment.

The separate collection and recycling of your waste equipment will help conserve natural resources and ensure that it is recycled in a manner that protects the environment.

For more information about where you can drop off your waste equipment for recycling, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

CAUTION: risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

Software License Agreement

Use of nabi constitutes acceptance of the Fuhu and third-party software license terms found at: www.nabitablet.com/legal/softwarelic.

Fuhu One (1) Year Limited Warranty

This warranty is extended only to the original end user purchaser, or the person who is receiving the product as a gift with proof of purchase, and shall not be extended to any other person or transferee.

Warranty. Fuhu warranties for one year from the date of sale to the consumer that the nabi is of merchantable quality and that it conforms to applicable specifications. Applicable specifications mean the specification for the Processor, the CPU (Central Processing Unit). The applicable specifications exclude and no warranty is provided for the specifications for any other components or for any performance that can degrade naturally with normal use for one year.

In no event does the limited warranty of the applicable specifications, as defined above, cover failures resulting from improper or unreasonable use or maintenance, failure to follow operating instructions, accidents, excess moisture, insects, lightning, power surges, connections to improper voltage supply, or unauthorized alteration or modification of the product.

If you discover that your nabi is not of merchantable quality and fails to conform to its applicable specifications, as defined above, we will, at our option, refund the purchase price, or repair or replace the product, using new or refurbished components within a reasonable time during the warranty period. The costs of shipping or transporting the product (including to and from Fuhu), any insurance or any import fee duties and taxes are the sole responsibility of the consumer and will be not be covered by this warranty.

Backup. nabi is capable of storing software programs, data and other information. You should protect its contents against possible operational failure. Before shipping your product for warranty service, you must remove all personal information and data that you want to protect and must keep a separate back up copy of your content. THE CONTENTS OF YOUR PRODUCT WILL BE DELETED AND STORAGE MEDIA REFORMATTED IN THE COURSE OF WARRANTY SERVICE.

Obtaining Warranty Service. To obtain warranty service:

- Contact a Fuhu Authorized Service Provider. For service information, please visit: www.nabitablet.com/support.
- Label and ship product with freight prepaid to the address provided by a Fuhu Authorized Service Provider.
- Place any necessary return authorization number prominently on the outside of carton. Cartons not bearing a return authorization number, where required, may be refused.

For more information and to register your product, please visit: www.nabitablet.com/register.

According to FCC 15.407(e), the device is intended to operate in the frequency band of 5.15GHz to 5.25GHz under all conditions of normal operation. Normal operation of this device is restricted to indoor used only to reduce any potential for harmful interference to co-channel MSS operations.
