

Battery Installation

- Locate the battery compartment on the bottom of the toy.
 - Loosen the screws in the battery compartment door with a Phillips screwdriver. Remove the battery compartment door.
 - Insert three "C" (LR14) alkaline batteries.
- Hint: We recommend using alkaline batteries for longer battery life.*
- Replace the battery compartment door and tighten the screws with a Phillips screwdriver. Do not over-tighten.

Battery Safety Information

Batteries may leak fluids that can cause a chemical burn injury or ruin your toy. To avoid battery leakage:

- Do not mix old and new batteries or batteries of different types: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Insert batteries as indicated on the battery compartment door.
- Remove batteries during long periods of non-use. Always remove exhausted batteries from the toy. Dispose of batteries safely. Do not dispose of batteries in a fire. The batteries may explode or leak.
- Never short-circuit the battery terminals.
- Use only batteries of the same or equivalent type, as recommended.
- Do not charge non-rechargeable batteries.
- Remove rechargeable batteries from the toy before charging.
- If removable, rechargeable batteries are used, they are only to be charged under adult supervision.

Fun Family Phrases

Place mom, dad or the little girl in different areas of the house to hear them talk, sing, tell jokes and laugh together. Hear more than 200 starter phrases that prompt your child's imagination and encourage role-playing.

Place a figure in any of these locations. Match the hearts on the back of the figures, cat and tape recorder with the hearts in the chairs.

Hints:

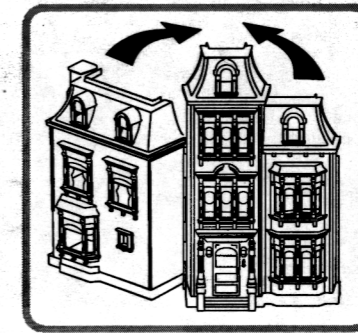

- For best performance, when placing a figure in a chair, be sure its back is in contact with the chair.
- After a figure finishes speaking, remove the figure from its chair for a few seconds, then place it back again to hear more phrases.

Power/Volume Switch

- Locate the power/volume switch inside the dollhouse near the door. Slide the switch to either on with low volume ; or on with high volume . You will hear a chime and the ready light will turn on.
- Hint: If your child does not actively play with this toy for a few minutes, it turns off automatically (sleep mode) and the ready light turns off. Slide the power/volume switch to the off position then back on again to restart.*
- When your child is finished playing with this toy, slide the power/volume switch to the off position .

Storage

- Place the family and their accessories inside the house. Close the two halves of the house together and press so that they "snap" securely.

- After the dollhouse is snapped closed, the product can be carried by an adult. Grasp the dollhouse by the attic floor.

Care

- Wipe the toy with a clean cloth dampened with a mild soap and water solution.
- Do not immerse the toy.

FCC Note (United States Only)

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Note: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.
